Approval No. 162.025/2/0, Diamond bi-color secondary boiler water level gauge, remote water level indicator, through vision gauge and remote reading color gauge illuminator, Forms 888 and 900 dated June 1941 and Bulletin No. 892A (remote reading color gauge illuminator considered an auxiliary gauge), manufactured by Diamond Power Specialty Corp., Detroit 31, Mich.

Approval No. 162.025/3/0, McNeill secondary boiler water gauge, remote boiler water level indicator, concentric mercury U tube design, Dwg. No. 213G and 214G and Bulletin No. 1001G (remote reading gauge shall be used only as an auxiliary gauge glass), manufactured by McNeill Engineering Co., 4057 West Van Buren St., Chicago, Ill.

Approval No. 162.025/4/0, Reliance secondary boiler water gauge, prismatic periscope type remote boiler water level indicator Dwg. No. B–5231 dated 19 June 1942 and Catalog No. 434, approved for type design only, manufactured by The Reliance Gauge Column Co., 5902 Carnegie Avenue, Cleveland, Ohio.

Approval No. 162.025/5/0, Bailey types LS1, LS35 and LS47 secondary boiler water gauge, remote water level indicator and recorder, Dwg. Nos. C304886–C revised 22 September 1941, B341274A dated 18 September 1940, A306610–B dated 28 April 1943, and A306611–B dated 28 April 1943, manufactured by Bailey Meter Co., 1050 Ivanhoe Road, Cleveland, Ohio.

Approval No. 162.025/6/0, Yarway Figs. 4312, 4314, 4316, and 4318 boiler water gauge, remote water level indicator, marine type, Dwg. Nos. EL–904–971 (125 p. s. i.) dated 19 February 1946, EL–904–972 (600 p. s. i.) dated 18 February 1946, EL–904–973 (900 p. s. i.) dated 18 February 1946, and EL–904–974 (1500 p. s. i.) dated 16 February 1946, and Bulletin No. WG–1820, approved for maximum steam pressure of 1500 p. s. i., manufactured by Yarnall-Waring Co., Chestnut Hill, Philadelphia 18, Pa.

DECK COVERING

Approval No. 164.006/1/0, Miller Marine magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG 3610–969; FR–1459 dated 10 June 1939, approved for use without other insulating material as meeting Class A–60 requirements in a 1½-inch thickness, manufactured by Miller Marine Decking, Inc., 230 Park Avenue, New York 17, N. Y.

Approval No. 164.006/2/0, Selbalith magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG–3610–1215; FR 1779 dated 2 July 1940, approved for use without other insulating material as meeting Class A–60 requirements in a 1½-inch thickness, manufactured by Selby, Battersby & Co., Wilford Building, Thirty-third and Arch Streets, Philadelphia 4, Pa.

Approval No. 164.006/3/0, Asbestolith magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG–3610–1214; FR 1778 dated 2 July 1940, approved for use without other insulating material as meeting Class A–60 requirements in a 2-inch thickness, manufactured by Asbestolith Manufacturing Corp., 257 Kent Street, Brooklyn, N. Y.

Approval No. 164.006/4/0, Federalite magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG 3610–1233; FR 1807 dated 30 October 1940, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by Federal Lavarock, Inc., 36 East Thirtieth Street, New York 16, N. Y.

Approval No. 164.006/7/0, Armorite magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–72; FR 1836 dated 29 March 1941, approved for use without other insulating material as meeting Class A–60 requirements in thicknesses as follows: Underlayment only, $1\frac{3}{8}$ inches, or underlayment $1\frac{1}{4}$ inches plus top coat $\frac{1}{2}$ inch, manufactured by National Tile & Marble Co., 529 West Forty-sixth Street, New York 19, N. Y.

Approval No. 164.006/8/0, Case magnesite magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–73; FR 1842 dated 30 April 1941, approved for use without other insulating material as meeting Class A–60 requirements in a 1½-inch thickness, manufactured by L. S. Case Co., Seventh and Daggett Street, San Francisco 7, Calif.

Approval No. 164.006/9/0, Raecolith magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–76; FR 1866 dated 9 August 1941, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by Raecolith Flooring Co., 5622 Corson Avenue, Seattle 8, Wash.

Approval No. 164.006/14/0, Leetol magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP–367–83; FR 1932 dated 25 February 1942, approved for use without other insulating material as meeting Class A–60 requirements in a 1¼-inch thickness, manufactured by Wm. Lee Co., 1401 Third Street, San Francisco 7, Calif.

Approval No. 164.006/15/0, Moulstone magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–85; FR 1957 dated 15 April 1942, approved for use without other insulating material as meeting Class A–60 requirements in a 1¼-inch thickness, manufactured by Thos. Moulding Floor Manufacturing Co., 165 West Wacker Drive, Chicago 1, Ill.

Approval No. 164.006/17/0, Kompolite plastic composition flooring, magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–88; FR 1978 dated 1 July 1942, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by Kompolite Co., Inc., 111–115 Clay Street, Greenpoint, Brooklyn, N. Y.

Approval No. 164.006/20/0, Hubbellite magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–95; FR 2017 dated 28 November 1942, approved for use without other insulating material as meeting Class A–60 requirements in a 1½-inch thickness, manufactured by H. H. Robertson Co., Pittsburgh, Pa.

Approval No. 164.006/21/0, Kompolite decking type II magnesite type deck covering in accordance with the manufacturer's letter of 2 June 1945, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by Kompolite Co., Inc., 111–115 Clay Street, Greenpoint, Brooklyn, N. Y.

Approval No. 164.006/22/0, Kompolite type CU light weight magnesite type deck covering in accordance with the manufacturer's letter of 2 June 1945, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by Kompolite Co., Inc., 111–115 Clay Street, Greenpoint, Brooklyn, N. Y.

Approval No. 164.006/23/0, Dex-O-Tex Magnabond No. 1, composite mastic and magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–116; FR–2395 dated 11 July 1945, approved for use without other insulating material as meeting Class A–15 requirements in the thickness noted below: Dex-O-Tex Subkote No. 1 underlay ¼ inch, plus magnesite overlay $\frac{3}{8}$ inch, manufactured by Crossfield Products Corp., 191 Centre Street, Brooklyn 31, N. Y.

STRUCTURAL INSULATIONS

Approval No. 164.007/1/0, "48" C. G. Felt, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3610–1372; FR–2235 dated 1 April 1944, Bats and blankets approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 8 pounds per cu. ft. density, 4 inches at 6 pounds per cu. ft. density. Manufactured by Forty-Eight Insulations, Inc., Aurora, Ill.

Approval No. 164.007/2/0, Spraykote, plaster type structural insulation identical to that described in National Bureau of Standards letter, File III–6/23, dated 2 June 1944, approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 12 pounds per cu. ft. density, 4 inches at 8 pounds per cu. ft. density. Manufactured by Sprayed Insulation, Inc., 78 Hawthorne Place, Montclair, N. J.

Approval No. 164.007/3/0, Eagle Felt M–2, mineral wool type structural insulation identical to that described in National Bureau of Standards letter, File III–6/ITF dated 24 November 1939, bats, blankets, or fill approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 10 pounds per cu. ft. density (loose fill), 4 inches at 8 pounds per cu. ft. density (loose fill), 3 inches at 8 pounds per cu. ft. density (bats or blankets), and 4 inches at 6 pounds per cu. ft. density (bats or blankets). Manufactured by The Eagle-Pitcher Sales Co., 420 Lexington Avenue, New York 17, N. Y.

Approval No. 164.007/4/0, Fibrespray, plaster type structural insulation identical to that described in National Bureau of Standards letter, File III–6 36, dated 25 June 1943, approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 12 pounds per cu. ft. density, and 4 inches at 8 pounds per cu. ft. density. Manufactured by Acoustics, Inc., Commercial Trust Building, Philadelphia 2, Pa.

Approval No. 164.007/5/0, ATOZ, plaster type structural insulation identical to that described in National Bureau of Standards letter, File III–6 3519–43, dated 24 August 1940, approved for use without other insulating material to meet Class A–60 requirements in a 2-inch thickness and 30 pounds per cu. ft. density, manufactured by American Acoustics, Inc., 120 South LaSalle Street, Chicago 3, Ill.

Approval No. 164.007/6/0, J–M BX–4M, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, bats and blankets approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 8 pounds per cu. ft. density, and 4 inches at 6 pounds per cu. ft. density. Manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/7/0, J–M No. 450 Cement, mineral wool cement type structural insulation identical to that described in National Bureau of Standards Test Report No. TG–3619b; FR–1466b dated 7 July 1939, approved for use without other insulating material to meet Class A–60 requirements in a 3½-inch thickness and 30 pounds per cu. ft. density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/8/0, J–M BX–18, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, boards approved for use without other insulating material to meet Class A–60 requirements in a 2-inch thickness and 18 pounds per cu. ft. density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/9/0, J–M 202AA, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, blankets with asbestos paper facings approved for use without other insulating materials to meet Class A–60 requirements in a 3-inch thickness and 16 pounds per cu. ft. density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/10/0, Rockwool, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, bats and blankets approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 8 pounds per cu. ft. density, and 4 inches at 6 pounds per cu. ft. density. Manufactured by The Philip Carey Manufacturing Co., 60 East 42d Street, New York 17, N. Y.

Approval No. 164.007/11/0, Bacite cold set cement, plaster type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3619–36; FR–1404 dated 17 May 1939, approved for use without other insulating material to meet Class A–60 requirements in a 2-inch thickness and 30 pounds per cu. ft. density, manufactured by The Bird-Archer Co., 4237 North American Street, Philadelphia 40, Pa.

Approval No. 164.007/12/0, Tuco Zerocel, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3619–36; FR–1404 dated 17 May 1939, bats and blankets approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 8 pounds per cu. ft. density, and 4 inches at 6 pounds per cu. ft. density, manufactured by Tuco Products Corp., 30 Church Street, New York 7, N. Y.

Approval No. 164.007/13/0, Sprayed limpet asbestos, sprayed asbestos fiber type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3619–36; FR–1404 dated 17 May 1939, approved for use without other insulating material to meet Class A–60 requirements in a 3-inch thickness and 12 pounds per cu. ft. density, manufactured by Keasbey & Mattison Co., Ambler, Pa.

Approval No. 164.007/14/0, Fiberglas cement, glass fiber cement type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3619–37a; FR–1466a dated 7 July 1939, approved for use without other insulating material to meet Class A–60 requirements in a 4-inch thickness and 30 pounds per cu. ft. density, manufactured by Owens-Corning Fiberglass Corp., Toledo 1, Ohio.

Approval No. 164.007/15/0, Gold Bond type 2 zerocel, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3619–36; FR–1404 dated 17 May 1939, bats and blankets approved for use without other insulating material to meet Class A–60 requirements in thicknesses and densities as follows: 3 inches at 8 pounds per cu. ft. density, and 4 inches at 6 pounds per cu. ft. density. Manufactured by National Gypsum Co., Buffalo 2, N. Y.

Approval No. 164.007/16/0, J–M Aircoustic sheet, mineral wool type structural insulation identical to J–M BX–18 described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, with special sanded surface, boards approved for use without other insulating material to meet Class A–60 requirements in a 2-inch thickness and 18 pounds per cu. ft. density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/17/0, J–M Marine acoustical unit, mineral wool type structural insulation identical to J–M BX–18 described in National Bureau of Standards Test Report No. TG–3619–36; FR–1404 dated 17 May 1939, with special sanded surface and 3/16th inch perforated J–M Marine Veneer added, boards approved for use without other insulating material to meet Class A–60 requirements in a 2-inch thickness and 18 pounds per cu. ft. density exclusive of the J–M Marine Veneer, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.007/18/0, Baldwin-Hill 6-lb. felt, mineral wool type structural insulation identical to that described in National Bureau of Standards letter, File III–6/26, dated 16 July 1943, approved for use without other insulating material to meet Class A–60 requirements in a 4-inch thickness and 6 pounds per cu. ft. density, manufactured by Baldwin-Hill Co., 500 Breunig Avenue, Trenton 2, N. J.

Approval No. 164.007/19/0, Baldwin-Hill loose wool, mineral wool type structural insulation identical to that described in National Bureau of Standards letter, File III–6/36 dated 16 July 1943, approved for use without other insulating material to meet Class A–60 requirements in a 3-inch thickness and 11 pounds per cu. ft. density, manufactured by Baldwin-Hill Co., 500 Breunig Avenue, Trenton 2, N. J.

ADDITIONAL AUTHORITY: R. S. 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 346, 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 369, 391a, 404, 463a, 1333, 50 U. S. C. 1275; 46 CFR Part 144.

BULKHEAD PANELS

Approval No. 164.008/1/0, Bayer bulkhead 100, hollow steel, insulation filled bulkhead panel identical to that described in Protexol Testing Laboratory Test Report No. 120 dated 25 August 1943, approved as meeting Class B–15 requirements in a 1½-inch thickness when filled with Fiberglas insulation of 6 pounds per cu. ft. density, manufactured by A. J. Bayer Co., Slauson and Santa Fe Avenues, Los Angeles, Calif.

Approval No. 164.008/2/0, Aetna type FSI—Class B, hollow steel, insulation filled bulkhead panel identical to that described in Protexol Testing Laboratory Test Report No. 128 dated 19 November 1945, approved as meeting Class B–15 requirements in a 2-inch thickness when filled with two 1-inch blankets of type TW–MC Fiberglas insulation having a density of 3¼ pounds per cu. ft., manufactured by Aetna Marine Corp., 61 Broadway, New York 6, N. Y.

Approval No. 164.008/3/0, Aetna Type FAI—Class B, hollow aluminum, insulation filled bulkhead panel identical to that described in Protexol Testing Laboratory Test Report No. 141 dated 7 October 1946, approved as meeting Class B–15 requirements in a 2-inch thickness when filled with two 1-inch blankets of J–M BX–4M insulation having a density of 4 pounds per cu. ft.; this panel shall not be used in Class A–60 construction without the approval of the Commandant for the specific location, manufactured by Aetna Marine Corp., 61 Broadway, New York 6, N. Y.

Approval No. 164.008/4/0, James McCutcheon & Co. hollow aluminum bulkhead, hollow aluminum, insulation filled bulkhead panel identical to that described in Protexol Testing Laboratory Test Report No. 125 dated 7 May 1945, and James McCutcheon & Co. Dwg. No. PWB–1 revised 17 July 1945, approved as meeting Class B–15 requirements in a 1¾-inch thickness when filled with Fiberglas insulation having a density of 8 pounds per cu. ft.; this panel shall not be used in Class A–60 construction without the approval of the Commandant for the specific location, manufactured by James McCutcheon & Co., 5th Avenue and 49th Street, New York, N. Y.

Approval No. 164.008/5/0 James McCutcheon & Co. hollow steel bulkhead, hollow steel, insulation filled bulkhead panel identical to that described in National Bureau of Standards letter, file III–6/ITFU, dated 16 July 1943, approved as meeting Class B–15 requirements in a minimum thickness of 1½ inches when filled with a structural insulation in a density as approved by the Coast Guard and a thickness of one-half that listed to meet Class A–60 requirements, manufactured by James McCutcheon & Co., 5th Avenue and 49th Street, New York, N. Y.

Approval No. 164.008/6/0, Dietz marine, hollow steel, insulation filled identical to that described in National Bureau of Standards Test Report No. TG 3619–33, FR–1364 dated 31 March 1939, approved as meeting Class B–15 requirements in a 1-inch thickness when filled with 8 Ply Air Cell Fill 1¼ inches thick, manufactured by L. F. Dietz & Associates, Inc., Marine Building, 40 Grand Avenue, Englewood, N. J.

Approval No. 164.008/7/0, Seaporcel, hollow steel, insulation filled bulkhead panel identical to that described in Porcelain Metals, Inc., Dwg. entitled "Typical Size Sections Showing General Application of Seaporcel Flush Bulkhead and Ceiling", dated 29 December 1941, approved as meeting Class B–15 requirements in a minimum thickness of 1½ inches when filled with a structural insulation in a density as approved by the Coast Guard and a thickness of one-half that listed to meet Class A–60 requirements, manufactured by Seaporcel Porcelain Metals, Inc., 28–20 Borden Avenue, Long Island City, N. Y.

Approval No. 164.008/8/0, Seaporcel flush type, hollow steel, insulation board lined bulkhead panel identical to that described in National Bureau of Standards letter, file III–6/36, dated 3 August 1944, approved as meeting Class B–15 requirements in a 1 11/16-inch thickness when lined each side with ¼-inch asbestos millboard, manufactured by Seaporcel Porcelain Metals, Inc., 28–20 Borden Avenue, Long Island City, N. Y.

Approval No. 164.008/9/0, Mobilwall, hollow steel, insulation filled bulkhead panel identical to that described in Snead & Co. Dwgs. X–101, X–102, X–103, and X–104, approved as meeting Class B–15 requirements in a minimum thickness of 1½ inches when filled with a structural insulation in a density as approved by the Coast Guard and a thickness of one half that listed to meet Class A–60 requirements, manufactured by Virginia Metal Products Corp., 30 Church Street, New York 7, N. Y.

Approval No. 164.008/10/0, U. S. G. marine board, steel veneered, gypsum board steel veneered type bulkhead panel identical to that described in Underwriters' Laboratories, Inc. Test Report—Retardant 2782, Application No. 43C798 dated 18 October 1943, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by United States Gypsum Co., 300 West Adams Street, Chicago 6, Ill.

Approval No. 164.008/11/0, U. S. G. marine board, aluminum veneered, gypsum board, aluminum veneered type bulkhead panel identical to that described in Underwriters' Laboratories, Inc. Test Report—Retardant 2782, Application No. 45C951 dated 22 October 1945, approved as meeting Class B–15 requirements in a ⅞-inch thickness; this panel shall not be used in Class A–60 construction without the approval of the Commandant for the specific location, manufactured by United States Gypsum Co., 300 West Adams Street, Chicago 6, Ill.

Approval No. 164.008/12/0, J–M marinite, asbestos incombustible binder board type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG 3619–23, FR–1274 dated 21 March 1939, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.008/13/0, J–M light weight marinite, asbestos incombustible binder board type bulkhead panel identical to that described in Protexol Testing Laboratory Test Report No. 146 dated 15 November 1946, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.008/14/0, J–M Marine sheathing, asbestos incombustible binder board type bulkhead panel identical to that described in Johns-Manville letter of 6 March 1947, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.008/15/0, J–M Marine veneer, asbestos cement board type bulkhead panel identical to that described in Johns-Manville letter of 6 March 1947, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York 16, N. Y.

Approval No. 164.008/16/0, Firefoil panel, corrugated asbestos with asbestos cement board veneer type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG–3619–21, FR–1253 dated 20 December 1938, approved as meeting Class B–15 requirements with a ⅞-inch, 6-ply corrugated asbestos core with a 3/32-inch asbestos cement veneer each side, manufactured by The Philip Carey Manufacturing Co., 60 East 42d Street, New York 17, N. Y.

Approval No. 164.008/17/0, C Board, asbestos cement board type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG–3619–46, FR–1791 dated 13 August 1940, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Keasbey & Mattison Co., Ambler, Pa.

Approval No. 164.008/18/0, C–3 Marine board, asbestos cement board type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG–3619–59, FR–2042 dated 15 February 1943, approved as meeting Class B–15 requirements in a ¾-inch thickness, manufactured by Keasbey & Mattison Co., Ambler, Pa.

Approval No. 164.008/19/0, Martin-Parry marine, hollow steel type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG–3619–34, FR–1365 dated 31 March 1939, approved as meeting Class B–15 requirements in a 2⅜-inch thickness with two 1/16-inch asbestos paper inserts, manufactured by Martin Parry Corp., York, Pa.

Approval No. 164.008/20/0, Saino Marine, hollow steel, vermiculite insulated corrugated steel core type bulkhead panel identical to that described in National Bureau of Standards Test Report No. TG–3619–35, FR–1366 dated 31 March 1939, approved as meeting Class B–15 requirements in a ⅞-inch thickness, manufactured by The F. L. Saino Manufacturing Co., Inc., Memphis, Tenn.

NOTICE OF FILING OF PLATS OF SURVEYS

JULY 23, 1947.

Notice is given that the plats of resurvey and protraction of areas hereinafter described will be officially filed in the District Land Office, Lakeview, Oregon, effective at 10:00 a. m. on September 24, 1947, at that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 24, 1947, to December 23, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 4, 1947, to September 24, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 24, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 23, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous nonpreference-right filings.* Applications by the general public may be presented during the 20-day period from December 3, 1947, to December 23, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 23, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Lakeview, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

JULY 22, 1947.

Notice is given that the plats of survey and resurvey of lands hereinafter described will be officially filed in the District Land Office, Buffalo, Wyoming, effective at 10:00 a. m. on September 23, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 23, 1947, to December 22, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 3, 1947, to September 23, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 23, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 22, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 2, 1947, to December 22, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 22, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Buffalo, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Acting Manager, District Land Office, Buffalo, Wyoming.

At 10:00 a. m. on September 24, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 24, 1947, to December 24, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 4, 1947, to September 24, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 24, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 24, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 4, 1947, to December 24, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 24, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Salt Lake City, Utah.

The lands affected by this order are described as follows:

SALT LAKE MERIDIAN

T. 12 N., R. 15 W.,
Sec. 20, $S\frac{1}{2}N\frac{1}{2}$, $N\frac{1}{2}SW\frac{1}{4}$, $SW\frac{1}{4}SW\frac{1}{4}$, and $NW\frac{1}{4}SE\frac{1}{4}$.

The area described aggregates 320 acres.

The lands, which are in the Utah Grazing District No. 1, are desert in character. The soil is sand and gravel, supporting vegetation of sage brush, Russian Thistle and weeds, with a scant growth of grass.

Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September

4, 1947, to September 24, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 24, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 24, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous nonpreference right filings.* Applications by the general public may be presented during the 20-day period from December 4, 1947, to December 24, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 24, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Blackfoot, Idaho, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Blackfoot, Idaho.

The lands affected by this order are described as follows:

BOISE MERIDIAN

T. 11 S., R. 19 E.,
Sec. 10, $E\frac{1}{2}SE\frac{1}{4}$ and $SE\frac{1}{4}NE\frac{1}{4}$;
Sec. 11, $W\frac{1}{2}SW\frac{1}{4}$ and $SW\frac{1}{4}NW\frac{1}{4}$, containing 240 acres.

The above-described lands are rough and uneven sloping generally to the south. The soil is of a loose sandy nature, supporting native vegetation such as sage brush intermingled with native grasses. The lands are in Idaho Grazing District No. 2.

[Docket No. G-917]

WISCONSIN SOUTHERN GAS CO.

NOTICE OF APPLICATION

JULY 25, 1947.

Notice is hereby given that on July 11, 1947, an application was filed with the Federal Power Commission by Wisconsin Southern Gas Company (Applicant), a Wisconsin corporation with its principal place of business in Burlington, Wisconsin, for:

(1) A certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing it to acquire, construct and operate pipeline facilities in Kenosha and Walworth Counties, Wisconsin, as hereinafter more particularly described, or in the alternative, a finding by the Commission that Applicant is not and will not be a "natural-gas company" under the Natural Gas Act after the acquisition or construction of such facilities; and

(2) An order by the Commission under section 7 (a) of the Natural Gas Act requiring Natural Gas Pipeline Company of America to extend its facilities, to establish connection with the facilities which Applicant proposes to acquire and construct, and to sell natural gas to Applicant for distribution in southeastern Wisconsin, as hereinafter more particularly described.

Applicant seeks authorization to acquire from Wisconsin Gas & Electric Company and to operate a pipeline system extending from the west line of the Town of Pleasant Prairie in Kenosha County, Wisconsin, to the Village of Genoa City in Walworth County, Wisconsin.

Applicant alleges that transmission facilities of Natural Gas Pipeline Company of America are located within a very short distance of the Illinois-Wisconsin state line, the nearest point being approximately ½ mile east of Genoa City, Wisconsin and approximately 2½ miles east of the point at which Applicant now purchases natural gas from Natural Gas Pipeline Company of America. Applicant seeks authorization to construct and operate a 6-inch ID pipeline extending north 1.65 miles from a proposed point of connection with such transmission pipeline of Natural Gas Pipeline Company of America on the Wisconsin-Illinois state line, about ½ mile east of Genoa City, to a point of connection with the Wisconsin Gas & Electric Company line sought to be acquired by Applicant, then extending north 10.85 miles to the City of Burlington, Wisconsin, to connect with Applicant's existing facilities, together with metering and pressure regulating equipment at the point of connection with the Wisconsin Gas & Electric Company line.

Initially Applicant proposes to supply 520 B. t. u. manufactured gas to the customers presently served by the pipeline of Wisconsin Gas & Electric Company sought to be acquired, which gas will be purchased by Applicant from Wisconsin Gas & Electric Company under the terms of a contract entered into between the two companies. Such gas is to be resold by Applicant at the same rates as those now charged by Wisconsin Gas & Electric Company. Applicant states that as soon as a connection is made with the facilities of Natural Gas Pipeline Company of America such service will be converted to natural gas. After conversion to natural gas service, Applicant proposes to charge the same rates for such service as those which it now charges in the territory presently supplied by it with natural gas. Applicant proposes to render natural gas service by means of the facilities hereinbefore described to Townships and Villages in the Counties of Kenosha, Walworth and Racine, Wisconsin.

Applicant states that it has entered into a contract with Wisconsin Gas & Electric Company to purchase the facilities sought to be acquired herein; that it has filed an application with the Public Service Commission of Wisconsin for authority to purchase such facilities; and that a hearing has been held on such application but no order has been entered therein.

The contract purchase price of the pipe line to be acquired by Applicant is $180,000 plus the cost of any additions by Wisconsin Gas & Electric Company subsequent to December 1, 1946. Applicant estimates the total cost of the facilities to be constructed by it to be $162,000. Applicant states it has arranged for a bank loan to finance temporarily such costs and proposes to refinance such costs on a permanent basis through the

issuance of first mortgage bonds and additional capital stock, and possibly other securities.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure (18 CFR 1.37) and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Wisconsin Southern Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of Rule 8 or 10, whichever is applicable, of the rules of practice and procedure (18 CFR 1.8 or 1.10).

SIERRA PACIFIC POWER CO.

NOTICE OF APPLICATION

JULY 24, 1947.

Notice is hereby given that on July 23, 1947, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Sierra Pacific Power Company (hereinafter called "Applicant"), a corporation organized under the laws of the State of Maine and doing business in the States of California and Nevada with its principal business office at Reno, Nevada, seeking an order authorizing the issuance of $975,000 principal amount of First Mortgage Bonds, bearing interest at the rate of 2⅞% per annum, to be dated as of August 1, 1947, and to be due August 1, 1977, to be issued under Applicant's Indenture of Mortgage to The New England Trust Company and Fletcher C. Chamberlin, as Trustees, dated as of December 1, 1940, as supplemented and modified by a First Supplemental Indenture to be dated as of August 1, 1947. Applicant proposes to sell the aforesaid First Mortgage Bonds to the John Hancock Mutual Life Insurance Company and the proceeds from the sale of these Bonds will be used to repay Applicant's promissory notes held by banks and to reimburse Applicant in part for construction expenditures; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 13th day of August, 1947, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-67, 59-64]

PEOPLES LIGHT AND POWER CO. ET AL.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 24th day of July 1947.

In the matter of Peoples Light and Power Company and subsidiary companies, File No. 54-67; Peoples Light and Power Company, California Public Service Company, Texas Public Service Farm Company, Texas Public Service Company, West Coast Power Company, File No. 59-64.

The Commission, by order entered in these proceedings on September 14, 1945 (Holding Company Act Release No. 6054), having approved a plan of reorganization of Peoples Light and Power Company ("Peoples"), now, by change of name, Texas Public Service Company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 and said order having, among other things, reserved jurisdiction to approve, disapprove, modify, allocate or award by further order or orders all fees or other compensation and reimbursement of expenses claimed by any person in connection with the plan approved by the Commission on September 14, 1945 and in connection with the transactions incident thereto and the consummation thereof:

The Commission, on September 16, 1946, having issued an order pursuant to section 5 (d) of the act declaring that Peoples has ceased to be a holding company and that the registration of Peoples as a holding company shall from the date of the entry of said order cease to be effective, subject to the condition, among others, that the Commission's order dated September 14, 1945 with respect to certain matters, including the reservation of jurisdiction over fees and expenses, shall continue in full force and effect until complied with or until and unless this Commission shall by subsequent order or orders amend, modify or revoke such order;

Peoples having filed an application requesting the Commission to approve the fees and expenses incurred by Peoples in connection with the plan and to release the jurisdiction heretofore reserved by the Commission with respect to such matters, said application describing the services of counsel and setting forth the amounts of the fees and expenses as follows:

Richard, Layton & Finger—counsel	$7,771.41
Baker, Botts, Andrews & Wharton—counsel	1,824.31
Dwight, Harris, Koegel & Caskey—counsel	150.00
Printing, engraving and stationery	3,638.65
Distributing agent	3,603.30
Transfer agent, registrar, etc	2,936.80
State filing fees, taxes, etc	325.58
Telephone, telegraph, travel and misc	648.78
	20,898.83

It appearing to the Commission that such fees and expenses are not unreasonable and that jurisdiction over such matters should be released;

It is ordered, That the jurisdiction heretofore reserved in the orders of September 14, 1945 and September 16, 1946 with respect to fees and expenses in connection with the plan approved by the Commission on September 14, 1945, the transactions incident thereto and the consummation thereof be, and the same hereby is, released.

By the Commission.

CONSOLIDATED NATURAL GAS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pennsylvania, on the 24th day of July 1947.

Notice is hereby given that a supplemental declaration and application has been filed with the Commission, pursuant to the Public Utility Holding Company Act of 1935, by Consolidated Natural Gas Company ("Consolidated"), a registered holding company, designating sections 6 and 7 of the act and Rule U-50 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than July 31, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interests and the issues, if any, of fact or law raised by said supplemental declaration and application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after July 31, 1947, said supplemental declaration and application, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said supplemental declaration and application, which is on file in the office of the Commission, for a statement of the transaction therein proposed, which is summarized below:

Pursuant to the authority of this Commission's order dated June 12, 1947 (Holding Company Act Release No. 7485), Consolidated offered not exceeding 545,672 shares of its capital stock to its stockholders at a price of $37.50 per share, of which shares 520,547 were subscribed for, or approximately 95.4% of the total number offered. Consolidated now proposes to issue and sell the remaining 25,125 shares on the New York Stock Exchange through brokers to be selected by the company who are regular members of such exchange, the company receiving the price at which the shares are sold by the brokers less the regular brokers' commissions on the sales. It is stated that if the remaining shares to be offered could be sold by the company on the stock exchange at the closing price of $48 per share on July 21, 1947, the aggregate price would be approximately $1,206,000 and the brokerage commissions would be approximately 24½¢ per share, or an aggregate of $6,000, the net proceeds to the company totalling $1,200,000. In this connection, Consolidated has requested the Commission to exempt the proposed issue and sale from the competitive bidding requirements of Rule U-50.

Consolidated requests that the Commission's order to be issued herein become effective as soon as possible.

By the Commission.

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of July 1947.

Notice is hereby given that a declaration, and an amendment thereto, has been filed with this Commission, pursuant to section 12 of the Public Utility Holding Company Act of 1935 and Rules U-44 and U-50 promulgated thereunder, by General Public Utilities Corporation ("GPU"), a registered holding company.

Notice is further given that any interested person may, not later than July 30, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said amended declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. At any time after July 30, 1947, said declaration, as filed or as further amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said amended declaration, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

GPU owns 311,361 common shares, each of a par value of $8.00, of New England Gas and Electric Association ("Negas"), which shares were acquired

in connection with the consummation of a plan of recapitalization of Negas and must be disposed of pursuant to opinions and orders of this Commission (see Holding Company Act Release Nos. 7181 and 7306).

GPU proposes to sell its entire holdings of common shares of Negas at competitive bidding pursuant to the requirements of Rule U-50 promulgated under the act. In this connection, GPU will invite proposals to purchase its holdings of Negas stock by newspaper advertisement published on or before July 24, 1947, indicating therein its intention to offer its holdings for sale and requesting any persons interested in the purchase thereof to submit qualifying documents to GPU on or before July 31, 1947. On or after such specified date, GPU will notify by telegram all persons who have filed qualifying documents to submit sealed bids at a designated time and place. The time designated will be not less than 48 hours after the sending by GPU of such telegraphic notice.

Declarant requests that the Commission enter its order with respect to this matter on or before July 31, 1947.

By the Commission.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Margit A. Raht, deceased, who there is reasonable cause to believe are residents of Germany are nationals of a designated enemy country (Germany);

2. That the property described as follows: Those certain bonds described in Exhibit A, attached hereto and by reference made a part hereof, in bearer form, and presently in the custody of Clara J. W. Raht, 43 Cedar Street, New York, New York, together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of Margit A. Raht, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 18, 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9878

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE TERMINAL RAILROAD ASSOCIATION OF ST. LOUIS AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Terminal Railroad Association of St. Louis, a carrier, and certain of its employees represented by the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employes, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce within the state of Missouri, to a degree such as to deprive that portion of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Terminal Railroad Association of St. Louis or its employees in the conditions out of which the said dispute arose.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 927.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159, 12 F. R. 4904), public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area; and the decision (12 F. R. 4413) was made with respect to amendments by the Secretary on June 30, 1947. Upon the basis of the evidence introduced at such hearings and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest, and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended and as hereby further amended, which is marketed within the New York metropolitan milk marketing area, refused or failed to sign the marketing agreement regulating the handling of milk in the said marketing area which was heretofore approved by the Secretary of Agriculture (12 F. R. 4413, 4418); and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk

which is produced for sale in the said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of the order, and who, during April 1947 (said month having been determined to be a representative period), were engaged in the production of milk for sale in the said marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the first day of September 1947, the handling of milk in the New York Metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Amend § 927.2 (d) (10) to read:

(10) The market administrator, shall from time to time, cause inspections to be made of the buildings, facilities and surroundings of the plant and shall notify handlers of his determination as to what constitutes the plant and its equipment. If any handler makes written request for such determination, the market administrator shall promptly notify such handler of his determination: *Provided*, That if the request is for a revised determination or for affirmation of a previous determination, the handler shall set forth in his request the changed conditions which he believes make a new determination necessary. Such determination shall be ruling for all purposes hereunder, and any revision in the determination of which handlers have been notified shall be effective not earlier than the date of notice to handlers of such revised determination.

2. Amend § 927.3 (a) (3) (ii) by adding the words "or for shipment of approved skim milk from such plant" at the end of the proviso contained therein so that the proviso will read: "*Provided*, That approval by a health authority of the plant as a source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant; and"

3. Amend § 927.3 (b) by changing the first proviso therein to read "*Provided*, That for the months of April, May, or June no plant at which milk was received from dairy farmers during the preceding period of October, November, and December shall be a pool plant on this basis, unless at least 60 percent of such milk was classified in Class I–A, and either directly, or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk."

and by adding at the end of § 927.3 (b) the following sentence: "At the time of announcing the uniform price for each month, the Market Administrator shall make public the location, and name of the operator, of any plant for which a report of receipts from dairy farmers was used, pursuant to this paragraph, in the computation of that uniform price."

4. Amend § 927.4 (a) (2) by changing the proviso contained therein to read: "*Provided*, That the holding of milk in the form of cream in a licensed cold storage warehouse for at least 7 days shall constitute that portion of the handling of such cream required pursuant to § 927.4 (c) (5) that is required to be performed during the month following its receipt from dairy farmers."

5. Amend § 927.4 (b) by deleting the two provisos contained therein and substituting the following: "*Provided*, That at any time upon a determination by the Secretary that an emergency exists which requires the immediate adoption of rules and regulations, the Market Administrator may issue, with the approval of the Secretary, temporary rules and regulations without regard to the following procedure: *Provided, further*, That if any interested person makes written request for the issuance, amendment, or repeal of any rule, the Market Administrator shall within 30 days either issue notice of meeting pursuant to subparagraph (1) of this paragraph or deny such request, and except in affirming a prior denial, or where the denial is self-explanatory, shall state the grounds for such denial."

6. Amend § 927.4 (c) (3) to read:

(3) Class I–C milk shall be all milk which leaves a plant as milk, or cultured or flavored milk drinks containing 3.0 percent butterfat or more, and which is ultimately distributed in an area not regulated by an order of the Secretary.

7. Amend § 927.4 (c) (5) to read as follows:

(5) Class II–B milk shall be all milk, except as set forth in subparagraphs (7), (8), and (9) of this paragraph, the butterfat from which leaves or is on hand at a plant in the form of plain condensed milk, frozen desserts or homogenized mixtures; or which leaves or is on hand at a plant in the form of cream which is subsequently held in a licensed cold storage warehouse for at least 28 days, and which is subject at all times to being inspected by a representative of the Market Administrator to determine the physical presence of the cream. After the first 7 days such cream may be moved from one licensed cold storage warehouse to another: *Provided*, That the Market Administrator receives notice of such removal within 7 days thereafter. Any handler whose report claimed the original classification of milk in this class shall be liable under the provisions of § 927.9 (e) for the difference between the Class II–B and Class II–A prices for the month in which the II–B classification was claimed on any such milk, if the storage of the cream does not comply with all the requirements of this subparagraph.

8. Amend § 927.5 (a) (1) by deleting that portion of such subparagraph preceding the table contained therein and by substituting therefor the following:

(1) Except as provided in subdivisions (i), (ii), and (iii) of this subparagraph, for Class I–A milk the price per hundredweight during each month shall be as set forth in the following tables:

and by adding after the table contained therein the following three subdivisions:

(i) The Class I–A price for any of the months of March through June of each year shall not be higher than the Class I–A price for the immediately preceding month, and the Class I–A price for any of the months of September through December of each year shall not be lower than the Class I–A price for the immediately preceding month.

(ii) The Class I–A price shall not be less than $4.58 per hundredweight for the month of August 1947, and shall not be less than $5.02 per hundredweight for each of the months of September through December 1947.

(iii) The Class I–A price for January 1948 shall not be less than the December 1947 Class I–A price minus 44 cents, and the Class I–A price for February 1948 shall not be less than the January 1948 Class I–A price minus 44 cents.

9. Amend § 927.8 (a) by adding at the end thereof the following: "*Provided*, That if a handler claims that he cannot make the required payment because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, such payment shall be made to the producer-settlement fund, and in the event that a lawful claim is later established, the Market Administrator shall make such payment from the producer-settlement fund: *Provided, further*, That, if not later than the date when such payment is required to be made, legal proceedings have been instituted by the handler for the purpose of administrative or judicial review of the Market Administrator's finding upon verification as provided above, such payment shall be made to the producer-settlement fund and shall be held in reserve until such time as the above-mentioned proceedings have been completed, or until the handler submits proof to the Market Administrator that the required payment has been made to the producer or association of producers, in which latter event the payment shall be refunded to the handler."

10. Amend § 927.9 (g) by deleting therefrom the words "and was used in Classes II–D, II–E, or II–F during the months of July to March, inclusive, or in Class IV–A during the months of January to March, inclusive" and by substituting therefor the words: "and was assigned, in accordance with the provisions of the rules and regulations issued by the Market Administrator pursuant to § 927.4 (b) hereof, to Classes II–D, II–E, or II–F during the months of July to March, inclusive, or to Class IV–A during the months of January to March inclusive."

Issued at Washington, D. C., this 29th day of July 1947, to be effective on and after the 1st day of September 1947.

§ 813.1 *Veterans' Preference Regulation*—(a) *What this section does.* This section (Veterans' Preference Regulation) explains the preference given to veterans and their families by the Housing and Rent Act of 1947 in the sale or rent of housing accommodations completed between June 30, 1947 and March 1, 1948. Among other things, it determines the manner in which such housing accommodations shall be publicly offered in good faith for sale or rent to veterans and their families.

The veterans' preference requirements for housing accommodations completed on or before June 30, 1947, continue as provided in Priorities Regulation 33, Housing Expediter Priorities Regulation 5 and the Housing Permit Regulation, whichever is applicable. (Those regulations also contain other requirements which continue in effect for housing accommodations authorized under them.)

NOTE: This section of the Code of Federal Regulations, § 813.1, is called the "Veterans' Preference Regulation." When the term "this section" is used in this Veterans' Preference Regulation, it means this entire regulation and not just a part of it. The regulation is divided into paragraphs marked with small letters; these are divided into subparagraphs marked with numbers.

DEFINITIONS

(b) *Definitions.* As used in this section:

(1) The terms "veterans of World War II or their families," "veterans or their families," and "veterans" shall mean:

(i) A person who has served in the active military or naval forces of the United States on or after September 16, 1940, and who has been discharged or released therefrom under conditions other than dishonorable:

(ii) The spouse of a veteran (as described in the preceding subparagraph) who died after being discharged or released from service, if the spouse is living with a child or children of the deceased veteran:

(iii) A person who is serving in the active military or naval forces of the United States requiring housing accommodations for his dependent family;

(iv) The spouse of a person who served in the active military or naval forces of the United States on or after September 16, 1940, and who died in service, if the spouse is living with a child or children of the deceased;

(v) A citizen of the United States who served in the armed forces of an allied nation during World War II (and who has been discharged or released therefrom under conditions other than dishonorable) requiring housing accommodations for his dependent family;

(vi) A person to whom the War Shipping Administration has issued a certificate of continuous service in the United States Merchant Marine who requires housing accommodations for his dependent family; and

(vii) A citizen of the United States who, as a civilian, was interned or held a prisoner of war by an enemy nation at any time during World War II, requiring housing accommodations for his dependent family.

(2) The term "person" shall include an individual, corporation, partnership, association, or any other organized group of persons, or a legal successor or representative of any of the foregoing.

(3) The time at which construction of housing accommodations shall be deemed to be "completed" shall be the date on which the dwelling is first suitable for occupancy and all utility and service connections have been made, except for the installation of such items and the completion of such decoration work as, in accordance with the custom of the community, are left for installation by, or to the choice of, the purchaser or the tenant.

(4) The term "housing accommodations" shall include any building, structure, or part thereof, or land appurtenant thereto, or any other real or personal property sold or offered for sale or rented or offered for rent for living or dwelling purposes (including houses, apartments, hotels, rooming or boarding house accommodations, and other properties used for living or dwelling purposes) together with all privileges, services, furnishings, furniture, and facilities connected with the use or occupancy of such property.

(5) The term "housing accommodations designed for occupancy by other than transients" shall not include housing accommodations which

(i) in the particular community involved are customarily rented for a term of occupancy of less than one month, or

(ii) are rented and usable only on a seasonal basis.

PREFERENCE PERIODS

(c) *Veterans' preference in sale of housing accommodations.* In order to assure preference or priority to veterans of World War II or their families in the sale of housing accommodations designed for a single family residence, the construction of which is completed after June 30, 1947, and prior to March 1, 1948, the following rules must be observed:

(1) *30-day veterans' preference period after construction.* No person shall sell, offer to sell, or otherwise dispose of such housing accommodations until 30 days after construction is completed, except for occupancy by veterans or their families.

No person shall purchase such housing accommodations until 30 days after construction is completed, unless such purchase is made in good faith for occupancy, during the time that this section remains in effect, by veterans or their families.

(2) *7-day offer at a price in first and subsequent sales.* No person shall sell, offer for sale, or otherwise dispose of such housing accommodations to a non-veteran at a price less than the price at which the accommodations have been publicly offered for at least 7 days exclusively to veterans or their families. No non-veteran shall purchase such housing accommodations at a price less than the price at which the accommodations have been publicly offered for at least 7 days exclusively to veterans or their families.

This prohibits a sale or an offer to sell to, or a purchase by, a non-veteran

unless the housing accommodations were first publicly offered for sale by the seller or his agent exclusively to veterans or their families for 7 days at the same price (or a lower price) than sold or offered for sale to a non-veteran. Any reduction in price (whether in the first or subsequent sale, and whether during or after the 30-day preference period provided in subparagraph (1) of this paragraph) requires a public offering exclusively to veterans for at least 7 days at the reduced price.

This subparagraph (2) applies to all sales, offers to sell, and purchases whether made by the first or subsequent owner or purchaser.

(d) *Veterans' preference in renting of housing accommodations.* In order to assure preference or priority to veterans of World War II or their families in the renting of housing accommodations designed for occupancy by other than transients, the construction of which is completed after June 30, 1947, and prior to March 1, 1948, the following rules must be observed:

(1) *30-day veterans' preference period after construction.* No person shall rent, offer for rent, or otherwise dispose of such housing accommodations until 30 days after construction is completed, except for occupancy by veterans or their families.

No person shall acquire such housing accommodations by rent until 30 days after construction is completed, unless such acquisition by rent is made in good faith for occupancy, during the time that this section remains in effect, by veterans or their families.

(2) *7-day offer at a price in first and subsequent sales.* No person shall rent, offer for rent, or otherwise dispose of such housing accommodations to a non-veteran at a price less than the price at which the accommodations have been publicly offered for at least 7 days exclusively to veterans or their families. No non-veteran shall acquire such housing accommodations by rent at a price less than the price at which the accommodations have been publicly offered for at least 7 days exclusively to veterans or their families.

This prohibits a renting or offer to rent to, or an acquisition by rent by, a non-veteran unless the housing accommodations were first publicly offered for rent by the landlord or his agent exclusively to veterans or their families for 7 days at the same price (or a lower price) than rented or offered for rent to the non-veteran. Any reduction in price (whether during or after the 30-day veterans' preference period provided in subparagraph (1) of this paragraph) requires a public offering exclusively to veterans for 7 days at the reduced price.

This subparagraph (2) applies to all rents, offers to rent, and acquisitions by rent whether made by the first or subsequent landlord or tenant.

PUBLIC OFFERING

(e) *Public offering in good faith.* In order to assure preference or priority to veterans of World War II or their families, all housing accommodations covered by paragraph (c) and (d) of this section which are intended for sale or rent, must, until sold or rented, be publicly offered in good faith, as provided in this section, exclusively for sale or rent for occupancy by veterans or their families:

(1) *Period during which offer must be made in first sale or rent.* Such public offering in good faith must be made exclusively to veterans and their families during the following periods:

(i) During construction and for not less than 30 days immediately following completion of construction, and

(ii) For not less than 7 days after any later reduction in offering price.

(2) *Period during which offer must be made in subsequent sales or rents.* In any subsequent sale or rent occurring more than 30 days after completion of construction, such public offering in good faith must be made exclusively to veterans and their families for the following periods:

(i) For not less than 7 days at the offering price selected by the seller or landlord, and

(ii) For not less than 7 days after any later reduction in offering price.

(3) *Must give veterans reasonable opportunity.* To make a public offering in good faith, the owner must take such affirmative steps as, under the circumstances, will give notice to all veterans or a reasonably large class of veterans in the community that the accommodations are available and will give them a reasonable opportunity to negotiate for them. These affirmative steps include at least those steps which are customary in the community for making a public offering of housing accommodations. The refusal of the owner to sell or rent to a particular veteran for personal reasons, which are in accordance with local law and customary real estate practices in the community, does not by itself necessarily constitute a violation of this public offering requirement. If, however, the owner refuses to sell or rent to veterans whom he does not know to be unqualified or unable to purchase or rent, and then sells or rents to a non-veteran, the owner has violated this section.

(4) *Posting of placards or signs.* A placard or sign must be posted in front of each housing structure, or in a conspicuous location on the site of the construction of the housing accommodations during the public offering periods described in subparagraphs (1) and (2) of this paragraph. Such placard or sign must legibly contain the rent or sales price, the fact that the housing accommodations are offered for sale or rent exclusively to veterans or their families for the prescribed period, and the name and address of the person authorized to sell or rent the housing accommodations. If the rent or sales price is reduced after the placard or sign is posted, the price on the placard or sign must be changed accordingly.

(5) *Newspaper advertisement.* Unless already sold or rented to veterans, all such housing accommodations must be publicly advertised by newspaper exclusively to veterans or their families on at least 3 days during the first 20 days of the preference period described in subparagraph (1) (i) of this paragraph, and on at least 2 days during the preference period described in subparagraph (2) (i) of this paragraph. This advertisement shall be in a newspaper of general circulation in the community where the housing accommodations are located. The advertisement shall contain the same information as required for placards and signs in subparagraph (4) of this paragraph. When a newspaper advertisement has already been made as provided in this subparagraph (5), it is not necessary to advertise again in a newspaper during any 7-day public offering period required by subparagraph (1) (ii) or (2) (ii) of this paragraph, unless newspaper advertising is the customary method in the community of making a public offering of housing accommodations.

MISCELLANEOUS

(f) *Violations and enforcement*—(1) *General.* The veterans' preference requirements of this section shall not be evaded either directly or indirectly. It shall be unlawful for any person to effect, either as principal, broker, or agent, a sale or rent or an agreement for the sale or rent, or to solicit or attempt, offer or agree to make such sale or rent, of any housing accommodations in violation of the veterans' preference requirements of this section. It shall also be unlawful for any such person to sell or rent or agree to sell or rent such housing accommodations during the veterans' preference periods if he knows or has reason to know that the housing accommodations will not be occupied by veterans or their families, and for any purchaser or tenant to effect or agree to effect a sale or rent for the purpose of evading the veterans' preference requirements of this section.

(2) *Penalties.* Any person who willfully violates any provision of this section or section 4 of the Housing and Rent Act of 1947, and any person who knowingly makes any statement to any department or agency of the United States, false in any material respect, shall upon conviction thereof be subject to fine or imprisonment, or both. Any such person or any other person who violates any provision of this section may be prohibited or restrained as authorized by law.

(g) *Exceptions.* The veterans' preference requirements set forth in this section are not applicable to:

(1) Housing accommodations which are built to replace a dwelling destroyed or damaged by fire, flood, tornado, or other similar disaster;

(2) Sales of housing accommodations in the course of judicial or statutory proceedings in connection with foreclosures;

(3) The occupancy by an owner, or his building service employee, of a dwelling unit which does not exceed in floor space (i) a normal one family unit in the structure or project, or (ii) 15 percent of the residential floor space of the structure or project.

(4) Sales of any housing accommodations to any person for investment purposes rather than for occupancy by the purchaser; but the purchaser of such housing accommodations is bound by the veterans' preference requirements in this section in renting or selling for occupancy.

(5) The occupancy of housing accommodations operated by a non-profit or public educational institution for the use of its students or teachers, provided that among eligible applicants for such accommodations at any particular time preference shall be given to veterans.

(h) *Appeals.* Any person who considers that compliance with any provision of this section would result in a hardship on him may appeal for relief. The appeal shall be in the form of a letter in duplicate and filed with the local office of the Federal Housing Administration (except that appeals by educational institutions or public organizations should be filed with the local regional office of the Federal Public Housing Authority). The appeal must state clearly the specific provision of the section appealed from and describe fully the hardship which will result from compliance with this section.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[6th Rev. Dept. Circ. 530, 1947 Amdt. 1]

PART 315—REGULATIONS GOVERNING SAVINGS BONDS

MISCELLANEOUS AMENDMENTS

JULY 25, 1947.

Pursuant to section 22 (a) of the Second Liberty Bond Act as amended (55 Stat. 7, 31 U. S. C. and Sup. 757c), which authorizes the Secretary of the Treasury to issue United States Savings Bonds "in such manner and subject to such terms and conditions * * * including any restrictions on their transfer, as the Secretary of the Treasury may from time to time prescribe," § 315.14 of Subpart D, § 315.23 of Subpart H, Subpart N, and § 315.50 of Subpart O of Department Circular No. 530, Sixth Revision, dated February 13, 1945 (31 C. F. R. 1945 Supp., 315), are hereby revised to read as follows:

§ 315.14 *Evidence necessary.* To establish the validity of judicial proceedings there must be submitted a certified copy of a final judgment or decree of court and of any necessary supplementary proceedings. If the judgment or decree of court was rendered more than six months prior to presentation of the bond there must also be submitted a certificate from the clerk of the court, under the court's seal and dated within six months of the presentation of the bond, showing that the judgment or decree is in full force and effect. A trustee in bankruptcy should submit proof of his authority in the form of a certificate from the referee showing that he is the duly elected and qualified trustee, together with a certificate from the clerk of the United States District Court of the particular district, under seal, showing the incumbency of the referee and authenticating his signature.

§ 315.23 *Redemption before maturity.* Pursuant to its terms, a savings bond may not be called for redemption by the Secretary of the Treasury prior to maturity, but may be redeemed in whole or in part at the option of the owner, prior to maturity, under the terms and conditions set forth in the offering circular of each series and in accordance with the provisions of these regulations in this part following presentation and surrender as provided in this subpart.

(a) *Series A, B, C, D and E.* A bond of series A, B, C, D or E will be redeemed in whole or in part at any time after 60 days from the issue date without advance notice, at the appropriate redemption value as shown in the table printed on the bonds.

(b) *Series F and G.* A bond of Series F or G will be redeemed in whole or in part, on or after six months from the issue date, at the appropriate redemption value as shown in the table printed on the bond, on one month's notice in writing to the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, or a Federal Reserve Bank. Such notice may be given separately or by presenting and surrendering the bond with a duly executed request for payment thereof. Payment will be made as of the first day of the first month following by at least one full calendar month the date of receipt of notice. For example, if the notice is received on June 1, payment will be made as of July 1, but if notice is received between June 2 and July 1, inclusive, payment will be made as of August 1. If notice is given separately, the bond must be presented and surrendered with a duly executed request for payment to the same agency to which the notice is given not less than twenty days before the date on which payment is to be made. For example, if the notice is received on June 15, the bond should be received not later than July 12. (See § 315.21 for provisions as to interest in case current income bonds are redeemed prior to maturity.)

(c) *Series G; redemption at par before maturity.* A bond of Series G (but not of Series F) will be redeemed at par before maturity in whole or in part, in amounts corresponding with authorized denominations, not less than six months from the issue date, (1) upon the death of an owner or coowner, if a natural person, or (2) upon the termination of a trust or other fiduciary estate by reason of the death of any person, if held by the trustee or other fiduciary, except that if the trust or fiduciary estate is terminated only in part, redemption at par will be made to the extent of not more than the pro rata portion of the trust or fiduciary estate so terminated. Redemption will be made only following actual receipt of written notice of intention to redeem at par. Such notice must be given in time to be received in the ordinary course of mail by the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, or a Federal Reserve Bank within six months after the date of death of the owner or coowner or person whose death results in the termination of the trust or other fiduciary estate, unless the period within which notice must be received is extended in accordance with the provisions of this paragraph. Proof of the date of death must be furnished and the bond must be surrendered to the same agency to which notice of intention to redeem at par is given, but they need not accompany such notice. Ordinarily, payment will be made as of the first day of the first month following by at least one full calendar month the date of receipt of notice, but payment may be postponed, upon request of the person presenting the bond, to the second interest payment date following the date of death, except as follows: if the period within which notice must be received is extended beyond such interest payment date, in accordance with the provisions of this paragraph, and notice received thereafter is accepted, payment may, upon request, be postponed to the next interest payment date following the date of receipt of notice. The period within which notice must be received may be extended in any particular case upon presentation of satisfactory proof that notice could not seasonably be given by reason of litigation or delay in the appointment of a legal representative of the estate or in the receipt of notice of death.

(d) *Withdrawal of request for redemption.* An owner who has presented and surrendered a savings bond to the Treasury Department or a Federal reserve Bank for payment with an appropriate request for payment may withdraw such request if notice of intent to withdraw is given to and received by the same agency to which the bond was presented, prior to the issuance of the check in payment. Under these same conditions an executor or administrator may withdraw a request for redemption executed by the owner and presented and surrendered to the Treasury Department or a Federal Reserve Bank prior to the owner's death, except where the presentation and surrender of the bond has cut off the rights of survivorship under the provisions of Subpart L or Subpart M. The terms "presented and surrendered" as used in this paragraph mean the actual receipt of the bond by the Treasury Department or a Federal Reserve Bank during the lifetime of the owner.

SUBPART N—DECEASED OWNERS

§ 315.47 *Payment or reissue on death of owner.* Upon the death of the owner of a savings bond who was not survived by a co-owner or designated beneficiary and who had not during his lifetime presented and surrendered the bond to a Federal Reserve Bank or the Treasury Department for an authorized reissue, the bond will be considered as belonging to his estate and will be paid or reissued accordingly, as hereinafter provided, except that reissue under the provisions of this subpart will not be made to a creditor. In any case, reissue will be restricted to a form of registration permitted by the regulations in effect on the date of original issue of the bond, but the person entitled to the bond may hold it without change of registration and will have the right to payment before or at maturity. The provisions of this section shall also apply to savings bonds registered in the names of executors or administrators, except that proof of their appointment and qualification may not be required. Established forms for use in such cases and for requests for payment or reissue may be obtained from any Federal Reserve Bank or from the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, and should be used in every instance.

(a) *In course of administration.* If the estate of the decedent is being administered in a court of competent jurisdiction, the bond will be paid to the duly qualified representative of the estate or will be reissued in the names of the persons entitled to share in the estate, upon request of the duly appointed and qualified representative of the estate and compliance with the following conditions:

(1) Where there are two or more legal representatives, all must unite in the request for payment or reissue, unless by express statute or decree of court, or by testamentary provision, some one or more of them may properly execute the request.

(2) The request for payment or reissue should be signed in the form, for example: "John A. Jones, administrator of the estate (or executor of the will) of Henry W. Jones, deceased", and must be supported by proof of the representative's authority in the form of a court certificate or a certified copy of the representative's letters of appointment issued by the court having jurisdiction. The certificate, or the certification to the letters, must be under seal of the court, and, except in the case of a corporate representative, must contain a statement that the appointment is in full force and should be dated within six months of the date of presentation of the bond, unless the certificate or letters show that the appointment was made within one year immediately prior to such presentation.

(3) In case of reissue the personal representative should certify that the persons named are entitled to share in the estate to the extent specified for each and have consented to such reissue. A request for reissue by an individual legal representative should be made on Form PD 1455 and a request by a corporate representative should be made on Form PD 1498. If a person in whose name reissue is requested desires to name a coowner or beneficiary, such person should execute an additional request for that purpose, using Form PD 1787.

(b) *After settlement through court proceedings.* If the estate of the decedent has been settled in a court of competent jurisdiction, the bond will be paid to or reissued in the name of the person entitled thereto as determined by the court. The request for payment or reissue should be made by the person shown to be entitled and supported by duly certified copies of the representative's final account and the decree of distribution or other pertinent court records, supplemented, if there are two or more persons having an apparent interest in the bonds, by an agreement executed by them.

(c) *Without administration.* If no legal representative of the decedent's estate has been or is to be appointed and the amount of savings bonds belonging to the estate does not exceed $250 (maturity value), or if it is established to the satisfaction of the Secretary of the Treasury that the gross value of the personal estate of the decedent does not exceed $500 or that administration of the estate is not required in the State of the decedent's last domicile, the bond will be paid to or reissued in the names of the persons entitled, pursuant to an agreement and request by all persons entitled to share in the estate, executed on the form prescribed by the Treasury Department and supported by the evidence called for by such form. Application for the appropriate form to be used hereunder may be made to any Federal Reserve Bank or to the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois. The applicant should state whether or not the amount of bonds belonging to the decedent's estate is in excess of $250 (maturity value). If any of the persons entitled are minors or incompetents payment or reissue of a bond will not be permitted without administration, except to them or in their names unless their interests are otherwise protected to the satisfaction of the Secretary of the Treasury.

§ 315.50 *Reissue or payment to person entitled—(a) Distribution of trust estate in kind.* A savings bond to which a beneficiary of a trust estate has become lawfully entitled in his own right or in a fiduciary capacity, in whole or in part, under the terms of the trust instrument, will be reissued in his name to the extent of his interest as a distribution in kind upon the request of the trustee or trustees and their certification that such person is entitled and has agreed to reissue in his name. If the form in which the bond is registered does not show that it belongs to a trust estate, the request for reissue must be supported by satisfactory proof of ownership.

(b) *After termination of trust estate.* If the person who would be lawfully entitled to a savings bond upon the termination of a trust does not desire to have such distribution to him in kind, as provided in paragraph (a) of this section, the trustee or trustees should redeem the bond in accordance with the provisions of § 315.48 before the estate is terminated. If, however, the estate is terminated without such payment or reissue having been made, the bond will thereafter be paid to or reissued in the name of the person lawfully entitled upon his request and satisfactory proof of ownership, supplemented, if there are two or more persons having any apparent interest in the bond, by an agreement executed by all such persons.

(c) *Upon termination of guardianship estate.* A savings bond registered in the name of a guardian or similar legal representative of the estate of a minor or incompetent, if the estate is terminated during the ward's lifetime, will be reissued in the name of the former ward upon the representative's request and certification that the former ward is entitled and has agreed to reissue in his name, or will be paid to or reissued in the name of the former ward upon his own request, supported in either case by satisfactory proof that his disability has been removed. Certification by the representative that a former minor has attained his majority, or that the legal disability of a female ward has been removed by marriage, if the State law so provides, will ordinarily be accepted as sufficient, but if the disability is removed by court order a duly certified copy of the order will be necessary. Upon the death of the ward a bond registered in the name of his guardian or similar representative will be reissued in accordance with the provisions of Subpart N as though it were registered in the name of the ward alone.

Chapter IX—Bureau of Foreign and Domestic Commerce, Office of Materials Distribution, Department of Commerce

[Allocations Reg. 2, as Amended July 31, 1947]

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

RESTRICTED EXPORT PREFERENCE ASSISTANCE

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of certain materials and facilities for defense, for private account, and for export; and the following regulation is deemed necessary and appropriate in the public interest and to promote the national defense, and to effectuate the policies set forth in the Second Decontrol Act of 1947.

§ 945.40 *Allocations Regulation 2*—(a) *Purpose.* This regulation and its directions set forth the very limited scope of export preference assistance which will be granted in the future. Such assistance, when granted, will usually be in the form of authorizations to place orders with certificates entitling the orders to preference.

The issuance of authorizations to place certified export orders will in general be limited to assisting the procurement in this country of the minimum quantities of materials required to maintain or expand the production in foreign countries of materials critically needed in this country, and other cases where the export is of high public importance and essential to the successful carrying out of the foreign policy of the United States.

For the purpose of this regulation "certified order" or "certified export order" means a purchase or delivery order which is certified by the purchaser by use of the standard form of export preference certificate described in paragraph (b) (7) below, or by use of any other certificate authorized and entitled to preference under another OMD order, regulation or direction for export purposes.

(b) *Cases when certified orders may be authorized.* (1) If all the conditions of paragraph (b) (2) below are met, authorizations to place orders with an export preference certificate may be granted to permit the placing and filling of certified orders for procurement in this country of the minimum quantities of materials under the circumstances described below:

(i) Where required to expand or maintain the production in foreign countries of materials critically needed in the United States; but only if it is found the proposed action will not have an unduly adverse effect on the domestic economy of the United States;

(ii) Where the Secretary of State has certified that the prompt export of materials is of high public importance and essential to the successful carrying out of the foreign policy of the United States, but only if the Secretary of Commerce has satisfied himself that the proposed action will not have an unduly adverse effect on the domestic economy of the United States.

(2) When effective assistance of other kinds is not practicable (OMD may locate sources able to ship without preferential aid), an authorization to use an export preference certificate may be granted for specific items and quantities of materials in the limited classes of cases described in paragraph (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without assistance; and

(iii) Preference assistance is required to obtain the item by the latest date and in the minimum quantity practicable, after taking into consideration material already acquired and material available without assistance.

(c) *How to apply for an authorization to use an export preference certificate.* Application for an OMD authorization to use an export preference certificate for all destinations except Canada should be made by letter in quadruplicate, addressed to the Office of International Trade, Department of Commerce, Washington 25, D. C., Ref. AR–2. An application to the Office of International Trade for an export license for the materials must also be made, unless such a license is not required or unless a license has already been issued, as the Office of Materials Distribution will not authorize the use of an export preference certificate unless any necessary export license has been obtained. Application for such a certificate for Canadian destinations should be made directly to the Office of Materials Distribution, Department of Commerce, Washington 25, D. C., Ref. AR–2, also by letter in quadruplicate. Such applications should give the following information:

(1) Exact nature of applicant's business, i. e., manufacturing farm equipment, steel mill, etc.

(2) Exact description of the item for which assistance is required, stating (a) for materials the kind, quantity and unit of measure or (b) for equipment, the make, model, size, type, capacity, etc.

(3) The country of export destination, and the exact use to be made in that country of the item to be exported.

(4) Name of supplier and his present delivery promises, and his reasons for not promising satisfactory delivery dates. (Give the number and date of your purchase order.)

(5) Efforts made to obtain suitable substitutes or reasons why substitutes cannot be used.

(6) A full statement of the importance of making the export at this time from the standpoint of the interests of the United States.

(d) *How applications are granted.* If the application is granted, OMD will issue a written authorization to the applicant authorizing him to use an export preference certificate. He may then use the certificate described in paragraph (h) (7) below.

(e) *Expiration of priorities assistance for export issued before April 1, 1947.* All preference ratings assigned before April 1, 1947, by the Civilian Production Administration for materials to be exported expired on or before that date; and all certificates used on certified orders for materials for export which were required to be treated as rated orders under other CPA orders, regulations, or directions issued before April 1, 1947, also expired on or before that date, except those for tinplate continued in effect under Direction 1 to this regulation. In some instances, authorizations for the use of export preference certificates have been issued to continue the assistance.

(f) *Rules for acceptance and rejection of certified orders.* Every certified order must be accepted and filled regardless of existing contracts and orders except in the following cases:

(1) A person must not accept a certified order for delivery on a date which would interfere with delivery on other certified or rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the Office of Materials Distribution or the Housing Expediter has directed him to fill for that material or for a product which he makes out of it.

(2) A person must not accept a certified order for delivery on a date which can be met only by using material which was specifically produced for delivery on another certified order, and which is completed or is in production and scheduled for completion within 15 days.

(3) If a person, when receiving a certified order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (i) reject the order, stating when he could fill it, or (ii) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer.

(4) A certified order need not be (but may be) accepted in the following cases, but there must be no discrimination in such cases against certified orders, or between certified orders of different customers:

(i) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment (when a person authorized to place a certified order asks a supplier to quote his regularly established prices and terms of sale or payment or the earliest date on which he could make delivery on the certified order, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the certified order and knows that he will not do so if he receives it. Any quotation as to delivery date to a person whose order has not been received will be subject to the effect on the supplier's deliveries of certified orders received by him after making the quotation and before he receives the firm order from the person making the inquiry).

(ii) If the order is for the manufacture of a product or the performance of a service of a kind which the person to whom the order is offered has not usually made or performed, and in addition if either (*a*) he cannot fill the order without substantially altering or adding to his facilities or (*b*) the order can readily be performed by someone else who has usually accepted and performed such orders.

(iii) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years. If he has, but the certified order would take more than the excess over his own needs, he may not reject the certified order unless filling it would interfere with other certified orders already on hand, or orders which the Office of Materials Distribution has directed him to fill, for the material or for a product which he makes out of it.

(iv) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

(5) Any person who fails or refuses to accept an order bearing a certificate provided for under this regulation shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(6) Some orders or directions of the Office of Materials Distribution provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order or direction of the Office of Materials Distribution. In addition, the Office of Materials Distribution may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this paragraph (f), except that he may insist upon compliance with regularly established prices and terms of payment.

(7) *Certificates not effective for Government-owned surplus property.* The above rules in this paragraph (f) for the acceptance and rejection of certified orders, and in paragraph (i) below for the sequence of filling certified orders, do not apply to sales of surplus material by Government agencies. The certificates on certified orders have no effect either by way of obliging a Government agency to sell surplus property or by way of determining as among several buyers who shall get the surplus property.

(g) *Report to Office of Materials Distribution of improperly rejected orders.* When a certified order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the Office of Materials Distribution which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

(h) *Description of certificates and how they are used*—(1) *How authorized.* The standard export preference certificate provided for under this regulation is described in (h) (7) below. Other orders or directions of the Office of Materials Distribution may also permit the use of other special forms of certificates entitled to preference, such as that for the use of the symbol CXS on certain orders for tinplate, described in Direction 1 to this regulation. The standard certificate described below and certificates entitled to preference under any other Office of Materials Distribution order or direction are of equal value and precedence. Authorizations to use the standard export preference certificate will be issued under the conditions described in this regulation. The use of other certificates will be authorized under the conditions stated in the Office of Materials Distribution order or direction under which they are issued, which may provide that they shall be treated as export preference certificates.

(2) *Materials or facilities obtainable with certificates.* A person authorized to use a certified order may use the certificates only to get the quantities and kinds of materials or services authorized, as provided in § 945.18 of Allocations Regulation 1.

(3) *How to use a certificate.* The certificate with a certified order must be filled in, signed and delivered to the supplier in accordance with the rules stated in Allocations Regulation 1, and with any special rules which may be stated in any other OMD order or direction permitting the use of any special form of certificate other than the standard export preference certificate.

(4) *Certificates not extendible.* A person receiving a certified order may not extend the certificate to any of his suppliers. If he is unable to fill the certified order without using a certificate to get some of the materials which he will need for that purpose, he may apply to OMD for an authorization to use a certificate for that purpose in accordance with this regulation.

(5) *Relation of certificates to preference ratings.* The certificate on a certified order, and RR (or CC) preference ratings assigned by CPA before April 1, 1947, and an RR rating assigned before July 1, 1947 by the Housing Expediter are equal in precedence, unless otherwise directed in writing by the Office of Materials Distribution.

(6) *Time limit on certificates.* An authorization to use an export preference certificate, or other certificate permitted under another OMD order or direction for export purposes and entitled to preference, expires if not used on an order accepted by a supplier within 6 months of the date the use of the certificate was authorized. (However, a certified order is valid until it is filled, if it is accepted by a supplier within the time limit provided by this paragraph.) If the holder of an authorization to use an export preference certificate has been unable to use it before its expiration, he may apply to OMD for renewal. Furthermore, the certificate may not be used, even though the time limit stated above has not lapsed, if the purpose for which use of the certificate was authorized no longer exists.

(7) *Form of standard export preference certificate.* The standard export preference certificate must be in substantially the following form:

EXPORT PREFERENCE CERTIFICATE

The undersigned certifies to the seller and to the OMD, subject to the criminal penalties of section 35 (a) of the U. S. Criminal Code, that he is authorized to use this certificate for the materials described, in accordance with OMD Allocations Regulation 2. My authorization number is ____ (insert the OMD authorization number).

(If the above certification has been used in accordance with this regulation before an amendment, containing reference to "CPA" instead of "OMD", its validity is not affected and the purchase order need not be recertified to make this change.)

(8) *Report to Office of Materials Distribution of improper delay of orders.* When delivery or performance of a certified order is unreasonable or improperly delayed, the customer may file a report of the relevant facts with the Office of Materials Distribution which will take such action as it considers appropriate after requiring an explanation from the person with whom the order is placed.

(i) *Sequence of filling certified orders.* (1) Every person who has certified orders on hand must schedule his operations, if possible, so as to fill each certified order by the required delivery or performance date (determined as explained in paragraph (j) below). If this is not possible for any reason, he must give precedence to all certified over uncertified orders.

(2) As between conflicting certified orders, precedence must be given to the order which was received first with the certificate. As between conflicting certified orders received on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(3) If a certified order or the certificate applicable to an order is cancelled when the supplier has materials in production to fill it, he need not immediately stop to put other certified orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any certified order on hand. He may not, however, delay putting other certified orders into production for more than 15 days.

(j) *Delivery or performance dates.* (1) Every certified order must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an uncertified order. The words "immediately" or "as soon as possible", or other words to that effect, are not sufficient for this purpose.

(2) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to paragraph (i), shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (i) that the date so specified was earlier than required at the time the order was placed, or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(3) If, after accepting a certified order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, for any reason, he must promptly notify the customer, telling him approximately when he expected to be able to fill the order. Inability to fill the order on time or within fifteen days following the specified time does not authorize a supplier to cancel the order.

(k) *Appeals.* Any person who considers that compliance by himself or another with this regulation would work an exceptional and unreasonable hardship on him may appeal to the Office of Materials Distribution for relief.

(l) The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of July 1947.

[Allocations Reg. 2, Direction 4]

PART 945—REGULATIONS APPLICABLE TO OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

USE AND EFFECT OF SYMBOL CXN ON CERTAIN EXPORT ORDERS FOR NITROGENOUS FERTILIZER MATERIALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nitrogenous fertilizer materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense and to effectuate the policies set forth in the Second Decontrol Act of 1947.

(a) *What this direction does.* This direction explains how persons who wish to get nitrogenous fertilizer materials for export to countries other than Canada can get permission to use the symbol CXN (Certified Export Nitrogenous Fertilizer Materials) on purchase orders for such materials. It also states how the symbol should be used and what its effect is.

(b) *How to get permission to use the symbol CXN.* All requests for permission to use the symbol CXN to get nitrogenous fertilizer materials should be made by letter to the Export Control Branch, Office of International Trade, Department of Commerce, Washington 25, D. C. Advice as to the conditions under which requests for permission to use the symbol CXN may be approved and the amounts recommended for allocation by the International Emergency Food Council, and agreed to by the representative of the U. S. on that Council, for export from the United States to various countries can be obtained from the Export Control Branch of the Office of International Trade. Permission to use the symbol CXN will not be given except when an export license is also given.

(c) *How to use the symbol CXN.* (1) When a person has been authorized in writing by the Office of International Trade, Department of Commerce to use the symbol CXN on purchase orders for specified quantities of nitrogenous fertilizer materials, he should place on his purchase order the symbol CXN, the export license number given by the Office of International Trade, and the country of destination. In addition he should furnish to his supplier a certificate, signed manually or as described in Allocations Regulation 1, in substantially the following form:

> I certify, subject to the penalties of Section 35A of the United States Criminal Code, that the nitrogenous fertilizer materials covered by this purchase order are within the quantity which the Office of International Trade, Department of Commerce, has authorized me to purchase by orders identified with the symbol CXN for shipment to the specified country of destination, under the export license number specified.

(2) The symbol CXN and the accompanying certificate may not be used except on purchase orders placed with producers of the specified nitrogenous fertilizer materials or with agents of such producers. When an order bearing the symbol CXN and the certificate is placed with a producer's agent, it has the same effect as though it had been placed with the producer.

(d) *Effect of the symbol CXN on purchase orders.* Any purchase order certified under this direction must be treated as a certified export order under Allocations Regulation 2, and must be accepted, scheduled, and delivered accordingly. The rules of Allocations Regulation 2 apply, except to the extent that this direction is inconsistent with these rules. Paragraph (e) below contains certain special rules which limit the effect of such certified orders under this direction.

(e) *Limitation on the effect of the symbol CXN on purchase orders.*—(1) *Time limit on placing orders.* Unless otherwise directed by the Office of Materials Distribution, purchase orders certified under this direction must be placed no later than October 31, 1947. Orders placed after that date shall not be treated as certified orders.

(2) *Delivery dates.* No purchase order certified under this direction may call for delivery on or after January 1, 1948 of more than 40% of each type of nitrogenous fertilizer material covered by the order. Any purchase order which fails to meet this condition shall not be treated as a certified order.

(3) *Ceiling on orders on producers.* Unless otherwise directed by the Office of Materials Distribution a producer need not accept a purchase order certified under this direction for any of the following nitrogenous materials, if the amount of the material covered by the order, together with the amounts of that material covered by previously accepted orders certified under this direction, would exceed the specified percentage of his total production of that material in the year ended June 30, 1947:

Material:	Percent
Ammonium Sulphate	9
Ammonium Nitrate	16
Ammonium Phosphate	42
All other Nitrogenous Solids	4
All Nitrogenous Solutions	2

(f) *Delegation.* The Office of International Trade, Department of Commerce, may authorize the use of the symbol CXN under this direction on purchase orders for nitrogenous fertilizer materials, but only to the extent and under the conditions authorized by the Office of Materials Distribution, Department of Commerce in writing and transmitted to the Office of International Trade. The Office of International Trade may exercise this authority through such of its officials as the Director of that office may determine.

(g) *Appeals.* Any person who considers that compliance by himself or another with this direction would work an exceptional and unreasonable hardship on him may appeal to the Office of Materials Distribution for relief.

(h) *Assistance in finding suppliers.* If any person authorized to use the symbol CXN is unable to find a supplier who can accept his order, he may apply to the Priorities Division, Office of Materials Distribution which will, wherever possible, refer him to other suppliers who have available supplies.

(i) *Reports.* Producers of nitrogenous fertilizer materials must file with the Office of Materials Distribution, Department of Commerce, Washington 25, D. C., such reports as may be required by that Office, with the approval of the Bureau of the Budget.

Issued this 31st day of July 1947.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 383]

OREGON

REVOKING PUBLIC LAND ORDER NO. 167 OF SEPTEMBER 15, 1943, WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS A CAMP SITE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943 it is ordered as follows:

Public Land Order No. 167 of September 15, 1943, withdrawing the hereinafter-described public lands for the use of the War Department as a camp site, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 167 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on September 26, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 26, 1947, to December 26, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 6, 1947, to September 26, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 26, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 27, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 8, 1947, to December 27, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 27, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Roseburg, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Roseburg, Oregon.

The lands affected by this order are described as follows:

[Public Land Order 384]

ARKANSAS

REVOKING EXECUTIVE ORDER NO. 2220 OF JULY 19, 1915, WITHDRAWING PUBLIC LANDS IN AID OF LEGISLATION

By virtue of the authority vested in the President by the act of June 25, 1910, 36 Stat. 847, as amended by the act of August 24, 1912, 37 Stat. 497 (U. S. C., Title

43, secs. 141–143), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 2220 of July 19, 1915, withdrawing the hereinafter-described public land in aid of legislation, is hereby revoked.

Effective upon the signing of this order, the jurisdiction over such land for administrative purposes shall be vested in the Department of the Interior and any other department or agency of the Federal Government, according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on September 26, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 26, 1947, to December 26, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 6, 1947, to September 26, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 26, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 27, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 8, 1947, to December 27, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 27, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Bureau of Land Management, Washington 25, D. C., shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the Bureau of Land Management, Washington 25, D. C.

[Public Land Order 385]

ARIZONA

REVOKING PUBLIC LAND ORDER NO. 166 OF SEPTEMBER 15, 1943, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT AS A GROUND TO GROUND GUNNERY RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 166 of September 15, 1943, withdrawing the public lands within the hereinafter-described areas for the use of the War Department as a ground to ground gunnery range, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 166 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on September 26, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 26, 1947, to December 26, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C., secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 6, 1947, to September 26, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 26, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 27, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 8, 1947, to December 27, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 27, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Phoenix, Arizona shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Phoenix, Arizona.

The lands affected by this order are described as follows:

The public lands in the following-described areas:

GILA AND SALT RIVER MERIDIAN

T. 21 N., R. 16 W.,
Sec. 6, lots 1 to 6, inclusive, lots 9 to 12, inclusive, and S½NE¼.
T. 22 N., R. 16 W.,
Secs. 1 to 5, inclusive;
Secs. 8 to 11, inclusive;
Secs. 12, 13, and 14, those parts west of the westerly line of right-of-way of U. S. Highway No. 66;
Secs. 15, 16, and 17;

Sec. 18, lots 1, 2, 7, 8, 9, 10, 15, 16, and E½;
Secs. 19 to 22, inclusive;
Secs. 23, 26, and 27, those parts west of the westerly line of right-of-way of U. S. Highway No. 66;
Secs. 28 to 32, inclusive;
Secs. 33 and 34, those parts west of the westerly line of right-of-way of U. S. Highway No. 66.
T. 23 N., R. 16 W.,
Secs. 33 to 36, inclusive.

The area described, including both public and non-public lands, aggregate approximately 20,780 acres.

This land is non-agricultural, and is not irrigable. Except for scattered non-commercial pinions and junipers it is non-timbered. Vegetation is mostly a shrub-grass mixture. Principal species are salt bush, yucca, creosote bush, cacti, black grama and bunchgrass. Annuals include filaree and many flowering weeds which flourish during favorable seasons. The soil is sandy to gravelly, and the area as a whole is chiefly valuable for grazing.

C. GIRARD DAVIDSON,
Assistant Secretary of the Interior.

AUGUSTE BIRKICHT

In re: Estate of Auguste Birkicht, deceased. File D-6-1128; E. T. sec. 10293.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Liselotte Drescher, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the sum of $300.00 was paid to the Alien Property Custodian by William F. Birkicht, Executor of the Estate of Auguste Birkicht, deceased;

3. That the said sum of $300.00 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property in the Alien Property Custodian by acceptance thereof on August 23, 1945, pursuant to the Trading with the Enemy Act, as amended.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 14, 1947.

For the Attorney General.

OREGON

NOTICE OF FILING OF PLAT OF SURVEY ACCEPTED DECEMBER 16, 1942

JULY 25, 1947.

Notice is given that the plat of survey of lands hereinafter described will be officially filed in the District Land Office, Roseburg, Oregon, effective at 10:00 a. m. on September 26, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 26, 1947, to December 26, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 6, 1947, to September 26, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 26, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 26, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 6, 1947, to December 26, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 26, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Roseburg, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Acting Manager, District Land Office, Roseburg, Oregon.

The lands affected by this notice are described as follows:

WILLAMETTE MERIDIAN

T 9 S., R. 4 W.,
Sec. 14, lot 9;
Sec. 23, lots 10, 11 and 12.

The area described aggregates 61.41 acres.
The land referred to is an island in the Willamette River, Oregon.
The lands in sec. 23 are revested Oregon and California Railroad grant land subject only to such use and disposition as may be permissible under the act of August 28, 1937 (50 Stat. 874).

The land is generally level with approximately two-thirds of the soil a rich silt and the remainder sand and gravel. Parts were once cultivated and the vegetation consists chiefly of rose bushes, vines and cottonwood trees.

Notice is given that the supplemental plat of survey of lands hereinafter described will be officially filed in the District Land Office, Great Falls, Montana, effective at 10:00 a. m. on September 25, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 25, 1947, to December 24, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 5, 1947, to September 25, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 25, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 24, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous nonpreference-right filings.* Applications by the general public may be presented during the 20-day period from December 4, 1947, to December 24, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 24, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Great Falls, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Acting Manager, District Land Office, Great Falls, Montana.

The lands affected by this notice are described as follows:

PRINCIPAL MERIDIAN

T. 18 N., R. 1 W.,
Sec. 25, lot 8 (Island No. 3);
lot 9 (Island No. 2);
Sec. 26, lot 5 (Island No. 2);
lot 6 (Island No. 1);
Sec. 35, lot 11 (Island No. 1).

The areas described aggregate 77.19 acres

The lands referred to are three islands in the Missouri River, Montana.

Lots 8 and 9, sec. 25 and lot 5, sec. 26 are subject to the Executive order of July 2, 1910, Power Site Reserve No. 9, as conformed November 14, 1945.

The lands are fairly level with sandy loam and gravelly loam soil supporting a scattered to dense growth of cottonwood trees with an undergrowth of willows, rose briers and buck brush. In places the undergrowth is very dense and near the south end of Island No. 1 there is a dense growth of swamp grass.

These islands are from six to fourteen feet above the median water line of the river and are characterized by well defined banks. The islands are said to be unoccupied, but a part of Island No. 1 appears to have been cultivated perhaps within the past ten years.

COLORADO

RESTORATION ORDER NO 1218 UNDER FEDERAL POWER ACT

JULY 23, 1947.

Pursuant to the determination of the Federal Power Commission (DA-250, 251, 252, Colorado) and in accordance with the Departmental regulations of August 16, 1946 (43 CFR § 4.275 (16), 11 F. R. 9080), it is ordered as follows:

The land hereinafter described, which was withdrawn for Power Site Classification No. 110 on June 24, 1925, is hereby opened to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 846, 16 U. S. C. 818).

At 10:00 a. m. on September 24, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 24, 1947, to December 23, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 4, 1947, to September 23, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 24, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 24, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 4, 1947, to December 23, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 24, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Denver, Colorado, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Denver, Colorado.

The lands affected by this order are described as follows:

NEW MEXICO PRINCIPAL MERIDIAN

T. 48 N., R. 17 W.,

CIVIL AERONAUTICS BOARD

[Docket No. 2796]

HUGHES TOOL CO. AND TRANSCONTINENTAL & WESTERN AIR, INC.

NOTICE OF HEARING

In the matter of transactions between Hughes Tool Company and Transcontinental & Western Air, Inc., and related matters.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 408 and 1001 of said act, that a hearing in the above-entitled proceeding is hereby assigned to be held on September 10, 1947, at 10:00 a. m., in Room No. 229, Federal Building, Los Angeles, California, before Examiner Edward T. Stodola.

The Board, by Order Serial No. E-289, dated February 7, 1947, ordered an investigation into certain transactions between Hughes Tool Company (Hughes Tool) and Transcontinental & Western Air, Inc. (TWA), evidenced by letter-agreement of January 8, 1947 between Hughes Tool and TWA; and the Board by Order Serial No. E-657, dated June 18, 1947, ordered that hearing be held to determine whether the transactions referred to in paragraph (1) of said Board's Order of Investigation of February 7, 1947, have resulted or will result in an acquisition of control of TWA for which Board approval is required, pursuant to section 408 of the Civil Aeronautics Act of 1938, as amended, and that hearing on the other issues raised by said order of February 7, 1947, be deferred pending the Board's decision on the aforesaid issue.

For further details on this investigation, interested parties are referred to: (a) Board's Order of Investigation, Serial No. E-289, dated February 7, 1947; (b) Board's Order Serial No. E-657, dated June 18, 1947; and (c) the Examiner's Prehearing Conference Reports of May 12, 1947 and June 16, 1947. Each of the foregoing documents is on file with the Dockets Section of the Civil Aeronautics Board.

Dated at Washington, D. C., July 28, 1947.

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. IT-5519]

BONNEVILLE PROJECT

NOTICE OF REQUEST FOR APPROVAL OF RATES AND CHARGES FOR SALE OF POWER FROM BONNEVILLE PROJECT

JULY 23, 1947.

In the matter of Bonneville Project, Columbia River, Oregon-Washington.

Notice is hereby given that the Administrator of the Bonneville Project has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, a revision of Wholesale Power Rate Schedule E-4 and section 14.1 of the General Rate Schedule Provisions.

Revised Wholesale-Power Rate Schedule E-4 submitted for confirmation and approval reads as follows:

WHOLESALE POWER RATE SCHEDULE E-4

(Effective —— ——)

Availability. This schedule applies to at-site and transmission system firm power delivered to purchasers for resale and for irrigation and drainage pumping service.

Rate. Power shall be sold under this schedule at the following monthly rate applied separately to each separate electric system served, and within each system, separately to (1) power other than for irrigation and drainage pumping and (2) power for irrigation and drainage pumping:

Demand charge. 75¢ net per kilowatt of billing demand.

Energy charge. First 200 kilowatt-hours per kilowatt of billing demand at 2 mills net per kilowatt-hour. Additional kilowatt-hours at 1 mill net per kilowatt-hour.

Provided, That any separate billing shall not be less than 90% of the amount resulting from the application of the above charges to the entire requirements for the system or use to which the billing applies, and

Provided, further, That, for a development period extending until (1) four years after cessation of hostilities between the United States and Germany and Japan, or (2) three years after the date service is first rendered by the Administrator to a separate system, whichever is the later date, bills for power supplied to public bodies and cooperatives for other than irrigation and drainage pumping shall not exceed the higher of (1) 3.5 mills times the number of kilowatt-hours supplied or (2) 3.5 mills times 90% of the entire energy requirements of the system other than for irrigation and drainage pumping plus, in each case, any increase in demand charge due to power factor adjustment. The 90% in each of the above provisos shall be subject to an appropriate adjustment in any case in which a purchaser is compelled to generate or purchase energy because of inability to obtain it from the Administrator.

Billing demand. I. For power other than for irrigation and drainage pumping the billing demand under this rate schedule shall be the higher of the following demands:

(1) The highest measured demand for the billing period adjusted for power factor;

(2) 80% of the highest measured demand after adjustment for power factor during the preceding eleven months.

II. For power for irrigation and drainage pumping the billing demand under this schedule shall be the highest measured demand for the billing period adjusted for power factor. In the case of distributors purchasing power under this schedule for resale to ultimate consumers, separate metering of power resold for irrigation pumping and drainage pumping may be impractical. In this event the purchaser shall submit to the Administrator data as to the connected load, energy consumption, power factor and method of operation of the individual pumping installations, determined on the basis of suitable field tests. The measured demand energy consumption, and power factor of the combined pumping loads, with suitable allowances for losses between the point of supply and the point of delivery to ultimate consumers, shall be estimated on the basis of such data.

Irrigation and drainage pumping provision. Irrigation and drainage pumping power will be made available on a firm power basis during the period May 1 through September 30 of each year (which period is hereinafter called "The Special Pumping Rate Period"), and during such other periods as are specified in the purchaser's contract for service. Irrigation and drainage pumping power will also be made available during months not included within the Special Pumping Rate Period and in periods not specified in the contract, but such service may be restricted at the discretion of the Administrator for periods not exceeding a total of four hours in any one day. The Administrator will give such advance notice of any restriction as is practicable and will designate in advance the hours of the day when service to irrigation and drainage pumping power purchasers is subject to restriction.

The purchaser will be billed monthly for irrigation and drainage pumping power at the rate specified herein; *Provided,* That:

(1) The total charges for such power supplied during the Special Pumping Rate Period shall not exceed $6 per kilowatt of the maximum billing demand during the period May 1 through September 30.

(2) The demand charge for irrigation and drainage pumping power which is not delivered on a firm power basis shall be 50% of the demand charge specified herein.

The monthly demand charge and the number of kilowatt-hours in the first block of the energy charge will be prorated for the first and last billing periods during each calendar year on the basis of the number of days following commencement of service and preceding termination of service.

Notwithstanding any other provisions of this schedule, the Administrator may include in contracts with purchasers of irrigation and drainage pumping power a provision requiring a minimum annual charge for such power based on load factor. At the end of the calendar year the purchaser will be billed for any amount by which said required minimum annual charge exceeds the total previous billings for the year.

Special space heating provision. The total charges for power delivered for resale for electric space heating purposes shall not exceed 4.5 mills for kilowatt-hour. Bills will be rendered monthly without regard to this provision and will be adjusted for the 12-month period ending with June of each year as provided in section 14.1 of the General Rate Schedule Provisions.

Power factor adjustment. The measured demand, before adjustment for power factor, will be increased 1% for each 1% or major fraction thereof by which the average power factor is less than .95 lagging. This adjustment may be waived in whole or in part to the extent that the Administrator determines that a power factor of less than .95 would in any particular case be advantageous to the Government. Unless specifically otherwise agreed, the Administrator shall not be obligated to deliver power to the purchaser at any time at a power factor below .75.

Change to kilowatt-year rate schedule. Upon written application to the Administrator, any purchaser who has contracted for service under this rate schedule may change, under an appropriate new contract for the remainder of the original contract term, to the kilowatt-year schedule which is applicable subject to provisions of section 10.1 of the General Rate Schedule Provisions effective — —.

General provisions. Sales of power under this schedule shall be subject to the provisions of the Bonneville Project Act and the General Rate Schedule Provisions effective — —.

This schedule cancels Wholesale Power Rate Schedule E-3 except where such schedule is incorporated in existing contracts.

Revised section 14.1 of the General Rate Schedule Provisions proposes to make the general space heating provisions contained in the revised E-4 schedule available to all purchasers for resale. This change, the Administrator states, will make the space heating provisions applicable to a purchaser who resells power to another distributor to the extent that such a distributor sells such power to space heating customers.

Any person desiring to make comments or suggestions for Commission consideration with respect to the foregoing should submit the same on or before August 25, 1947, to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

VOLUME 12 NUMBER 151

Washington, Saturday, August 2, 1947

TITLE 3—THE PRESIDENT

PROCLAMATION 2738

DRUG AMIDONE AN OPIATE

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS section 3228 (f) of the Internal Revenue Code provides in part as follows:

Opiate. The word "opiate" as used in this part and subchapter A of chapter 23 shall mean any drug (as defined in the Federal Food, Drug, and Cosmetic Act) found by the Secretary of the Treasury, after due notice and opportunity for public hearing, to have an addiction-forming or addiction-sustaining liability similar to morphine or cocaine, and proclaimed by the President to have been so found by the Secretary. * * *;

AND WHEREAS the Secretary of the Treasury, after due notice and opportunity for public hearing, has found the drug Amidone (4,4-Diphenyl-6-Dimethylamino-Heptanone-3) to have an addiction-forming and addiction-sustaining liability similar to morphine, and that in the public interest this finding should be effective immediately:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby proclaim that the Secretary of the Treasury has found the drug Amidone (4,4-Diphenyl-6-Dimethylamino-Heptanone-3) to have an addiction-forming and addiction-sustaining liability similar to morphine, and that in the public interest this finding should be effective immediately.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 31st day of July in the year of our Lord nineteen hundred and forty-seven and of the Independence of the United States of America the one hundred and seventy-second.

[SEAL] HARRY S. TRUMAN

By the President:

G. C. MARSHALL,
Secretary of State.

PROCLAMATION 2739

AMENDMENTS OF REGULATIONS RELATING TO MIGRATORY BIRDS AND GAME MAMMALS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Acting Secretary of the Interior has adopted, after notice and public procedure pursuant to section 4 of the Administrative Procedure Act of June 11, 1946 (Pub. Law No. 404—79th Cong.), and has submitted to me for approval the following amendments of the regulations approved by Proclamation No. 2616 of July 27, 1944, as amended, relating to migratory birds and game mammals included in the terms of the Convention between the United States and Great Britain for the protection of migratory birds concluded August 16, 1916, and the Convention between the United States and the United Mexican States for the protection of migratory birds and certain game mammals concluded February 7, 1936:

AMENDMENTS OF MIGRATORY BIRD TREATY ACT REGULATIONS ADOPTED BY THE SECRETARY OF THE INTERIOR

By virtue of and pursuant to the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755), and Reorganization Plan II (53 Stat. 1431), and in accordance with the provisions of the Administrative Procedure Act of June 11, 1946 (Pub. Law No. 404—79th Cong.), I, Oscar L. Chapman, Acting Secretary of the Interior, having due regard to the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of migratory flight of migratory birds included in the terms of the Convention between the United States and Great Britain for the protection of migratory birds, concluded August 16, 1916, and the Convention between the United States and the United Mexican States for the protection of migratory birds and game mammals, concluded February 7, 1936, have determined when, to what extent, and by what means it is compatible with the terms of the said Act and conventions to allow the hunting, taking, capture, killing, possession, sale, purchase, shipment, transportation, car-

riage, exportation, and importation of such birds and parts thereof and their nests and eggs, and in accordance with such determinations, do hereby amend as follows the regulations approved by Proclamation No. 2616 of July 27, 1944, as last amended by Proclamation No. 2699 of August 8, 1946, and as so amended do hereby adopt such regulations as suitable regulations, permitting and governing the hunting, taking, capture, killing, possession, sale, purchase, shipment, transportation, carriage, exportation, and importation of such migratory birds and parts, nests, and eggs thereof:

Regulation 3, "Means by Which Migratory Game Birds May Be Taken" is amended to read as follows:

Migratory game birds on which open seasons are specified in regulation 4 may be taken during such seasons only with bow and arrow or with a shotgun not larger than No. 10 gage, fired from the shoulder, except as permitted by regulations 7, 8, and 9, but they shall not be taken with or by means of any automatic-loading or hand-operated repeating shotgun capable of holding more than three shells, the magazine of which has not been cut off or plugged with a one-piece metal or wooden filler incapable of removal through the loading end thereof so as to reduce the capacity of said gun to not more than three shells at one time in the magazine and chamber combined. Such birds may be taken during the open seasons from land or water, with aid of a dog, and from a blind, boat or other floating craft not under tow or sail, except sinkbox (battery), motorboat (excluding a boat having a detached outboard motor), and sailboat; *provided*, that nothing herein shall permit the taking of migratory game birds from or by means, aid, or use of an automobile or aircraft of any kind, the taking of waterfowl by means, aid, or use of cattle, horses, mules, or live duck or goose decoys, the concentrating, driving, rallying, or stirring up of waterfowl and coots by means or aid of any motor driven land, water or air conveyance or sailboat; *provided further*, that nothing herein shall exclude the picking up of injured or dead waterfowl by means of a motorboat, sailboat, or other craft.

Waterfowl (except for propagating, scientific, or other purposes under permit issued pursuant to regulation 8), mourning doves and white-winged doves are not permitted to be taken, directly or indirectly, by means, aid, or use of shelled, shucked, or unshucked corn, or of wheat or other grain, salt, or other feed that has been so deposited, distributed, or scattered as to constitute for such birds a lure, attraction, or enticement to, on, or over the area where hunters are attempting to take them; *provided*, however, such birds may be taken over properly shocked corn and standing crops of corn, wheat, or other grain or feed, and grains found scattered solely as a result of agricultural harvesting.

A person over 16 years of age is not permitted to take migratory waterfowl unless at the time of such taking he has on his person an unexpired Federal migratory-bird hunting stamp, validated by his signature written across the face thereof in ink. Persons not over 16 years of age are permitted to take migratory waterfowl without such stamp.

Regulation 4, "Open Seasons on and Possession of Certain Migratory Game Birds", is amended to read as follows:

Waterfowl (except wood ducks in Arizona, Colorado, Kansas, Massachusetts, Nebraska, Nevada, New Jersey, North Dakota, Utah, West Virginia and Wyoming; snow geese in Beaverhead, Gallatin and Madison Counties in Montana, in Colorado, Idaho and Wyoming and snow geese and brant in States bordering on the Atlantic Ocean; Ross' geese; and swans), coots, rails, and gallinules may be taken each day from sunrise to one hour before sunset, except that the hour for the commencement of hunting of waterfowl and coot on the first day of the season (including each first day of the split seasons) shall be 12 o'clock noon, and woodcocks, mourning or turtle doves, white-winged doves, and band-tailed pigeons from one-half hour before sunrise to sunset, except as otherwise provided in this regulation, during the open seasons prescribed herein; and may be taken by the means and in the numbers, permitted by regulations 3 and 5 hereof, and when so taken may be possessed in the numbers permitted by regulation 5 during the period constituting the open season where taken and for an additional period of 90 days next succeeding said open season, except as prohibited by State law.

Nothing herein shall be deemed to permit the taking of migratory birds on any reservation or sanctuary established under the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222), or on any area of the United States set aside under any other law, proclamation, or Executive order for use as a bird, game, or other wildlife reservation, breeding ground, or refuge except so far as may be permitted by the Secretary of the Interior under existing law, or on any area adjacent to any such refuge when such area is designated as a closed area under the Migratory Bird Treaty Act.

Waterfowl and Coot. The open seasons on waterfowl and coot (except wood ducks in Arizona, Colorado, Kansas, Massachusetts, Nebraska, Nevada, New Jersey, North Dakota, Utah, West Virginia and Wyoming; snow geese in Beaverhead, Gallatin, and Madison Counties in Montana, in Colorado, Idaho and Wyoming, and snow geese and brant in States bordering on the Atlantic Ocean; Ross' geese; and swans) in the several States, Alaska, and Puerto Rico shall be as follows, both dates inclusive:

Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia, December 8 to January 6.

Arizona, New Mexico, and Oklahoma, October 7 to October 20 and December 23 to January 5.

Regulation 5, "Daily Bag and Possession Limits on Certain Migratory Game Birds", is amended to read as follows:

A person may take in any one day during the open seasons prescribed therefor in regulation 4 not to exceed the following numbers of migratory game birds, which numbers shall include all birds taken by any other person who for hire accompanies or assists him in taking such birds. When so taken, such birds may be possessed in the number hereinafter specified, except that no person on the opening day of the season may possess any migratory game birds in excess of the daily limits herein prescribed.

Ducks (except the American and red-breasted mergansers). Four, including in such limit not more than 1 wood duck, and any person may possess not more than 8 ducks including in such limit not more than 1 wood duck.

American and red-breasted mergansers. Twenty-five singly or in the aggregate. No possession limit.

Scoters (sea coots). Seven, and any person may possess not more than 14.

Geese and brant (except snow geese in Beaverhead, Gallatin, and Madison Counties in Montana, in Colorado, Idaho, and Wyoming, and snow geese and brant in States bordering on the Atlantic Ocean; and Ross' geese anywhere), as follows:

In Washington, Oregon, and California 5, including in such limit any combination not exceeding 2 of Canada geese (including Hutchins or cackling geese), white-fronted geese and brant.

In Alaska, Puerto Rico, Idaho, Utah, Arizona, and Nevada 4, including in such limit not more than 2 Canada geese (including Hutchins or cackling geese), or 2 white-fronted geese or 1 of each.

Elsewhere than in the above States 4, including in such limit either 1 Canada goose (including Hutchins or cackling geese) or 1 white-fronted goose.

Any person may possess not more than the above bag limits of geese or brant.

In view of the fact that the hunting season on a number of migratory birds normally opens on September 1, it has been determined that these amendments shall become effective August 31, 1947.

IN WITNESS WHEREOF, I have hereunto subscribed my name and caused the seal of the Department of the Interior to be affixed, this 29th day of July, 1947.

[SEAL] OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

AND WHEREAS upon consideration it appears that approval of the foregoing amendments will effectuate the purposes of the aforesaid Migratory Bird Treaty Act:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by section 3 of the said Migratory Bird Treaty Act of July 3, 1918, do hereby approve and proclaim the foregoing amendments.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 31st day of July in the year of our Lord nineteen hundred and forty-
[SEAL] seven, and of the Independence of the United States of America the one hundred and seventy-second.

HARRY S. TRUMAN

280.114 Delivery.
280.115 Branch offices of CCC.

AUTHORITY: §§ 280.101 to 280.115, inclusive, issued under Article Third, par. (b) of Corporate Charter of CCC; sec. 4 (a), 55 Stat. 498, 56 Stat. 768; 15 U. S. C. Sup. 713a-8; 50 U. S. C. Sup. 969.

§ 280.101 *Administration*. The program will be administered in the field by the County Agricultural Conservation Committees under the general supervision of the State PMA committees. County committees will arrange for inspections by federally licensed inspectors of eligible peas to be delivered to CCC, issue necessary delivery instructions, prepare and approve purchase agreements and other forms, and retain copies thereof. The county committee shall be responsible for determining the quantity and quality of eligible peas, the quantity of sound whole peas in each lot on the basis of federal inspection certificates, and the value of the peas delivered. The county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee.

§ 280.102 *Availability of purchase agreements*. Purchase agreements will be available on eligible peas produced in the States of Washington, Oregon, California, Idaho, Montana, Colorado, North Dakota, Minnesota, and Wisconsin and such other States as the Director, Grain Branch, PMA, may hereafter designate. Purchase agreements may be executed from August 1, 1947 through December 31, 1947.

§ 280.103 *Eligible producer*. An eligible producer (hereinafter referred to as producer) shall be any individual, partnership, association, corporation, or other legal entity producing eligible peas in 1947 as landowner, landlord, tenant, or sharecropper.

§ 280.104 *Eligible peas*. Eligible peas shall be peas of the classes Alaska, Bluebell, Scotch Green, First and Best, Marrowfat, White Canada, and Colorado White produced in 1947 which after normal cleaning would fully meet the requirements for U. S. No. 2 grade peas or better as defined in the Official U. S. Standards for Dry Peas, and as evidenced by a federal inspection certificate issued by or under the supervision of the Grain Branch, PMA.

The beneficial interest in the peas must be in the person tendering the peas pursuant to a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the peas were harvested.

§ 280.105 *Approved warehouses*. Approved warehouses shall be those public warehouses approved by CCC. Warehouse receipts referred to in this bulletin shall be warehouse receipts issued by such warehouses and shall conform to requirements of CCC.

§ 280.106 *Approved forms*. Approved forms will include Purchase Agreement (CCC Purchase Form 1), federal inspection certificates, and such other forms as the Director, Grain Branch, PMA, may prescribe. All forms, except federal inspection certificates, may be obtained from county committees in areas where purchase agreements are available or from branch offices of CCC. Any fraudulent representation made by a producer in obtaining a purchase agreement, or in executing any of the documents, will render him subject to prosecution under the United States Criminal Code. Purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid. Purchase agreements must be dated prior to January 1, 1948.

§ 280.107 *Determination of quantity*. The quantity of eligible peas delivered shall be verified by a scale ticket where delivery is made from other than an approved warehouse, or by the quantity specified on a warehouse receipt where delivery is made in an approved warehouse.

The term "dockage" shall be used herein as defined in the Official U. S. Standards for Dry Peas.

The quantity of sound whole peas in the lot shall be the quantity of eligible peas minus dockage and other defects as defined in the Official U. S. Standards for Dry Peas. The quantity of sound whole peas in the lot shall be based on a federal inspection certificate and shall be computed as follows:

(a) If delivery is made in sacks, a deduction of ¾ pound for each sack shall be made from the gross weight and the result multiplied by the percentage of sound whole peas in the lot.

(b) If delivery is made in bulk, the gross weight shall be multiplied by the percentage of sound whole peas in the lot.

§ 280.108 *Determination of quality.* On the basis of a federal inspection certificate, the county committee will determine the eligibility of the peas tendered, and if they are eligible, will determine the grade they would be capable of meeting after normal cleaning. Eligible peas may contain not to exceed 16.0 percent moisture, shall not have a commercially objectionable oder, shall not be heating, shall not be infested with live weevil or other insects, or be otherwise of distinctly low quality.

To qualify for the No. 1 support price the defects in the dockage-free portion of the eligible peas must not exceed any of the following maximum limits:

Total bleached and other classes, 1.5% (including other classes 0.5%); shriveled, 2.0%; cracked seed coats, 3.0%. The peas shall be a good natural color.

To qualify for the No. 2 support price, the defects in the dockage-free portion of the eligible peas must fail to meet one or more of the requirements for the No. 1 support price and must not exceed any of the following maximum limits:

Total bleached and other classes, 3.0% (including other classes 1.0%); shriveled, 4.0%; cracked seed coats, 6.0%. The peas may be slightly off-color.

The percentage limits here given for "other classes" apply only to those peas of which the cotyledons and/or seed coats are not the same color as those of the peas being inspected. An additional allowance of 5.0% for peas qualifying for the No. 1 support price and 10.0% for peas qualifying for the No. 2 support price shall be made for other classes of which the cotyledons and /or seed coats are of the same color as those of the peas being inspected.

All terms are used in this section as defined in the Official U. S. Standards for Dry Peas.

§ 280.109 *Service fees.* The producer shall pay a preliminary service fee of $1.50 at the time he enters into a purchase agreement and an additional service fee of one cent per 100 pounds of sound whole peas, in excess of 15,000 pounds when delivered to CCC.

§ 280.110 *Liens.* Any peas delivered pursuant to a purchase agreement must be free and clear of all liens and encumbrances except warehouse receiving and loading out charges, if any. If liens or encumbrances exist on such peas, proper waivers must be obtained.

§ 280.111 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the purchase agreement to the extent of such indebtedness but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lienholders. Indebtedness owing to CCC shall be given first consideration after claims of prior lienholders.

§ 280.112 *Assignment of the purchase agreement.* The producer may not assign the purchase agreement.

§ 280.113 *Purchase price and payment.* The purchase price for each class and grade of eligible peas shall be the applicable price as follows:

Class	No. 1 support price	No. 2 support price
Alaska, Bluebell, Scotch Green, First and Best, Marrowfat, and White Canada	$4.40	$4.15
Colorado White	4.15	3.90

These prices are based on 100 pounds net weight of sound whole peas determined in accordance with § 280.107.

CCC will purchase eligible peas delivered by the producer pursuant to instructions issued by CCC, or on the basis of warehouse receipts representing eligible peas issued by an approved warehouse in the producer's name. All charges incurred on such peas to the time of delivery, except warehouse receiving and loading out charges, shall be paid by the producer prior to the sale to CCC. Eligible peas may be delivered in bulk and no allowance will be made for delivery in sacks unless such delivery is specifically requested by CCC.

No allowances will be made for cleaning and processing costs. When delivery is completed, payment will be made as prescribed by the Administrator of PMA, subject to the provisions for set-offs in § 280.111. The producer shall direct to whom payment of the purchase price shall be made.

§ 280.114 *Delivery.* The producer who signs a Purchase Agreement (CCC Purchase Form 1) shall not be obligated to deliver any specified quantity of eligible peas to CCC. If the producer who signs a purchase agreement wishes to sell eligible peas to CCC, he shall within 30 days after May 1, 1948, or such earlier date as the Administrator of PMA may request, submit warehouse receipts representing eligible peas stored in an approved warehouse to the county committee. In the case of eligible peas not located in an approved warehouse, he shall notify the county committee of his intention to sell, and request delivery instructions. The producer must then complete delivery within the 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to such points or approved warehouses as the county committee shall designate.

§ 280.115 *Branch offices of CCC.* The branch offices of CCC and the areas served by them are shown below:

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Lemon Reg. 233]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.340 *Lemon Regulation 233*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 3, 1947, and ending at 12:01 a. m., P. s. t., August 10, 1947, is hereby fixed at 475 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 31st day of July 1947.

PART 962—FRESH PEACHES GROWN IN GEORGIA

TERMINATION OF PEACH ORDERS

Termination of Peach Orders—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 62 (7 CFR, Cum. Supp., 962.1 et seq.), regulating the handling of fresh peaches grown in the State of Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Industry Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the peach regulations, specified hereinafter, will not tend to effectuate the declared policy of the act after the termination date hereinafter stated.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and the 30-day effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this termination is based became available and the time when this termination must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

Pursuant to the aforesaid authority, *It is hereby ordered*, That the following peach regulations, issued pursuant to the provisions of the aforesaid marketing agreement and order, be, and the same hereby are, terminated at 12:01 a. m., e. s. t., August 3, 1947: § 962.301 (Peach Order 1, 12 F. R. 3601); and § 962.303 (Peach Order 3, as amended, 12 F. R. 4366, 4628).

Nothing contained herein shall be construed as (1) affecting or waiving any right, obligation, or liability which has arisen, or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of any of the said orders hereby terminated; (2) releasing or extinguishing any violation of any provision of any of the said orders hereby terminated which has occurred, or which, prior to the effective time of the provisions hereof, may occur; or (3) affecting or impairing any right or remedy of the Secretary of Agriculture of the United States, or of any other person, with respect to any violation of any provision of any of the said orders hereby terminated which has occurred, or which, prior to the effective time of the provisions hereof, may occur.

[Orange Reg. 189]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.335 *Orange Regulation 189*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative

Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 3, 1947, and ending at 12:01 a. m., P. s. t., August 10, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 1900 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate Districts Nos. 1, 2, and 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 31st day of July 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry

Subchapter A—Meat Inspection Regulations

PART 7—FACILITIES FOR INSPECTION

PART 30—FEES

CHARGES TO BE MADE FOR COST OF INSPECTION

By virtue of the authority vested in me by the provisions of the Department of Agriculture Appropriations Act for 1948 under the heading Bureau of Animal Industry, and act of July 24, 1919 (7 U. S. C. 394), Title 9, Chapter I, Subchapter A, Code of Federal Regulations, is hereby amended as follows effective immediately:

1. Section 7.4 is amended to read as follows:

§ 7.4 *Overtime work of meat inspection employees.* The management of an official establishment desiring to work under conditions which will require the services of an employee of the Division on Saturday, Sunday or a holiday or for more than 8 working hours of any day, including Monday through Friday, shall, sufficiently in advance of the period of overtime, request the inspector in charge or his assistant to provide inspection service during such overtime period, and shall pay the Secretary of Agriculture therefor in accordance with § 30.4 of this subchapter. It will be administratively determined from time to time which days constitute holidays. (41 Stat. 241, Pub. Law 266, 80th Cong.; 7 U. S. C. 394)

2. A new Part 30, Fees is added to read as follows:

Sec.
30.1 Fees.
30.2 Assurance of payment.
30.3 Rates.
30.4 Overtime.
30.5 Night differential.

AUTHORITY: §§ 30.1 to 30.5, inclusive, issued under 41 Stat. 241, Pub. Law 266, 80th Cong.; 7 U. S. C. 394.

§ 30.1 *Fees.* (a) Persons granted the inspection or furnished meat inspection services on and after July 1, 1947 shall pay the United States therefor in accordance with the requirements contained in this part.

(b) Fees shall be charged against a person granted the inspection or furnished meat inspection services and such fees shall be paid in accordance with the requirements contained in this part.

(c) All fees provided for in this part shall be paid not later than the last day of each four week period during which such inspection or services are received.

(d) The chief of Division shall withhold or withdraw the inspection or service upon non-payment of a fee in accordance with the requirements contained in this part.

§ 30.2 *Assurance of payment.* (a) A person who is receiving or who is about to receive any inspection or service shall post a bond or make other assurance of payment.

(b) The bond or other assurance of payment referred to in paragraph (a) of this section shall cover an amount equal to ten times the total weekly fee. The bond or other assurance of payment shall guarantee payment for all charges for inspection or service including overtime, holiday, and night differential pay referred to in this part.

(c) The chief of Division shall withhold or withdraw the inspection or service upon failure of a person who has requested or who is receiving the inspection or service to furnish the assurance of payment required in this part.

§ 30.3 *Rates.* (a) In determining the fee to be paid by a person receiving the inspection or service the chief of Division shall designate the number of inspectors necessary for the conduct of an efficient inspection service and such fee shall be stated in terms of man-weeks. The charge for a man-week shall be $89.60 per week.

§ 30.4 *Overtime.* (a) For each hour of inspection or service received by a person during the periods of overtime referred to in § 7.4 of this subchapter, except holidays which occur any day Monday through Friday, such person shall pay therefor $2.58 per man-hour.

(b) For each hour of inspection or service received by a person on a holiday which occurs any day Monday through Friday as referred to in § 7.4 of this subchapter, such person shall pay therefor $1.64 per man-hour.

(c) The overtime charges referred to in paragraphs (a) and (b) of this section shall be in addition to the payment provided for in §§ 30.1, 30.2, and 30.3.

§ 30.5 *Night differential.* (a) For each hour of inspection or service received by a person between the hours of 6:00 p. m. to 6:00 a. m., except when such hours come within a period of overtime referred to in § 7.4 of this subchapter, such person shall pay therefor $0.16 per man-hour.

(b) The charge referred to in paragraph (a) of this section shall be in addition to the payment provided for in §§ 30.1, 30.2, and 30.3.

Finding. It is found that the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Congress; 60 Stat. 237), are impracticable and contrary to the public interest with respect to this regulation in that the Department of Agriculture Appropriation Act, 1948, under the heading "Bureau of Animal Industry", "Meat Inspection", provides that payments shall be made for inspection or services rendered on or after July 1, 1947, and these regulations are promulgated to effectuate the purposes of that provision.

Done at Washington, D. C., this 30th day of July 1947. Witness my hand and seal of the Department of Agriculture.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 206—TRUST POWERS OF NATIONAL BANKS

ACQUISITION OF INTEREST IN PARTICIPATIONS OF COMMON TRUST FUNDS

The following interpretation under this part relating to acquisition of interest in participations of common trust funds was issued by the Board of Governors of the Federal Reserve System on June 19, 1947:

§ 206.101 *Acquisition of interest in participations of common trust funds.* The Board was recently advised by a bank that it occasionally makes loans to the trustors of revocable living trusts secured by assignments of their interests in the trusts. The bank inquired whether, when such a loan is made to the trustor of a trust which holds participations in the common trust fund operated by the bank, the bank acquires an interest in such participations within the meaning of the following provisions of § 206.17 (a):

(2) A bank administering a Common Trust Fund shall not invest any of its own funds in such Common Trust Fund and if a bank, because of a creditor relationship or any other reason, acquires any interest in a participation in a Common Trust Fund under its administration the participation shall be withdrawn on the first date on which such withdrawal can be effected in accordance with the provisions of this section;

The Board is of the opinion that a loan such as that described may cause the bank to have an interest in participations

in the common trust fund, within the meaning of this part, even though there has been no default on the loan.

The Board has heretofore expressed the opinion that a plan for the operation of a common trust fund which contained the following provision is not in conflict with this part:

> The Trust Company shall not be deemed to have acquired an interest in a participation in the common fund by reason of an advance to the trust holding such participation (1) if the Trust Company is not entitled to reimbursement out of the principal of the participating trust, or (2) if the advance is adequately secured by assets of the participating trust other than the participation in the common fund.

The Board believes that the same principles apply to loans of the character described above, and that this is as liberal an interpretation of this part as can be justified. Under the facts presented, it appears that the bank could resort to the principal of the participating trusts to collect the loans. Accordingly, in making such a loan, the bank acquires an interest in participations in the common trust fund, within the meaning of this part unless the loan is adequately secured by assets other than such participations. (Secs. 2, 3, 24 Stat. 18, sec. 11 (i), 38 Stat. 262, sec. 2, 40 Stat. 968, sec. 1, 40 Stat. 1043, 44 Stat. 1224, 46 Stat. 814, sec. 24, 48 Stat. 190, sec. 342, 49 Stat. 722, secs. 330, 331, 49 Stat. 718, 719, sec. 169, 49 Stat. 1708; 12 U. S. C. and Sup. 30, 31, 248 (i), 248 (k), 33, 34a, 26 U. S. C. Sup. 169)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

PART 220—CREDIT BY BROKERS, DEALERS, MEMBERS OF NATIONAL SECURITIES EXCHANGES

BORROWING OF SECURITIES

The following interpretation under this part relating to credit by brokers, dealers, and members of national securities exchanges was issued by the Board of Governors of the Federal Reserve System on July 11, 1947:

§ 220.103 *Borrowing of securities.* The Board of Governors has been asked for a ruling as to whether § 220.6 (h), which deals with borrowing and lending of securities, applies to a borrowing of securities if the lender is a private individual, as contrasted with a member of a national securities exchange or a broker or dealer.

Section 220.6 (h) does not require that the lender of the securities in such a case be a member of a national securities exchange or a broker or dealer. Therefore, a borrowing of securities may be able to qualify under the provision even though the lender is a private individual, and this is true whether the security is registered on a national securities exchange or is unregistered. In borrowing securities from a private individual under § 220.6 (h), however, it becomes especially important to bear in mind two limitations that are contained in the section.

The first limitation is that the section applies only if the broker borrows the securities for the purpose specified in the provision, that is, "for the purpose of making delivery of such securities in the case of short sales, failure to receive securities he is required to deliver, or other similar cases". The present language of the provision does not require that the delivery for which the securities are borrowed must be on a transaction which the borrower has himself made, either as agent or as principal; he may borrow under the provision in order to relend to someone else for the latter person to make such a delivery. However, the borrowing must be related to an actual delivery of the type specified—a delivery in connection with a specific transaction that has already occurred or is in immediate prospect. The provision does not authorize a broker to borrow securities (or make the related deposit) merely in order that he or some other broker may have the securities "on hand" or may anticipate some need that may or may not arise in the future.

The ruling in the 1940 Federal Reserve Bulletin, at page 647, is an example of a borrowing which, on the facts as given, did not meet the requirement. There, the broker wished to borrow stocks with the understanding that he "would offer to lend this stock in the 'loan crowd' on a national securities exchange." There was no assurance that the stocks would be used for the purpose specified in § 220.6 (h); they might be, or they might merely be held idle while the person lending the stocks had the use of the funds deposited against them. The ruling held in effect that since the borrowing could not qualify under § 220.6 (h) it must comply with other applicable provisions of the regulation.

The second requirement is that the deposit of cash against the borrowed securities must be "bona fide". This requirement naturally cannot be spelled out in detail, but it requires at least that the purpose of the broker in making the deposit should be to obtain the securities for the specified purpose, and that he should not use the arrangement as a means of accommodating a customer who is seeking to obtain more funds than he could get in a general account.

The Board recognizes that even with these requirements there is still some possibility that the provision may be misapplied. The Board is reluctant to impose additional burdens on legitimate transactions by tightening the provision. If there should be evidence of abuses developing under the provision, however, it would become necessary to consider making it more restricted. (Sec. 3 (a) and (b), sec. 7 (a), (b), (c), and (d), sec. 8 (a), sec. 17 (b) and sec. 23 (a), 48 Stat. 881, 886, 888, 897, and 901; sec. 8, 49 Stat. 1379; 15 U. S. C. 78c–(a) and (b), 78g–(a), (b), (c), and (d), 78h–(a), 78q–(b), 78w–(a))

Secretary.

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

EFFECT OF FELONIOUS HOMICIDE

Regulations No. 3, as amended (20 CFR, Cum. Supp., 403.1 et seq.), are further amended as follows:

1. Section 403.408 (b) (2) is amended by adding at the end thereof, immediately following subdivision (v), a new subdivision (vi) as follows:

§ 403.408 *Lump-sum death payments.* • • •

(b) *Persons entitled to receive payments.* • • •

(2) *Persons equitably entitled.* • • •

(vi) Any individual who has been finally convicted by a court of competent jurisdiction of the felonious homicide of the deceased (see § 403.409).

2. A new § 403.409 and example is added immediately following § 403.408 as follows:

§ 403.409 *Effect of felonious homicide.* An individual who has been finally convicted by a court of competent jurisdiction of the felonious homicide of an insured individual shall not be entitled to benefits or a lump-sum death payment with respect to the wages of such deceased individual, and he shall be considered nonexistent in determining the entitlement of other individuals to benefits or a lump sum with respect to such wages.

Example. C, age 17, the sole surviving unmarried child of H, who died fully insured, has been convicted of the murder of his father. H was also survived by his widow, W, age 45, the mother of C.

Neither C nor W is entitled to monthly benefits, since C's right has been forfeited and W has no child of H entitled to benefits in her care. However, a lump-sum payment may be made to W if she is otherwise entitled, and W also may become entitled to widow's monthly benefits when she reaches age 65.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Suspension Order S–15]

PART 807—SUSPENSION ORDERS

JOHN MACRINA AND NICHOLAS MACRINA

John Macrina and Nicholas Macrina, 431 Mohawk Street, Herkimer, New York, on or about March 1, 1947, began and thereafter carried on construction of a commercial structure for a bowling alley located at Caroline Street, just off Mohawk Street, Herkimer, New York, without authorization and at a cost of about $27,500. This constituted a wilful violation of Veterans' Housing Program Order 1 and continuation of construction would constitute a violation of the Construction Limitation Regulation, issued June 30, 1947, under the Housing and Rent Act of 1947, resulting in a diversion of scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing it is hereby ordered that:

§ 807.15 *Suspension Order No. S–15.* (a) Neither John Macrina, Nicholas Macrina, their successors or assigns, nor any other person shall do any further construction on the structure at Caroline Street, just off Mohawk Street, Herkimer, New York, including putting up, completing, or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) John Macrina and Nicholas Macrina shall refer to this order in any application or appeal which they or either of them may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve John Macrina, Nicholas Macrina, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 1st day of August 1947.

PART 807—SUSPENSION ORDERS

L. T. KOESTER AND WILLIAM STONE

L. T. Koester and William Stone, on or about April 26, 1946, without authorization, began and thereafter until November 5, 1946, carried on construction of a one-story concrete block building with sandstone veneered front, for use as a bowling alley and soft drink and lunch counter, located at 633 W. Water Street, Piqua, Ohio, the estimated cost of which construction was $35,000. On November 5, 1946, said construction was stopped as a result of a telegram from the Civilian Production Administration. On December 10, 1946, approval was given by Civilian Production Administration to said parties under CPA Form 4423, serial number 3–2–19–C, to do certain work to protect the materials already incorporated in the building, namely, to complete front wall and finish roof, at an estimated cost of $500. Construction on said structure was resumed in December, 1946, under said authorization and thereafter carried on to an extent which was in excess of the specifically authorized cost of $500. The beginning of construction on April 26, 1946, and carrying on of construction until November 6, 1946, as aforesaid, and the carrying on of construction after December 10, 1946, in excess of the amount specifically authorized as aforesaid, constituted wilful violations of Veterans' Housing Program Order 1, and continuation of construction would be in violation of Construction Limitation Regulation, issued June 30, 1947 under the Housing and Rent Act of 1947. These violations have diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.46 *Suspension Order No. S–46.* (a) Neither L. T. Koester, William Stone, their successors and assigns, nor any other person shall do any further construction on the building located at 633 W. Water Street, Piqua, Ohio, other than the construction which was specifically authorized by the approval on December 10, 1946, of Application Form CPA 4423, serial number 3–2–19–C, unless such additional construction is hereafter authorized by the Office of the Housing Expediter.

L. T. Koester and William Stone shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter relating to the above premises.

(c) Nothing contained in this order shall relieve L. T. Koester and William Stone, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 1st day of August 1947.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 180—CONTROL OR CONSOLIDATION OF MOTOR CARRIERS AND THEIR PROPERTIES

COMBINATION OF MOTOR VEHICLES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 14th day of July A. D. 1947.

Our order of June 6, 1940, 5 F. R. 2270, having prescribed what shall constitute a motor vehicle for the purpose of computing the number of motor vehicles involved in transactions subject to section 213 of the Motor Carrier Act, and

It appearing, that section 213 (49 U. S. C. 213) was repealed, effective September 18, 1940, and the provisions of that section which relate to consolidation, merger, and acquisition of control in so far as they affect motor carriers are now incorporated in section 5 of the Interstate Commerce Act, and

It further appearing, that the public rule making procedure in accordance with section 4 of the Administrative Procedure Act is unnecessary for the reason that this order is merely a reissue of an existing rule for the purpose of showing reference to section 5 of the Interstate Commerce Act which has superseded former section 213, it is ordered, that:

§ 180.2 *Definitions.* For the purpose of § 180.3:

(a) The term "tractor" shall mean any motor vehicle designed and used primarily for drawing other vehicles and so constructed as to carry a part of the weight of the vehicle and load so drawn; and

(b) The term "semi-trailer" shall mean any motor vehicle, other than a pole trailer or a single motor vehicle transported in drive-away operations by means of a saddle-mount, with or without motive power and designed to be drawn by another motor vehicle and so constructed that some part of its weight and that of its load rests upon the towing vehicle.

§ 180.3 *Computation of vehicles involved in unifications.* In computing the number of motor vehicles of a person involved in unifications under the provisions of section 5 of the Interstate Commerce Act (49 U. S. C. 5), the combination of a tractor and a semi-trailer shall be deemed a single motor vehicle and any one tractor may be paired with any one semi-trailer as a single motor vehicle but any tractor or any semi-trailer in excess of those so paired shall be computed as one motor vehicle.

This order shall be effective September 1, 1947, and shall continue in effect until the further order of the Commission.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing with the Director of the Division of the Federal Register.

Subchapter C—Water Carriers

[Ex Parte No. 146]

PART 315—EXEMPTION OF CONTRACT CARRIER OPERATIONS

OIL FIELD EQUIPMENT, MARSHLANDS, LOUISIANA AND TEXAS

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 23d day of July A. D. 1947.

Upon further consideration of the record in the above-entitled proceeding and upon consideration of petitions filed by interested parties, and good cause appearing therefor:

It is ordered, That the period of exemption from the requirements of Part III of the Interstate Commerce Act of contract carriers by water insofar as they are engaged in such operations as are described in the order entered in said proceeding by the Commission, Division 4, on August 26, 1941 (§ 315.1 *Oil field equipment, marshlands, Louisiana and Texas*) be, and it is hereby, further extended until the further order of the Commission.

Production and Marketing Administration

[9 CFR, Part 201]

HANDLING OF SHIPPERS PROCEEDS BY MARKET AGENCIES AND LICENSEES UNDER PACKERS AND STOCKYARDS ACT

NOTICE OF PROPOSED RULE MAKING

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture proposes to issue a rule amending § 201.42 of the regulations under the Packers and Stockyards Act (9 CFR, Part 201) to read as follows:

§ 201.42 *Shippers proceeds accounts.* Every market agency and licensee shall deposit the gross proceeds received from the sale of livestock or live poultry handled on a commission or agency basis in a separate bank account designated as follows (using the name of "John Doe Commission Company," as an example): "John Doe Commission Company—Custodial Account for Shippers' Proceeds." Such account shall be drawn on only for the payment of the net proceeds to the person or persons entitled thereto and to obtain therefrom the sums due the market agency or licensee as compensation for its services as set out in its tariffs and for such sums as may be required to pay all legal charges against the consignments of livestock or live poultry as a market agency or licensee may, in its capacity as agent, be required to pay for and on behalf of the owner or consignor. No funds, other than the gross proceeds received from the sale of livestock or live poultry, shall be deposited in said account. The market agency or licensee in each case shall keep such accounts and records as will at all times disclose the names of consignors and the amount due and payable to each from funds in the Custodial Account for Shippers' Proceeds.

Therefore, notice is hereby given that an oral hearing will be held on the proposed rule in Room 5087, South Building, United States Department of Agriculture, Washington, D. C., commencing at 10:00 a. m., e. d. s. t., on August 21, 1947. Any interested person who desires to do so may appear at that hearing and present any data, views, or argument orally on the proposed rule.

Done at Washington, D. C., this 29th day of July 1947.

FOREIGN TRADE STATISTICS

FILING OF EXPORT DECLARATIONS FOR SHIPMENTS OF MERCHANDISE BY AIR

Pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.) and the authority contained in section 161 (5 U. S. C. 22) of the Revised Statutes, section 4, 32 Stat. 826 (5 U. S. C. 601) and section 7, 44 Stat. 572 (49 U. S. C. 177 (c)), notice is hereby given that the Director of the Census is considering a proposal to issue proposed Foreign Commerce Statistical Decision 64, as shown below, amending the For-

eign Commerce Statistical Regulations to incorporate therein § 30.33b containing definite provisions with respect to the filing and the place of filing of the required Shipper's Export Declarations for merchandise exported by aircraft.

All persons who desire to submit written data, views or arguments in connection with the proposed Foreign Commerce Statistical Decision 64 may do so by filing them in quadruplicate with the Bureau of the Census, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

1. Section 30.33 is renumbered by adding thereto the lower-case letter "a," and the section will hereafter be known as § 30.33a.

2. Section 30.33b is added to read as follows:

§ 30.33b *Shipments of merchandise by air; exports of aircraft flown from the United States.* (a) Shipper's Export Declarations on Commerce Form 7525 must be filed by the shipper for all merchandise shipped on:

(1) Aircraft clearing from the United States, Alaska, Hawaii and Puerto Rico for foreign countries, the Virgin Islands of the United States and the Canal Zone;

(2) Aircraft clearing from one of the following areas to another: the mainland of the United States, Alaska, Hawaii and Puerto Rico; and

(3) Aircraft clearing from the Virgin Islands of the United States to foreign countries and the Canal Zone.

(b) Shipper's Export Declarations on Commerce Form 7525 must also be filed by the exporter for aircraft being flown from the United States for foreign account in all cases where clearance of aircraft is required.

(c) Shipper's Export Declarations should be filed at the port of lading of the cargo. However, when cargo is laden at a port other than the last port from which the aircraft finally obtains clearance from the United States for its foreign destination, a notation of the fact that export declarations have been filed should be made on the aircraft commander's copy of the outward manifest at the time the cargo is laden. This notation shall serve to inform Collectors of Customs officials at ports other than the port of lading that export declarations have previously been filed for the cargo.

Foreign Commerce Statistical Decision 24 is rescinded.

KWBU, CORPUS CHRISTI, TEX.

NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on July 16, 1947 there was filed with it an application for assignment of license of KWBU, Corpus Christi, Texas, from Century Broadcasting Company to Baylor University. The proposal to assign the license arises out of a contract of July 9, 1947 pursuant to which the holders of 50% of the outstanding common voting stock of the licensee (i. e., Crazy Water Company, owner of 250 shares, Fidelity Union Life Insurance Company, owner of 140 shares, Pat O'Daniel, owner of 130 shares, Mike O'Daniel, owner of 130 shares and James M. Collins, owner of 100 shares) have agreed to sell their total of 750 shares to Baylor University, which presently owns the remaining 50% of stock of said licensee, for a purchase price of $153.33 a share. The plan contemplates dissolution of the licensee and transfer of the station and its assets to Baylor University. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

On July 23, 1947 the Commission was advised that notice concerning the proposed sale of the above stock was inserted in the "Corpus Christi Caller" and the "Corpus Christi Times", two newspapers of general circulation at that place in conformity with § 1.321 of the Commission's regulations, commencing July 18, 1947.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from July 18, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

T. JULIAN SKINNER, JR., ET AL.

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of T. Julian Skinner, Jr., Charlotte, North Carolina, Docket No. 8286, File No. BP-5817; William J. Brennan, Winston-Salem, North Carolina, Docket No. 8457, File No. BP-6068; Walter Olin Nisbet, Jr., Charlotte, North Carolina, Docket No. 8458, File No. BP-6074; Surety Broadcasting Company, Charlotte, North Carolina, Docket No. 8459, File No. BP-6088; Charlotte News Publishing Co., Charlotte, North Carolina, Docket No. 7607, File No. BP-3952; for construction permits.

On April 25, 1947, T. Julian Skinner, Jr., filed a waiver of hearing of his above-entitled application pursuant to § 1.391 of the rules. This application seeking the facilities 930 kilocycles, with 1 kilowatt power, unlimited time, and using a directional antenna, at Charlotte, North Carolina, was filed February 6, 1947, and was considered under the temporary expediting procedure with all other then-pending unlimited time applications for that frequency. On April 10, 1947, the application was designated for hearing in a consolidated proceeding with the application of Mid-Carolina Broadcasting Company requesting the frequency 940 kilocycles at Salisbury, North Carolina (File No. BP-5322, Docket No. 8029). On May 2, 1947, the latter application was amended, with leave of the Commission, to specify the frequency 1280 kilocycles, and it was removed from the hearing docket. Since the aforesaid waiver of hearing was on file at the time the Mid-Carolina application was amended, the Skinner application was left in a hearing status. The other subject applications, seeking either 930 or 940 kilocycles, were, with the exception of that of Charlotte News Publishing Co., all accepted for filing after May 1, 1947, subsequent to the termination of the temporary expediting procedure. The application of Charlotte News Publishing Co., originally filed August 30, 1945, was amended May 26, 1947, to specify the frequency 930 kilocycles, and removed from the hearing docket.

We believe that action by the Commission in this case under the waiver procedure of § 1.391 of the rules is not justified and would be violative of the purpose for which that provision was adopted. Paragraphs (a) and (d) of § 1.391 follow:

(a) In the case of any broadcast applications designated for hearing, the parties may request the Commission to grant or deny the application upon the basis of the information contained in the applications and other papers specified in subsection (b), without the presentation of oral testimony. Any party desiring to follow this procedure should execute and file with the Commission a waiver in accordance with subsection (f) and serve copies on all other parties, or a joint waiver may be filed by all the parties. Upon the receipt of waivers from all parties to a proceeding, the Commission will decide whether the case is an appropriate one for determination without the presentation of oral testimony. If it is determined by the Commission that, notwithstanding the waivers, the presentation of oral testimony is necessary, the parties will be so notified and the case will be retained on the hearing docket. If the Commission concludes that the case can appropriately be decided without the presentation of oral testimony, the case will be removed from the hearing docket and the record will be considered as closed as of the date the waivers of all parties were first on file with the Commission.

(d) In all cases where the Commission issues a decision pursuant to this procedure without holding the usual hearing, an opinion will be issued by the Commission stating its reasons for its grant or denial of the individual applications. This decision shall have the same effect as a proposed decision, and the procedure thereafter to be followed shall be the same as in the case of a proposed decision made under the regular hearing procedure.

The purpose of § 1.391 was to afford a method of deciding cases without the presentation of oral testimony in those instances in which several applications were involved in conflicts or where one application had been designated for separate hearing for interference with existing stations, or for other reasons which might require a denial, and the reason for designation in either event was extant at the time the waiver was under consideration by the Commission. The procedure was not meant to apply to cases where the conflict or other reason requiring designation had been removed, either before or after a hearing date had been set, since the well established procedures provided by §§ 1.373 (h) and 1.386 of the rules afforded the machinery by which the application involved could be processed to the Commission for consideration on its merits.[1] And no good reason is apparent why § 1.391 of the rules should be construed to accord duplicate relief. On the contrary, if the waiver procedure were to be followed in the instant case, the applicant would have the status of one who had been through a hearing, since under § 1.387 (b) (3) all conflicting applications filed within 20 days prior to the date on which the waiver was filed would be subject to dismissal.[2] This is obviously unfair to those having copending application.

Inasmuch, therefore, as application of the waiver procedure of § 1.391 is not indicated in connection with the aforesaid application of T. Julian Skinner, and since the other subject applications are either mutually exclusive or involve objectionable interference therewith, the Commission is of the opinion that all should be designated for hearing in a consolidated proceeding.

Accordingly, *It is ordered*, This 10th day of July 1947, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications of William J. Brennan, Walter Olin Nesbit, Surety Broadcasting Company and Charlotte News Publishing Co., be and they are hereby, designated for hearing in a consolidated proceeding with the said application of T. Julian Skinner, Jr., at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the individual applicants and of the applicant corporations, their officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference each with the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission, dated April 10, 1947, designating the said application of T. Julian Skinner, Jr., for hearing, as modified by the removal of the application of Mid-Carolina Broadcasting Company from the hearing docket, be, and it is hereby, amended to include the said applications of William J. Brennan, Walter Olin Nesbit, Surety Broadcasting Company, and Charlotte News Publishing Co., and to change issue number 8 thereof to read as issue number 7 above.

By the Commission.

[1] Section 1.373 (h), relative to removal from hearing docket by the Motions Commissioner, provides as follows:

(h) Frequently, when two cases are designated for hearing because they are mutually exclusive, one of the applicants amends and removes the conflict. Where this occurs the appropriate procedure is to petition for leave to amend and remove from the hearing docket. Such motions will be considered promptly and if it appears that the conflict which caused the case originally to be set for hearing has been removed and there is no other obvious conflict, the two cases will be removed from the hearing docket and placed back in their proper position (as determined by the file numbers) in the processing line. Petitions for amendment, removal from the hearing docket, and grant will not be entertained insofar as they request a grant. The Motions Commissioner in acting on such petitions will dismiss the request for a grant. In such a case the matter will simply be put back in its proper place in line.

Section 1.386, relative to petitions for reconsideration and grant without hearing, provides as follows: "Where the Commission has designated an application for hearing, the applicant may file a petition requesting reconsideration and grant of the application without hearing. If the petition shows that a grant of the application without hearing would be consistent with § 1.382, the petition will be granted. Otherwise it will be denied."

[2] Section 1.387 (b). The Commission will on its own motion name as parties to the hearing

* * * * *

(3) Any person who, prior to the time the application in question was designated for hearing, had filed with the Commission a mutually exclusive application. Any person filing an application that is mutually exclusive with another application or applications already designated for hearing will be consolidated for hearing with such other application or applications only if the application in question is filed at least 20 days before the date on which the hearing on the prior application or applications is scheduled. If the scheduled date is changed, the date last set shall govern in determining the timeliness of an application for purposes of this subsection. If the application is filed after the 20-day period, it will be dismissed without prejudice and will be eligible for refiling only after a decision is rendered by the Commission with respect to the application or applications designated for hearing or such applications are withdrawn or dismissed.

[S. O. 764]

UNLOADING OF LUMBER AT NASHVILLE, TENN.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 28th day of July A. D. 1947.

It appearing, that car NKP 17586 containing lumber at Nashville, Tennessee, on the Nashville, Chattanooga and St. Louis Railroad Company, has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Lumber at Nashville, Tennessee on the NC&St.L RR., be unloaded.* The Nashville, Chattanooga and St. Louis Railroad Company, its agents or employees, shall unload immediately car NKP 17586, containing lumber, now on hand at Nashville, Tennessee, consigned to the Wayatt and Bell Company, % J. O. Kirkpatrick.

(b) *Notice and expiration.* Said carrier shall notify Homer C. King, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Nashville, Chattanooga and St. Louis Railroad Company, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. MIDLAND UTILITIES CO. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER ACCOUNTING ENTRIES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of July 1947.

In the matter of Midland Utilities Company, File No. 54-137; Indiana Service Corporation, File No. 59-58; American Gas and Electric Company, File No. 70-1178.

Midland Utilities Company ("Utilities"), a registered holding company, having filed an application and amendments thereto pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 and other applicable sections of the act for approval of an amended plan of corporate simplification of its subsidiary, Indiana Service Corporation ("Indiana Service"), such plan providing, in general, for the recapitalization of Indiana Service, resulting in a new issue of common stock and the sale of that common stock to American Gas and Electric Company ("American Gas"), an unaffiliated registered holding company, the proceeds of such sale to be allocated among certain classes of existing securities of Indiana Service which are to be cancelled; and

The Commission having, on December 18, 1946, entered its order approving the amended plan subject to a reservation of jurisdiction over certain matters, including the accounting treatment incident to the carrying out of the plan (Holding Company Act Release No. 7086); and

Indiana Service having submitted the accounting entries which it proposes to record on its books in respect to the transactions which affect it; and

The Commission having considered the matter and it appearing that the jurisdiction as to the proposed accounting entries to be recorded on the books of Indiana Service should be released;

It is hereby ordered, That the jurisdiction reserved as to the accounting entries in the order of December 18, 1946 in the above matter be, and hereby is, released to the extent that said jurisdiction affects Indiana Service.

PENNSYLVANIA POWER & LIGHT CO. ET AL.

ORDER RELEASING JURISDICTION OVER LEGAL FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of July A. D. 1947.

In the matter of Pennsylvania Power & Light Company, National Power & Light Company and Electric Bond and Share Company, File No. 59-29; Pennsylvania Power & Light Company, National Power & Light Company and Electric Bond and Share Company, File No. 54-128; Electric Bond and Share Company and National Power & Light Company, et al., File No. 59-12; Electric Bond and Share Company, National Power & Light Company, Pennsylvania Power & Light Company, Lehigh Valley Transit Company, The Edison Illuminating Company of Easton, et al., File No. 54-51. Applications 8, 9, and 10.

The Commission having, by order dated October 26, 1945 (Holding Company Act Release No. 6167), approved a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by Pennsylvania Power & Light Company, then an electric and gas utility subsidiary of National Power & Light Company, a registered holding company which in turn is a subsidiary of Electric Bond and Share Company, also a registered holding company, National Power & Light Company and Electric Bond and Share Company having joined in said plan; and

The Commission having in said order reserved jurisdiction over all legal fees and expenses proposed to be paid in connection with the transactions incident to the plan; and

An application having been filed by Simpson, Thacher & Bartlett, attorneys for Electric Bond and Share Company, requesting approval of the payment of legal fees in the sum of $2,500 for services performed in connection with said plan; and

The Commission having considered said application and it appearing that said legal fees are not unreasonable and that jurisdiction in respect thereof should be released;

It is ordered, That the jurisdiction reserved in the order entered herein on October 26, 1945 be, and the same hereby is, released with respect to the legal fees of Simpson, Thacher & Bartlett, attorneys for Electric Bond and Share Company.

UNITED GAS CORP. AND UNITED GAS PIPE LINE CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 25th day of July A. D. 1947.

Notice is hereby given that United Gas Corporation ("United"), a gas utility subsidiary of Electric Power & Light Corporation, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and United's wholly-owned subsidiary, United Gas Pipe Line Company ("Pipe Line"), have filed a joint application and declaration pursuant to the Public Utility Holding Company Act of 1935 and have designated sections 6 (a), 7, 9 (a) (1), 10 and 12 (c) of the act and Rule U-42 thereunder as applicable to the proposed transactions.

All interested persons are referred to said joint application and declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

United proposes to issue and sell at private sale under its present Mortgage and Deed of Trust, dated as of October 1, 1944 as supplemented by a First Supplemental Indenture, dated as of July 1, 1947, $116,500,000 principal amount of First Mortgage and Collateral Trust Bonds, 2¾% Series due 1967. It is proposed to use the proceeds from the sale of said bonds together with $5,000,000 to be received from Pipe Line in payment of Pipe Line's 3% Promissory Notes held by United for the redemption of the outstanding $92,205,000 principal amount of United's First Mortgage and Collateral Trust Bonds, 3% Series, due 1962, at the general redemption price of 103.25%; for the purchase from Pipe Line for $18,695,000 in cash of a like principal amount of Pipe Line's First Mortgage Bonds, 4% Series, due 1962; and for general corporate purposes including construction and improvement of facilities.

United presently owns $21,340,000 principal amount of Pipe Line's First Mortgage Bonds, 4% Series due 1962 issued under a Mortgage and Deed of Trust, dated as of September 25, 1944. Said bonds are pledged under United's Mortgage and Deed of Trust. Pipe Line proposes to issue and sell to United for cash at par an additional $18,695,000 principal amount of such bonds which will also be pledged with the trustee under United's Mortgage and Deed of Trust. Pipe Line proposes to use the proceeds from such sale for the payment of its 3% Promissory Notes in the amount of $5,000,000 owned by United and for general corporate purposes including construction and improvement of its facilities.

United has requested an exemption from the competitive bidding requirements of Rule U-50, and has retained the firm of Dillon Read & Co. as its agent to aid in the negotiation and sale of the proposed bonds and also to advise with respect to the terms and provisions of said bonds.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said joint application and declaration and that said joint application and declaration shall not be granted or permitted to become effective except pursuant to a further order of this Commission:

It is ordered, That a hearing on said joint application and declaration pursuant to the applicable provisions of the act and the rules of the Commission be held on August 13, 1947 at 10:00 a. m., e. d. s. t., at the offices of the Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before August 11, 1947 a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Willis E. Monty or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division having advised the Commission that it has made

a preliminary examination of the joint application and declaration and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the bonds proposed to be issued by United and Pipe Line are reasonably adapted to the security structures and earning power of said corporations, and whether the financing by the issue and sale of such bonds is necessary or appropriate to the economic and efficient operation of the businesses in which such corporations are engaged.

(2) Whether the terms and conditions of the securities proposed to be issued are in accordance with the applicable standards of the act, particularly section 7 thereof.

(3) Whether the requested exemption from the competitive bidding requirements of Rule U-50 should be granted, and whether any terms and conditions should be imposed in the public interest or for the protection of investors or consumers should such exemption be granted.

(4) Whether the proposed acquisitions and retirements of securities meet the applicable standards of the act, particularly sections 9 (a), 10 and 12 thereof.

(5) Whether the fees and expenses to be paid in connection with the proposed issue and sale of the proposed securities are reasonable.

(6) Whether the proposed accounting treatment with respect to the transactions is appropriate and in conformity with sound accounting principles.

(7) Whether in the event the joint application and declaration shall be granted and permitted to become effective it is necessary or appropriate to impose any terms or conditions to assure compliance with the standards of the act or in the public interest or for the protection of investors or consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on the applicant and declarant herein and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

NORTHERN NATURAL GAS CO.

NOTICE OF FILING AND ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Penna., on the 28th day of July 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by Northern Natural Gas Company ("Northern Natural"), a public utility company and a registered holding company and a subsidiary of North American Light & Power Company and of The North American Company, both registered holding companies. The declarant has designated sections 6 (a) (1), 6 (a) (2) and 7 of the act and Rule U-62 promulgated thereunder as being applicable to the proposed transactions.

All interested persons are referred to said declaration which is on file in the offices of the Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, for a statement of the transactions therein proposed which are summarized as follows:

Northern Natural proposes to amend its certificate of incorporation to provide for a reduction in the par value of its common stock from $20 per share to $10 per share and to issue two shares of common stock, par value $10 per share, in exchange for each share of outstanding common stock, par value $20 per share, thereby increasing the number of issued and outstanding shares of common stock from 1,015,000 to 2,030,000. Northern Natural also proposes to amend its certificate of incorporation to provide for an increase in the number of authorized shares of its common stock from 1,200,000 shares of common stock, par value $20 per share, to 5,000,000 shares of common stock, par value $10 per share.

Northern Natural further proposes to call a special meeting of stockholders to be held on or about August 20, 1947 for the purpose of voting on aforesaid proposed amendments to its certificate of incorporation and other matters, and has requested the Commission to enter an order prior to August 4, 1947 authorizing the solicitation of proxies in connection with said meeting pursuant to the requirements of Rule U-62.

Notice is further given that any interested person may not later than August 15, 1947 at 12:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on the matters set forth in the declaration other than the proposal to solicit proxies in connection with said special meeting of stockholders, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said declaration which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after August 15, 1947 said declaration, as filed or as amended, excepting such portion thereof as is permitted to become effective herein, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

It appearing that the solicitation of the proxies from the stockholders of the declarant, as proposed to be done, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder that the Commission issue any order with respect thereto other than an order permitting the declaration as to such solicitation to become effective, upon the condition, however, that the solicitation material sent to the stockholders shall advise them that they may request a hearing in the manner hereinabove stated with respect to the other matters set forth in said declaration:

It is therefore ordered, That, without passing upon the merits of the declaration filed pursuant to sections 6 (a) (1), 6 (a) (2) and 7, the declaration as to the solicitation of proxies from the stockholders of Northern Natural be, and hereby is, permitted to become effective forthwith upon the condition that the solicitation material sent to said stockholders shall advise them that they may request a hearing in the manner set forth in this notice with respect to the other matters set forth in said declaration.

By the Commission.

BANKERS SECURITIES CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of July A. D. 1947.

Notice is hereby given that Bankers Securities Corporation ("Bankers") has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 17 (a) of the act (1) a proposed sale by Bankers to Girard Life Insurance Company ("Girard") of $10,000 principal amount Ten-Year 2¼% Bonds and $35,000 principal amount Twenty-Five Year 3% Bonds of International Bank for Reconstruction and Development ("International Bank"), and (2) a proposed sale by Bankers to Union Building Company ("Union") of $25,000 principal amount Ten-Year 2¼% Bonds of International Bank.

Bankers is a closed-end, management, non-diversified investment company and is registered under the act. Bankers own approximately 67% of the common stock of Girard and approximately 32% of the outstanding stock of Union. Girard and Union are, therefore, each affiliated persons of Bankers. With certain exceptions not applicable to the instant application, section 17 (a) of the act prohibits an affiliated person of a registered investment company from purchasing securities from such registered company. Bankers has, therefore, filed an application pursuant to section 17 (b) of the act for an order of the Commission exempting the proposed transactions from the provisions of section 17 (a) of the act.

International Bank has filed with this Commission a registration statement in connection with a public offering of $100,000,000 Ten-Year 2¼% Bonds and $150,000,000 Twenty-five Year 3% Bonds which statement become effective by order of the Commission dated July 14, 1947. Bankers has been invited by International Bank to participate as a securities dealer in the public distribution of its bonds and received a total allotment of $35,000 Ten-Year and $55,000 Twenty-five Year Bonds. Under the terms of its Dealers Agreement governing the public distribution of the bonds, Bankers is obliged to re-offer the bonds allotted to it at par which is the offering price fixed by International Bank in its prospectus. The agreement further provides that dealers will be allowed a concession of ¼ of 1% of the principal amount of all Ten-Year Bonds and ½ of 1% of the principal amount of all Twenty-five Year Bonds, none of which may be reallowed.

Bankers as a dealer proposes to sell at par plus accrued interest, on a when-issued basis, $10,000 Ten-Year and $35,000 Twenty-Five Year Bonds to Girard and $25,000 Ten-Year Bonds to Union and will receive the commission referred to herein above for its services. Bankers proposes to sell the remaining $20,000 Twenty-Five Year Bonds to a non-affiliated person. The market price of the Ten-Year Bonds has ranged between a high of 102 and a low of $101^{16}/_{32}$ since the offering date, closing at $101^{17}/_{32}$ on July 24, 1947. The market price of the Twenty-Five Year Bonds has ranged between a high of $103^{1}/_{32}$ and a low of $102^{4}/_{32}$ since the offering date, closing at $102^{2}/_{32}$ on July 24, 1947. Bankers states in its application (1) that the proposed transactions are in keeping with International Bank's plan for a nation-wide distribution of its securities, (2) that the terms of the proposed transactions, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and (3) that the proposed transactions are consistent with the policy of Bankers as recited in its registration statement and reports filed under the act and are consistent with the general purposes of the act.

All interested persons are referred to said application which is on file at the Philadelphia, Pa., offices of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after August 11, 1947, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than August 8, 1947, at 5:30 p. m., in writing, submit to the Commission his views or any additional facts bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, and should state briefly the nature and interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[Vesting Order CE 396]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW YORK COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That, in taking such measures in each of such actions or proceedings, costs and expenses have been incurred in the amount stated in Column 4 of said Exhibit A opposite the action or proceeding identified in Column 3 of said Exhibit A;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property which said persons obtain or are determined to have as a result of said actions or proceedings in amounts equal to the sums stated in Column 4 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. The term "enemy-occupied territory" as used herein shall have the meaning prescribed in rules of procedure, Office of Alien Property, § 501.6 (8 CFR, Cum. Supp., 503.6).

Executed at Washington, D. C., on July 25, 1947.

For the Attorney General.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9880

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE RIVER TERMINAL RAILWAY COMPANY AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the River Terminal Railway Company, a carrier, and certain of its employees represented by the Brotherhood of Railroad Trainmen, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce within the state of Ohio, to a degree such as to deprive that portion of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the River Terminal Railway Company or its employees in the conditions out of which the said dispute arose.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service:* § 3.96 (a) *Using misleading name—Goods—Qualities or properties.* In connection with the offering for sale, sale, and distribution in commerce, of the product designated "Perma-Weld" or any other product of substantially similar composition or properties, whether sold under the same or any other name, (1) using the words "weld" or "welding", or any other words of similar import or meaning, to designate, describe or refer to said product or the results accomplished through the use of said product; (2) representing, directly or by implication, that the use of said product will result in the fusion, union, consolidation, or welding of metal parts, or that the results accomplished through the use of said product are such as are accomplished through a welding process; or, (3) representing, directly or by implication, that the use of said product will permanently repair any metal parts which are subjected to stress or vibration; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Watts-Wagner Company, Inc., et al., Docket 5005, June 27, 1947]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of June A. D. 1947.

In the Matter of Watts-Wagner Co., Inc., a Corporation; Allen P. Wagner and William W. Wagner, Individually and as Officers of Watts-Wagner Co., Inc.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, testimony and other evidence taken before examiners of the Commission theretofore duly designated by it, report of the trial examiners, and the briefs of counsel (oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Watts-Wagner Company, Inc., a corporation, its officers, representatives, agents, and employees, and the individual respondents Allan P. Wagner and William W. Wagner, individually and as officers of the corporate respondent, jointly or severally, their respective representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of the product designated "Perma-Weld", or any other product of substantially similar composition or properties, whether sold under the same or any other name, do forthwith cease and desist from:

1. Using the words "weld" or "welding," or any other words of similar import or meaning, to designate, describe or refer to said product or the results accomplished through the use of said product.

2. Representing, directly or by implication, that the use of said product will result in the fusion, union, consolidation, or welding of metal parts, or that the results accomplished through the use of said product are such as are accomplished through a welding process.

3. Representing, directly or by implication, that the use of said product will permanently repair any metal parts which are subjected to stress or vibration.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 25th day of June A. D. 1947.

In the Matter of McKinley-Roosevelt, Incorporated, a Corporation; McKinley-Roosevelt Foundation, a Corporation; McKinley-Roosevelt Schools, Inc., a Corporation; McKinley-Roosevelt Graduate College, a Corporation; McKinley-Roosevelt University, a Corporation; and Jessie M. Taylor, William R. Peacock, Lozier D. Warner, Individually and as Officers of Each of Said Corporations

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission the answer of the respondents, testimony and other evidence introduced before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner and the exceptions thereto, briefs in support of and in opposition to the complaint, and oral argument, and the Commission having made its findings as to the facts and its conclusion that certain of the respondents have violated the provisions of the Federal Trade Commission Act:

1. *It is ordered*, That respondent McKinley-Roosevelt, Incorporated, a corporation, and its officers, and respondents Jessie M. Taylor, William R. Peacock and Lozier D. Warner, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of courses of study and instruction in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(a) Representing, through the granting or conferring of so-called degrees or by any other means, that said corporation is an institution of higher learning authorized to confer degrees possessing academic value and recognized in the educational field.

(b) Representing, directly or by implication, that purported degrees granted or conferred by said corporation are recognized by the United States Civil Service Commission or by employers or prospective employers.

(c) Representing, directly or by implication, that said corporation maintains separate departments for its courses of study.

(d) Representing, directly or by implication, that said corporation's courses of study are superior or equal to those offered by resident colleges or universities.

2. *It is further ordered*, That respondent McKinley-Roosevelt University, a corporation, and its officers and respondents Jessie M. Taylor, William R. Peacock and Lozier D. Warner, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of courses of study and instruction in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(a) Representing, through the granting or conferring of so-called degrees or by any other means, that said corporation is an institution of higher learning authorized to confer degrees possessing academic value and recognized in the educational field.

(b) Using the word "University", or any simulation thereof, as a part of said corporation's corporate or trade name, or otherwise representing, directly or by implication, that said corporation is a university.

3. *It is further ordered*, That respondent McKinley-Roosevelt Graduate College, a corporation, and its officers, and respondents Jessie M. Taylor, William R. Peacock and Lozier D. Warner, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of courses of study and instruction in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(a) Representing, through the granting or conferring of so-called degrees or by any other means, that said corporation is an institution of higher learning authorized to confer degrees possessing academic value and recognized in the educational field.

(b) Using the word "College", or any simulation thereof, as a part of said corporation's corporate or trade name, or otherwise representing, directly or by implication, that said corporation is a college.

4. *It is further ordered*, That respondent McKinley-Roosevelt Foundation, a corporation, and its officers, and respondents Jessie M. Taylor, William R. Peacock and Lozier D. Warner, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of courses of study and instruction in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(a) Representing, through the granting or conferring of so-called degrees or by any other means, that said corporation is an institution of higher learning authorized to confer degrees possessing academic value and recognized in the educational field.

(b) Using the word "Foundation", or any simulation thereof, as a part of said corporation's corporate or trade name, or otherwise representing, directly or by implication, that said corporation is a foundation.

5. *It is further ordered*, That the complaint herein be, and it hereby is, dismissed as to respondent McKinley-Roosevelt Schools, Inc.

6. *It is further ordered*, That all of the respondents named in paragraphs 1, 2, 3 and 4 above shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51726]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

INVOICES FOR ARTICLES CONTAINING COPPER OTHER THAN COPPER SULPHATE

Requirements for additional information on invoices for articles containing copper (other than copper sulphate) suspended. Section 8.13 (i), Customs Regulations of 1943, amended.

As Public Law No. 42, approved April 29, 1947, suspends the imposition of the copper tax (I. R. C. 3425), except in the case of copper sulphate, during the period from April 30, 1947, to March 31, 1949, inclusive, the application of T. Ds. 45878 and 50158, and § 8.13 (i), Customs Regulations of 1943, as redesignated by T. D. 51059, requiring additional information on customs invoices for "Copper-bearing ores and concentrates and other articles taxable under sec. 601 (c) (7), Revenue Act of 1932" (I. R. C. 3425), and "Articles dutiable under Tariff Act of 1930 and containing 4 per centum or more by weight of copper (including copper in alloy), except articles provided for in pars. 316, 380, 381, or 387, Tariff Act of 1930," is hereby suspended with respect to such articles except copper sulphate, entered during the period from April 30, 1947, to March 31, 1949, inclusive.

(Sec. 481 (a) (10), 46 Stat. 719; 19 U. S. C. 1481 (a) (10))

Section 8.13 (i), Customs Regulations of 1943 (19 CFR, Cum. Supp., 8.13 (i)), as redesignated by T. D. 51059, is hereby further amended by adding the number and date of this Treasury decision to the Treasury decisions appearing opposite each of the items "Copper-bearing ores and concentrates and other articles taxable under sec. 601 (c) (7), Revenue Act of 1932" (I. R. C. 3425), and "Articles dutiable under Tariff Act of 1930 and containing 4 per centum or more by weight of copper (including copper in alloy), except articles provided for in pars. 316, 380, 381, or 387, Tariff Act of 1930".

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN- OR STREPTOMYCIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463 and Public Law 16, 80th Cong., 1st Sess.; 21 U. S. C., Sup. 357) the regulations for the certification of penicillin-containing drug and streptomycin-containing drugs (12 F. R. 2231), as amended, are hereby further amended as indicated below:

1. Section 146.25 (b), first sentence, line 3, is amended to read: "be of heat-resistant transparent plastic or colorless transparent glass (unless".

2. Section 146.35 (d) (3) is amended to read:

(i) The batch; one immediate container of penicillin sulfonamide powder for each 5,000 containers in the batch, but in no case less than 20 such containers or more than 100, unless each such container is packaged to contain more than one gram in which case the sample shall consist of one gram for each 5,000 immediate containers in the batch, but in no case less than 20 grams or more than 100 grams. Such samples shall be collected by taking single immediate containers or one-gram portions at such intervals throughout the entire time the containers are being filled that the quantities made during the intervals are approximately equal.

This order, which provides for the use of plastic containers in packaging penicillin in oil and wax and for decreasing the size and amount of the sample to be submitted upon application for certification of penicillin sulfonamide powder when packaged in more than one-gram containers, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay the marketing of penicillin in oil and wax in plastic containers and since it would be against public interest not to decrease the size and amount of the sample required to be submitted with the request for certification of penicillin sulfonamide powder when packaged in containers of more than one gram.

(Sec. 507, 52 Stat. 1040, as amended by 59 Stat. 463 and Pub. Law 16, 80th Cong., 21 U. S. C. and Sup. 357)

Dated: July 30, 1947.

[SEAL] MAURICE COLLINS,
Acting Administrator.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Sugar Inventory Control Order 1]

PART 705—ADMINISTRATION

Pursuant to the authority vested in the Secretary of Agriculture by the Sugar Control Extension Act of 1947, Sugar Control Order No. 1, § 705.7, is issued to read as follows:

SECTION 1. *What this order does.* This order fixes the maximum inventory of sugar which any person can have on hand at any time. This order does not, however, apply to household users or to primary distributors, except that a primary distributor who is also an industrial user is subject to this order as though he were an industrial user only.

SEC. 2. *Maximum inventory for any person.* The maximum inventory of sugar which any person may have on hand at any time shall be the greater of (a) 2,000 pounds or (b) the maximum inventory allowed him under any applicable provisions of section 3 or 4 of this order, or (c) a quantity of sugar equal to his customary shipping unit.

SEC. 3. *Maximum inventory for industrial or institutional users.* The maximum inventory which an industrial or institutional user may have on hand at any time shall be either (a) 140% of the amount of sugar he used during the corresponding and next succeeding month of the 12-month period ended June 30, 1947, or (b) 90% of the amount of sugar used during the corresponding and next succeeding two months of the 12-month period ended June 30, 1947. For example, on any day in September, 1947, his maximum inventory shall not exceed the greater of (a) 140% of the amount he used in the months of September and October 1946 or (b) 90% of the amount he used in the months of September, October and November 1946.

SEC. 4. *Maximum inventory for wholesalers and retailers.* (a) The maximum inventory which a wholesaler or retailer may have on hand at any time shall be the amount of sugar he sold in the preceding calendar month.

(b) If a wholesaler or retailer has not sold sugar during the preceding calendar month, his maximum inventory at any time prior to the end of the first full calendar month during which he sells sugar shall be the reasonable estimated amount of his sales during that calendar month. Thereafter, he shall compute his maximum inventory under paragraph (a) of this section.

SEC. 5. *Records.* Every person who during any time in any calendar month has an inventory of more than 2,000 pounds of sugar must keep records showing the following for each such month:

(a) His actual inventory at the end of that month.

(b) The amount of sugar acquired and the amount of sugar sold or otherwise disposed of during that month.

(c) The records of his monthly operations during the year ended June 30, 1947, necessary to determine his maximum inventory under this order.

SEC. 6. *Definitions.* (a) "Industrial user" means a person who uses sugar in producing, manufacturing or processing for sale any product other than sugar.

(b) "Institutional user" means any person who uses sugar in the preparation of food which he serves to consumers, or in the service of food to consumers.

(c) "Inventory" means sugar which any person has in his possession. Possession of sugar includes:

(1) Sugar in the physical possession or control of the person or his agent or representative.

(2) Sugar placed in any plant, warehouse or other place, which place is owned or controlled directly or indirectly by such person, provided, however, that this shall not apply to sugar stored for others by a public warehouse.

(3) Particular sugar wherever located or an undivided interest in such sugar which is the subject of any contract, arrangement or understanding under which (whether or not conditioned on any contingency) it is sold or is to be sold to such person or disposed of as such person may direct.

(d) "Person" means any individual, partnership, corporation, association, or other organized group of persons.

(e) "Primary distributor" means any person who manufactures sugar or any person who, for the purposes of sale, takes delivery from the Collector of Customs of sugar brought into the continental United States, or the agent of any such person. The term "Agent" shall be deemed to include a broker, factor, commission merchant, or a person who takes title but actually performs functions commonly performed by agents, brokers, factors, or commission merchants.

(f) "Retailer or wholesaler" means any person other than a primary distributor who sells sugar.

(g) "Sugar" shall have the meaning which it had under Third Revised Ration Order 3.

SEC. 7. *Adjustments.* Any person who can show that his maximum inventory under this order causes him hardship may apply to the Sugar Branch, Production and Marketing Administration, Department of Agriculture, Washington, D. C., for an adjustment of that maximum inventory.

SEC. 8. *Sanctions.* Any person violating any provision of this order is subject to the criminal and civil sanctions provided for by the Sugar Control Extension Act of 1947.

This order shall become effective 12:01 a. m., e. d. s. t., August 1, 1947.

NOTE: The record-keeping requirements of this Order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of July 1947.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Sugar Inventory Control Order 1

The purpose of Sugar Inventory Control Order 1 is to prohibit an unwarranted accumulation at this time of

sugar stocks in the hands of industrial and institutional users of sugar, by wholesalers and retailers of sugar, or by persons who might purchase sugar for speculative purposes.

Due to restrictions imposed by sugar rationing regulations inventories of sugar at the time of decontrol were at a comparatively low level, and in order to assure equitable distribution of sugar throughout the continental United States to industry and consumers alike this inventory control measure is deemed necessary.

[Reg. 1,[1] Amdt. 1 to Order 2]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

LOCATION OF DISPOSAL AGENCY OFFICES FOR FILING DECLARATIONS OR SURPLUS PROPERTY BY OWNING AGENCIES

War Assets Administration Regulation 1, Order 2, June 2, 1947, entitled "Location of Disposal Agency Offices for Filing Declarations of Surplus Property by Owning Agencies" (12 F. R. 4139), is hereby amended by making the following changes in Regions 8 and 9 under § 8301.52 (c) thereof:

1. *Region 8 (Kansas City, Mo.)*, is amended by deleting the State of Wyoming from that territory.

2. *Region 9 (Denver, Colo.)*, is amended by adding to that territory the State of Wyoming.

[1] Reg. 1 (12 F. R. 2249, 2773, 3320).

The amendment to this section shall be effective July 17, 1947.

204.14 Operating procedures and instructions.
204.15 Report to the Administrator.

AUTHORITY: §§ 204.1 to 204.15, inclusive issued under Pub. Law 233, 80th Cong., approved July 25, 1947.

§ 204.1 *Purpose of act.* The purpose of Public Law 233, 80th Congress, approved July 25, 1947 (called the "act" in this part), is to alleviate damage, hardship, and suffering caused by floods or other catastrophe, by the loan or transfer of surplus personal property to States and local governments situated in any area struck by any such flood or other catastrophe.

§ 204.2 *Delegation of authority.* The function of administering the act and the regulations in this part is hereby delegated to the Bureau of Community Facilities, and the Commissioner of Community Facilities (called the "Commissioner" in this part) shall be responsible for the performance of such function. Any of the powers and duties delegated to the Commissioner under the regulations in this part may be assigned by him to any official or officials of the Bureau of Community Facilities. The Commissioner (or in his absence or disability, the Acting Commissioner) is authorized to make, award, and enter into all contracts and agreements, including changes, necessary to carry out the provisions of the act and of the regulations in this part. Each Division Engineer of the Bureau of Community Facilities (or in the event of his absence or disability, the Acting Division Engineer) is granted similar contracting authority necessary to carry out the provisions of the act and of the regulations in this part within his Division.

§ 204.3 *Requests, investigations and reports of floods and other catastrophes.* The Commissioner shall keep himself informed through the Division Offices of the Bureau of floods and other catastrophes in any of the several States, and if, after consultation with officials of State and local governments, he shall deem a particular flood or other catastrophe to be of sufficient severity and magnitude to justify invoking the provisions of the act, he shall submit to the Administrator a report thereon, with a recommendation that the provisions of the act be invoked. Only disasters which cannot be handled by the usual forces of rescue available to the State and local governments or by voluntary rescue agencies will be considered. If the Administrator concurs in such recommendation, he shall recommend to the President the making of a determination that it is necessary or appropriate that the War Assets Administration transfer, without reimbursement, to the Federal Works Agency all such surplus personal property as in the judgment of the Federal Works Administrator and the War Assets Administrator can be presently utilized in alleviating the damage, hardship, and suffering caused by such flood or other catastrophe. Requests that the provisions of the law be invoked should be transmitted by the most expeditious means deemed advisable.

§ 204.4 *Requests for surplus property by States and local governments.* Personal property may be made available to States and local governments only upon a request in writing, specifying in detail the uses to which the property is to be put, submitted to the Bureau of Community Facilities by an authorized representative of such State or local government.

The State or local government shall be required to agree to accept and utilize the property transferred to it under the act so as to effectuate the purposes of the act and to certify that it possesses the legal authority to accept and utilize the property for the purposes specified in the aforementioned request in the alleviation of the damage, hardship, and suffering caused by the catastrophe. In addition to such certification, additional proof respecting the legal authority of the State or local government to use the property for the purposes specified may be required by the Bureau.

§ 204.5 *Public entities eligible to receive surplus personal property.* Surplus personal property may be made available under the act and the regulations in this part solely to any of the several States in the United States and to any political subdivision or municipal corporation of a State, including counties, cities, towns, villages, townships, districts, and other local governmental units.

§ 204.6 *Requests for transfer of property from War Assets Administration.* The Commissioner shall establish, in consultation with officials of the War Assets Administration, the necessary procedures to facilitate the transfer, without reimbursement, of surplus personal property from the War Assets Administration to the Bureau of Community Facilities.

§ 204.7 *Transfer of personal property without monetary consideration.* Expendable personal property, such as medicines, blankets, clothing, and bedding, and property such as lumber, hand tools, cement, water and sewer pipe, and other materials suitable for emergency repairs, may be transferred to States and local governments without consideration. States and local governments shall be required to assume all shipping costs except in unusual circumstances where the Commissioner may determine otherwise.

§ 204.8 *Loan of personal property.* When the Commissioner deems it in the public interest, personal property may be loaned to a State or local government. The State or local government shall be required to pay shipping costs, except in unusual circumstances where the Commissioner may determine otherwise, and pay the cost of putting and maintaining such property in good usable condition. Provision shall be made for the return of the said personal property to the Government in the same condition as when loaned by the Government and as repaired, ordinary wear and tear and loss or damage caused by acts of God or other events beyond the control of said State or local government excepted.

§ 204.9 *Transfer of personal property for a monetary consideration.* Any surplus personal property, unless loaned or transferred without monetary consideration, as hereinbefore provided, shall be transferred for a monetary consideration by the Bureau of Community Facilities to the States and local governments. Any such transfer shall be upon terms which in the judgment of the Commissioner are in the public interest and at a price, to be determined by the Commissioner, which is fair and equitable. In establishing such price consideration shall be given to (a) the value of such property as reported by the War Assets Administration to the Bureau, (b) any discount that the purchaser might receive if it were to purchase the property directly from the War Assets Administration, (c) the available resources of the purchaser in the light of the damage inflicted by the disaster, (d) shipping costs, and (e) any other relevant factors.

§ 204.10 *Assistance of other constituent units of the Federal Works Agency.* The Commissioner shall utilize the services of the Public Roads Administration to cooperate with and conduct all necessary liaison with State Highway Departments in connection with the administration of the act. Personnel of the Public Buildings Administration may be utilized when required.

§ 204.11 *Cooperation with other Federal agencies.* The Commissioner is authorized, when in his opinion it is necessary or appropriate, to secure the assistance of other Federal agencies in carrying out the provisions of the act, and may utilize and act through any such Federal agency or any State or local government, and, further, may utilize without reimbursement therefor such officers and employees of any such agency or State or local government as the Commissioner may find necessary in carrying out the purposes of the act. In order to facilitate carrying out the purposes of the act, other Federal agencies are required to cooperate with the Federal Works Agency and the War Assets Administration to the fullest extent consistent with the objective of the act.

§ 204.12 *Non-discrimination.* In carrying out the provisions of the act, there shall be no discrimination made on account of race, creed, or color.

§ 204.13 *Interest of member of or delegate to Congress.* Any agreement or contract entered into under the act and the regulations in this part shall provide that no member of or delegate to Congress or Resident Commissioner shall be admitted to any share or part of any such agreement or contract or to any benefits arising therefrom.

§ 204.14 *Operating procedures and instructions.* The Commissioner is hereby authorized to issue such operating procedures and instructions not in conflict with Federal law and regulations or the regulations in this part, and the regulations and policies of the Federal Works Agency, as he may deem necessary for carrying out the provisions and effectuating the purposes of the act and of the regulations in this part.

§ 204.15 *Report to the Administrator.* When the Bureau of Community Facilities has completed its function of providing surplus personal property under the act and the regulations in this part with respect to each flood or other catastrophe for which a Presidential determination has been made, the Commissioner shall submit a report to the Administrator of the performance of such function.

Effective date. The regulations in this part shall be effective August 4, 1947.

Dated this 29th day of July 1947.

[SEAL] PHILIP B. FLEMING,
Federal Works Administrator.

PART 213—DELEGATIONS OF AUTHORITY

SUBPART A—DISASTER SURPLUS PROPERTY PROGRAM

JULY 29, 1947.

Program authorized by Public Law 233, 80th Congress, to make surplus property available for the alleviation of damage caused by flood or other catastrophe.

Delegation by the Federal Works Administrator to the Commissioner of Community Facilities of responsibility for carrying out the provisions of Public Law 233, 80th Congress, approved July 25, 1947, authorizing the Federal Works Administrator, after determination by the President, to loan or transfer surplus personal property to States and local governments situated in areas struck by floods or other catastrophes, in order to alleviate damage, hardship, and suffering caused thereby.

By virtue of the authority vested in the Federal Works Administrator, *It is hereby ordered:*

§ 213.1 *Delegation to Commissioner.* The Commissioner of Community Facilities, referred to in this section as the

Commissioner, shall be responsible for carrying out the provisions of Public Law 233, 80th Congress, approved July 25, 1947, entitled "An act to make surplus property available for the alleviation of damage caused by flood or other catastrophe."

(a) *Authority to redelegate.* The Commissioner is further authorized to delegate any of the duties and responsibilities hereby imposed upon him to any official or officials of the Bureau of Community Facilities, and he is authorized to do and perform any and all acts as may be necessary to effectuate the provisions of said law, subject to the general supervision and direction of the Federal Works Administrator.

(b) *Issuance of operating procedures and instructions.* The Commissioner is authorized to issue such operating procedures and instructions not in conflict with Federal law and regulations and the regulations and policies of the Federal Works Agency as he may deem necessary to carry out the provisions and effectuate the purposes of the enabling law.

(c) *Name of program.* This program shall be known as the Disaster Surplus Property Program.

(d) *Delegation additional to existing duties.* The authorities, duties and responsibilities contained in this section shall be in addition to those heretofore vested in the Commissioner of Community Facilities. (Pub. Law 233, 80th Cong.)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 971]

HANDLING OF MILK IN DAYTON-SPRINGFIELD, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED AMENDMENTS TO ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Supps., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159, 4904) notice is hereby given of the filing with the Hearing Clerk of a recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and to a proposed marketing agreement, regulating the handling of milk in the Dayton-Springfield, Ohio, milk marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., postmarked not later than 10 days after the publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of proposed amendments filed by the Miami Valley Cooperative Milk Producers Association, Ohio Guernsey Breeders Association, Inc. and certain Dayton - Springfield handlers. Additional proposals for consideration were submitted by the Dairy Branch, Production and Marketing Administration. The public hearing was held at Dayton, Ohio, May 7-9, 1947, upon notice issued on May 2, 1947 (12 F. R. 2958).

The material issues developed at the hearing were concerned with the following:

1. Extending the time limit for performing certain related acts such as filing reports, announcing prices, making payments, etc., required by the order;
2. Revising the definition of Class II milk and Class III milk so as to classify milk used to produce cottage cheese as Class III;
3. Revising the method of determining a handler's maximum plant shrinkage allowed as Class III milk;
4. Revising the method of allocating classified milk to producer's milk with respect to interhandler transfers.
5. Revising the classification provisions to provide that milk or cream disposed of beyond a 90-mile radius from the handler's plant shall be classified as Class I or Class II, respectively;
6. Revising the method of determining the basic formula price;
7. Revising the Class I and Class II price differentials above the basic formula price to replace the bracket differentials with fixed differentials, to establish a definite pattern of seasonal prices, and to raise the annual average level of the price differentials;
8. Revising the method of determining the value of Class III skim milk and butterfat;
9. Establishing an individual-handler type of pool in place of the present market-wide pool;
10. Establishing an alternative method of computing the price to be received by producers of so-called special high fat content milk (Golden Guernsey, Jersey Creamline) that will give special price consideration to the returns of such producers;
11. Revising the method of determining a handler's pro rata share of the expense of administration, and;
12. Revising the method of determining the deductions for marketing services performed by the market administrator.

Findings and conclusions. The findings and conclusions herein set forth, together with the reasons therefor, are, on the basis of the hearing record, as follows:

(1) The time limit required by the order for performing certain related acts such as filing reports, announcing prices, making payments, etc., should be extended two days.

Handlers are required to file reports with the market administrator on or before the 5th day of each month showing their receipts and utilization of milk for the preceding month. This reporting date is the key date with respect to the establishment of all other dates concerning the announcements of prices and making payments. Extending the time schedule will delay the date on which producers are paid for their milk. The record indicates some handlers and the market administrator have experienced considerable difficulty and added expense in attempting to meet the present time schedule, particularly when week-ends and holidays fall within the reporting period or experienced office help becomes ill.

It is concluded that the time schedule for filing reports, announcing prices, making payments and performing the other related acts required by the order, should be extended two days and that such an extension of these dates will result in a more efficient operation of the order.

(2) The definitions for Class II milk and Class III milk should be revised so as to classify milk used to produce cottage cheese as Class III milk.

The health department regulations of Dayton, Ohio, do not require cottage cheese to be made from grade "A" or producer milk. Cottage cheese may be disposed of in the marketing area by competing dairymen not regulated by the order. A substantial quantity of cottage cheese is manufactured by handlers from other than producer milk and is disposed of in the marketing area, especially during the fall and winter months, when the supply of producer milk is below the level necessary to fill the manufacturing and fluid milk and cream requirements of the marketing area. Thus, the record indicates that milk made into cottage cheese is competitive with and should have a price comparable to the price of milk used for manufacturing purposes rather than to the price of Class II milk as established by the order.

It is concluded that milk used to produce cottage cheese should be classified as Class III milk rather than Class II milk as at present.

(3) The method of determining a handler's maximum plant shrinkage allowed as Class III milk should be revised to provide that the handler actually "weighing in" milk transferred from another handler will receive the Class III shrinkage allowance on such milk.

The present order provides that the handler reporting receipts of milk from producers will be the handler actually having "weighed in" and processed such milk. The record shows that, in many instances, producer's milk is diverted directly from the farm to the plant of a handler other than the reporting handler and that the processing losses actually occur at the plant where the milk is "weighed in."

It is concluded that the method of determining a handler's maximum plant shrinkage allowed as Class III milk should be revised to provide that milk transferred from one handler to another handler shall be included only in the calculations of the handler "weighing in" such milk for the purpose of determining Class III plant shrinkage on skim milk and butterfat.

(4) The method of allocating classified milk to producer milk, with respect to inter-handler transfers, should not be revised to provide that milk so transferred will be first allocated to the lowest classification of the transferee handler.

When milk is transferred from one handler to another handler, a problem may arise as to the reconciliation of each handler's net utilization of milk to their receipts of milk. The order provides that the transferor handler's classification for transferred milk is dependent upon its classification for the transferee handler. The order further provides that, in the reconciliation of the total classified milk to the receipts of producer milk, the receipts from other sources shall be the milk first eliminated from the transferee handler's lowest classification and that milk received from another handler may only be classified as to the milk then remaining in each class. These provisions of the order, designed to give producer milk priority over other source milk, do make it difficult for handlers to agree on pricing at the time of transfer since the ultimate classification of such milk may not then be known. The proposal to first eliminate transferred milk from the transferee handler's lowest classification on the basis of an agreed classification before eliminating receipts from other sources would simplify this problem. However, the record discloses that such an arrangement could result in producer milk being displaced by milk received from other sources and other methods of handling this problem, not having the inherent weakness of the proposal, are available to handlers.

It is therefore concluded that the present method of allocating classified milk to producer milk with respect to interhandler transfers should not be changed.

(5) The classification provisions of the order should not be revised at this time to provide that milk or cream disposed of beyond a 90-mile radius from the handler's plant shall be classified as Class I or Class II, respectively.

The record shows that, for handlers to avail themselves of the best markets, it has been necessary to dispose of milk and cream for manufacturing purposes, beyond a 90-mile radius, particularly during the months of flush production when producer milk exceeds local fluid requirements.

There is some indication that producer milk has been shipped from the Dayton-Springfield area when the area was already short of producer milk to meet the local fluid milk and cream requirements. It would seem that producers are entitled to the Class I price for milk shipped at such times. However, to require that all milk or cream disposed of beyond a 90-mile radius must be classified as Class I or Class II could well create a major problem by imposing a requirement which would impede the marketing of milk for other than fluid purposes especially during periods when supplies of producer milk exceed the local fluid milk and cream requirements.

It is concluded that the present method of determining a handler's classification of milk and cream should not, at this time, be revised with respect to milk or cream disposed of beyond a 90-mile radius from a handler's plant.

(6) The method of determining the basic formula price should not be revised at this time to include the average price paid farmers by 7 "so-called" local condenseries as an additional alternative formula, nor to provide that the basic formula price should be the average rather than the highest of the several alternative formulas.

The present order provides that the basic formula price shall be the highest of three alternative formula prices; i. e., the average field price paid farmers by 18 named Midwest condenseries, the so-called butter-cheese formula, and the so-called butter-powder formula. Producers proposed that the average field price paid by 7 named Ohio condenseries be added as a fourth alternative formula. Handlers proposed that the 3 present alternative formula prices be averaged to determine the basic formula and, that if the 7 named Ohio condenseries are added as a fourth alternative formula, the four alternative formula prices should be averaged to determine the basic formula price. The record indicates that both producers and handlers are seeking a basic formula price that will be a reliable index as to the value of milk for manufacturing purposes and then build from this index, by the addition of class price differentials representing price-making factors not fully reflected in the basic formula or peculiar to the local market, a fluid milk price which will procure an adequate supply of milk for the marketing area and be in the public interest. The primary difference between handler and producer proposals, as indicated by the record, is as to what constitutes the proper basic price. Both the Ohio condenseries prices and the average of the various alternative formulas prices seem to reflect a price pattern similar to the basic formula price now in effect (although at different levels) and do not appear to employ any new price making factors. During the period in which the order has been in effect the present method of determining the basic formula price seems to have provided a reasonably accurate index of the value of milk for manufacturing purposes. If the fluid milk prices resulting from the application of the class price differentials to the basic formula price do not properly reflect local price-making factors, it would seem more logical to change the differentials rather than to seek a new basic formula price.

It is concluded that the present method of determining the basic formula price should not be revised at this time.

(7) The Class I and Class II price differentials above the basic formula price should be revised to replace the bracket system of differentials with fixed differentials and to establish a definite pattern of seasonal prices (including floor prices for the 1947-48 short production season) and also to raise the annual average level of these price differentials.

The testimony indicates that fixed differentials rather than the present bracket system should be used in determining the Class I and Class II milk prices in relation to basic formula price. For the purpose of determining Class I and Class II prices the present basic formula price is arranged in brackets or at intervals which permit variations up to 22½ cents per hundredweight before a change is brought about in the Class I and Class II price differentials. The record indicates that under the bracket system the Class I and Class II price differentials have not been sensitive to the changes occurring in the basic formula price. The bracket system has had a tendency to disrupt regional milk prices by reflecting prices that are out of line with neighboring markets. Also, contra-seasonal price trends have occurred under the bracket system which have been disturbing to the market. Producers often do not know, within a 22½-cent range, what their class prices will be from month to month, which adds further uncertainty to the normally expected changes occurring in the basic formula price.

A seasonal price pattern was proposed by both producers and handlers. The record shows that there has been a maladjustment in the supply of regular producer milk in relation to the market demand for Class I milk and Class II milk in the Dayton-Springfield area. The utilization of Class I milk and Class II milk has been relatively uniform throughout the year, whereas the receipt of milk from producers varies greatly between the seasons of the year. The variation in the receipts of producers' milk between the flush production season and the short production season has become progressively wider for several years. Production varies seasonally to such an extent that in 1946 the November production was only approximately 62 percent of that for June. Both, producers and handlers proposed a 2 (May and June), 6 (February, March, April, July, August and September), and 4 (January, October, November, and December) grouping of months in the proposed seasonal price pattern. The record indicates the desirability of eliminating the intermediate group of months. The period of relatively high production occurs in the months of April, May, June and July. The record shows no substantial difference in the production characteris-

tics between the months April and July, and May and June. Similarly the months of February, March, August and September seem to have production characteristics more akin to the period of short production. Producers and handlers insist that the Dayton-Springfield prices must be related to the prices paid in competing markets. The adoption of a 4–8 grouping of months will provide a seasonal pattern similar to that in effect in the Cincinnati and Columbus markets. The cost of producing milk is considerably higher during the fall and winter months than for April, May, June, and July. A price plan to induce an increase in milk production during the fall and winter seasons is urgent for the Dayton-Springfield market. A Class I price differential, employing floor prices, in the seasonal pattern is required to assure a substantially higher price in the fall and winter months compared to the spring months and thus develop a more level pattern of production. Producers need definite assurance of substantially higher prices during the fall and winter months if they are to produce more milk during these seasons. Floor prices for the 1947 and 1948 season will give this assurance. If the basic formula produces a higher price for these fall and winter months it should prevail as a further guarantee that the Class I price will be more in line with the then current marketing conditions.

Recent price plans employed in the Dayton-Springfield area have not provided as much seasonal variation in producer prices as was customary prior to the maximum price regulations during the war emergency. For this period of time farmers were induced to produce all the milk possible with little regard to the season or the requirements of the local markets. Under these conditions maximum milk production shifted to the spring months when production costs are at their lowest level. To halt and reverse this trend, especially at a time when general milk market conditions are unsettled, will require definite assurance that the fall and winter prices will be substantially higher than for May and June. Seasonality in the price pattern will afford an incentive to shift milk production from spring to fall and winter months.

The record supports the adoption of a seasonal Class I price differential whereby the price for Class I milk would be $1.05 over the basic formula price for the 8 months of August through March as compared to $0.75 over the basic formula price for the 4 months of April through July. Normally, the basic formula price will be from 20 to 40 cents higher during the short production months than for the flush production months. Also, normally the percentage utilization of producers' milk for fluid purposes is higher during the fall and winter months, resulting in about 20 cents higher blend price compared to the flush production months. Adding these three factors together it is estimated the blend price for the short production months will exceed the April through July prices from 70 to 90 cents.

Further, the record shows that handlers have procured milk from sources other than producers to meet the demand for Class I and Class II milk, especially during the period of short production. Not all such milk met the quality standard required of producer milk.

General economic conditions and business activity indicate an expanding demand for milk and milk products in the Dayton-Springfield area. Local industrial expansion, at increasing urban wage levels, tends to reduce the availability of farm labor and increases the cost of farm labor.

The prices of livestock and grains have advanced sharply in 1947 and, compared to decreasing milk prices, offer returns from alternative farm enterprises which will tend to discourage milk production if this relationship continues over an extended period of time.

Practically all costs incurred by producers in the production and marketing of milk, such as feeds, supplies, and equipment, have increased during the past year and particularly during February, March, and April of this year.

Attempting to find an index that will reflect many milk price making factors, the order provides a basic formula price for manufacturing milk. The basic formula does not, however, reflect fully all the factors necessary at arriving at a price for Class I milk. The order therefore provides a differential that is added to the basic formula price to arrive at the Class I price. This differential is utilized to reflect various price making factors not fully covered by the basic formula and to balance the relative weights of such factors under current local economic conditions so that the Class I price will be at a level which will reflect, in addition to the price and availability of feeds, other economic conditions which affect market supply and demand for milk in the marketing area and will insure an adequate supply of pure and wholesome milk and be in the public interest. The basic formula price has decreased $1.16 from November 1946 to April 1947, the last month reported in the hearing record. Farmers producing milk for fluid purposes must use feed, labor, and supplies more extensively to maintain production at a more uniform and higher level than is required of manufacturing milk producers. Consequently, the increases in the prices which have taken place in those commodities affect the fluid milk producers more than the producers of milk for condenseries.

Dayton-Springfield handlers compete with milk buyers in other areas, including the adjacent deficit Cincinnati area, for milk supplies to be used for fluid milk purposes. The record shows that for several months the Cincinnati price has been substantially higher than the Dayton-Springfield price. Both handlers and producers agree that the Dayton-Springfield milk price must be kept in close alignment with the milk prices prevailing in competing areas if an adequate supply of pure and wholesome milk is to be secured.

It is concluded that the proper weighing of the above-mentioned price making factors indicate the need for revising the Class I and Class II prices to (1) replace the bracket system of differentials with fixed differentials, (2) establish a definite pattern of seasonal prices, and (3) raise the annual average level of the differentials. It is further concluded that the milk producers of the Dayton-Springfield area need at this time, when they are planning their fall and winter production program, more definite assurance as to the level of milk prices than is afforded by the basic formula. In order to obviate uncertainty inherent in the basic formula during abnormal post-war marketing conditions a "floor price" for Class I milk and Class II milk is established below which the price will not be permitted to go. The level of floor prices for the fall and winter months should be substantially higher than the prices prevailing from April through July to emphasize the seasonal factor of milk pricing and assure farmers of higher prices during the seasons when an increase in milk production is most needed by the market.

These changes are accomplished by revising the present bracket system of differentials to the following pattern for determining the value of 3.5 percent butterfat content milk.

Month	Class I differential over basic formula price	Class II differential over basic formula price
April through July	$0.75	$0.45
August through March	1.05	.75
Average	.95	.65

Provided, That for the month of August 1947 the price for Class I milk and Class II milk shall not be less than $4.25 and $3.95, respectively, and for the months of September, October, November, and December, 1947, such prices shall not be less than $4.69 and $4.39, respectively. *Provided further*, That such prices for January 1948 shall not be less than such December 1947 prices minus $0.44 and that such February 1948 prices shall not be less than such January 1948 prices minus $0.44.

(8) The mthod of determining the value of Class III skim milk and butterfat should be revised to provide a seasonal price comparable to the price of competitive milk and further to provide a single price for the present so-called "Class III Regular" and "Class III Ice Cream" butterfat.

There is a large supply of milk produced for manufacturing purposes within the Dayton-Springfield milkshed and adjacent territory. The Health Department regulations of Dayton do not require that ice cream, cottage cheese, and other manufactured dairy products be made from Grade "A" or producer milk. During the flush production months the supply of producer milk exceeds the fluid milk and cream requirements of handlers and such excess milk must be utilized in manufactured products which are sold in competition with products made from milk not priced by the order. The record indicates that, during the flush production season, Class III produced butterfat has been priced relatively high to competitive butterfat. During the short production months, substantial quantities of milk from sources other than producers has been imported by handlers. During the short production season a very limited quantity of producer milk is available for manufacturing purposes to compete with the other source milk. Thus, the present price level should be increased for producer milk utilized in Class III products during the period of short supply.

It is concluded that the method of determining the values of Class III skim milk and butterfat should be revised to provide a seasonal price comparable to the price of competitive milk and to provide one price for the present so-called "Class III regular and Class III ice cream butterfat" by giving skim milk and butterfat the following values:

Month	Skim milk	Butterfat other than butter
April through July	Apply present formula	Apply present "regular" formula.
August through March	Apply present formula plus 20¢ per cwt.	Apply average Chicago 92-score, wholesome butter price times 1.25.

The new butterfat price for the months of August through March is approximately equivalent to the weighted average of the present price for "regular" and "ice cream" butterfat for such months. Such a pricing plan will facilitate the marketing of all producer milk during the period of flush production and accentuate the variation of seasonal prices employed for Class I and Class II milk.

(9) An individual-handler type of pool should not be established in place of the present market-wide pool at this time.

Under the present market-wide pool all producers receive the same minimum uniform price. Under the proposed individual-handler pool, handler minimum uniform prices would vary, being dependent upon the utilization of milk by each individual handler. Thus under the individual-handler pool a handler having a relatively high Class I utilization would be required to pay producers a higher price than a handler having a relatively low Class I utilization. The record shows that there is considerable variation in the percentage of producer milk utilized in Class I as between handlers and that the individual-handler pool was proposed as an attempt to reapportion supplies of producer milk between handlers by providing a price incentive under the order for producers to shift from low blend price handlers to high blend price handlers. Proponents of the individual-handler pool contend that a difference in the various uniform minimum prices would bring about producer shifts between handlers. However, since some handlers have paid producers in excess of the minimum uniform price in an effort to obtain greater supplies while other handlers have paid only the minimum uniform price required under the market-wide pool, it cannot be assumed that some variation in the uniform minimum prices under an individual-handler pool would effect a material reapportionment of milk supplies between handlers, especially during months of short supply. Furthermore, it cannot be assumed that low blend price handlers will permit a loss of their supplies because of a difference in minimum order prices, and unstable conditions in the market could result.

Handlers opposed to the adoption of an individual-handler pool contend that under the individual-handler pool there would be a tendency to decentralize the handling of supplies in excess of Class I and Class II requirements which now constitute a reserve supply for the market during months of short production. This reserve supply of milk under the market-wide pool is received by handlers having full and complete equipment for the most effective use thereof. If, under the individual-handler pool, reserve milk is shifted to plants with inadequate facilities for its most economical use there could develop a constant pressure to lower the Class III price.

The record shows that the supply problem has improved since the inception of the order. It is believed that the recommended class price amendments, if adopted, will further alleviate the supply situation. The record is inconclusive as to whether an individual-handler pool could accomplish this result in an orderly manner, but is rather indicative of the willingness of part of the industry to experiment in an effort to solve some supply allocation problems.

It is concluded that the individual-handler type of pool should not be established at this time in place of the market-wide type of pool.

(10) An alternative method of computing the price to be received by producers of high butterfat content milk that will give special price consideration to the returns of such producers should not be established, but the producer butterfat differential rate should be kept equivalent to the revised price of butterfat disposed of in Class III for other than butter making.

Four proposals were made to give special price consideration to high butterfat content milks especially Golden Guernsey milk. These proposals would, in the alternative, provide for (i) a price premium for so-called special milk to be set aside in a separate pool and paid by the handlers of and above the pool price, (ii) a reduction in the price of butterfat (over 3.5 percent) in high test bottled milk to the Class III butterfat level, (iii) payment to producers of so-called special milk a butterfat differential at a rate equal to the price of Class I butterfat or (iv) a butterfat differential to all producers of milk testing more than 3.5 percent of butterfat at a rate equal to the weighted average price of butterfat paid by the handler. (A fifth proposal would provide for an individual handler pool in substitution for the present market-wide pool. This proposal is disposed of in paragraph 9.)

The Dayton-Springfield order provides for the pricing of all producer milk received by handlers on a classified basis depending upon its use. Such a system permits all producers to share proportionately in the proceeds from the various uses to which milk is put and prevents any producer or group of producers from receiving a disproportionate share of the proceeds. This does not prevent handlers from paying premiums to producers over the order price for milk having special value to the handlers or their customers. The record indicates proposals (i), (ii), and (iii) above would give preferential price treatment to certain producers.

The record indicates that the market is somewhat long on butterfat and short on skim milk. The adoption of any of the above proposals would encourage the production of high butterfat content milk and would tend to increase this disparity between skim milk and butterfat. Also producers of high butterfat content milk do not have a fluid market for all the milk they produce and such excess milk, particularly the butterfat therefrom must be disposed of in manufactured products.

The record shows that the essential difference between Guernsey milk and other milk is one of butterfat content and that Guernsey milk does not differ materially from other milk of comparable high fat content.

Recognizing that the value of milk varies on the basis of its butterfat content the order provides a butterfat differential to adjust the price of milk to producers having a butterfat content varying from 3.5 percent. The principal issue therefore seems to be whether or not the rate of the butterfat differential is correct. The proposal to base the producer butterfat differential on the price for Class I butterfat or currently on the weighted average of the price paid by handlers for butterfat would tend to encourage the production of an excess of butterfat in relation to skim milk which does not appear to be justified by the record. The present butterfat differential is set at 120 percent of the value of 92-score Chicago wholesale butter price. Inasmuch as most of the butterfat in producer milk testing in excess of the market average is disposed of in Class III products having a higher value than butter it appears logical that the butterfat differential should approximate the higher Class III value. This should not tend to encourage the production of butterfat for exclusive use in manufactured products but would enable the fluid milk producer having high butterfat content milk to realize the regular Class III price for the differential or excess fat used for manufacturing purposes by handlers.

It is concluded, therefore, that an alternative method of pooling high butterfat content milk should not be established, but the butterfat differential should be kept equivalent to the revised price of butterfat utilized in Class III for purposes other than butter manufacture.

(11) The section providing for an assessment covering administrative expense should be revised to provide for (i) changes in the administrative assessment rate below the maximum fixed in such section to be determined by the Secretary rather than by the market ad-

ministrator (subject to review by the Secretary), (ii) elimination of the announcement by the market administrator of the applicable rate of assessment for the delivery period, and (iii) eliminate the administrative assessment on milk received from emergency and other sources not classified as Class I milk and Class II milk.

Procedure for making changes in such rates will be less complicated if such rate-making is made a direct function of the Secretary rather than a review function. Since the rate will remain unchanged for each delivery period until altered by a published rule, it will be unnecessary to require monthly public announcements by the market administrator. This revision will simplify the establishment of appropriate rates of assessment any time that the assessment rate must be changed.

The elimination of the administrative assessment on milk received from emergency and other sources not classified as Class I and Class II milk will place the assessment on milk primarily received for fluid purposes and result in a more equitable assessment between handlers, of the cost of administering the order. The date on which handlers are required to make payment of the assessment should be extended two days to conform with the revised time schedule contained in other sections of the order.

(12) The section providing for marketing service deductions should be revised to (i) authorize the Secretary to fix the assessment rate below the maximum prescribed in such section and (ii) eliminate the application of the marketing service deductions to milk of a handler's own production.

The fixing of the rate of marketing service deductions by the Secretary (who must now review the rate established by the market administrator) will simplify the procedure for establishing such rates of assessment below the maximum prescribed in the order.

Marketing service payments are designed primarily to cover the cost of verifying the weights and tests of producer milk. Producers who are not members of a cooperative association usually are not in a position to govern the disposition of milk and it is not practicable for them to verify the weights and tests of deliveries of their own milk. In the case of milk of a handler's own production such service is not necessary as a protection since the handler has full control of the handling of such milk from the farm to its disposition from his plant. The date on which handlers are required to pay such deduction to the market administrator should be extended two days to conform with the revised time schedule contained in other sections of the order.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Miami Valley Cooperative Milk Producers' Association, Inc., The Ohio Guernsey Breeders Association, Inc., and various handlers subject to Order No. 71. The briefs contain statements of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although all of the briefs do not contain specific requests to make proposed findings, it is assumed that the arguments and conclusions submitted were for this purpose and are treated accordingly. To the extent that such proposed findings and conclusions are inconsistent with the proposed findings and conclusions contained herein, the implied request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Delete from § 971.2 (c) (7) the term "10th" and substitute therefor the term "12th".

2. Delete from § 971.3 (a) the term "5th" and substitute therefor the term "7th".

3. Delete from § 971.3 (b) (3) the term "20th" and substitute therefor the term "22d".

4. Delete from § 971.4 (b) (2) the phrase "; or (iii) as cottage cheese".

5. Add to § 971.4 (b) (3) (i) after the term "condensed skim milk," the term "cottage cheese,".

6. At the end of § 971.4 (b) (3) (iii) change the period (.) to a colon(:) and add thereafter the following: "*Provided*, That skim milk or butterfat transferred by a handler to any plant of another handler, without first having been weighed and tested in the transferring handler's plant, shall be included in the receipts at the plant of the handler weighing and testing such skim milk or butterfat for the purpose of computing his plant shrinkage to be classified in Class III and shall be excluded from the receipts of the transferring handler for the purpose of computing his plant shrinkage to be classified in Class III."

7. Delete from § 971.4 (d) (1) (iii) the term "5th" and substitute therefor the term "7th".

8. Delete from § 971.4 (d) (2) (iii) the term "5th" and substitute therefor the term "7th".

9. Delete from § 971.5 the provisions of paragraphs (b) and (c) and substitute therefor the following:

(b) *Class I milk prices.* The price to be paid by each handler f. o. b. his plant for that portion of skim milk or butterfat in milk received from producers and from associations of producers which is classified as Class I milk shall be computed as follows:

(1) Add to the basic formula price the following amount for the months indicated:

Month	Amount
April, May, June, and July	$0.75
All others	1.05

Provided, That if the sum so obtained for the month of August, 1947 is less than $4.25, an additional amount shall be added so that the sum obtained will equal $4.25, and if the sum so obtained for any of the months of September, October, November, and December, 1947 is less than $4.69 an amount shall be added so that the sum obtained will equal $4.69: *Provided further*, That if the sum so obtained for January 1948 is less than the sum obtained for December 1947 minus $0.44 an additional amount shall be added so that the sum obtained will equal the sum obtained for December 1947 minus $0.44; and if the sum so obtained for February 1948 is less than the sum obtained for January 1948 minus $0.44 an additional amount shall be added so that the sum obtained will equal the sum obtained in January 1948 minus $0.44.

(2) The price per hundredweight of Class I butterfat shall be the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during such month multiplied by 135.

(3) The price per hundredweight of Class I skim milk shall be computed by (i) multiplying the price for butterfat pursuant to subparagraph (2) of this paragraph by 0.035; (ii) subtracting such amount from the sum obtained in (1) of this paragraph; (iii) dividing such net amount by 0.965; and (iv) rounding off to the nearest full cent.

(c) *Class II milk price.* The price to be paid by each handler f. o. b. his plant for that portion of skim milk or butterfat in milk received from producers and associations of producers which is classified as Class II milk shall be computed as follows:

(1) Add to the basic formula price the following amount for the months indicated:

Month	Amount
April, May, June, and July	$0.45
All others	.75

Provided, That if the sum so obtained for the month of August 1947, is less than $3.95, an additional amount shall be added so that the sum obtained will equal $3.95; and if the sum so obtained for any of the months of September, October, November, and December, 1947, is less than $4.39 an amount shall be added so that the sum obtained will equal $4.39: *Provided further*, That if the sum so obtained for January 1948 is less than the sum obtained for December 1947 minus $0.44 an additional amount shall be added so that the sum obtained will equal the sum obtained for December 1947 minus $0.44; and if the sum so obtained for February 1948 is less than the sum obtained for January 1948 minus $0.44 an additional amount shall be added so that the sum obtained will equal the sum obtained in January 1948 minus $0.44.

(2) The price per hundredweight of Class II butterfat shall be the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during such month multiplied by 130.

(3) The price of Class II skim milk shall be computed by (i) multiplying the price for butterfat pursuant to subparagraph (2) of this paragraph by 0.035; (ii) subtracting such amount from the sum obtained in (1) of this paragraph; (iii) dividing such net amount by 0.965; and (iv) rounding off to the nearest full cent.

10. Delete § 971.5 (d) (1) and (2) and substitute therefor the following:

(1) The price per hundredweight of such skim milk shall be computed for the months of April, May, June and July by subtracting 5.5 cents from the average price per pound of nonfat dry milk solids and multiplying the result by 8.5; and for the months of January, February, March, August, September, October, November and December by subtracting 5.5 cents from the average price per pound of nonfat dry milk solids and multiplying the result by 8.5 and adding 20 cents. (The price per pound of nonfat dry milk solids to be used for each such month shall be the average of the carlot prices for nonfat dry milk solids, roller process for human consumption, delivered at Chicago, as reported by the Department of Agriculture for such month, including in such average the prices published for any fractional part of the previous month which were not available at the time of such average price determination for the previous month.)

(2) The price per hundredweight of such butterfat shall be computed for the months of April, May, June and July by multiplying the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during each such month, by 120; and for the months of January, February, March, August, September, October, November, and December by multiplying the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during each such month, by 125: *Provided*, That the price per hundredweight of butterfat made into butter shall be computed by multiplying the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during each such month by 120 and subtracting $3.60 from the result.

11. Delete from § 971.7 (b) the term "10th" and substitute therefor the term "12th".

12. Delete from § 971.7 (e) (2) the term "10th" and substitute therefor the term "12th".

13. Delete from § 971.8 (a) (1), (a) (2), (b) (1), (b) (2), (d), (e) (1), and (e) (2), the terms "15th", "14th" "25th", "24th", "12th", "14th", and "14th", respectively, and substitute therefor the terms "17th", "16th", "27th", "26th", "14th", "16th", and "16th", respectively.

14. Delete § 971.9 and substitute therefor the following:

§ 971.9 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 971.2 (c) (3), each handler shall pay to the market administrator, on or before the 14th day after the end of each month, 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to receipts during such month of:

(1) Milk from producers (including such handler's own production), and

(2) Skim milk and butterfat from emergency and other sources classified as Class I milk and Class II milk.

15. Delete the provisions of § 971.10 (a) and substitute therefor the following:

(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 5 cents per hundredweight, or such lesser amount as the Secretary from time to time may prescribe, from the payments made pursuant to § 971.8, with respect to all milk received by such handler during each month from producers (not including such handler's own production) and from association of producers, and shall pay such deductions to the market administrator on or before the 14th day after such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of such milk received by handlers and to provide such producers and associations of producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by him and responsible to him.

16. Delete from § 971.10 (b) the term "14th" and substitute therefor the term "16th".

Filed at Washington, D. C. this 30th day of July 1947.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 1606472]

ALASKA

NOTICE OF FILING OF PLATS OF SURVEY

JULY 29, 1947.

Notice is given that the plats of survey of land hereinafter described will be officially filed in the District Land Office, Anchorage, Alaska, effective at 10:00 a. m. on September 30, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to settlement, application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 30, 1947 to December 29, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 10, 1947, to September 30, 1947, inclusive such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 30, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 30, 1947, any of the lands remaining unappropriated shall become subject to such settlement, application, petition, location, or selection by the public generally as may be authorized by the public land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 10, 1947 to December 30, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 30, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 65 and 66, inclusive, of Title 43 of the Code of Federal Regulations and applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Anchorage, Alaska.

The lands affected by this notice are described as follows:

SEWARD MERIDIAN

T. 5 N., Rs. 8, 9, 10 W., inclusive (complete survey).
T. 6 N., R. 10 W.,
Secs. 30 and 31.
T. 4 N., R. 11 W.,
Secs. 1 to 3, inclusive;
Secs. 10 to 36, inclusive.
T. 6 N., R. 11 W.,
Secs. 22 to 27, inclusive;
Secs. 34 to 36, inclusive.

The E½ sec. 20, secs. 21 and 28, and E½ sec. 29, T. 4 N., R. 11 W., are subject to Executive Order No. 7888 of May 16, 1938, withdrawing these lands from settlement, location, sale or entry for classification and pending a determination as to the advisability of reserving them for national monument purposes.

Pursuant to Executive Order No. 8979 of December 16, 1941, establishing the Kenai National Moose Range, the E½, E½NW¼ sec. 30, NE¼, E½SE¼ sec. 31, T. 6 N., R. 10 W., lots 1, 2, S½NE¼, SE¼ sec. 1, E½ sec. 12, E½ sec. 13, E½, E½W½ sec. 24, E½, E½W½ sec. 25, E½, E½W½ sec. 36, T. 4 N., R. 11 W., and NE¼ sec. 24, T. 6 N., R. 11 W., are not subject to settlement, location, sale, or entry, or other disposition (except for fish trap sites) under any of the public-land laws applicable to Alaska, nor to classification and lease for fur farming or grazing purposes under the acts of July 3, 1926 (44 Stat. 821, 48 U. S. C. secs. 360–361) and March 4, 1927 (44 Stat. 1452, 48 U. S. C. secs. 471–471o).

The lands are located east of the Village of Kenai, adjacent to the Kenai River. These lands are level to rolling in character with intermittent lakes and swamps throughout the area. The timber cover consists chiefly of spruce, birch and aspen, little of which is valuable for commercial purposes. Reconnaissance of the area indicates there is a considerable acreage of land suitable for general crop production and grazing.

FRED W. JOHNSON,
Director.

Office of the Secretary

[Order 2350]

ALASKA

NOTICE OF HEARINGS AND PROPOSED DESIGNATION OF NATIVE RESERVATION

1. Notice is hereby given that public hearings will be held at Nome, Alaska, at 2 p. m., on August 16, 1947, and at Shungnak, Alaska, at 10 a. m., on August 18, 1947, for the purpose of determining whether the lands described in paragraph three hereof should be designated under section 2 of the act of May 1, 1936 (49 Stat. 1250, 48 U. S. C. 358a), as a reservation for native inhabitants of the village of Shungnak and vicinity. All interested persons may attend at such times and places and present their views to the hearing officer, and may file any written statements or documents with such officer, or with the Department within 60 days from the date of this notice.

2. William E. Warne, Assistant Secretary of the Interior, is hereby designated to hold the said hearings as the immediate representative of the Secretary, and Harry M. Edelstein, Assistant Solicitor, Department of the Interior, shall act as alternate. A designation of the foregoing lands as a native reservation will not be made until after such hearings and said 60-day period and will not become effective until approved by a majority vote of the natives residing in the area described below, voting in the manner prescribed by section 2 of the act of May 1, 1936, *supra*.

3. The lands affected are as follows:

Beginning at a point on the right bank of the Kobuk river one mile below the mouth of the Ambler River, thence North 12 miles, thence East 51 miles, crossing the Ambler, the Shungnak and the Kogoluktuk Rivers, thence South 18 miles to a point northwest of Lake Selby, thence East 14 miles, thence South 18 miles, more or less, passing to the east of Lake Selby, to a point on the south side of the Kobuk River, thence West 14 miles, thence South 17 miles, thence West 13.5 miles to the ridge between the headwaters of the Selawik and the Pah Rivers, thence in northwesterly courses along the aforesaid ridge to the ridge or divide between the Selawik and the Pick Rivers, thence following said divide to the left bank of the Kobuk River, thence down stream with said left bank to a point South of the place of beginning, thence North, crossing the Kobuk River to the place of beginning, enclosing an area of approximately 2,300 square miles.

AUGUST 1, 1947.

[P. & S. Docket 1246]

ST. LOUIS NATIONAL STOCKYARDS CO.

NOTICE OF PETITION FOR MODIFICATION

Pursuant to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary prescribed reasonable rates and charges for the respondent by an order dated May 9, 1946 (5 A. D. 338), and a supplemental order dated June 26, 1946 (5 A. D. 449). By supplemental orders dated December 4, 1946 (5 A. D. 873), and May 26, 1947 (6 A. D. 428), the respondent has been permitted to assess certain temporary rates and charges which are due to expire on June 30, 1948, after which basic rates are again to be in effect unless otherwise ordered.

By petition filed July 29, 1947, the respondent has requested permission to assess and charge certain increased rates for yardage to and until June 30, 1948, as follows:

YARDAGE CHARGE

	Requested increased rates	Existing rates
	Cents per head	*Cents per head*
A. Livestock sold or resold in the Commission Division		
Cattle	60	55
Calves	38	35
B. Livestock received directly by packers through the yards:		
Cattle	20	18
Calves	19	15

The other rates and charges for the respondent are to remain unchanged. However, the respondent also requests permission to publish a new section to its tariff, as follows, and to assess and charge, in accordance with the section, the rates and charges prescribed thereby on a temporary basis until June 30, 1948:

SECTION I-A

DRIVING LIVESTOCK TO RAILROAD CHUTES

Driving livestock to railroad chutes for outbound shipment:

Cattle	$2 per car.
Calves	$1 per deck.
Hogs	$1 per deck.
Sheep and goats	$1 per deck.
Horses and mules	$2 per car.

It appears that public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for modification. All interested persons who desire to be heard upon the matters requested in said petition shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served upon the respondent by registered mail or in person.

Done at Washington, D. C., this 30th day of July 1947.

PATRIOT CO. ET AL.

ORDER AMENDING AND ENLARGING ISSUES

In re applications of The Patriot Co., Harrisburg, Pennsylvania, Docket No. 6884, File No. BP-4091, for construction permit; WHP, Inc. (WHP), Harrisburg, Pennsylvania, Docket No. 7115, File No. BP-4334, for construction permit; Union Broadcasting Co. (WARM), Scranton, Pennsylvania, Docket No. 7851, File No. BP-5186, for construction permit; John H. Stenger, Jr. (WBAX), Wilkes-Barre, Pennsylvania, Docket No. 7852, File No. BP-5212, for construction permit.

The Commission having under consideration the above-entitled applications; and

It appearing, that Union Broadcasting Company (WARM) and John H. Stenger, Jr. (WBAX) are both requesting the frequency 590 kc, with 1 kw power, unlimited time, with directional antenna day and night; that on July 1, 1947, the Commission issued a proposed decision looking to a grant of the facilities 590 kc, with 1 kw power, unlimited time, to Lynchburg Broadcasting Corporation (WLVA), Lynchburg, Virginia; that there is a question of electrical interference between the proposed operation of Union Broadcasting Company (WARM) and John H. Stenger, Jr. (WBAX) and the operation of Lynchburg Broadcasting Corporation as proposed in the Commission's decision of July 1, 1947; and

It appearing further, that evidence as to the above-mentioned question of electrical interference is pertinent to the instant proceeding; and that the issues in said proceeding should be enlarged so as to raise the question of such interference;

It is ordered, This 28th day of July 1947, that the notices of hearing in the above-entitled proceeding dated September 19, November 21 and December 30, 1946, be, and they are hereby, amended to include the following issue:

To determine whether the proposed operation of Union Broadcasting Company (WARM), Scranton, Pennsylvania, and John H. Stenger, Jr. (WBAX), Wilkes-Barre, Pennsylvania, would involve objectionable interference with the service of a proposed station at Lynchburg, Virginia, to be operated by the Lynchburg Broadcasting Corporation on 590 kc, with a power of 1 kw, DA-2, unlimited time, as set forth in the proposed decision, released July 1, 1947, in Docket 6866 et al., and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

TEXAS GULF COAST BROADCASTING CO. AND ALICE BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of E. H. Rowley, Nathan Clark, James A. Clements, Glen H. McClain, and L. M. Rice, a partnership d/b as Texas Gulf Coast Broadcasting Co., Corpus Christi, Texas, Docket No. 8475, File No. BP-5360; J. H. Mayberry, Buford Nicholson and E. G. Lloyd, Jr., a partnership d/b as Alice Broadcasting Co. (KBKI), Alice, Texas, Docket No. 8476, File No. BP-5882, for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 24th day of July 1947;

The Commission having under consideration the above-entitled applications by Texas Gulf Coast Broadcasting Company, requesting a permit to construct a new standard broadcast station in Corpus Christi, Texas, to operate on 1070 kc, with 10 kw power, unlimited time, using a directional antenna, this application specifically requesting that the daytime only facilities on 1070 kc assigned to Alice Broadcasting Company (KBKI), Alice, Texas, be withdrawn and another frequency be substituted therefor; and by Alice Broadcasting Company requesting a construction permit to change the assignment of station KBKI, Alice, Texas, from 1070 kc with 1 kw power, daytime only, to 1070 kc, with 5 kw power, unlimited time, using a directional antenna nighttime;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant Texas Gulf Coast Broadcasting Company and the partners to construct and operate its proposed station, and to determine the technical, financial and other qualifications of the applicant Alice Broadcasting Company and the partners to construct and operate Station KBKI as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations, and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered, and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations, or either of them, would involve objectionable interference with any existing broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of each of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, especially with respect to blanket area populations in so far as Alice Broadcasting Company is concerned.

7. With respect to the proposal of Alice Broadcasting Company, to determine whether the proposed operation would adversely affect the operation of the Commission's primary monitoring station at Kingsville, Texas, and if so, whether the proposed operation would be in the public interest.

8. To determine on a comparative basis, which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

WESTERN UNION TELEGRAPH CO.

ORDER INSTITUTING INVESTIGATION

The Commission, having under consideration Public Law 193, 80th Congress, 1st Session, enacted July 16, 1947, providing for the repeal of the Post Roads Act of 1866, as amended; the Commission's Report of June 4, 1946, Docket No. 7445, In the Matter of The Western Union Telegraph Company, Petition for Rate Increase; Commission Order No. 137, dated May 28, 1947, with respect to charges for Government telegraph communications for the year ended June 30, 1948; and the presently effective tariff schedules of The Western Union Telegraph Company with respect to United States Government domestic telegraph communications; and having also under consideration new tariff schedules filed by The Western Union Telegraph Company on July 17 and 21, 1947, to be effective August 25, 1947, designated as follows:

THE WESTERN UNION TELEGRAPH COMPANY

Tariff F. C. C. No. 177

Supplement No. 3

Tariff F. C. C. No. 176

10th Revised Page No. 37
5th Revised Page No. 38
14th Revised Page No. 39
3d Revised Page No. 40

Tariff F. C. C. No. 173

36th Revised Page No. 5T
11th Revised Page No. 5TA
11th Revised Page No. 5U
15th Revised Page No. 5V
24th Revised Page No. 5W

Tariff F. C. C. No. 223

Supplement No. 109

It appearing, that the above new tariff schedules of The Western Union Telegraph Company would have the effect of generally eliminating the differential presently existing between the charges for commercial telegrams and those for certain "domestic" United States Government Telegrams, namely, interstate telegrams within the continental United States, and telegrams between the continental United States, on the one hand, and Alaska, Canada, Mexico (except Full Rate Telegrams), Newfoundland, Labrador, and Miquelon, on the other hand;

It further appearing, That the above new tariff schedules of The Western Union Telegraph Company would also have the effect of eliminating the priority now provided for United States Government telegrams between the above-named points;

It further appearing, That the above new tariff schedules of The Western Union Telegraph Company would result in increased charges to the United States Government for and in connection with the use of telegraph communications between the above-named points, and would preclude any priority for such communications of the United States Government; and that it is desirable in the public interest that the various United States Government departments and agencies which are directly affected thereby as users of such communications be given an opportunity to be heard with respect to the proposed increased charges and elimination of priority;

It is ordered, This 24th day of July, 1947, That pursuant to sections 201, 204, 205 and 403 of the Communications Act of 1934, as amended, the Commission, upon its own motion and without formal pleading, shall enter upon a hearing concerning the lawfulness of the charges, classifications, regulations and practices set forth in the above-cited tariff schedules;

It is further ordered, That pursuant to section 204 of the Communications act of 1934, as amended, the operation of the above-cited tariff schedules is hereby suspended until November 25, 1947, unless otherwise ordered by the Commission; and that during said period of suspension, no changes shall be made in said tariff schedules, or in the regulations, charges or practices sought to be altered thereby, unless authorized by special permission of the Commission;

It is further ordered, That pursuant to sections 201, 205 and 403 of the Communications Act of 1934, as amended, an investigation is hereby instituted into the lawfulness of the charges, classifications, regulations, practices and services of The Western Union Telegraph Company for and in connection with United States Government "domestic" telegraph communications, that is, interstate telegraph communications within the continental United States, and United States Government telegraph communications between points in the continental United States and other North American points;

It is further ordered, That, without in any way limiting the scope of the investigation herein, it shall include inquiry into the following matters with respect to "domestic" (as above defined) telegraph communications of the United States Government:

(1) The lawfulness, under the Communications Act of 1934, as amended, of the charges, classifications, regulations and practices proposed by The Western Union Telegraph Company in the above-cited tariff schedules;

(2) Whether under section 201 (b) of the Communications Act of 1934, as amended, there shall be established a United States Government class or classes of communications, with charges and regulations therefor different from those for corresponding non-Government communications; and, if so, whether such Government class or classes of communications shall be applicable to all the established departments, independent establishments, and agencies in the legislative, executive, and judicial branches of the Federal Government, or whether they shall be applicable only to particular departments, establishments or agencies;

(3) What will be the just and reasonable charges to be observed, and what classifications, regulations and practices are or will be just, fair and reasonable for and in connection with United States Government domestic telegraph communications;

(4) The nature and extent of the priority, if any, to be accorded United States Government domestic telegraph communications;

(5) The regulations and practices to be followed by respondent carriers with respect to liability to the United States Government and to others for failure of delivery, delayed delivery, incorrect transmission, or other acts resulting in injury or damage, in connection with the carriers' handling of United States Government domestic telegraph communications;

It is further ordered, That in the event a decision as to the lawfulness of the charges, classifications, regulations and practices herein suspended has not been made during the aforesaid suspension period, and said charges, classifications, regulations and practices set forth in the above-cited tariff schedules go into effect, The Western Union Telegraph Company and the other respondent carriers shall, until further order of the Commission, keep accurate account of all amounts charged, collected or received by reason of such increase; and that said carriers shall specify in such accounts the department, establishment or agency of the Government by whom and in whose behalf such amounts are paid;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that The Western Union Telegraph Company and all carriers concurring in said tariff schedules are hereby made party respondents to this proceeding; and that a copy hereof be served on such carriers;

It is further ordered, That a copy of this order shall also be served upon all departments, establishments and agencies in the legislative, executive, and judicial branches of the Federal Government, and they are given leave to intervene and participate in the proceedings herein;

It is further ordered, That this proceeding is assigned for hearing on September 22, 1947, beginning at 10:00 a. m., at the offices of the Federal Communications Commission in Washington, D. C., and that the Commission's Telegraph Committee, or one or more members thereof, is hereby authorized to preside at the hearings and otherwise to conduct the proceedings herein.

Notice is hereby given, That § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

KXXL, RENO, NEV.[1]

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF PERMIT

The Commission hereby gives notice that on July 24, 1947 there was filed with it an application (BAP-47) for its consent under section 310 (b) of the Communications Act to the proposed assignment of permit of AM Station KXXL, Reno, Nevada from Chet L. Gonce, d/b as The Voice of Reno to Edward Margolis, Byron J. Samuel and Frederick W. Kirske, a partnership. The proposal to assign the permit arises out of a contract of July 1, 1947 pursuant to which Gonce agrees to sell and the assignee partnership agrees to buy all the assets and properties of AM Station KXXL, Reno, Nevada for a total consideration of $30,000 (subject to the assumption by the purchasers of the difference between current income and operating expenses between the time of the contract and the consummation of the sale) to be paid as follows: $20,000 in cash and a promissory note for $10,000 (due in six months from closing and secured by a chattel mortgage) both to be placed in escrow on July 2, 1947 and to be transferred to the seller on approval date by the Federal Communications Commission. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

[1] Section 1.321, Part I, Rules of Practice and Procedure.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on July 24, 1947 that starting on July 30, 1947 notice of the filing of the application would be inserted in a newspaper of general circulation at Reno, Nevada in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from July 30, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

KERO, BAKERSFIELD, CALIF.[1]

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE

The Commission hereby gives notice that on July 18, 1947 there was filed with it an application (BAL-627) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of AM station KERO, Bakersfield, California, from J. E. Rodman to Paul R. Bartlett. The proposal to assign the license arises out of a contract of July 9, 1947 pursuant to which Rodman agrees to sell and Bartlett agrees to buy all the fixed and tangible assets and lease-hold interest owned by Rodman and used or useful in the operation of KERO together with the contracts and agreements of KERO. Rodman will retain all money, bank accounts and receivables and Bartlett will collect accounts receivable and remit to Rodman as collections are made. Consideration to be paid in cash is a minimum of $25,000, but in no event less than the original cost of the assets sold less depreciation at closing date.

This application is contingent upon the granting of certain applications now on file with the Commission proposing a consolidation of KFRE, Fresno, California, and KTKC, Visalia, California, into a single 50 kw station to be operated by California Inland Broadcasting Company in which said Rodman holds a 40% interest. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on July 18, 1947 that starting on July 31, 1947 notice of the filing of the application would be inserted in the "Bakersfield Californian" a newspaper of general circulation at Bakersfield, California, in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from July 31, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

T.; thence south 56° 42' 40" east 931.49 feet to Engineer's Station 106+61.90 at which point the above described center line intersects the center line of United States Highway No. 97.

Parcel B: A perpetual easement to operate and maintain a telephone line in, on, over and across the following described lands located in Deschutes County, Oregon, to-wit:

A parcel of land situated in Sections 3, 4 and 5, Township 20 South, Range 11 East of the Willamette Meridian in Deschutes County, Oregon, said parcel being a strip of land 50 feet in width, 25 feet on each side of the center line hereinafter described, and extending from the easterly right-of-way line of the Great Northern Railway in said Section 5 to the existing toll line of the Pacific Telephone and Telegraph Company in said Section 3. The center line of said strip of land is more particularly described as follows:

Beginning at a point which is north 2463.74 feet and west 992.44 feet from the southeast corner of Section 5, Township 20 South, Range 11 East of the Willamette Meridian in Deschutes County, Oregon, opposite and 25 feet distant from which point the northeasterly right-of-way line of said strip of land intersects the easterly right-of-way line of the Great Northern Railway; thence south 73° 22' 30" east 654.92 feet; thence south 89° 56' east 749.4 feet; thence south 59° 56' 30" east 1647.8 feet; thence south 89° 59' 30" east 1049.65 feet; thence north 76° 26' 30" east 299.6 feet; thence north 75° 48' east 147.95 feet; thence north 62° 46' east 636.0 feet; thence south 85° 03' east 405.75 feet; thence south 84° 57' east 1503.35 feet; thence south 84° 54' east 1570.1 feet; thence south 70° 21' east 824.25 feet; thence south 70° 11' 30" east 489.9 feet to the existing Pacific Telephone and Telegraph Company toll line in said Section 3.

But excepting that part lying within the right-of-way of United States Highway No. 97 in said Section 3.

Parcel C: A perpetual easement for a roadway on, over and across the following described lands located in Deschutes County, Oregon, to-wit:

That portion of the Northeast Quarter of the Southwest Quarter and the Southeast Quarter of Section 31 and the Southwest Quarter of Section 32, Township 19 South, Range 11 East of the Willamette Meridian lying and being in a strip of land 66 feet wide and being 33 feet wide on each side of the following described center line:

Beginning at a point where the center line of the Great Northern Railway (Station 247+66.9 RR) intersects the center line of Camp Abbot Access Road, said point being described as follows: Commencing at the section corner common to Sections 4, 5, 8 and 9, Township 20 South, Range 11 East of the Willamette Meridian; thence West along section line between Sections 5 and 8, 848 feet to a point on the center line of the Great Northern Railway (Station 270+48.0 RR); thence North 4° 18' West along center line of said railway 2281.1 feet to the point of beginning of this description; thence South 89° 58' West along the center line of access road 600 feet to a point; thence northwesterly on a 10° curve to the right (radius 572.96 feet) 775 feet to a point; thence North 12° 32' West 43.5 feet to a point; thence northwesterly on a 25° curve to the left (radius 229.18 feet) a distance of 241.86 feet to a point on the center line of "F" street; thence North 73° 00' West, along center line of "F" Street, 903.8 feet to a point on the center line of 2nd Avenue; thence North 17° 00' East along the center line of 2nd Avenue 2,910 feet to

a point on the center line of "L" Street; thence North 73° 00' West along center line of "L" Street 1075 feet to a point on the center line of 3rd Avenue, and the beginning of the Military Road. Thence North 73° 00' West 183.03 feet to a point; thence on a 10° curve to the right (radius of 572.96 feet), a distance of 133.33 feet; thence North 59° 40' West, 1545.90 feet to a point; thence on a 3° curve to the left (radius of 1909.86 feet) a distance of 1185.65 feet to a point; thence South 84° 45' 50" West, 3069.45 feet to a point; thence on a 3° curve to the right (radius of 1909.86 feet), a distance of 457.50 feet to a point; thence North 81° 30' 40" West, 423.65 feet to a point; thence on a 24° curve to the right, (radius of 238.73 feet), a distance of 339.44 feet to a point on the center line of the West Side Road. The same being a portion of the Military Road and "L" Street, Camp Adair, Oregon as the same are now located and constructed on, over and across the said property.

Parcel D: A perpetual easement for a roadway on, over and across the following described lands located in Deschutes County, Oregon, to-wit:

That portion of the Southeast Quarter of Section 31, Township 19 South, Range 11 East of the Willamette Meridian, lying and being in a strip of land 66 feet wide and being 33 feet wide on each side of the following described center line.

Beginning at a point on the center line of Training Aids Road, said point being South 89° 53' 40" East 129.5 feet from ¼ corner between Section 6, Township 20 South, Range 11 East of the Willamette Meridian, and Section 31, Township 19 South, Range 11 East of the Willamette Meridian; thence North 17° 00' West, 220.3 feet to a point; thence North 13° 00' East, 1910.83 feet to a point on the center line of Military Road; thence North 36° 48' 45" East 703 feet to a point on the east and west center line of Section 31, said point being West 1,765 feet of the ¼ corner between Sections 31 and 32, Township 19 South, Range 11 East of the Willamette Meridian, the same being a portion of the Training Aids Road as the same is now located and constructed on, over and across the said property.

Whereas, the Forest Service has caused the sum of $189.28, which is the fair value of the rights-of-way, to be covered into the Treasury of the United States for deposit to the credit of the Federal Farm Mortgage Corporation from funds appropriated by the Congress for the purpose of carrying out the provisions of section 23 of the Federal Highway Act approved November 9, 1921, as amended (23 U. S. C. 23, 23a).

Now therefore, the Federal Farm Mortgage Corporation, pursuant to the authority vested in it in the disposal of surplus agricultural or forest property, by virtue of delegations of authority issued pursuant to the provisions of the aforementioned act of 1944, does hereby transfer the aforesaid rights-of-way to the Forest Service as of this date.

In witness whereof, the Federal Farm Mortgage Corporation has, on this 5th day of May 1947, caused these presents to be duly executed for and in its name and behalf and the seal of the said corporation to be hereunto affixed.

[SEAL] WILLARD M. REES,
Vice President.

INTERSTATE COMMERCE COMMISSION

[No. 29770]

INCREASED LESS-CARLOAD RATES, OFFICIAL TERRITORY

JULY 30, 1947.

By petition dated May 29, 1947, the Ahnapee and Western Railway Company, and numerous other common carriers by railroad and the Baltimore Steam Packet Company and other common carriers by water, together comprising substantially all common carriers by railroad or water operating within official territory, and between official territory and northern Illinois, extended Zone C in Wisconsin, and eastern Canada, request leave to file and make effective not later than July 20, 1947, after statutory notice, schedules of increased class rates applicable to less-carload and any-quantity freight traffic within the territory above stated. To that end the petitioners also request (1) permission under sections 6, 217, and 306 of the Interstate Commerce Act, as amended, to publish, in individual or blanket supplements to the applicable class rate tariffs, revised class rates on less-carload or any-quantity rated traffic in the form of conversion tables, or by separate publication of such rates, together with general provisions canceling the present class rates in so far as they apply on less-carload or any-quantity traffic; (2) authority to establish, without observing the long-and-short haul provision of section 4 (1) of the Interstate Commerce Act, the proposed increased rates on less-carload and any-quantity traffic via all routes by way of which they now have authority from the Commission under the various rate and fourth-section orders to apply the class rates presently published on the same traffic; such proposed increased class rates to apply on less-carload and any-quantity traffic within and between the territories above referred to, by rail, and combined rail and water, standard and differential, export, import, intercoastal, coastwise, and international routes, to the extent that the class rates which the proposed rates will supplant are now published by authorized routes; and (3) a general order modifying all outstanding orders of the Commission to the extent necessary to enable them to make such schedules of increased rates effective as requested.

Notice was issued by the Commission on June 16, 1947, that the petition had been docketed as above captioned, that notice of hearing would thereafter be given, and that the Commission had assigned the proceeding to Division 2 for administrative handling.

The proceeding is assigned for hearing at the office of the Commission in Washington, D. C., before Division 2, immediately upon the close of the hearing in Ex Parte No. 166, "Increased Freight Rates, 1947," assigned for hearing at Washington, D. C., on September 9, 1947, but not prior to September 16, 1947, at 9 a. m. United States standard time (10 a. m. District of Columbia daylight saving time).

Attention is called to the appendix hereto, which contains special instructions and rules of procedure, supplementing the general rules of practice, to be followed in this proceeding.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

APPENDIX—SPECIAL RULES OF PRACTICE APPLICABLE IN DOCKET NO. 29770

Interventions, protests. Persons appearing in opposition to the petition will be considered as protestants, and may be heard without the filing of petitions of intervention.

NOTE: If the makers of any of the protests already filed desire to avoid the necessity for personal attendance and appearance as witnesses at the hearing, or to obviate preparation and service of verified statements, the Commission suggests that such protestants discuss with petitioners' counsel whether a stipulation can be made that a particular protest may be received in evidence for what it may be worth, as if a witness were to be produced, subject to objection as to materiality and relevancy.

Simplification of presentations. To conserve time and avoid expense, persons with common interests in the proceeding should, to the greatest extent possible, endeavor to consolidate their testimony and arrange for cross-examination by as few counsel as possible. The same course should be followed upon oral argument.

Evidence offered should be carefully prepared with a view to conciseness and clarity, and avoid inclusion of extraneous, immaterial, and irrelevant matter, and the undue cumulation of testimony or of witnesses upon any point. It should be factual in character, and argument should be reserved for the oral argument stage, and not be incorporated in the testimony.

Exhibits. In the preparation of exhibits, Rules of Practice 81 to 84, inclusive, should be followed. If possible, all documents submitted by a witness should be embraced in a single exhibit, with pages consecutively numbered, suitably bound together. In order to supply the State Commissioners, members of this Commission, and counsel in the proceeding, at least 150 copies of each exhibit should be prepared. So far as possible exhibits should be made self-explanatory, in order to minimize the amount of time required for explanation by oral testimony.

Prepared statements. Witnesses who expect to read from a written statement should comply with Rule 77 of the Rules of Practice. They should have sufficient copies thereof for opposing counsel, the presiding officers, and the official reporter, and copies of the written statements should be furnished counsel a reasonable time before the witness takes the stand. However, in the interest of conservation of time, it is suggested that such statements be prepared, verified, and offered in the manner indicated below, instead of being read orally by a witness on the stand.

Witnesses who will use prepared statements should remember statistical or extensive tabular matter should be submitted separately, as an exhibit, and thus avoid the necessity for copying tabular matter into the transcript of oral testimony.

Submission of evidence in written form. The Commission desires that evidence in chief be prepared in written form, if possible. The evidence in chief to be produced on behalf of the petitioners shall be submitted in written form, as prepared statements by the respective witnesses, with their accompanying exhibits. Such documents should be made available to the Commission by filing copies as in the case of verified statements (hereinafter mentioned) on or before August 27, 1947, and a copy should be transmitted by petitioners to the regulatory authority of each State in official territory having jurisdiction with respect to the intrastate rates and charges of petitioners and intervening petitioners, and also to each person who already has by protest or by written notice to the Commission given timely advice to the Commission and counsel for petitioners of their intention to appear as protestants. Such notification to petitioners should be made on or before August 27, 1947, in writing, addressed to Guernsey Orcutt, 1740 Broad Street Station Building, Philadelphia 3, Pennsylvania.

Verified statements (affidavits). Verified statements (affidavits) submitted without personal appearance of the affiant as a witness may be received in the absence of objection. Parties offering such statements should make available as early as possible during the hearing 150 copies for the Commission and other parties, including the petitioners. Notice of any objection to the receipt of any such statement in evidence should be given to the Commission and to the party submitting the statement promptly following the receipt of such statement. If no such notice is given promptly it will be considered that objection to the receipt of the statement in evidence is waived, but objection to the weight to be accorded the statements of fact is reserved. Such statements should conform to the Rules of Practice in respect of style, mimeographing, or printing, etc. They should be limited strictly to statements of fact and contain no argument, and if not so limited may be excluded. The Commission on its own motion or on objection may exclude a verified statement or any portion thereof which (a) is not material or relevant to the questions presented in this proceeding, (b) is obviously incompetent, or (c) is argumentative in character. In the absence of objection to introduction of the verified statement it will be unnecessary for the affiant to appear personally at the hearing. All verified statements received in evidence will be part of the record in the proceeding, upon which the Commission will base its decision.

Notice of intention to produce testimony. Persons who desire to be heard will facilitate necessary arrangements by sending notice of their intention by letter or telegram to the Commission at Washington, before September 11, 1947, which shall state the number of witnesses, and the approximate amount of time considered necessary for presentation of direct testimony.

Correspondence. Correspondence relative to this matter should be addressed to the Commission at Washington, D. C., with a reference to the docket number, No. 29770.

[S. O. 396, Special Permit 257]

RECONSIGNMENT OF POTATOES AT KANSAS CITY, MO.

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order No. 396 (10 F. R. 15008), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard entirely the provisions of Service Order No. 396 insofar as it applies to the reconsignment at Kansas City, Missouri, of WFE 63085 and FGE 51295, potatoes, now on Missouri Pacific tracks, by Cochran Brokerage Company, to K&M Fruit Company, Chicago, Illinois (Wabash).

The waybills shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 29th day of July 1947.

UNLOADING OF GLASS AND CAR WHEELS AT JERSEY CITY (GREENVILLE PIERS), N. J.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of July A. D. 1947.

It appearing, that cars PRR 284970 and NYC 623663 containing glass and car wheels, respectively, at Jersey City (Greenville Piers), N. J., on The Pennsylvania Railroad Company, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action; it is ordered, that:

(a) *Glass and car wheels at Jersey City (Greenville Piers), N. J., on the P. R. R. be unloaded.* The Pennsylvania Railroad Company, its agents or employees, shall unload immediately cars PRR 284970 and NYC 628663, containing glass and car wheels, respectively, now on hand at Jersey City (Greenville Piers), N. J., consigned to J. H. Faunce, Inc., and the Amtorg Trading Corporation, respectively.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., July 31, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify Homer C. King, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon The Pennsylvania Railroad Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

The proceeding is assigned for hearing at the office of the Commission in Washington, D. C., before Division 2, immediately upon the close of the hearing in Ex Parte No. 166, "Increased Freight Rates, 1947," assigned for hearing at Washington, D. C., on September 9, 1947, but not prior to September 16, 1947, at 9 a. m. United States standard time (10 a. m. District of Columbia daylight saving time).

Attention is called to the appendix hereto, which contains special instructions and rules of procedure, supplementing the general rules of practice, to be followed in this proceeding.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

APPENDIX—SPECIAL RULES OF PRACTICE APPLICABLE IN DOCKET NO. 29770

Interventions, protests. Persons appearing in opposition to the petition will be considered as protestants, and may be heard without the filing of petitions of intervention.

NOTE: If the makers of any of the protests already filed desire to avoid the necessity for personal attendance and appearance as witnesses at the hearing, or to obviate preparation and service of verified statements, the Commission suggests that such protestants discuss with petitioners' counsel whether a stipulation can be made that a particular protest may be received in evidence for what it may be worth, as if a witness were to be produced, subject to objection as to materiality and relevancy.

Simplification of presentations. To conserve time and avoid expense, persons with common interests in the proceeding should, to the greatest extent possible, endeavor to consolidate their testimony and arrange for cross-examination by as few counsel as possible. The same course should be followed upon oral argument.

Evidence offered should be carefully prepared with a view to conciseness and clarity, and avoid inclusion of extraneous, immaterial, and irrelevant matter, and the undue cumulation of testimony or of witnesses upon any point. It should be factual in character, and argument should be reserved for the oral argument stage, and not be incorporated in the testimony.

Exhibits. In the preparation of exhibits, Rules of Practice 81 to 84, inclusive, should be followed. If possible, all documents submitted by a witness should be embraced in a single exhibit, with pages consecutively numbered, suitably bound together. In order to supply the State Commissioners, members of this Commission, and counsel in the proceeding, at least 150 copies of each exhibit should be prepared. So far as possible exhibits should be made self-explanatory, in order to minimize the amount of time required for explanation by oral testimony.

Prepared statements. Witnesses who expect to read from a written statement should comply with Rule 77 of the Rules of Practice. They should have sufficient copies thereof for opposing counsel, the presiding officers, and the official reporter, and copies of the written statements should be furnished counsel a reasonable time before the witness takes the stand. However, in the interest of conservation of time, it is suggested that such statements be prepared, verified, and offered in the manner indicated below, instead of being read orally by a witness on the stand.

Witnesses who will use prepared statements should remember statistical or extensive tabular matter should be submitted separately, as an exhibit, and thus avoid the necessity for copying tabular matter into the transcript of oral testimony.

Submission of evidence in written form. The Commission desires that evidence in chief be prepared in written form, if possible. The evidence in chief to be produced on behalf of the petitioners shall be submitted in written form, as prepared statements by the respective witnesses, with their accompanying exhibits. Such documents should be made available to the Commission by filing copies as in the case of verified statements (hereinafter mentioned) on or before August 27, 1947, and a copy should be transmitted by petitioners to the regulatory authority of each State in official territory having jurisdiction with respect to the intrastate rates and charges of petitioners and intervening petitioners, and also to each person who already has by protest or by written notice to the Commission given timely advice to the Commission and counsel for petitioners of their intention to appear as protestants. Such notification to petitioners should be made on or before August 27, 1947, in writing, addressed to Guernsey Orcutt, 1740 Broad Street Station Building, Philadelphia 3, Pennsylvania.

Verified statements (affidavits). Verified statements (affidavits) submitted without personal appearance of the affiant as a witness may be received in the absence of objection. Parties offering such statements should make available as early as possible during the hearing 150 copies for the Commission and other parties, including the petitioners. Notice of any objection to the receipt of any such statement in evidence should be given to the Commission and to the party submitting the statement promptly following the receipt of such statement. If no such notice is given promptly it will be considered that objection to the receipt of the statement in evidence is waived, but objection to the weight to be accorded the statements of fact is reserved. Such statements should conform to the Rules of Practice in respect of style, mimeographing, or printing, etc. They should be limited strictly to statements of fact and contain no argument, and if not so limited may be excluded. The Commission on its own motion or on objection may exclude a verified statement or any portion thereof which (a) is not material or relevant to the questions presented in this proceeding, (b) is obviously incompetent, or (c) is argumentative in character. In the absence of objection to introduction of the verified statement it will be unnecessary for the affiant to appear personally at the hearing. All verified statements received in evidence will be part of the record in the proceeding, upon which the Commission will base its decision.

Notice of intention to produce testimony. Persons who desire to be heard will facilitate necessary arrangements by sending notice of their intention by letter or telegram to the Commission at Washington, before September 11, 1947, which shall state the number of witnesses, and the approximate amount of time considered necessary for presentation of direct testimony.

Correspondence. Correspondence relative to this matter should be addressed to the Commission at Washington, D. C., with a reference to the docket number, No. 29770.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1567]

POTOMAC ELECTRIC POWER CO. AND WASHINGTON RAILWAY AND ELECTRIC CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of July 1947.

Potomac Electric Power Company ("Pepco"), a subsidiary of Washington Railway and Electric Company ("Washington Railway"), a registered holding company, which in turn is a subsidiary of The North American Company, also a registered holding company, and Washington Railway have filed a joint application-declaration, and amendment thereto, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 ("act") and the General rules and regulations promulgated thereunder, regarding the following proposals:

Pepco proposes: (1) To exchange or redeem, on September 1, 1947, all of its outstanding preferred stock (the "Old Preferred Stock"), consisting of 20,000 shares of 6% Cumulative Preferred Stock, Series 1925, of the par value of $100 per share, and 50,000 shares of 5½% Cumulative Preferred Stock, Series of 1927, of the par value of $100 per share. For this purpose Pepco will issue 140,000 shares of ----% Preferred Stock ("New Preferred Stock") of the par value of $50 per share, and will offer to the holders of its presently outstanding Old Preferred Stock the right to exchange their shares of Old Preferred Stock for shares of the New Preferred Stock on the basis of 2 shares of New Preferred Stock for 1 share of Old Preferred Stock, plus a cash adjustment. Such cash adjustment will represent the difference between the price to be paid to Pepco for the shares of New Preferred Stock not issued pursuant to the exchange offer and the redemption price of the Old Preferred Stock (exclusive of accrued dividends) less a dividend adjustment. The exchange offer is to be open for acceptance for a period of approximately 10 days. All shares of Old Preferred Stock so acquired will be retired.

In connection with the proposed exchanges and redemption, Pepco proposes, pursuant to Rule U-50, to invite sealed written proposals for services in obtaining exchanges of shares of Old Preferred Stock and for the purchase of such of the 140,000 shares of New Preferred Stock as are not required to effect exchanges. Each proposal shall specify (a) the price per share (exclusive of accrued dividends from July 1, 1947) to be paid Pepco for the unexchanged shares, which price shall not be less than $50 per share and, in the event the annual dividend rate specified in clause (c) below is more than 3.60%, the price shall not be more than $51.375, in both cases after deduction of underwriter's compensation; (b) the aggregate amount of the compensation to be paid to the bidder for services in connection with the exchanges and the purchase of the unexchanged shares; and (c) the annual dividend rate of the New Preferred Stock, which dividend rate shall be in multiples of 1 10th of 1% and shall be not less than 3.60% of the par value of such New Preferred Stock. Pepco reserves the right to reject any and all bids.

(2) To make a short term bank loan in an amount not to exceed the principal amount of $7,490,000 in order to provide itself with funds to finance the redemption of its Old Preferred Stock, pending the consummation of the sale of the New Preferred Stock. The bank loan will be made pursuant to a bank loan agreement between Pepco and The Chase National Bank of the City of New York and Chemical Bank & Trust Company, New York, under the terms of which Pepco may borrow not to exceed the principal amount of $7,490,000 for a period of seven days at a cost of $7,500, with the option of extending said loan for a period of 90 days at an interest cost of 1½% per annum, payable on or before the expiration of such 90-day period.

(3) To increase, after the proposed redemption of its Old Preferred Stock, its authorized capital stock from $30,000,000 to $75,000,000, consisting of 400,000 shares of ----% Preferred Stock, par value of $50 per share (the New Preferred Stock) and 5,500,000 shares of New Common Stock, par value $10 per share. As part of such recapitalization the presently outstanding 90,000 shares of Pepco common stock, par value $100 per share, all of which is owned by Washington Railway, will be reclassified into 85,000 shares of the proposed New Preferred Stock and 2,961,250 shares of the proposed New Common Stock.

(4) To make appropriate amendments to its charter to effectuate the proposed transactions, which amendments will contain the provisions of the New Preferred Stock, including certain provisions for the protection of the holders of the New Preferred Stock, as more fully set forth in the application-declaration.

(5) To separately designate the 140,000 shares and the 85,000 shares of its New Preferred Stock. The 140,000 shares of New Preferred Stock to be offered to the holders of Pepco's Old Preferred Stock pursuant to the above-described Exchange Offer will bear the distinguishing symbol "A" and will be of a distinguishing color, both upon the original issue and in future transfers. The remaining 85,000 shares of Pepco New Preferred Stock which will be distributed to the holders of Washington Railway Preferred Stock, pursuant to the terms of the latter's section 11 (e) plan, will bear the distinguishing symbol "B" and will be of a different color than the certificates bearing the symbol "A". The 140,000 shares and the 85,000 shares of Pepco New Preferred Stock are being so designated because the dividends on such shares are treated differently under the Internal Revenue Code. Such separate treatment arises by reason of a ruling by the Bureau of Internal Revenue to the effect that the corporate holders of any of such 140,000 shares bearing symbol "A" will not be entitled to a dividends-received credit under section 26 (b) of the Internal Revenue Code for the purpose of corporate surtax, but that corporate holders of any of the 85,000 shares bearing the symbol "B" will be entitled to such credit for the purpose of corporate surtax as well as normal tax.

Washington Railway proposes: (1) To acquire the 85,000 shares of New Preferred Stock and the 2,961,250 shares of New Common Stock of Pepco upon the recapitalization of Pepco as aforesaid.

(2) To acquire, upon the dissolution of its two subsidiaries, The Washington and Rockville Railway Company of Montgomery County (Washington Rockville) and Great Falls Power Company (Great Falls), pursuant to the provisions of Washington Railway's aforesaid section 11 (e) plan, the remaining assets of Washington Rockville and Great Falls and to convey to Pepco all of the real property conveyed by Great Falls to Washington Railway.

The applicants-declarants have designated sections 6, 7, 9, 10, 11 and 12 of the act and Rules U-23, U-42, U-43, U-50 and U-64 as applicable to the proposed transactions.

Said application-declaration having been filed on July 10, 1947, and notice of filing having been issued in the manner and form prescribed by Rule U-23, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and the Commission not having ordered that a hearing be held thereon; and

It appearing to the Commission that such proposals consist of certain proposed transactions set forth in the plan filed by Washington Railway pursuant to section 11 (e) of the act for the purpose of complying with section 11 (b) of the act, and approved by order of this Commission dated May 15, 1947 (Holding Company Act Release No. 7410) and approved by order dated June 16, 1947, of the United States District Court for the District of Columbia; that the proposed issuance and sale by Pepco of the New Preferred Stock and New Common Stock, as well as the proposed acquisition by Washington Railway of shares of such New Preferred Stock and New Common Stock, has been authorized by order of the Public Utilities Commission of the District of Columbia; that the charter amendments providing for the authorization of the New Preferred Stock and the New Common Stock of Pepco contain provisions concerning the respective rights of the holders of the various classes of stock which would be outstanding upon consummation of the proposed transactions; that the request of applicants-declarants for acceleration of such application-declaration should be granted; and

The Commission finding that the proposed transactions are appropriate steps in furtherance of and in compliance with the provisions of the plan filed by Washington Railway pursuant to section 11 (e) of the act and approved by order of this Commission dated May 15, 1947; and the Commission finding that the proposed transactions are not in contravention of the act and any rules and regulations promulgated thereunder and that the proposed transactions satisfy the applicable requirements of the act and the rules thereunder and that it is appropriate in the public interest and in the interest of investors and consumers that said application and said declaration, as amended, respectively, be granted and permitted to become effective:

It is hereby ordered, That the application and declaration, as amended, be and the same are, respectively, hereby granted and permitted to become effective forthwith, subject to the terms and conditions of Rule U-24 and to the following terms and conditions:

(a) That the issue and sale of the proposed New Preferred Stock by Pepco shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been supplied by a further amendment and a further order shall have been entered, which order may contain such further terms and conditions as may then be deemed appropriate; and

(b) That jurisdiction be and the same is hereby reserved with respect to all legal fees and expenses in connection with the proposed transactions, and that such legal fees and expenses shall not be paid pending further order of the Commission.

It appearing further that the Commission previously, by order entered April 14, 1942, directed that Washington Railway and its subsidiary, Washington Rockville, each divest itself of all of their respective interests in Great Falls, that such disposition has not yet been accomplished, and it appearing appropriate that, in order to facilitate the liquidation of Washington Railway and Washington Rockville, the Commission may appropriately permit at this time the acquisition by Pepco of the properties of Great Falls, subject, however, to the condition that such properties are to be held by Pepco subject to the order of divestment previously in effect with respect to Washington Railway and Washington Rockville;

It is further ordered, That the application in so far as it relates to the acquisition by Pepco of the properties of Great Falls be and the same is hereby approved upon the condition that such properties be held subject to the terms of the aforesaid divestment order dated April 14, 1942, requiring the disposition by Washington Railway and Washington Rockville of all direct and indirect ownership, control, and holdings of securities issued and properties owned, controlled, or operated by Great Falls, and the reservation of jurisdiction set forth in the order of this Commission dated May 15, 1947 with respect to the retention by Pepco of said properties of Great Falls.

By the Commission.

MISSISSIPPI POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 29th day of July 1947.

Mississippi Power Company ("Mississippi"), a public utility subsidiary of The Commonwealth & Southern Corporation, a registered holding company, having filed an application-declaration and amendments thereto pursuant to sections 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-50 promulgated thereunder regarding the proposed sale pursuant to the competitive bidding requirements of Rule U-50 of (a) $2,500,000 principal amount of additional First Mortgage Bonds, --% Series, to be dated August 1, 1947 and to mature August 1, 1977 and (b) 20,099 shares of --% preferred stock, cumulative, par value $100 per share, subject, however, to an exchange offer of such new preferred stock to the holders of Mississippi's $6 Preferred Stock; and

The Commission having by order dated July 17, 1947 granted said amended application and permitted said amended declaration to become effective, subject, however, to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed sale of new bonds, issuance of new Preferred Stock and exchange or redemption of $6 Preferred Stock should not be consummated until the results of competitive bidding had been made a matter of record in this proceeding and a further order issued by this Commission in the light of the record so completed; and the Commission having reserved jurisdiction over the payment of all fees and expenses in connection with the proposed transactions; and

Mississippi having filed a further amendment dated July 28, 1947 to its application-declaration setting forth the action taken by it to comply with the requirements of Rule U-50 and showing that pursuant to the invitation for competitive bids, the following bids for the bonds have been received:

Bidders	Coupon rate	Price to company (percent of principal amount)	Cost to company
	Percent		*Percent*
Halsey, Stuart & Co., Inc.	2¾	100.269	2.8646
Shields & Co.			
Carl M. Loeb, Rhoades & Co.	2¾	100.29	2.8630
Kidder, Peabody & Co.	3	102.279	2.8859
White, Weld & Co.			
Otis & Co. group	3	101.706	2.9143

Said amendments showing further that, pursuant to the invitation for competitive bids, the following bid for the preferred stock was received from a group headed by W. C. Langley & Company and Glore, Forgan & Company, namely $104 per share with a dividend rate of 4.60% and compensation of $70,000, equivalent to $3.483 per share, for their services in endeavoring to obtain exchanges of $6 Preferred Stock for new preferred stock and for their agreement to purchase the shares of new preferred stock not required to effect exchanges. Deducting from the bid price the compensation on a per share basis, the annual dividend cost to the company would be 4.576%.

Said amendment having further set forth that, in respect of the bonds, Mississippi has accepted the bid of Halsey, Stuart & Co., Inc., as set out above, and that said bonds will be offered for sale to the public at a price of 101% of the principal amount thereof plus accrued interest from August 1, 1947 to the date of delivery, resulting in an underwriters spread of 0.731% of the principal amount of said bonds; and that, in respect of the preferred stock, Mississippi has accepted the bid, submitted by the group headed by W. C. Langley & Company and Glore, Forgan & Company; and

Counsel concerned having filed statements with respect to the nature of the services performed in connection with the transactions; and it appearing to the Commission that the proposed fee of Winthrop, Stimson, Putnam and Roberts, counsel for Mississippi, in the amount of $10,000 (of which $4 000 is applicable to the new bonds and $6,000 to the new preferred stock) and the proposed fees of Reid & Priest, counsel to the successful bidders in the aggregate amount of $7,000 (of which $2 500 is applicable to the new bonds and $4,500 to the new preferred stock) are for necessary services and are not unreasonable; and it appearing to the Commission that other expenses estimated at $24,410 applicable to the bonds and $24,009 applicable to the new preferred stock are not unreasonable; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to such matters;

It is ordered, That the jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding under Rule U-50 be, and hereby is, released, and that said application-declaration, as amended, be, and hereby is, granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over all fees and expenses in connection with the proposed transaction be, and hereby is, released.

By the Commission.

CENTRAL STATES UTILITIES CORP. ET AL.

SUPPLEMENTAL FINDINGS AND ORDER APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 29th day of July A. D. 1947.

In the matters of Central States Utilities Corp., Central States Power & Light Corp., Ogden Corp., File No. 54-42; Ogden Corp. and subsidiary companies, File No. 54-69; Ogden Corp. and subsidiary companies, File No. 59-65.

Ogden Corp. ("Ogden"), a registered holding company, having filed a plan and an amendment thereto ("amended plan") pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), said plan providing, in general, for the liquidation and dissolution of two of its subsidiary companies, namely, Central States Utilities Corporation ("Central Utilities"), a registered holding company, and Central States Power and Light Corporation ("Central States"), a registered holding company and a subsidiary company of Central Utilities, whereby, among other things, there will be distributed (a) to the holders, other than Ogden, of the 5% Debentures of Central States $81 for each $100 principal amount of such debentures, together with accrued and unpaid interest on the principal amount to the effective date of the Amended Plan, (b) to the holders, other than Ogden, of the $7 Dividend Preferred Stock of Central States $9 per share, (c) to the holders, other than than Ogden, of the 6% Gold Bonds of Central Utilities $7.50 for each $100 principal amount of such bonds, and (d) to Ogden, the residual net assets of Central States and Central Utilities; and

Said plan having been filed for the stated purpose of complying with the provisions of section 11 (b) of the act and with the Commission's order dated May 20, 1943, directed to Ogden and its subsidiary companies requiring, among other things, that Central Utilities be liquidated and dissolved, and that Central States be recapitalized, but that such recapitalization need not be effected if Central States is liquidated and dissolved; and

Public hearings having been held after appropriate notice, and the Commission having considered the record and having issued its findings and opinion on July 17, 1947, finding said amended plan, if modified in certain respects, to be necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby; and Ogden, Central Utilities and Central States having filed an amendment to said amended plan containing the modifications suggested by the Commission in its findings and opinion of July 17, 1947; and Ogden, Central Utilities and Central States having requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate District Court of the United States to enforce and carry out the terms and provisions of said amended plan, as modified;

It is found, in accordance with said findings and opinion dated July 17, 1947, that said amended plan, as modified, is necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby.

It is ordered, Pursuant to section 11 (e) and to other applicable provisions of the act, that said amended plan, as modified, be and it hereby is approved, subject to the conditions specified in Rule U-24 and to the following additional terms and conditions:

(1) That this order shall not be operative to authorize the consummation of the proposed transactions until an appropriate District Court of the United States, upon application thereto, shall have entered an order enforcing said amended plan, as modified;

(2) That jurisdiction is generally reserved to the Commission to entertain such further proceedings, to make such supplemental findings and to take such further action as it may deem appropriate in connection with said amended plan, as modified, the transactions incident thereto and the consummation thereof, and to take such further action as it may deem necessary or appropriate to effectuate the provisions of section 11 (b) of the act; and that jurisdiction is specifically reserved to consider and determine the reasonableness and appropriate allocation of all fees, expenses, and other remunerations incurred and to be incurred in connection with said amended plan, as modified, and the transactions incident thereto.

By the Commission.

ROCHESTER GAS AND ELECTRIC CORP. AND GENERAL PUBLIC UTILITIES CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of July 1947.

General Public Utilities Corporation ("GPU"), a registered holding company, and its subsidiary, Rochester Gas and Electric Corporation ("Rochester") having filed, respectively, a declaration, and an application, as amended, pursuant to sections 12 (b) and 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-45 promulgated thereunder, whereiff Rochester requests approval for its issuance and sale of unsecured promissory notes bearing interest not in excess of 2% per annum, each having a maturity of nine months or less, and the renewal thereof, in an aggregate principal amount not to exceed $8,000,000, for a period of not more than two years from the effective date of this order, which application requests that pursuant to the first sentence of section 6 (b) of the act the Commission authorize an increase in the percentage of the principal amount, par value, and fair market value of the securities of Rochester which may be represented by notes and drafts maturing within nine months, and wherein GPU requests authorization to make, from time to time, cash capital contributions to Rochester within a period of two years and nine months from the effective date of this order, the amount of such capital contributions to be not in excess of (i) $300,000 plus (ii) an amount not in excess of the aggregate amount of dividends on Rochester's common stock theretofore declared and paid by Rochester to GPU from and after June 30, 1947; and

The Commission having considered the record and having entered its findings and opinion herein, and deeming it appropriate in the public interest and in the interest of investors and consumers to permit the declaration to become effective and to grant the application, as amended, subject to certain conditions, and to grant a request of the applicants-declarants that the effective date of the order be the date upon which this order is entered:

It is hereby ordered, That, pursuant to the provisions of section 12 (b) of the act and Rule U-45 promulgated thereunder, the declaration of GPU is hereby permitted to become effective forthwith; and, pursuant to the first sentence of section 6 (b) of the act, the application, as amended, of Rochester is hereby granted, to be effective forthwith, so that Rochester may issue and sell, and renew, for a period of two years from the date of this order, promissory notes each of which will have a maturity of nine months or less, in an aggregate principal amount which may exceed five per centum of the aggregate of the principal amount, par value and fair market value of Rochester's other securities but in no event may such outstanding notes exceed an aggregate of $8,000,000; and subject to the conditions that (a) so long as any notes of Rochester having a maturity of nine months or less are outstanding in an aggregate amount in excess of that which would, in the absence of this order, be exempt from the provisions of section 6 (a) of the act by reason of the provisions of the first sentence of section 6 (b) of the act, the aggregate amount of dividends declared and paid upon Rochester's common stock from and after June 30, 1947, shall not be in excess of the aggregate amount of cash capital contribution, if any, as shall theretofore have been received by Rochester from the holder or holders of its common stock from and after June 30, 1947; (b) within ten days of the date upon which Rochester issues any initial notes, or renewal notes, it file a notification in this proceeding of the amount of such note, the interest rate thereon, the name of the payee, and the total amount of notes of a maturity of nine months or less then outstanding; and (c) within ten days of the date upon which Rochester declares a dividend upon its common stock, it file a notification in this proceeding of the aggregate amount of dividends paid on its common stock from and after June 30, 1947, and the aggregate amount of cash capital contributions received by it from the holder or holders of its common stock from and after June 30, 1947.

By the Commission.

PHILADELPHIA ELECTRIC POWER CO. AND SUSQUEHANNA POWER CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of July 1947.

Philadelphia Electric Power Company ("PEP"), a registered holding company, and its electric utility subsidiary, The Susquehanna Power Company ("SP"), having filed a joint application-declaration and an amendment thereto, pursuant to sections 6 (a), 7, 10, 12 (c), 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-43 promulgated thereunder, with respect to the following transactions:

Pursuant to orders of the Federal Power Commission and a decree of the United States Circuit Court of Appeals for the Third Circuit, PEP and SP propose to make certain accounting adjustments in respect of a final determination of the actual legitimate original cost, as of December 31, 1932, of the Conowingo Hydro-Electric Project, including (a) the charge off by SP of certain disallowed amounts to Earned Surplus with a provision that certain amounts may be charged to a properly created Capital Surplus; and (b) the reduction by PEP of the book cost of its investment in the stock of SP. In this connection SP proposes to create a Capital Surplus of $3,676,091.92 to be used solely for charging off an equal amount of disallowed cost in compliance with said orders and decree, and also to reclassify its common stock and reduce the stated value thereof from $4,866,886.36 to $1,190,794.44; and

SP proposes to cancel by charter amendment its authorized Class A and Class B stocks and issue 200,000 shares of common stock, without par value, in the place and stead of 110,500 shares of common stock, Class A, no par value, now outstanding and 135,000 shares of common stock, Class B, no par value, now outstanding, all of which outstanding stock is owned by PEP and pledged with the Fidelity-Philadelphia Trust Company, Trustee, under the First Mortgage of PEP and SP dated February 1, 1926, as amended by supplemental indenture dated July 1, 1946. The 200,000 new shares are to be issued to PEP and exchanged with the Trustee in the place of the outstanding shares of the Class A and Class B stocks of SP; and

The proposed issue and sale of securities by SP and the acquisition of such securities by PEP having been approved by the Public Service Commission of the State of Maryland; and

The joint application-declaration having been filed on July 8, 1947, and an amendment thereto having been subsequently filed; and notice of the filing having been given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint application-declaration, as amended, be granted and permitted to become effective and deeming it appropriate to grant the request of declarants that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

PORTLAND GAS & COKE CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of July A. D. 1947.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Portland Gas & Coke Company ("Portland"), a gas utility subsidiary of American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company. Applicant has designated section 6 (b) of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than August 8, 1947 at 11 a. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time thereafter, such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized below:

Portland proposes to issue and sell to Mellon National Bank and Trust Company of Pittsburgh its 3⅛% installment promissory note in the principal amount of $4,500,000 payable in sixteen equal semi-annual installments of $281,250 commencing thirty months after the date of issuance, which is to be on or after August 1, 1947 but not later than September 15, 1947.

The proceeds from the proposed sale of the installment promissory note will be applied to the retirement of all of Portland's presently outstanding unsecured debt consisting of $400,000 principal amount of 1¾% Serial Notes due 1947 to 1951 and $1,750,000 principal amount of 2¾% Bank Notes due 1948 to 1950. The $2,350,000 balance of the proceeds will be used to construct additional facilities which Portland states are essential to ensure a continuity of adequate gas service. It is further stated that the present facilities of Portland do not have adequate capacity to meet prospective demands in the winter of 1947-1948 and failure to install additional facilities promptly may result in thousands of customers being without service during periods of moderately cold weather.

In the loan agreement, pursuant to which the installment note will be issued, Mellon National Bank and Trust Company represents that it is purchasing the note for investment purposes and has no present intention of making any disposition of such note. In the application Portland states that no finder's fee or other fee, commission or remuneration is to be paid in connection with the proposed transaction to any third person for negotiating the sale of the note.

The proposed transactions are subject to the jurisdiction of the Oregon Commissioner of Public Utilities and the Washington Department of Public Utilities. Portland is organized and doing business in the State of Oregon and also does business in the State of Washington. Each of the foregoing regulatory bodies has expressly authorized the issuance and sale of said note on the terms proposed. In granting its approval the Oregon Commissioner of Public Utilities found the issuance and sale of said note to be compatible with the public interest in that the proposal, involving the consolidation of Portland's short term debt and the procurement of additional capital, would make possible the completion of a construction program earlier found to be urgently needed to meet greatly increased present and prospective service demands.

Portland requests that the Commission's order with respect to the application issue at the earliest date practicable and become effective upon issuance.

By the Commission.

Treasury Decision 4885, Regulations 106, and Regulations 107, amended to conform to certain provisions of the act approved July 31, 1946 (Pub. Law 572, 79th Cong.).

On April 17, 1947, notice of proposed rule making, regarding amendments to the employment tax regulations under subchapters A, B, and C of chapter 9 of the Internal Revenue Code, made necessary by certain provisions of the act approved July 31, 1946 (Public Law 572, 79th Congress), was published in the FEDERAL REGISTER (12 F. R. 2479). After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the amendments set forth below are hereby adopted. The amendments are made in order to conform Regulations 100 (26 CFR Part 410) only as made applicable to the Internal Revenue Code by Treasury Decision 4885 (26 CFR, Cum. Supp., p. 5876), relating to the employers' tax, employees' tax, and employee representatives' tax under subchapter B of chapter 9 of the Internal Revenue Code, Regulations 106 (26 CFR Part 402), relating to the employees' tax and employers' tax under the Federal Insurance Contributions Act (subchapter A, chapter 9, Internal Revenue Code), and Regulations 107 (26 CFR Part 403), relating to the excise tax on employers under the Federal Unemployment Tax Act (subchapter C, chapter 9, Internal Revenue Code), to sections 1, 2, 3, 401, and 402 of the Act approved July 31, 1946 (Public Law 572, 79th Congress). Such regulations are amended as follows:

PARAGRAPH 1. Immediately preceding § 410.1 (Article 1), the following is inserted:

SECTION 1 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * section 1532 (d) of the Internal Revenue Code are each amended as follows: After the word "if" where it first appears therein insert "(i)" and for the phrase "which services he renders for compensation" substitute the following: "or he is rendering professional or technical services and is integrated into the staff of the employer, or he is rendering, on the property used in the employer's operations, other personal services the rendition of which is integrated into the employer's operations, and (ii) he renders such service for compensation" * * *. Said subsections are further amended by inserting at the end of the first proviso the following: ", and if the application of such mileage formula, or such other formula as the Board may prescribe, would result in the compensation of the individual being less than 10 per centum of his remuneration for such service no part of such remuneration shall be regarded as compensation".

SECTION 3 (e) AND (f) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(e) Section 1532 (b) of the Internal Revenue Code is amended to read as follows:

(b) *Employee.* The term "employee" means any individual in the service of one or more employers for compensation: *Provided, however,* That the term "employee" shall include an employee of a local lodge or division defined as an employer in subsection (a) only if he was in the service of or in the employment relation to a carrier on or after August 29, 1935. An individual shall be deemed to have been in the employment relation to a carrier on August 29, 1935, if (i) he was on that date on leave of absence from his employment, expressly granted to him by the carrier by whom he was employed, or by a duly authorized representative of such carrier, and the grant of such leave of absence will have been established to the satisfaction of the Railroad Retirement Board before July 1947; or (ii) he was in the service of a carrier after August 29, 1935, and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before August 29, 1935, he did not retire and was not retired or discharged from the service of the last carrier by whom he was employed or its corporate or operating successor, but (A) solely by reason of his physical or mental disability he ceased before August 29, 1935, to be in the service of such carrier and thereafter remained continuously disabled until he attained age sixty-five or until August 1945, or (B) solely for such last stated reason a carrier by whom he was employed before August 29, 1935, or a carrier who is its successor did not on or after August 29, 1935, and before August 1945 call him to return to service, or (C) if he was so called he was solely for such reason unable to render service in six calendar months as provided in clause (ii) or (iv) he was on August 29, 1935, absent from the service of a carrier by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the carrier, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights: *Provided,* That an individual shall not be deemed to have been on August 29, 1935, in the employment relation to a carrier if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6 of the Railroad Retirement Act of 1937, or if during the last pay-roll period before August 29, 1935, in which he rendered service to a carrier he was not in the service of an employer, in accordance with subsection (d), with respect to any service in such pay-roll period, or if he could have been in the employment relation to an employer only by reason of his having been, either before or after August 29, 1935, in the service of a local lodge or division defined as an employer in subsection (a).

The term "employee" includes an officer of an employer.

The term "employee" shall not include any individual while such individual is engaged in the physical operations consisting of the mining of coal, the preparation of coal, the handling (other than movement by rail with standard railroad locomotives) of coal not beyond the mine tipple, or the loading of coal at the tipple.

(f) Section 1532 (e) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, "for time lost" the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * * *

The amendments to section 1532 of the Internal Revenue Code made by sections 1 and 3 (e) and (f) shall be effective only with respect to services rendered after December 31, 1946. * * *

SECTION 3 (g) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(g) Subchapter B of Chapter 9 of the Internal Revenue Code is amended by adding at the end thereof the following new section:

SEC. 1538. TITLE OF SUBCHAPTER. This subchapter may be cited as the "Railroad Retirement Tax Act".

SECTION 401 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

Except as otherwise provided in this act, the provisions thereof shall become effective upon approval.

PAR. 2. Section 410.1 (Article 1) is amended as follows:

(A) By striking out the heading thereof and inserting in lieu thereof the following:

§ 410.1 *Definitions of miscellaneous terms; applicability of provisions of Internal Revenue Code.*

(B) By inserting at the end of § 410.1 the following:

(m) "Railroad Retirement Tax Act" means Subchapter B of Chapter 9 of the Internal Revenue Code, as amended.

(n) "Internal Revenue Code" means the act approved February 10, 1939 (53 Stat., Part 1), entitled "An Act To Consolidate and Codify the Internal Revenue Laws of the United States", as amended.

Subchapter B of Chapter 9 of the Internal Revenue Code corresponds to and, effective April 1, 1939, superseded the Carriers Taxing Act of 1937. Such subchapter comprises certain sections numbered from 1500 to 1538, both inclusive. All provisions of, or references to, the Carriers Taxing Act of 1937 or other laws of the United States which have been codified in the Internal Revenue Code, but which remain in the regulations in this part as made applicable to the Code, shall be deemed to be, and shall be read as if they were, the corresponding provisions of the Internal Revenue Code or references thereto.

PAR. 3. Section 410.2 (f) (Article 2 (f)) is amended to read as follows:

(f) Any subordinate unit of a national railway-labor-organization employer, that is, any State or National legislative committee, general committee, insurance department, or local lodge or division, of an employer as defined in paragraph (e) of this section, established pursuant to the constitution and bylaws of such employer.

PAR. 4. Immediately following the provisions of law under the caption "Sections 3 and 4 of the Act approved August 13, 1940 (Public, No. 764, 76th Cong., 3d Sess.)", added by Treasury Decision 5017, approved October 24, 1940, preceding § 410.3 (Article 3), the following is inserted:

SECTION 3 (e) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(e) Section 1532 (b) of the Internal Revenue Code is amended to read as follows:

(b) *Employee.* The term "employee" means any individual in the service of one or more employers for compensation: *Provided, however,* That the term "employee" shall include an employee of a local lodge or division defined as an employer in subsection (a) only if he was in the service of or in the employment relation to a carrier on or after August 29, 1935. An individual shall be deemed to have been in the employment relation to a carrier on August 29, 1935, if (i) he was on that date on leave of absence from his employment, expressly granted to him by the carrier by whom he was employed, or by a duly authorized representative of such carrier, and the grant of such leave of absence will have been established to the satisfaction of the Railroad Retirement Board before July 1947; or (ii) he was in the service of a carrier after August 29, 1935, and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before August 29, 1935, he did not retire and was not retired or discharged from the service of the last carrier by whom he was employed or its corporate or operating successor, but (A) solely by reason of his physical or mental disability he ceased before August 29, 1935, to be in the service of such carrier and thereafter remained continuously disabled until he attained age sixty-five or until August 1945, or (B) solely for such last stated reason a carrier by whom he was employed before August 29, 1935, or a carrier who is its successor did not on or after August 29, 1935, and before August 1945 call him to return to service, or (C) if he was so called he was solely for such reason unable to render service in six calendar months as provided in clause (ii); or (iv) he was on August 29, 1935, absent from the service of a carrier by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the carrier, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights: *Provided,* That an individual shall not be deemed to have been on August 29, 1935, in the employment relation to a carrier if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6 of the Railroad Retirement Act of 1937, or if during the last pay-roll period before August 29, 1935, in which he rendered service to a carrier he was not in the service of an employer, in accordance with subsection (d), with respect to any service in such pay-roll period, or if he could have been in the employment relation to an employer only by reason of his having been, either before or after August 29, 1935, in the service of a local lodge or division defined as an employer in subsection (a).

The term "employee" includes an officer of an employer.

The term "employee" shall not include any individual while such individual is engaged in the physical operations consisting of the mining of coal, the preparation of coal, the handling (other than movement by rail with standard railroad locomotives) of coal not beyond the mine tipple, or the loading of coal at the tipple.

PAR. 5. Immediately preceding the caption "Section 1 (h) and (i) of the act" which precedes § 410.3 (article 3), the following is inserted:

SECTION 14 OF THE ACT APPROVED APRIL 8, 1942 (PUB. LAW 520, 77TH CONG.)

The first proviso in subsection (d) of section 1532 of the Internal Revenue Code, approved February 10, 1939 (53 Stat. 1), is hereby amended to read as follows: "*Provided, however,* That an individual shall be deemed to be in the service of an employer, other than a local lodge or division or a general committee of a railway-labor-organization employer, not conducting the principal part of its business in the United States only when he is rendering service to it in the United States; and an individual shall be deemed to be in the service of such a local lodge or division only if (1) all, or substantially all, the individuals constituting its membership are employees of an employer conducting the principal part of its business in the United States; or (2) the headquarters of such local lodge or division is located in the United States; and an individual shall be deemed to be in the service of such a general committee only if (1) he is representing a local lodge or division described in clauses (1) or (2) immediately above; or (2) all, or substantially all, the individuals represented by it are employees of an employer conducting the principal part of its business in the United States; or (3) he acts in the capacity of a general chairman or an assistant general chairman of a general committee which represents individuals rendering service in the United States to an employer, but in such case if his office or headquarters is not located in the United States and the individuals represented by such general committee are employees of an employer not conducting the principal part of its business in the United States, only such proportion of the remuneration for such service shall be regarded as compensation as the proportion which the mileage in the United States under the jurisdiction of such general committee bears to the total mileage under its jurisdiction, unless such mileage formula is inapplicable, in which case such other formula as the Railroad Retirement Board may have prescribed pursuant to subsection (c) of section 1 of the Railroad Retirement Act of 1937 shall be applicable:".

The amendment in this section shall operate in the same manner and have the same effect as if it had been part of the Internal Revenue Code when that code was enacted on February 10, 1939 * * *.

SECTION 1 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * section 1532 (d) of the Internal Revenue Code are each amended as follows: After the word "If" where it first appears therein insert "(1)" and for the phrase "which services he renders for compensation" substitute the following: "or he is rendering professional or technical services and is integrated into the staff of the employer, or he is rendering, on the property used in the employer's operations, other personal services the rendition of which is integrated into the employer's operations, and (ii) he renders such service for compensation" * * *. Said subsections are further amended by inserting at the end of the first proviso the following: ", and if the application of such mileage formula, or such other formula as the Board may prescribe, would result in the compensation of the individual being less than 10 per centum of his remuneration for such service no part of such remuneration shall be regarded as compensation".

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * *

The amendments to section 1532 of the Internal Revenue Code made by sections 1 and 3 (e) * * * shall be effective only with respect to services rendered after December 31, 1946. * * *

PAR. 6. Section 410.3 (Article 3) as amended by Treasury Decision 5017 and by Treasury Decision 5161, approved July 6, 1942, is further amended as follows:

(A) By striking out the last sentence of the first paragraph and the whole of the second paragraph of § 410.3 (a) and inserting in lieu thereof the following:

* * * An individual performing services as an independent contractor is not subject to the continuing authority of the employer to supervise and direct the manner of rendition of such services.

An individual rendering professional or technical services or other personal services prior to January 1, 1947, to an employer for compensation is in the service of the employer if he is subject to the continuing authority of the employer to supervise and direct the manner of rendition of such services. The fact that an individual rendering professional or technical services prior to January 1, 1947, is integrated into the staff of an employer is an important factor indicating that such individual is subject to the continuing authority of the employer to supervise and direct the manner of rendition of such services. With respect to other personal services rendered prior to January 1, 1947, the fact that such services are rendered on the property used in the employer's operations and that the rendition of such services is integrated into the employer's operations are important factors indicating that the individual rendering such services is subject to the continuing authority of the employer to supervise and direct the manner of rendition of such services. However, with respect to professional or technical services or other personal services rendered after December 31, 1946, the aforementioned factors are not merely indicia of the continuing authority of the employer to supervise and direct the manner of rendition of such services but instead constitute independent tests for determining whether the individual rendering such services is in the service of the employer with respect to the rendition of such services. Thus, an individual rendering professional or technical services to an employer for compensation is in the service of the employer with respect to such services rendered after December 31, 1946, if he is integrated into the staff of the employer. Likewise, an individual rendering other personal services to an employer for compensation is in the service of the employer with respect to such services rendered after December 31, 1946, if the services are rendered on the property used in the employer's operations and the rendition of such services is integrated into the employer's operations. Under the two tests last mentioned, an individual rendering professional or technical services or other personal services after December 31, 1946, as an independent contractor may be, as to such services, in the service of an employer.

(B) By striking out the parenthetical cross-reference at the end of subparagraph (1) of § 410.3 (b).

(C) By striking out subparagraph (2) of § 410.3 (b) and inserting in lieu thereof the following:

(2) An individual in the service of a local lodge or division is not an employee within the meaning of the law and the regulations in this part unless he was, on or after August 29, 1935, in the service of a carrier (see paragraph (a) of this section) or he was, on August 29, 1935, in the "employment relation" to a carrier.

With respect to services rendered prior to January 1, 1947, an individual was in the employment relation to a carrier on August 29, 1935, if on that date he was, in accordance with the established rules and practices in effect on the carrier, on furlough subject to call for service within or without the United States and ready and willing to serve, or on leave of absence, or absent on account of sickness or disability. However, an individual shall not be deemed to have been in the employment relation to a carrier on August 29, 1935, unless during the last pay-roll period before August 29, 1935, in which he rendered service to it, he was, with respect to that service, in the service of an employer (see paragraph (a) of this section).

With respect to services rendered after December 31, 1946, an individual shall be deemed to have been in the employment relation to a carrier on August 29, 1935, if (i) he was on that date on leave of absence from his employment, expressly granted to him by the carrier by whom he was employed, or by a duly authorized representative of such carrier, and the grant of such leave of absence will have been established to the satisfaction of the Railroad Retirement Board before July 1947; or (ii) he was in the service of a carrier after August 29, 1935, and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before August 29, 1935, he did not retire and was not retired or discharged from the service of the last carrier by whom he was employed or its corporate or operating successor, but (*a*) solely by reason of his physical or mental disability he ceased before August 29, 1935, to be in the service of such carrier and thereafter remained continuously disabled until he attained age sixty-five or until August 1945, or (*b*) solely for such last stated reason a carrier by whom he was employed before August 29, 1935, or a carrier who is its successor did not on or after August 29, 1935, and before August 1945 call him to return to service, or (*c*) if he was so called he was solely for such reason unable to render service in six calendar months as provided in subdivision (ii) of this subparagraph; or (iv) he was on August 29, 1935, absent from the service of a carrier by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the carrier, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights. However, an individual shall not be deemed to have been in the employment relation to a carrier on August 29, 1935, if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6 of the Railroad Retirement Act of 1937, or if during the last pay-roll period before August 29, 1935, in which he rendered service to a carrier he was not, with respect to any service in such pay-roll period, in the service of an employer (see paragraph (a) of this section).

(For definition of carrier, see § 410.2 (a).)

(D) By inserting at the end of subparagraph (3) of § 410.3 (c) the following: "However, no part of his remuneration for such service rendered after December 31, 1946, shall be regarded as compensation if the application of such mileage formula, or such other formula as the Railroad Retirement Board may have prescribed, would result in his compensation for the service being less than 10 percent of his remuneration for such service."

(E) By striking out the parenthetical cross-reference at the end of § 410.3 (c).

PAR. 7. Immediately following the provisions of law under the caption "Section 27 of the act approved October 10, 1940 (Public, No. 833, 76th Cong., 3d Sess.)," added by Treasury Decision 5029, approved December 27, 1940, preceding § 410.5 (Article 5), the following is inserted:

SECTION 3 (f) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(f) Section 1532 (e) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, "for time lost" the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * *

The amendments to section 1532 of the Internal Revenue Code made by sections * * * 3 * * * (f) shall be effective only with respect to services rendered after December 31, 1946. * * *

PAR. 8. Section 410.5 (Article 5), as amended by Treasury Decisions 5029 and 5161, is further amended to read as follows:

§ 410.5 *Definition of "compensation."* The term "compensation" means all remuneration in money, or in something which may be used in lieu of money (for example, scrip and merchandise orders), which is earned by an individual for services rendered as an employee to one or more employers, or as an employee representative. A payment for services rendered after December 31, 1946, which is made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for services rendered by such individual as an employee of the employer. Likewise, a payment for services rendered after December 31, 1946, which is made by an employee organization (that is, a railway labor organization which is not included as an employer under the act) to an employee representative through the organization's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for services rendered by the employee representative as such.

The term "compensation" is not confined to amounts earned or paid for active service, but includes amounts earned or paid for an identifiable period during which the employee is absent from the active service of the employer and, in the case of an employee representative, amounts earned or paid for an identifiable period during which the employee representative is absent from the active service of the employee organization. Amounts paid to an employee for an identifiable period of absence from the active service of the employer on acount of personal injury are included within the term "compensation". Like payments made to an employee representative on account of personal injury also constitute compensation. If a payment is made to an employee or employee representative with respect to a personal injury and includes pay for an identifiable period of absence from active service, the total payment shall be deemed to be paid for such period of absence from active service unless, at the time of payment, a part of such payment is specifically apportioned to factors other than absence from active service, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for such period of absence from active service. The presumption set forth in the preceding sentence is applicable only with respect to an identifiable period of absence from active service after December 31, 1946. Amounts paid to an employee or employee representative for loss of earnings during an identifiable period as the result of the displacement of the employee or employee representative to a less remunerative position or occupation shall be deemed to be paid for absence from active service during such period. Such amounts are also included within the term "compensation".

The term "compensation" does not include tips, or the voluntary payment by an employer of the employees' tax, without the deduction of such tax from the remuneration of the employee.

(See § 410.7, relating to when compensation is earned. See also §§ 410.201, 410.301, and 410.401, relating to the amount of compensation included for the purpose of determining the employees' tax, the employers' tax, and the employee representatives' tax, respectively. For special provisions relating to the compensation of certain general chairmen or assistant general chairmen of a general committee of a railway-labor-organization employer, see § 419.3 (c).)

PAR. 9. Section 410.6 (Article 6) is amended by inserting at the end thereof the following: "For provisions relating to payments for personal injury or for loss of earnings resulting from displacement to a less remunerative position or occupation, see § 410.5."

PAR. 10. Section 410.7 (Article 7) is amended by striking out the parenthetical cross-reference at the end of such section and inserting in lieu thereof the following: "A payment made by an employer or employee organization (that is, a railway labor organization which is not included as an employer under the act) to an individual through the pay roll of the employer or employee organization for a period commencing after December 31, 1946, shall be presumed, in the absence of evidence to the contrary, to be for services rendered by such individual in the period covered by the pay roll and, thus, to have been earned in such period. (See §§ 410.5 and 410.6)."

PAR. 11. Immediately preceding the caption "Section 27 of the Act approved October 10, 1940 (Public, No. 833, 76th Cong., 3d Sess.)", added by Treasury Decision 5029, which precedes § 410.201 (Article 201), the following is inserted:

SECTION 3 (a) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(a) Section 1500 of the Internal Revenue Code is amended to read as follows:

SEC. 1500. RATE OF TAX. In addition to other taxes, there shall be levied, collected, and paid upon the income of every employee a tax equal to the following percentages of so much of the compensation, paid to such employee after December 31, 1946, for services rendered by him after such date, as is not in excess of $300 for any calendar month:

1. With respect to compensation paid during the calendar years 1947 and 1948, the rate shall be 5¾ per centum;

2. With respect to compensation paid during the calendar years 1949, 1950, and 1951, the rate shall be 6 per centum;

3. With respect to compensation paid after December 31, 1951, the rate shall be 6¼ per centum.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * *

* * * The amendments made by section 3 (a) * * * shall take effect January 1, 1947. Sections 1500 * * * of the Internal Revenue Code as in effect on December 31, 1946, shall remain in full force and effect on and after January 1, 1947, with respect to any remuneration which constitutes compensation under the law as in effect on December 31, 1946, to which such sections as amended by this Act are not applicable.

PAR. 12. Section 410.201 (Article 201), as amended by Treasury Decision 5029, is further amended as follows:

(A) By striking out paragraph (a) and inserting in lieu thereof the following:

(a) *General rule*—(1) *Compensation earned or paid prior to January 1, 1947.* Except as provided in paragraph (b) of this section:

(i) The employees' tax with respect to compensation earned prior to January 1, 1947, is measured by the amount of compensation earned prior to such date by an individual as an employee for services rendered to one or more employers after March 31, 1939, excluding, however, the amount of such compensation in excess of $300 which is earned by the employee for services rendered during any one calendar month;

(ii) The employees' tax with respect to compensation paid prior to January 1, 1947, for services rendered after December 31, 1946, is measured by the amount of compensation paid prior to January 1, 1947, to an individual for services rendered as an employee to one or more employers after December 31, 1946, excluding, however, the amount of such compensation in excess of $300 which is paid prior to January 1, 1947, to the employee for services rendered during any one calendar month after 1946.

(For the purposes of the regulations in §§ 410.201 to 410.203, inclusive, see §§ 410.5, 410.6, 410.7, and 410.8, relating to compensation.)

(2) *Compensation paid after December 31, 1946, for services rendered after such date.* Except as provided in paragraph (b) of this section, the employees' tax with respect to compensation paid after December 31, 1946, for services rendered after such date is measured by the amount of compensation paid after December 31, 1946, to an individual for services rendered as an employee to one or more employers after such date, excluding, however, the amount of such compensation in excess of $300 which is paid after December 31, 1946, to the employee for services rendered during any one calendar month after 1946.

(B) By striking out the designation "(b)" and inserting in lieu thereof the following:

(b) *Exception; employee of local lodge or division of railway-labor-organization employer.*

PAR. 13. Section 410.202 (Article 202) is amended to read as follows:

§ 410.202 *Rates and computation of employees' tax*—(a) *Compensation earned or paid prior to January 1, 1947.* The rates of employees' tax applicable for the respective calendar years with respect to compensation either earned or paid prior to January 1, 1947, are as follows:

	Percent
Compensation earned during the calendar year 1939	2¾
Compensation earned during the calendar years 1940, 1941, 1942	3
Compensation earned during the calendar years 1943, 1944, 1945	3¼
Compensation earned during the calendar years 1946, 1947, 1948	3½
Compensation earned during the calendar year 1949 and subsequent calendar years	3¾

The employees' tax with respect to compensation either earned or paid prior to January 1, 1947, is computed by applying to the amount of the employee's compensation with respect to which the employees' tax is imposed the rate for the calendar year in which the compensation is earned.

(b) *Compensation paid after December 31, 1946, for services rendered after such date.* The rates of employees' tax applicable for the respective calendar years with respect to compensation paid after December 31, 1946, for services rendered after such date are as follows:

	Percent
Compensation paid during the calendar years 1947, 1948	5¾
Compensation paid during the calendar years 1949, 1950, 1951	6
Compensation paid during the calendar year 1952 and subsequent calendar years	6¼

The employees' tax with respect to compensation paid after December 31, 1946, for services rendered after such date is computed by applying to the amount of the employee's compensation with respect to which the employees' tax is imposed the rate for the calendar year in which the compensation is paid.

PAR. 14. Immediately preceding the caption "Section 607 of the Revenue Act of 1934, made applicable by section 7 (c) of the Act" which precedes § 410.203 (Article 203), the following is inserted:

SECTION 3 (b) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(b) The second sentence of section 1501 (a) of the Internal Revenue Code is amended to read as follows: "If an employee is paid compensation after December 31, 1946, by more than one employer for services rendered during any calendar month after 1946 and the aggregate of such compensation is in excess of $300, the tax to be deducted by each employer other than a subordinate unit of a national railway-labor-organization employer from the compensation paid by him to the employee with respect to such month shall be that proportion of the tax with respect to such compensation paid by all such employers which the compensation paid by him after December 31, 1946, to the employee for services rendered during such month bears to the total compensation paid by all such employers after December 31, 1946, to such employee for services rendered during such month; and in the event that the compensation so paid by such employers to the employee for services rendered during such month is less than $300, each subordinate unit of a national railway-labor-organization employer shall deduct such proportion of any additional tax as the compensation paid by such employer after December 31, 1946, to such employee for services rendered during such month bears to the total compensation paid by all such employers after December 31, 1946, to such employee for services rendered during such month."

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * *

* * * The amendments made by section 3 * * * (b) * * * shall take effect January 1, 1947. * * *

PAR. 15. Section 410.203 (Article 203) is amended as follows:

(A) By striking out paragraph (a) and inserting in lieu thereof the following:

(a) *Collection; general rule.* The employer shall collect from each of his employees the employees' tax imposed with respect to the compensation of the employee by deducting or causing to be deducted the amount of such tax from the compensation subject to the tax as and when such compensation is paid. (As to the measure of the employees' tax, see § 410.201.)

(B) By striking out paragraph (b) and inserting in lieu thereof the following:

(b) *Collection; aggregate monthly compensation in excess of $300 paid by two or more employers*—(1) *Compensation earned or paid prior to January 1, 1947.* If during any one calendar month before 1947 an employee earns compensation from two or more employers and if the aggregate of such compensation paid is in excess of $300, each employer shall deduct, from the compensation as and when paid by him to the employee, the employees' tax with respect to that proportion of $300 of compensation which the compensation paid by such employer to the employee for the month bears to the total compensation paid to such employee by all employers for that month. If an employee is paid compensation prior to January 1, 1947, by two or more employers for services rendered during any one calendar month after 1946, and if the aggregate compensation paid to such employee prior to January 1, 1947, by all employers for services rendered during such month is in excess of $300, each employer shall deduct, from the compensation as and when paid by him to the employee, the employees' tax with respect to that proportion of $300 of compensation which the compensation paid by such employer prior to January 1, 1947, to the employee for the month bears to the total compensation paid prior to January 1, 1947, to such employee by all employers for that month. (See § 410.201 (b), which provides that for the purpose of determining the employees' tax certain nominal compensation earned by an employee of a local lodge or division of a railway-labor-organization employer shall be disregarded.)

(2) *Compensation paid after December 31, 1946, for services rendered after such date.* If an employee is paid compensation after December 31, 1946, by two or more employers for services rendered during any one calendar month after 1946, and if the aggregate compensation paid to such employee after December 31, 1946, by all employers for services rendered during such month is in excess of $300, the employees' tax to be deducted by each employer from the compensation as and when paid by him to the employee shall be determined as follows:

(i) If such compensation is paid by two or more employers, none of whom is a subordinate unit of a national railway-labor-organization employer (see § 410.2 (f)), each employer shall deduct the employees' tax with respect to that proportion of $300 of compensation which the compensation paid after December 31, 1946, by such employer to the employee for the month bears to the total compensation paid after December 31, 1946, to such employee by all employers for that month (see Example 1, below);

(ii) If such compensation is paid by two or more employers, each of which is a subordinate unit of a national railway-labor-organization employer, each subordinate unit shall deduct the employees' tax with respect to that proportion of $300 of compensation which the compensation paid after December 31, 1946, by such subordinate unit to the employee for the month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month;

(iii) If such compensation is paid by two or more employers, only one of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and if the compensation paid after December 31, 1946, to the employee by the employer other than a subordinate unit equals or exceeds $300 for the month, then no employees' tax shall be deducted by any such subordinate unit from the compensation paid by it after December 31, 1946, to such employee for that month, and the employer other than a subordinate unit shall deduct the employees' tax with respect to $300 of compensation paid by him after December 31, 1946, to such employee for that month (see Example 2, below);

(iv) If such compensation is paid by two or more employers other than a subordinate unit of a national railway-labor-organization employer and by one or more subordinate units of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by the employers other than a subordinate unit equals or exceeds $300 for the month, then no employees' tax shall be deducted by any such subordinate unit from the compensation paid by it after December 31, 1946, to such employee for that month, and each employer other than a subordinate unit shall deduct the employees' tax with respect to that proportion of $300 of compensation which the compensation paid after December 31, 1946, by such employer to the employees for the month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month (see Example 3, below);

(v) If such compensation is paid by two or more employers, only one of whom is a subordinate unit of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by all employers other than the subordinate unit is less than $300 for the month, then each employer other than the subordinate unit shall deduct the employees' tax with respect to the full amount of compensation paid by him after December 31, 1946, to such employee for that month, and the employer other than a subordinate unit shall deduct the employees' tax with respect to $300 of compensation paid by him after December 31, 1946, to such employee for that month (see Example 4, below); or

(vi) If such compensation is paid by one or more employers other than a subordinate unit of a national railway-labor-organization employer and by two or more subordinate units of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by all employers other than the subordinate units is less than $300 for the month, then each employer other than the subordinate units shall deduct the employees' tax with respect to that proportion of $300 of compensation which the compensation paid after December 31, 1946, by such employer to the employees for the month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month; and each subordinate unit of a national railway-labor-organization employer shall deduct the employees' tax with respect to that proportion of the remainder of $300 of compensation less the total compensation paid after December 31, 1946, to such employee for the month by all employers other than the subordinate units which the compensation paid after December 31, 1946, by such subordinate unit to the employee for that month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month (see Example 5, below).

(See § 410.201 (b), which provides that for the purpose of determining the employees' tax certain nominal compensation earned by an employee of a local lodge or division of a railway-labor-organization employer shall be disregarded.)

The application of certain of the foregoing principles may be illustrated by the following examples:

Example 1. A, an employee, renders services during January 1947, for employers X, Y, and Z, none of whom is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $100 by X, $100 by Y, and $200 by Z, or an aggregate of $400 for the month. In such case X pays one-fourth of A's aggregate compensation for the month, Y pays one-fourth, and Z pays one-half. X and Y, therefore, are each required to deduct the employees' tax with respect to one-fourth of $300, or $75, and Z is required to deduct the employees' tax with respect to one-half of $300, or $150.

Example 2. A, an employee, renders services during January 1947, for employer X, an employer other than a subordinate unit of a national railway-labor-organization employer, and for employers Y and Z, each of which is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $300 by X, $50 by Y, and $25 by Z. Since the compensation paid A for the month by X equals $300, neither Y nor Z is required to deduct any employees' tax from the compensation paid by them to A for the month; and X is required to deduct the employees' tax with respect to the full $300 paid by him to A for the month.

Example 3. A, an employee, renders services during January 1947, for employers W and X, each of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and for employers Y and Z, each of which is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $200 by W and $200 by X, or an aggregate of $400 for the month, and compensation of $50 by Y and $50 by Z. Since the aggregate compensation paid A for the month by W and X is in excess of $300, neither Y nor Z is required to deduct any employees' tax from the compensation paid by them to A for the month. Of the aggregate compensation of $400 paid A for the month by W and X, W pays one-half and X pays one-half. W and X, therefore, are each required to deduct the employees' tax with respect to one-half of $300, or $150.

Example 4. A, an employee, renders services during January 1947, for employer X, an employer other than a subordinate unit of a national railway-labor-organization employer, and for employer Y, a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $250 by X and $100 by Y. In such case X is required to deduct the employees' tax with respect to

the full $250 paid by him to A for the month; and Y is required to deduct the employees' tax only with respect to $50 ($300 minus $250 paid by X.)

Example 5. A, an employee, renders services during January 1947, for employers W and X, each of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and for employers Y and Z, each of which is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $140 by W, $100 by X, $50 by Y, and $100 by Z. In such case W and X are each required to deduct the employees' tax with respect to the full amount paid by them to A for the month, that is, W with respect to $140 and X with respect to $100; and Y and Z are each required to deduct the employees' tax with respect to their proportionate share of $60 ($300 minus $240 paid by W and X). Of the aggregate compensation of $150 paid by Y and Z, $50, or one-third, was paid by Y, and $100, or two-thirds, was paid by Z. In such case Y is required to deduct the employees' tax with respect to one-third of $60, or $20, and Z is required to deduct the employees' tax with respect to two-thirds of $60, or $40.

(3) *Undercollections or overcollections.* Any undercollection or overcollection of employees' tax resulting from the employer's inability to determine, at the time compensation is paid, the correct amount of compensation with respect to which the deduction should be made shall be corrected in accordance with the provisions of §§ 410.601 to 410.603, inclusive, relating to an adjustment of employees' tax and employers' tax, and §§ 410.701 to 410.707, inclusive, relating to credits and refunds.

(C) By striking out the designation "(c)" and inserting in lieu thereof the following:

(c) *When fractional part of cent may be disregarded.*

(D) By striking out the designation "(d)" and inserting in lieu thereof the following:

(d) *Employer's liability.*

PAR. 16. Immediately preceding the caption "Section 27 of the Act approved October 10, 1940 (Public, No. 833, 76th Cong., 3d Sess.)" which precedes § 410.301 (Article 301), the following is inserted:

SECTION 3 (d) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(d) Section 1520 of the Internal Revenue Code is amended to read as follows:

SEC. 1520. RATE OF TAX. In addition to other taxes, every employer shall pay an excise tax, with respect to having individuals in his employ, equal to the following percentages of so much of the compensation, paid by such employer after December 31, 1946, for services rendered to him after December 31, 1936, as is, with respect to any employee for any calendar month, not in excess of $300: *Provided, however*, That if an employee is paid compensation after December 31, 1946, by more than one employer for services rendered during any calendar month after 1936, the tax imposed by this section shall apply to not more than $300 of the aggregate compensation paid to such employee by all such employers after December 31, 1946, for services rendered during such month, and each employer other than a subordinate unit of a national railway-labor-organization employer shall be liable for that proportion of the tax with respect to such compensation paid by all such employers which the compensation paid by him after December 31, 1946, to the employee for services rendered during such month bears to the total compensation paid by all such employers after December 31, 1946, to such employee for services rendered during such month; and in the event that the compensation so paid by such employers to the employee for services rendered during such month is less than $300, each subordinate unit of a national railway-labor-organization employer shall be liable for such proportion of any additional tax as the compensation paid by such employer after December 31, 1946, to such employee for services rendered during such month bears to the total compensation paid by all such employers after December 31, 1946, to such employee for services rendered during such month:

1. With respect to compensation paid during the calendar years 1947 and 1948, the rate shall be 5¾ per centum;

2. With respect to compensation paid during the calendar years 1949, 1950, and 1951, the rate shall be 6 per centum;

3. With respect to compensation paid after December 31, 1951, the rate shall be 6¼ per centum.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * *

* * * The amendments made by section 3 * * * (d) shall take effect January 1, 1947. Sections * * * 1520 of the Internal Revenue Code as in effect on December 31, 1946, shall remain in full force and effect on and after January 1, 1947, with respect to any remuneration which constitutes compensation under the law as in effect on December 31, 1946, to which such sections as amended by this Act are not applicable.

PAR. 17. Section 410.301 (Article 301), as amended by Treasury Decision 5029, is further amended to read as follows:

§ 410.301 *Measure of employers' tax*—(a) *General rule*—(1) *Compensation paid prior to January 1, 1947.* Except as provided in paragraphs (b) (1) and (c) of this section, the employers' tax with respect to compensation paid prior to January 1, 1947, is measured by the amount of compensation paid prior to such date by an employer to his employees for services rendered after December 31, 1936, excluding, however, the amount of compensation in excess of $300 which is paid prior to January 1, 1947, by the employer to any employee for services rendered during any one calendar month. (For the purposes of §§ 410.301 and 410.302, see §§ 410.5, 410.6, and 410.7, relating to compensation, and particularly § 410.8, relating to the time when compensation is deemed to be paid.)

(2) *Compensation paid after December 31, 1946.* Except as provided in paragraphs (b) (2) and (c) of this section, the employers' tax with respect to compensation paid after December 31, 1946, is measured by the amount of compensation paid after such date by an employer to his employees for services rendered after December 31, 1936, excluding, however, the amount of compensation in excess of $300 which is paid after December 31, 1946, by the employer to any employee for services rendered during any one calendar month.

(b) *Aggregate monthly compensation in excess of $300 paid by two or more employers*—(1) *Compensation paid prior to January 1, 1947.* If an employee is paid compensation prior to January 1, 1947, by two or more employers for services rendered during any one calendar month after 1936, and if the aggregate compensation paid to such employee prior to January 1, 1947, by all employers for services rendered during such month is in excess of $300, then there is included in the measure of the employers' tax of each employer with respect to the compensation paid by him prior to January 1, 1947, to the employee for the month only that proportion of $300 which the compensation paid to the employee prior to January 1, 1947, by such employer for the month bears to the total compensation paid prior to January 1, 1947, to such employee by all employers for that month. (See paragraph (c) of this section, which provides that for the purpose of determining the employers' tax certain nominal compensation earned by an employee of a local lodge or division of a railway-labor-organization employer shall be disregarded.)

(2) *Compensation paid after December 31, 1946.* If an employee is paid compensation after December 31, 1946, by two or more employers for services rendered during any one calendar month after 1936, and if the aggregate compensation paid to such employee after December 31, 1946, by all employers for services rendered during such month is in excess of $300, the measure of the employers' tax of each employer with respect to the compensation paid by him after December 31, 1946, to the employee for the month shall be determined as follows:

(i) If such compensation is paid by two or more employers, none of whom is a subordinate unit of a national railway-labor-organization employer (see § 410.2 (f)), the measure of the employers' tax of each employer shall be that proportion of $300 which the compensation paid after December 31, 1946, by such employer to the employee for the month bears to the total compensation paid after December 31, 1946, to such employee by all employers for that month (see Example 1, below);

(ii) If such compensation is paid by two or more employers, each of which is a subordinate unit of a national railway-labor-organization employer, the measure of the employers' tax of each subordinate unit shall be that proportion of $300 which the compensation paid after December 31, 1946, by such subordinate unit to the employee for the month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month;

(iii) If such compensation is paid by two or more employers, only one of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and if the compensation paid after December 31, 1946, to the employee by the employer other than a subordinate unit equals or exceeds $300 for the month, then no subordinate unit shall be liable for any employers' tax with respect to the compensation paid by it after December 31, 1946, to such employee for that month, and the measure of the employers' tax of the employer other than a subordinate unit with respect to the compensation paid by him after December 31, 1946, to such employee for that month shall be $300 (see Example 2, below);

(iv) If such compensation is paid by two or more employers other than a subordinate unit of a national railway-labor-organization employer and by one or more subordinate units of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by the employers other than a subordinate unit equals or exceeds $300 for the month, then no subordinate unit shall be liable for any employers' tax with respect to the compensation paid by it after December 31, 1946, to such employee for that month, and the measure of the employers' tax of each employer other than a subordinate unit shall be that proportion of $300 which the compensation paid after December 31, 1946, by such employer to the employee for the month bears to the total compensation paid after December 31, 1946, to such employee by all such employers other than a subordinate unit for that month (see Example 3, below);

(v) If such compensation is paid by two or more employers, only one of whom is a subordinate unit of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by all employers other than the subordinate unit is less than $300 for the month, then the measure of the employers' tax of each employer other than the subordinate unit shall be the full amount of compensation paid by him after December 31, 1946, to such employee for that month, and the measure of the employers' tax of the subordinate unit of a national railway-labor-organization employer shall be the remainder of $300 less the total compensation paid after December 31, 1946, to such employee for that month by all other employers (see Example 4, below); or

(vi) If such compensation is paid by one or more employers other than a subordinate unit of a national railway-labor-organization employer and by two or more subordinate units of a national railway-labor-organization employer, and if the total compensation paid after December 31, 1946, to the employee by all employers other than the subordinate units is less than $300 for the month, then the measure of the employers' tax of each employer other than the subordinate units shall be the full amount of compensation paid by him after December 31, 1946, to such employee for that month, and the measure of the employers' tax of each subordinate unit of a national railway-labor-organization employer shall be that proportion of the remainder of $300 less the total compensation paid after December 31, 1946, to such employee for the month by all employers other than the subordinate units which the compensation paid after December 31, 1946, by such subordinate unit to the employee for that month bears to the total compensation paid after December 31, 1946, to such employee by all such subordinate units for that month (see Example 5, below).

(See paragraph (c) of this section, which provides that for the purpose of determining the employers' tax certain nominal compensation earned by an employee of a local lodge or division of a railway-labor-organization employer shall be disregarded.)

The application of certain of the foregoing principles may be illustrated by the following examples:

Example 1. A, an employee, renders services during January 1947, for employers X and Y, neither of whom is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $200 by X and $300 by Y, or an aggregate of $500 for the month. In such case X pays two-fifths of A's aggregate compensation for the month, and Y pays three-fifths. X, therefore, is liable for the employers' tax with respect to two-fifths of $300, or $120, and Y is liable for the employers' tax with respect to three-fifths of $300, or $180.

Example 2. A, an employee, renders services during January 1947, for employer X, an employer other than a subordinate unit of a national railway-labor-organization employer, and for employer Y, a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $350 by X and $50 by Y. Since the compensation paid A for the month by X exceeds $300, Y is not liable for any employers' tax with respect to the compensation paid A for the month; and X is liable for the employers' tax with respect to $300 of the compensation paid by him to A for the month.

Example 3. A, an employee, renders services during January 1947, for employers W and X, each of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and for employers Y and Z, each of which is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $150 by W and $300 by X, or an aggregate of $450 for the month, and compensation of $100 by Y and $50 by Z. Since the aggregate compensation paid A for the month by W and X is in excess of $300, neither Y nor Z is liable for any employers' tax with respect to the compensation paid by them to A for the month. Of the aggregate compensation of $450 paid A for the month by W and X, W pays one-third and X pays two-thirds. W, therefore, is liable for the employers' tax with respect to one-third of $300, or $100, and X is liable for the employers' tax with respect to two-thirds of $300, or $200.

Example 4. A, an employee, renders services during January 1947, for employer X, an employer other than a subordinate unit of a national railway-labor-organization employer, and for employer Y, a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $250 by X and $100 by Y. In such case X is liable for the employers' tax with respect to the full $250 paid by him to A for the month; and Y is liable for the employers' tax with respect to $50 ($300 minus $250 paid by X).

Example 5. A, an employee, renders services during January 1947, for employers W and X, each of whom is an employer other than a subordinate unit of a national railway-labor-organization employer, and for employers Y and Z, each of which is a subordinate unit of a national railway-labor-organization employer. After December 31, 1946, A is paid for the month compensation of $140 by W, $100 by X, $50 by Y, and $100 by Z. In such case W and X are each liable for the employers' tax with respect to the full amount paid by them to A for the month, that is, W with respect to $140 and X with respect to $100; and Y and Z are each liable for the employers' tax with respect to their proportionate share of $60 ($300 minus $240 paid by W and X). Of the aggregate compensation of $150 paid by Y and Z, $50, or one-third, was paid by Y, and $100, or two-thirds, was paid by Z. In such case Y is liable for the employers' tax with respect to one-third of $60, or $20, and Z is liable for the employers' tax with respect to two-thirds of $60, or $40.

(c) *Nominal monthly compensation earned by employee of local lodge or division of railway-labor-organization employer.* If the amount of compensation earned in any calendar month by an individual as an employee in the service of a local lodge or division of a railway-labor-organization employer is less than $3, such amount shall be disregarded for the purpose of determining the employers' tax, *Provided:*

(1) Such compensation is earned before April 1, 1940, and the taxes thereon are not paid to the collector before July 1, 1940, or

(2) Such compensation is earned after March 31, 1940.

(d) *Underpayments or overpayments.* Any underpayment or overpayment of employers' tax resulting from the employer's inability to determine, at the time such tax is paid, the correct amount of compensation with respect to which the tax should be paid shall be corrected in accordance with the provisions of § 410.603, relating to adjustment of employers' tax, and §§ 410.701 to 410.707, inclusive, relating to credits and refunds.

PAR. 18. Section 410.302 (Article 302) is amended to read as follows:

§ 410.302 *Rates and computation of employers' tax*—(a) *Compensation paid prior to January 1, 1947.* The rates of employers' tax applicable for the respective calendar years with respect to compensation paid prior to January 1, 1947, are as follows:

	Percent
Compensation earned during the calendar year 1939	2¼
Compensation earned during the calendar years 1940, 1941, 1942	3
Compensation earned during the calendar years 1943, 1944, 1945	3¼
Compensation earned during the calendar years 1946, 1947, 1948	3½
Compensation earned during the calendar year 1949 and subsequent calendar years	3¾

The employers' tax with respect to compensation paid prior to January 1, 1947, is computed by applying to the amount of compensation with respect to which the employers' tax is imposed the rate for the calendar year in which the compensation is earned.

(b) *Compensation paid after December 31, 1946.* The rates of employers' tax applicable for the respective calendar years with respect to compensation paid after December 31, 1946, are as follows:

	Percent
Compensation paid during the calendar years 1947, 1948	5¾
Compensation paid during the calendar years 1949, 1950, 1951	6
Compensation paid during the calendar year 1952 and subsequent calendar years	6¼

The employers' tax with respect to compensation paid after December 31,

1946, is computed by applying to the amount of compensation with respect to which the employers' tax is imposed the rate for the calendar year in which the compensation is paid.

PAR. 19. Immediately preceding § 410.401 (Article 401) the following is inserted:

SECTION 3 (c) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(c) Section 1510 of the Internal Revenue Code is amended to read as follows:

SEC. 1510. RATE OF TAX. In addition to other taxes, there shall be levied, collected, and paid upon the income of each employee representative a tax equal to the following percentages of so much of the compensation, paid to such employee representative after December 31, 1946, for services rendered by him after such date, as is not in excess of $300 for any calendar month:

1. With respect to compensation paid during the calendar years 1947 and 1948, the rate shall be 11½ per centum;

2. With respect to compensation paid during the calendar years 1949, 1950, and 1951, the rate shall be 12 per centum;

3. With respect to compensation paid after December 31, 1951, the rate shall be 12½ per centum.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * * * *

* * * The amendments made by section 3 * * * (c) * * * shall take effect January 1, 1947. Sections * * * 1510 * * * of the Internal Revenue Code as in effect on December 31, 1946, shall remain in full force and effect on and after January 1, 1947, with respect to any remuneration which constitutes compensation under the law as in effect on December 31, 1946, to which such sections as amended by this Act are not applicable.

PAR. 20. Section 410.401 (Article 401) is amended to read as follows:

§ 410.401 *Measure of employee representatives' tax*—(a) *Compensation earned or paid prior to January 1, 1947.* The employee representatives' tax with respect to compensation earned prior to January 1, 1947, is measured by so much of the compensation earned prior to such date by an individual for services rendered after March 31, 1939, as an employee representative, as does not exceed $300 for any one calendar month. The employee representatives' tax with respect to compensation paid prior to January 1, 1947, for services rendered after December 31, 1946, is measured by so much of the compensation paid prior to January 1, 1947, to an individual for services rendered after December 31, 1946, as an employee representative, as does not exceed $300 for any one calendar month. (For the purposes of §§ 410.401 and 410.402, see §§ 410.5, 410.6, 410.7, and 410.8, relating to compensation.)

(b) *Compensation paid after December 31, 1946, for services rendered after such date.* The employee representatives' tax with respect to compensation paid after December 31, 1946, for services rendered after such date is measured by so much of the compensation paid after December 31, 1946, to an individual for services rendered after such date, as an employee representative, as does not exceed $300 for any one calendar month.

PAR. 21. Section 410.402 (Article 402) is amended to read as follows:

§ 410.402 *Rates and computation of employee representatives' tax*—(a) *Compensation earned or paid prior to January 1, 1947.* The rates of employee representatives' tax applicable for the respective calendar years with respect to compensation either earned or paid prior to January 1, 1947, are as follows:

	Percent
Compensation earned during the calendar year 1939	5½
Compensation earned during the calendar years 1940, 1941, 1942	6
Compensation earned during the calendar years 1943, 1944, 1945	6½
Compensation earned during the calendar years 1946, 1947, 1948	7
Compensation earned during the calendar year 1949 and subsequent calendar years	7½

The employee representatives' tax with respect to compensation either earned or paid prior to January 1, 1947, is computed by applying to the amount of compensation with respect to which the employee representatives' tax is imposed the rate for the calendar year in which the compensation is earned.

(b) *Compensation paid after December 31, 1946, for services rendered after such date.* The rates of employee representatives' tax applicable for the respective calendar years with respect to compensation paid after December 31, 1946, for services rendered after such date are as follows:

	Percent
Compensation paid during the calendar years 1947, 1948	11½
Compensation paid during the calendar years 1949, 1950, 1951	12
Compensation paid during the calendar year 1952 and subsequent calendar years	12½

The employee representatives' tax with respect to compensation paid after December 31, 1946, for services rendered after such date is computed by applying to the amount of compensation with respect to which the employee representatives' tax is imposed the rate for the calendar year in which the compensation is paid.

PAR. 22. Section 410.806 (c) (Article 806 (c)) is amended by inserting at the end thereof the following: "With respect to services rendered after December 31, 1946, the records of each individual liable for employee representatives' tax shall show, in lieu of the information required by paragraph (2), above, the amount and date of each payment of compensation (including any sum withheld therefrom) earned as an employee representative and as an employee and the period of services covered by such payment."

PAR. 23. Immediately preceding § 402.216, the following is inserted:

SECTION 1 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * section 1532 (d) of the Internal Revenue Code are each amended as follows: After the word "if" where it first appears therein insert "(i)" and for the phrase "which services he renders for compensation" substitute the following: "or he is rendering professional or technical services and is integrated into the staff of the employer, or he is rendering, on the property used in the employer's operations, other personal services the rendition of which is integrated into the employer's operations, and (ii) he renders such service for compensation" * * *. Said subsections are further amended by inserting at the end of the first proviso the following: ", and if the application of such mileage formula, or such other formula as the Board may prescribe, would result in the compensation of the individual being less than 10 per centum of his remuneration for such service no part of such remuneration shall be regarded as compensation."

SECTION 3 (e) AND (f) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

(e) Section 1532 (b) of the Internal Revenue Code is amended to read as follows:

(b) *Employee.* The term "employee" means any individual in the service of one or more employers for compensation: *Provided, however,* That the term "employee" shall include an employee of a local lodge or division defined as an employer in subsection (a) only if he was in the service of or in the employment relation to a carrier on or after August 29, 1935. An individual shall be deemed to have been in the employment relation to a carrier on August 29, 1935, if (i) he was on that date on leave of absence from his employment, expressly granted to him by the carrier by whom he was employed, or by a duly authorized representative of such carrier, and the grant of such leave of absence will have been established to the satisfaction of the Railroad Retirement Board before July 1947; or (ii) he was in the service of a carrier after August 29, 1935, and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before August 29, 1935, he did not retire and was not retired or discharged from the service of the last carrier by whom he was employed or its corporate or operating successor, but (A) solely by reason of his physical or mental disability he ceased before August 29, 1935, to be in the service of such carrier and thereafter remained continuously disabled until he attained age sixty-five or until August 1945, or (B) solely for such last stated reason a carrier by whom he was employed before August 29, 1935, or a carrier who is its successor did not on or after August 29, 1935, and before August 1945 call him to return to service, or (C) if he was so called he was solely for such reason unable to render service in six calendar months as provided in clause (ii); or (iv) he was on August 29, 1935, absent from the service of a carrier by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the carrier, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights: *Provided,* That an individual shall not be deemed to have been on August 29, 1935, in the employment relation to a carrier if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6 of the Railroad Retirement Act of 1937, or if during the last pay-roll period before August 29, 1935, in which he rendered service to a carrier he was not in the service of an employer, in accordance with subsection (d), with respect to any service in such pay-roll period, or if he could have been in the employment relation to an employer only by reason of his having been, either before or after August 29, 1935, in the service of a local lodge or division defined as an employer in subsection (a).

The term "employee" includes an officer of an employer.

The term "employee" shall not include any individual while such individual is engaged in the physical operations consisting of the mining of coal, the preparation of coal, the handling (other than movement by rail with standard railroad locomotives) of coal not beyond the mine tipple, or the loading of coal at the tipple.

(f) Section 1532 (e) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, "for time lost" the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost.

SECTION 402 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * * * * *

The amendments to section 1532 of the Internal Revenue Code made by sections 1 and 3 (e) and (f) shall be effective only with respect to services rendered after December 31, 1946. * * *

SECTION 3 (g) OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

Subchapter B of Chapter 9 of the Internal Revenue Code is amended by adding at the end thereof the following new section:

SEC. 1538. *Title of subchapter.* This subchapter may be cited as the "Railroad Retirement Tax Act."

SECTION 401 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

Except as otherwise provided in this Act, the provisions thereof shall become effective upon approval.

PAR. 24. Immediately preceding § 403.216, the following is inserted:

SECTION 1 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * section 1 (e) of the Railroad Unemployment Insurance Act * * * are each amended as follows: After the word "if" where it first appears therein insert "(i)" and for the phrase "which services he renders for compensation" substitute the following: "or he is rendering professional or technical services and is integrated into the staff of the employer, or he is rendering, on the property used in the employer's operations, other personal services the rendition of which is integrated into the employer's operations, and (ii) he renders such service for compensation" * * *. Said subsections are further amended by inserting at the end of the first proviso the following: ", and if the application of such mileage formula, or such other formula as the Board may prescribe, would result in the compensation of the individual being less than 10 per centum of his remuneration for such service no part of such remuneration shall be regarded as compensation".

SECTION 2 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

* * * section 1 (i) of the Railroad Unemployment Insurance Act is amended by substituting for the word "payable" the word "paid"; and by inserting * * * at the end of said section 1 (i) of the Railroad Unemployment Insurance Act, the following: "A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, 'for time lost' the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost. Compensation earned in any calendar month before 1947 shall be deemed paid in such month regardless of whether or when payment will have been in fact made, and compensation earned in any calendar year after 1946 but paid after the end of such calendar year shall be deemed to be compensation paid in the calendar year in which it will have been earned if it is so reported by the employer before February 1 of the next succeeding calendar year or, if the employee establishes, subject to the provisions of section 8, the period during which such compensation will have been earned." * * *

SECTION 401 OF THE ACT APPROVED JULY 31, 1946 (PUB. LAW 572, 79TH CONG.)

Except as otherwise provided in this Act, the provisions thereof shall become effective upon approval.

(Secs. 1429, 1535, 1609, 53 Stat. 178, 183, 188, secs. 1, 2, 3, 401, 402, Pub. Law 572, 79th Cong.; 26 U. S. C. 1429, 1535, 1609)

This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

[SEAL] GEORGE SCHOENEMAN,
Commissioner of Internal Revenue.

TITLE 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 2—GENERAL REGULATIONS OF THE DEPARTMENT OF LABOR

AUTHORITY AND FUNCTIONS OF SECRETARY

Correction

In Federal Register Document 47-7048, appearing on page 5011 of the issue for Tuesday, July 29, 1947, subdivision (xiii) should be designated subdivision (xiv).

Chapter V—Wage and Hour Division, Department of Labor

PART 681—HOME WORKERS IN INDUSTRIES IN PUERTO RICO OTHER THAN NEEDLEWORK INDUSTRIES

These regulations are issued pursuant to section 6 (a) (5) of the Fair Labor Standards Act, which section provides for the minimum wages to be paid home workers in Puerto Rico or the Virgin Islands. Generally speaking, section 6 (a) (5) requires that such home workers must be paid not less than the minimum piece rate prescribed by regulation or order; or, if no such minimum piece rate is in effect, any piece rate adopted by the employer which will yield, to the proportion or class of employees prescribed by regulation or order, not less than the applicable minimum hourly wage rate. The Administrator is authorized to make such regulations as are necessary or appropriate to carry out these provisions, including the power to define any operation which is performed by such homework employees; to prescribe standards for employer piece rates, including the proportion or class of employees who shall receive not less than the minimum hourly wage rate; to define the term "home worker"; and to prescribe the conditions under which employers, agents, contractors, and subcontractors shall cause goods to be produced by home workers.

At the present time, persons engaged in activities relating to home workers in the Needlework Industries in Puerto Rico are covered by Part 545 of this chapter, however, there are no regulations relating to home workers in industries in Puerto Rico other than the Needlework Industries. These regulations are designed to apply to homework activities in such other industries.

On June 19, 1947, a notice of the proposed issuance of these regulations was published in the FEDERAL REGISTER and interested persons were given 30 days within which to submit any data, views, or arguments pertaining thereto. The 30-day period has expired, and no objections to the regulations or any of its provisions have been received.

Accordingly, the following regulations are hereby issued. These regulations shall become effective upon publication thereof in the FEDERAL REGISTER, and shall continue in full force and effect until hereafter repealed, superseded or modified.

AUTHORITY: §§ 681.1 to 681.12, inclusive, issued under sec. 3 (t), 54 Stat. 616, sec. 11 (c), 52 Stat. 1066; 29 U. S. C. 206 (a) (5), 211 (c).

§ 681.1 *Applicability.* The provisions of this part shall apply to persons engaged in activities relating to home work-

ers in industries in Puerto Rico other than the Needlework Industries.[1]

§ 681.2 *Definitions.* The following words, terms, and phrases as used in this part shall have the meaning ascribed to them in this section except when the context clearly indicates a different meaning: *Provided, however,* That the following definitions shall not be construed in any way to restrict the meaning of such words, terms, or phrases as are defined in section 3 of the act.

(a) "Employer" includes any natural or artificial person who, for his own account or benefit, or on behalf of any person residing outside the Island of Puerto Rico, directly or indirectly, or through an employee, agent, subcontractor, or any other person;

(1) Delivers, or causes to be delivered, any goods to be processed or fabricated in a home and thereafter to be returned or thereafter to be disposed of or distributed in accordance with his directions; or

(2) Sells any goods for the purpose of having such goods processed or fabricated in a home and then rebuys such goods after such processing or fabricating either himself or through some other person.

(b) "Subcontractor" includes any person, who, for the account or benefit of an employer, delivers to a home worker goods to be processed or fabricated in a home and thereafter to be returned in accordance with the direction of such employer.

(c) "Employ" includes to suffer or permit to work.

(d) "Home" includes any room, house, apartment, or other premises used regularly in whole or in part as a dwelling place.

(e) "Home worker" includes any employee performing in a home any operation on goods produced for commerce; *Provided,* That such work is not performed under either actively or personally regulated or supervised conditions.

(f) "Operation" means any work or any process other than the distribution of goods to or collection of goods from home workers.

§ 681.3 *Filing and notification requirements.* Every employer prior to the distribution of work to any home worker shall file with the Wage and Hour Division in Puerto Rico:

(a) A design, pattern, diagram, photograph, or sample of the product, together with such other description or illustration of the product as he, upon inquiry at the Wage and Hour Division in Puerto Rico, may be requested to submit; and

(b) A description in writing of each operation to be performed by any home worker, together with the full piece rate schedule designation, if any, prescribed in accordance with § 681.9, the corresponding piece rates to be paid for each such operation, and the style numbers, if any, of the goods upon which the operations are to be performed.

[1] Persons engaged in activities relating to home workers in the Needlework Industries in Puerto Rico are subject to Part 545 of this chapter.

§ 681.4 *Tickets to be affixed to each lot of goods.* Every employer shall make up the goods to be delivered to a subcontractor into a bundle or lot, each lot to comprise goods on which the same operations are to be performed. Every employer shall affix to each such lot of goods a ticket which shall be numbered serially and contain the name of such employer. The serial numbers of such tickets shall run from the number one and be prefixed by the number of the permit issued to such employer by the Department of Labor of Puerto Rico.[2] The subcontractor shall return the ticket with the lot to the employer. All goods specified on the ticket shall be returned to the employer at one time except when special permission is obtained from the Wage and Hour Division for subcontractors to return part of the goods. In each such case, a partial delivery ticket shall be made out and later filed with the original lot ticket when the remaining goods specified thereon are returned.

§ 681.5 *Delivery and collection of goods.* All goods for production in a home shall be personally distributed to and collected from the home worker who is to work on the goods, either directly at the factory or by employees expressly employed by an employer or subcontractor to distribute and collect such goods outside the factory.

§ 681.6 *Payment for work.* When an employer receives goods on which work has been completed, he shall pay immediately the home worker or subcontractor, as the case may be, for such work *Provided,* That in cases where payment is made to a subcontractor, the home worker shall be paid within seven days after such subcontractor has collected the goods from such home worker. Payment shall be made to each home worker at rates not less than those required under §§ 681.9 and 681.10, and in accordance with the requirements of sections 6 and 7 of the act.

§ 681.7 *Records to be kept.* (a) Every employer shall make and have available at his principal Puerto Rican office, a record of the following information: [3]

(1) The name and address of each firm situated outside the Island of Puerto Rico, if any, from whom the goods in each lot for delivery to a home worker were received.

(2) The monthly total of goods received and shipped by him with a description thereof and the total cost of labor performed thereon by home workers with a description of the operations performed in connection therewith.

(3) The name and address of each subcontractor, if any, to whom each lot of goods was delivered for delivery to home workers, together with the number of the permit issued to such subcontractor by the Department of Labor of Puerto Rico.

[2] Thus, if the permit is 56, the serial numbers on the tickets would run, 56–1, 56–2, etc.

[3] Although responsibility for keeping the record is placed upon the employer, the actual work of making the record may, of course, be delegated to supervisory or clerical employees, agents, subcontractors, or other persons acting in behalf of the employer.

(4) The dates upon which each lot of goods was delivered to and returned by a subcontractor, if any, together with a description of such goods, the net amount paid as commission and the rate of commission on such goods.

(5) The ticket number of the ticket affixed to each lot of goods.

(6) The dates upon which the goods in each lot were delivered to and collected from each home worker.

(7) The name and address of each home worker, and the date of birth of each home worker under 19, to whom the goods in each lot were delivered.

(8) The style number, if any, description of, and amount of goods in each lot, the operations to be performed thereon, together with the piece rate to be paid and the net amount actually paid each home worker for the operations performed upon such goods.

(9) The date or dates upon which each home worker was paid for operations performed on the goods in each lot.

(b) At the time work is given out to or received from a home worker, as the case may be, every employer [4] shall enter the following information in the handbook (to be obtained by the employer from the Wage and Hour Division and supplied by him to each home worker) which shall be kept by the home worker:

(1) The dates upon which the goods in each lot were delivered to and collected from the home worker.

(2) The style number, if any, description of, and amount of goods in each lot, the operations to be performed thereon, together with the piece rate to be paid and the net amount actually paid the home worker for the operations performed upon such goods.

(3) The date or dates upon which the home worker was paid for operations performed on the goods in each lot.

(4) The signature of the person acting in behalf of the employer.

(c) No employer shall employ any home worker for more than 40 hours in any workweek unless, in addition to the records which he is required to keep pursuant to paragraphs (a) and (b) of this section, such employer makes and keeps available at his principal Puerto Rican office and enters in the handbook of each such home worker a record of the following information:

(1) The hours worked by the home worker on the goods in each lot of work returned;

(2) The total hours worked each week;

(3) The wages paid the home worker each week at regular piece rates; and

(4) The extra amount paid to the home worker for hours worked in excess of 40 in each week.

§ 681.8 *Maintenance of records.* Every employer shall keep and preserve for a period of not less than two years at his place of business the records required by § 681.7. All such records shall be open at any time to inspection and transcription by the Administrator or his authorized representative.

[4] Although responsibility for making the record is placed upon the employer, the actual work of doing so may be performed by supervisory or clerical employees, agents, subcontractors, or other persons acting in behalf of the employer.

§ 681.9 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (5) of the act, in the event that a home worker is to perform an operation for which a minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid not less than such prescribed rate, in lieu of the applicable hourly rate established by any wage order.

§ 681.10 *Piece rates adopted by employers.* Pursuant to the provisions of section 6 (a) (5) of the act, in the event that a home worker is to perform an operation for which no minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid a piece rate adopted by the employer which shall yield to home workers of ordinary skill, under prevalent operating conditions and with equipment ordinarily found in homes, an amount not less than the applicable minimum hourly wage rate established by wage order. No employer shall adopt such a piece rate [5] until he has first notified the Division of his intention to establish a rate for such operation, the rate fixed and the basis on which the piece rate has been computed. Such an employer piece rate shall be lawful only if it actually satisfies the requirements of this section, and such a rate shall remain in effect only until such time as the Administrator or his authorized representative, by regulation or order, establishes a minimum piece rate for such operation.

§ 681.11 *Penalties.* Section 15 of the act makes it unlawful for any person to violate the provisions of this part and subjects any such person to the penalties provided by section 16 and section 17 of the act.

§ 681.12 *Petition for amendment of regulations.* Any person wishing a revision of any of the terms of this part may submit in writing to the Administrator or his authorized representative a petition setting forth the changes desired and the reasons for proposing them. If, upon inspection of the petition, the Administrator or his authorized representative believes that reasonable cause for amendment of this part is set forth, the Administrator or his authorized representative will either schedule a hearing with due notice to interested parties, or will make other provision for affording interested parties an opportunity to present their views, either in support of or in opposition to the proposed changes.

Signed this 29th day of July 1947, at Washington, D. C.

WM. R. MCCOMB,
Administrator.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Materials Distribution,[1] Bureau of Foreign and Domestic Commerce, Department of Commerce

PART 1001—TIN

[Conservation Order M–43, as Amended Aug. 5, 1947]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense and to effectuate the policies set forth in the Second Decontrol Act of 1947:

INDEX

(a) What this order does.

Deliveries of Pig Tin

(b) Restriction on deliveries of pig tin.
(c) Allocations of pig tin.
(d) Reports on use, disposition and inventories of pig tin.

Use of Tin in Manufacture

(e) General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt and other tin-bearing alloys.
(f) [Deleted February 6, 1947.]
(g) Special restrictions on the use of metals to which pig tin has been added.
(h) [Deleted February 6, 1947.]

Implements of War

(i) Exemptions for implements of war.

Use and Sale of Articles Containing Tin

(j) General restrictions on the use and sale of tin-bearing products.
(k) Special restrictions on purchases and sales of certain articles containing tin.

Inventories

(l) Limitation on inventories.

Imports

(m) Import restrictions.

Exports

(n) Export certificates.

Miscellaneous

(o) Appeals and communications.
(p) Violations.

Schedules of Permitted Uses

Schedule I—Miscellaneous.
Schedule II—Solders.
Schedule III—Babbitt.
Schedule IV—Brass and bronze.
A. Cast alloys.
B. Wrought alloys.
Schedule V—Use of tin to repair gas meters (superseded by item (b) (7) of Schedule II).
Schedule VI—Tin plate, terne plate, and terne metal.

§ 1001.1 *Conservation Order M–43—(a) What this order does.* This order prohibits deliveries of pig tin except under certain conditions and provides for allocation of pig tin by the Office of Materials Distribution. It also restricts the use of pig tin, secondary tin, certain tin-bearing products and tinplate in manufacture. The order also restricts sales and deliveries of jewelry and certain other articles containing tin. Although paragraph (h) of the order which contained special restrictions on the use of tin in jewelry and certain other articles has now been deleted, all other provisions of the order still apply to these articles, including the restrictions of paragraphs (e) and (g) on use of tin, and the special sales restrictions of paragraph (k). The order also limits inventories of tin. Further restrictions on the use of tin in making tin cans are contained in Order M–81.

In addition to the above restrictions, this order now contains restrictions on the import of tin similar to the restrictions formerly in Order M–63.

Deliveries of Pig Tin

(b) *Restriction on deliveries of pig tin.* No person shall deliver or accept delivery of pig tin without a specific allocation in writing by the Office of Materials Distribution, except under the conditions set forth in paragraphs (b) (1) and (b) (2) below. "Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes powder, small bars and ingots) produced from ores, residues or scrap. It also includes tin pipe or tubing.

(1) Pig tin may be delivered without specific allocation to the Office of Metals Reserve, Reconstruction Finance Corporation, or its agent.

(2) Pig tin may be delivered without specific allocation by a distributor in lots not larger than 2,000 pounds each to any person who does not receive from all sources more than 4,000 pounds of pig tin in the calendar month the distributor makes the delivery and who gives to the distributor at the time he places his purchase order, a certificate in substantially the form below, signed manually or as provided in Allocations Regulation 1 by an official duly authorized for that purpose:

> I certify, subject to the penalties of section 35 (A) of the United States Criminal Code, that I will use this pig tin for ---------- (specify end use) in accordance with Order M–43 or will resell it only in accordance with that order. I will not receive more than 4,000 pounds of pig tin from all sources in ---------- (specify month of delivery) including the amount covered by this order.
>
> ----------
> (Name of purchaser)
> By ----------
> (Duly authorized official)

See paragraph (n) below regarding certificate for export.

(c) *Allocations of pig tin.* The Office of Materials Distribution will allocate the supply of pig tin, including all pig tin released by the Reconstruction Finance Corporation, and will issue specific directions as to the source, destination and amount of pig tin to be delivered or acquired. Applications for allocations of pig tin should be made to the Office of Materials Distribution not later than the 20th day of the month before the month in which delivery is requested, and should be made on Form OMD–412. Except in unusual circumstances, the Office of Materials Distribu-

[1] Formerly Office of Temporary Controls, Civilian Production Administration.

tion will not allocate to a person for a calendar quarter an amount greater than 110% of the quantity he legally melted and put into process during the second quarter, 1946, plus the quantity which he sold during that quarter. Applications from persons who did not use pig tin during the base period (including persons who were not in business at that time) will be considered on an equitable basis. Tin requested for resale must be disposed of only by resale. The Office of Materials Distribution may specifically direct the purposes and end products for which a person may convert, process or fabricate pig tin allocated to him.

(d) *Reports on use, disposition and inventories of pig tin.* (1) On or before the 10th of each calendar month, each distributor of pig tin must report to the Office of Materials Distribution on Form OMD-412 or by letter in triplicate all of his transactions in pig tin during the previous month.

(2) Any person who, on the first day of a calendar month, has in his possession or under his control 2,000 pounds or more of pig tin must report to the Office of Materials Distribution on Form OMD-412 by the 20th of that month.

(3) Any person who uses 1,000 pounds or more of pig tin in any calendar month must report to the Office of Materials Distribution on Form OMD-412 on or before the 20th of the following month.

(4) The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Use of Tin in Manufacture

(e) *General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt and other tin-bearing materials.* No person may use any pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys or other alloys containing 1.5% or more tin, or any other materials containing 1.5% or more tin, or any britannia metal pewter metal or other similar tin-bearing alloys to make or treat any item or product, or in any process, not set forth in one of the schedules attached to this order. In making or treating these items, or performing these processes, pig tin may not be used where the schedule permits secondary tin only, and the tin content of an item may not exceed the amount indicated in the schedule.

"Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, powder, small bars, and ingots) produced from ores, residues or scrap. It also includes tin pipe or tubing. "Secondary tin" means any alloy which contains less than 98% but not less than 1.5% by weight of the element tin.

(f) [Deleted February 6, 1947.]

(g) *Special restrictions on the use of metals to which pig tin has been added.* No person may use metal to which pig tin has been added to produce any product or perform any process for which pig tin is not permitted by one of the schedules attached to this order.

(h) [Deleted February 6, 1947.]

Implements of War

(i) *Exemptions for implements of war.* (1) The restrictions of paragraphs (e) and (g) and of the schedules do not apply to the manufacture of "Implements of war" produced for the Army or Navy of the United States, or the U. S. Maritime Commission where the use of tin contrary to these restrictions is required either by the latest applicable specifications, on drawings, or by letter or contract of the government service or agency for which the "Implements of war" are being produced.

(2) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of these items. This term does not include facilities or equipment used to manufacture the items described above.

Use and Sale of Articles Containing Tin

(j) *General restrictions on the use and sale of tin-bearing products.* (1) In some cases the schedules attached to this order permit the use of pig tin or secondary tin in making a product only if the product is to be used for a particular purpose. No person shall use any of these products for any purpose other than the purpose permitted by the schedule.

(2) No person giving a certificate under this order or its schedules may receive, use or dispose of the materials obtained with the certificate contrary to its terms.

(3) Notwithstanding the authorization by the Office of Materials Distribution of a sale or delivery of tin, no person shall sell or deliver any tin or tin-bearing material or product thereof in the form of raw materials, semi-processed materials, finished parts or subassemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order. A supplier may rely upon the written statement of the customer seeking delivery of any such material, as to the purposes for which it will be used, unless the supplier knows or has reason to believe the statement is false, and such a statement shall constitute, on the part of the person making it, a representation to the Office of Materials Distribution within the meaning of section 35 (A) of the United States Criminal Code, 18 U. S. C. sec. 80.

(k) *Special restrictions on purchases and sales of certain articles containing tin.* No person, for the purpose of resale, shall receive from a manufacturer any new article of the kinds listed below, if, the article contains tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV). No person shall sell or deliver any new article of the kinds listed below, if the article contains tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), unless he has an authorization in writing from the Office of Materials Distribution for the sale or delivery. A person who wishes to get such an authorization should apply to the Office of Materials Distribution by letter in triplicate, giving a report of his inventory of all of the items listed below containing tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), showing the quantity of each item in his possession on March 1, 1945, the names and addresses of the sellers from whom he bought the items, and the dates the purchases were made. Authorizations will ordinarily be given, except where it appears that the purchases were in violation of Order M-43. "New article" means one which has not been used by an ultimate consumer. A purchaser for resale of articles of the kinds listed below may rely on a written certification by his supplier that they contain no tin in any form except tin plate waste waste or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), unless he knows or has reason to believe the statement is false.

Inventories

(l) *Limitation on inventories.* No person who uses any material listed in Column 1 below shall accept delivery of any of that material if his inventory of it is, or will by virtue of such acceptance become, more than the amount which he will be required by his current practices to put into use, during the next succeeding period of the length specified in Column 2 below, in order to carry out his current operations for permitted uses:

	Material (1)	Maximum Days' Supply (2)
a.	Pig tin	90 days (for manufacture of tin plate) 45 days (for any other permitted use)
b.	Solder (as defined in Schedule II to M-43)	30 days
c.	Babbitt (as defined in Schedule III to M-43)	30 days
d.	Copper base alloys (containing 1.5% or more of tin)	45 days
	Material (1)	Maximum Days' Supply (2)
e.	Other alloys containing 1.5% or more tin (except solder, babbitt, and copper base alloys)	30 days

Imports

(m) *Import restrictions.* The provisions of this paragraph (m) replace those in General Imports Order M-63, insofar as that order has applied to materials subject to this paragraph. However, authorizations for the importation of such materials issued under Order M-63 shall continue to have the same force and effect as if issued under this Order M-43.

(1) *Definitions.* For the purposes of this paragraph (m):

(i) "Tin subject to import control under this order" means any of the following:

Tin alloys, chief value tin n. s. p. f. (including alloy scrap)	6551.900
Tin bars, blocks, pigs, grain or granulated	6551.300

NOTE: The numbers listed in the second column are commodity numbers taken from Schedule A, Statistical Classification of Imports of the Department of Commerce (issue of January 1, 1943).

(ii) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(iii) "Consignee" means the person to whom a material is consigned at the time of importation.

(iv) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States. It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments into the continental United States for processing or manufacture in bond for exportation.

It does not include shipments in transit in bond through the continental United States without processing or manufacture, to Canada, Mexico or any other foreign country, or shipments through a free port or free zones to a foreign country without processing or manufacture. However, if any material covered by the preceding sentence is, because of a change in plans, to be sold or used in the continental U. S. or subjected to processing or manufacture in the continental United States, it becomes an "import" for the purposes of this paragraph (m) and requires the same authorization as an "import" before it may be moved from a free port, free zone, or bonded custody.

(2) *Restrictions on imports*—(i) *General restriction.* No person, except as authorized in writing by the Office of Materials Distribution, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any tin subject to import control under this order. The foregoing restrictions shall apply to the importation of any tin subject to import control under this order regardless of the existence of any contract or other arrangement for the importation of such material.

(ii) *Authorization by Office of Materials Distribution.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefore in duplicate on Form OMD-1041 addressed to the Tin and Antimony Section, Office of Materials Distribution, Department of Commerce, Washington 25, D. C., Ref.: M-43. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(iii) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any tin subject to import control under this order, unless such bank or person either has received a copy of the authorization issued by the Office of Materials Distribution under the provisions of paragraph (m) (2) (ii) above or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (m) (2) (iv) below.

(iv) *Exceptions.* Unless otherwise directed by the Office of Materials Distribution, the restrictions set forth in this paragraph (m) (2) shall not apply:

(a) To the Reconstruction Finance Corporation, U. S. Commercial Company, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(b) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(c) To any material consigned or imported as a sample where the value of each consignment or shipment is less than $25.00.

(3) *Reports*—(i) *Reports on customs entry.* No tin subject to import control under this order, including materials imported by or for the account of the Reconstruction Finance Corporation, U. S. Commercial Company, or any other United States governmental department, agency or corporations, shall be entered through the United States Bureau of Customs for any purpose, unless the person making the entry shall file with the entry Form OMD-1040 in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form a second time be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the Tin and Antimony Section, Office of Materials Distribution, Department of Commerce, Washington 25, D. C., Ref.: M-43.

(ii) *Other reports.* All persons having any interest in, or taking any action with respect to any tin subject to import control under this order, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the Office of Materials Distribution.

Exports

(n) *Export certificates.* Some provisions of this order and its Schedules permit sales or deliveries of certain items only upon certificates from the purchasers. In cases where the purchaser is going to export such an item outside the United States, its territories or possessions, or Canada, he should state as the end use in the certificate the words "for export" and give the number of the export license.

Miscellaneous

(o) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal. Priorities Regulation 16 gives additional instructions about the filing of appeals. Appeals, reports and all communications concerning this order should be addressed to the Tin and Antimony Section, Office of Materials Distribution, Department of Commerce, Washington 25, D. C., Ref.: M-43.

(p) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 5th day of August 1947.

OFFICE OF MATERIALS DISTRIBUTION,
BY RAYMOND S. HOOVER,
Issuance Officer.

Schedules of Permitted Uses

Under Order M-43 pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys and other materials containing tin may be used only in the production of the items and for the purposes set forth in the following schedules, subject to the limitations, restrictions and conditions specified in these schedules with respect to the various items and purposes.

SCHEDULE I—MISCELLANEOUS

(1) *Detonators and blasting caps.* Pig or secondary tin may be used to make detonators and blasting caps (including electric blasting caps) including all their necessary parts and accessories.

(2) *Collapsible tubes.* (a) Pig or secondary tin may be used to make collapsible tubes for the following purposes, if the tin content by weight of the tube is no greater than the maximum specified below:

Product	Maximum permitted tin content (percent of tin by weight)
Ointments and other preparations for opthalmic use, sulfa drugs in ointment or jelly form, diagnostic extracts (allergens), and morphine or hypodermic injection	Unlimited
Preparations intended for introduction into the body orifices for local application, and medicinal and pharmaceutical ointments (excluding unmedicated petroleum jelly and lanolin)	Unlimited
Dental cleansing preparations	3%

Secondary tin may be used to make lead collapsible tubes for any purpose if the tin content of the tube is not greater than 0.5% by weight.

(b) [Deleted July 5, 1946.]

(c) No person may purchase, accept delivery of, or use collapsible tubes containing tin for packing products except those permitted above.

(3) *Foil.* (a) Pig or secondary tin may be used to make foil for the following purposes if the tin content by weight of the foil is no greater than the maximum specified below:

Purpose	Maximum permitted tin content (percent of tin by weight)
(i) Electrotypers foil	30%
(ii) Dental foil	Unlimited
(iii) Soft babbitt for the preparation of industrial metallic packing	1½%
(iv) Condenser foil of dimensions 0.00035 inch by ¾ inch or less	50%
(v) Condenser foil for all other condensers	5%
(vi) Foil for aircraft magnetos	50%
(vii) Cap liner foil for packing medicinal, pharmaceutical, and biological preparations containing chloroform or other highly volatile chemicals for which other types of liners cannot be used	Unlimited

(b) [Deleted July 5, 1946.]

(4) *Dairy equipment.* Pig or secondary tin may be used to coat fluid milk shipping containers or to manufacture or retin any other dairy equipment.

(5) *Equipment for preparing and handling food.* (a) Pig or secondary tin may be used to coat or to retin any parts of kitchen utensils, galley and mess equipment and other equipment used in processing and handling of food if the parts are designed to come into actual contact with food or to plate cutlery and flatware.

(6) *Wire coating.* Tin or tin alloys may be prepared and used for coating wire as follows:

(a) *For copper base wire.* There is no limitation upon the tin content of the coating alloy when the copper base wire to be coated is of a size of 0.0320" nominal diameter or finer. If the wire to be coated is of a size larger than 0.0320" nominal diameter, the tin content of the coating alloy is limited to 12% tin by weight.

(b) *For steel wire.* (i) To be used as armature binding wire.

(ii) To be used in the manufacture of equipment for the production of textiles.

(iii) To be used in the packaging or marking of meat where the wire comes into actual contact with the meat.

(iv) In the liquor finishing process of fine steel bright wire.

(c) [Deleted July 5, 1946.]

(7) *Lead base alloys for coating.* Lead base alloys containing tin for coating sheet, tubing, wire, foundry chaplets, etc., may be manufactured and used if the tin content of the alloy does not exceed 7% of tin by weight.

(8) *Printing plates and type metal.* Printing plates and type metal containing tin may be made for use by the printing, publishing and related service industries.

(9) *Dental amalgam alloys.* Tin may be used in the manufacture of dental amalgam alloys without restriction as to the tin content of the alloys.

(10) *Pipe organs for religious and educational institutions.* Pipe organs for religious and educational institutions may be manufactured, rebuilt, or repaired with secondary tin.

(11) *Bolster metal.* Bolster metal may be made and used in the manufacture of surgical instruments if the tin content of the bolster metal does not exceed 10% of tin by weight.

(12) *Fusible alloys and dry pipe seat rings.* Pig or secondary tin may be used in the manufacture of dry pipe valve seat rings to the extent required to meet performance specifications; and in the manufacture of fusible alloys for safety purposes only, to the extent required to meet minimum code requirements with respect to the operation of the product in which the alloy is to be contained.

(13) *Tin pipe and sheet.* (a) Pig or secondary tin may be used to make tin pipe, sheet tin, and fittings to repair or maintain beverage dispensing units and their parts, if the consumer for whom the pipe, sheet or fittings are made returns to the supplier a quantity of scrap tin having the same tin content as that of the new pipe, sheet or fittings delivered to him.

(b) Pig or secondary tin may be used to coat copper or brass pipe and fittings for beverage or distilled water dispensing purposes.

(c) Tin pipe or tubes may be used in the manufacture of new soda fountains, food and beverage dispensing units, and where required for conducting chemically pure distilled water.

(14) *Chemicals*—(a) *General.* Tin or tin chemicals may be used for the following purposes: laboratory reagent; medicinal; plating (where plating is permitted by Order M-43).

(b) *Tin tetrachloride from dross, etc.* Tin tetrachloride may be produced from secondary low-grade tin-bearing drosses, residues, and scrap metal. Such material is "low-grade" only if its tin content is not over 10% and its impurity content is too high for use in the production of other items for which secondary low-grade tin-bearing materials are permitted by Order M-43. Tin tetrachloride produced from such drosses, residues, and scrap metal may be used for any purpose.

This subparagraph (b) does not apply to the production or use of tin tetrachloride produced from pig tin or from secondary tin-bearing material not "low-grade" as defined above.

(15) *Tin oxide.* Tin oxide may be used for the production of chrome green, pink, yellow, and red colors, and for the production of earthenware plumbing fixtures.

(16) *Snap fasteners and hooks and eyes.* Pig or secondary tin may be used to plate snap fasteners, and hooks and eyes.

Schedule II—Solders

(a) *Certificates.* No manufacturer or wholesale distributor shall sell or deliver any solder to a wholesale distributor or retailer and no wholesale distributor or retailer shall purchase or accept delivery of any solder unless the purchaser has given to the seller a statement that he will not resell the solder to a user without obtaining from the user the certificate called for below. No manufacturer, wholesale distributor or retailer shall sell or deliver any solder to a user and no user shall purchase or accept delivery of any solder from a manufacturer, wholesale distributor or retailer unless the user has given to the seller the certificate called for below (see paragraph (n) of Order M-43 regarding export certificate):

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the Office of Materials Distribution that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule II, section — of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (i) of this order.

(Name of purchaser)

By ---
(Duly authorized official)

(b) *Tin content.* In the manufacture of solder, the tin content by weight shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of solder (percent of tin by weight)
(1) For all cellular type radiators (average per radiator)	21%
(2) For all fin and tube type radiators for military and civilian use (average per radiator)	32%
(3) Soldering end seams on all solder seamed cans	30%
(4) For a filler or smoother for automobile or truck bodies or fenders or for similar purposes	15%
(5) For soldering side seams in the manufacture of cans made with either lock or lap side seams or with a combination of lock or lap seams	5%
(6) For sealing milk cans	21%
(7) For all soldering on the following (exclusive of any covered by (8) below): motors, generators, electrical equipment, instruments, meters, radio, radar, tanks, fire protection equipment, refrigeration equipment, dairy equipment, and food processing equipment	50%
(8) For all soldering on the following: railroad-car and truck refrigeration; refrigeration equipment inside refrigerated compartments; aircraft motors; electric-traction motors for railroads, street-cars, and buses	Unlimited
(9) For soldering aluminum	60%
(10) For other hand soldering operations done either with a soldering iron or with a torch and wiping	40%
(11) For any other soldering operations	35%

(c) [Deleted July 5, 1946.]

Schedule III—Babbitt

(a) No manufacturer or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any wholesale distributor of babbitt and no wholesale distributor of babbitt shall accept delivery from a manufacturer or a wholesale distributor unless he shall have furnished the manufacturer or other wholesale distributor with a statement on his purchase order to the effect that he will not resell such babbitt containing more than 10% tin by weight to any user unless he has received the certificate from such user set forth below. No manufacturer of babbitt or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any user and no user shall accept delivery of any babbitt containing more than 10% tin by weight from any manufacturer of babbitt or wholesale distributor of babbitt unless the user shall have furnished the manufacturer or wholesale distributor with the certificate set forth below (see paragraph (n) of Order M-43 regarding export certificate):

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code to the seller and to the Office of Materials Distribution, that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule III, section — of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (i) of said Order M-43.

(Name of purchaser)

By ---
(Duly authorized official)

(b) *Tin content.* In the manufacture of babbitt metal and similar alloys used as babbitt, the tin content shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of babbitt (percent of tin by weight)
(1) For the manufacture, repair, maintenance or replacement of multivane crosshead linings in locomotives or for lining aluminum crossheads	Unlimited
(2) Any other bearing purpose	90%

Babbitt may not be used for any purpose except those listed above.

(c) [Deleted February 6, 1947.]

Schedule IV—Brass and Bronze

A. CAST ALLOYS

(a) *Tin content.* No person shall cast or have any person cast for him any copper base alloy containing 1.5% or more tin by weight for other than the specific purposes listed below. The tin content of any such alloy shall not be more than the amount specified for each purpose.

Purpose	Maximum tin content (percent of tin by weight)
(1) For the manufacture of high ratio worm gears, fire engine pump gears, jack nuts, feed nuts, elevating nuts, thrust washers or disks, machine tool spindle bearings, hydraulic pump bodies and ends for gear pumps, grinder spindle sleeve bearings, step bearings, internal parts of industrial centrifugal pumps and injectors, and collector rings	12%
(2) For the manufacture of piston rings for locomotives and for air-brake equipment	20%
(3) For use as bearings and bushings	9%
(4) For bearings produced by process of powder metallurgy	10%
(5) For production of or use in tablets, markers, and memorials	3.5%
(6) For all other castings	6%

(b) *Certificate.* Any person receiving copper base alloy castings containing 1.5% or more tin shall furnish his supplier with a certificate on his purchase order stating the end use of such castings (see paragraph (n) of Order M-43 regarding export certificate). All suppliers shall require such a certificate. If the end use is not permitted by M-43, and the purchaser has not received special authorization from the Office of Materials Distribution, the supplier shall refuse the order.

(c) [Deleted July 5, 1946.]

B. WROUGHT ALLOYS

Pig or secondary tin may be used to make wrought alloys. However the tin content of any such alloy shall not be more than the amount required for the particular purpose.

Schedule V, Which Formerly Covered Use of Tin To Repair Gas Meters Has Been Superseded by Item (b)·(7) of Schedule II

Schedule VI—Tin Plate, Terne Plate, and Terne Metal

(a) *Definitions*—(1) "Tin plate" means steel sheets coated with tin including electrolytic tin plate and hot dipped tin plate and including primes, seconds and waste-waste but not scrap.

(2) "Terne plate" means steel sheets coated with terne metal including short ternes (coated on tin mill coating machines) and long ternes (coated on sheet mill coating machines) including primes, seconds and long terne waste-waste but not scrap.

(3) "Tin plate or terne plate scrap" means any material or product made in whole or in part of tin plate or terne plate which is the waste of industrial fabrication or which has been discarded after being put into actual use, including tin plate crowns, screw caps or similar closures for various containers. The term also includes tin plate and terne plate sheets recovered from tin plate or terne plate cans or from other articles.

(4) "Reconditioned tin plate or terne plate" means damaged tin plate or terne plate which has been put into usable condition by recoating.

(5) "Terne metal" means a tin-bearing lead alloy used as a coating for plate but does not include lead recovered from secondary sources which contains not more than 3% residual tin.

(6) "Waste-waste" means hot dipped or electrolytic tin coated sheets or steel sheets coated with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes or seconds.

(b) *Manufacture of tin plate and terne plate.* Tin plate and terne plate may be manufactured for the purposes set forth below. However, coating of tin or terne metal per single base box of tin plate or terne plate must not exceed the maximum indicated below for the particular permitted use. No person may use terne metal of over 15% tin in tin mill coating machines. No person may use terne metal of over 10% tin in sheet mill coating machines.

(c) *Manufacture of terne metal.* Pig or secondary tin may be used to make terne metal.

(d) *Certificates.* No person shall sell or deliver any tin plate or terne plate to any person unless he gives with his purchase order a certificate in substantially the following form:

I certify, subject to the penalties of section 35 (A) of the United States Criminal Code, that I will use this tin plate or terne plate for ---
(specify end use) in accordance with Order M-43 or will resell it only in accordance with that order.

(Name of purchaser)

By ---
(Duly authorized official)

See paragraph (n) of Order M-43 regarding export certificate.

(e) *Tin plate and terne plate may be used only for the following purposes:*

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
1. All kitchen and cooking equipment.	Electrolytic tinplate.	0.25 lb. per base box.
2. Baking pans for institution and commercial bakers.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
3. Brushes, power driven.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terneplate.	
4. Cans.	As permitted by Conservation Order M-81 as amended.	
5. (a) Closures for all food products (excluding malt beverages and nonalcoholic beverages) if preserved in a hermetically sealed container made sterile by heat; and olives, pickles, relishes, sauces, vinegar, French dressing, flavoring extracts, spices mustard, horseradish and cherries.	Hot dipped tin plate.	1.50 pounds per base box.
(b) Closures for meat and fish and products made from them; ice cream mix; apple cider and juice; fruits (only crush, fountain fruit and ice cream toppings) soup nuts, cheese spreads; spaghetti and macaroni products corn beef hash and sauerkraut.	Electrolytic tin plate.	0.50 pound per base box.
(c) Closures for biologicals; blood plasma; drug chemicals; dental supplies; glycerites; liniments of ammonia; magmas; drug oils; ointments; penicillin; prescriptions; medicinal soaps; aromatic spirits of ammonia; ammonia products, aromatic chemicals; reagent chemicals, deodorants, liquid or paste (not for use on human body); dyes; germicides; hypochloride powders; phenols; photographic supplies; and all other liquid chemicals.	Electrolytic tin plate.	0.50 pound per base box.
(d) Closure for home canning.	Electrolytic tin plate.	0.50 pound per base box.
(e) Closures to be purchased by or for the account of the American Red Cross, Office of Scientific Research and Development or the Panama Canal, including the Panama Railroad Company or for shipment outside the forty-eight States of the United States and the District of Columbia. (General exceptions for certain other governmental agencies are included in item 30 below.)	As specified.	
(f) Closures for steel drums.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.

	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	

(e) *Tin plate and terne plate may be used only for the following purposes*—Continued

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
7. Chaplets, skimgates and tin forms for foundry use.	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box. 0.50 lb. per base box.
8. Cheese vats	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
9. Component parts for Internal Combustion engines including air cleaners, cooling systems, fuel systems, and lubricating systems, but only where less essential material is impractical because of corrosion or solder-ability.	Hot dipped tin plate. Reconditioned tin plate. Short ternes. Long ternes. Reconditioned terne plate.	11 lbs. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
10. Cylinder liners for lard and fruit presses.	Hot dipped tin plate.	1.25 lbs. per base box.
11. Dairy ware and equipment including dairy pails, milk strainer pails, hooded milking pails, milk kettles, setter or cream cans, weigh cans, measures and test ware, bottle conveyors, ice cream freezers, milk filters, receiving tanks, separators, strainers, upper and lower troughs and covers for surface type heaters and coolers, and testing equipment.	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate.	3.30 lbs. per base box (2A charcoal). 0.50 lb. per base box.
12. Diamond cutting wheels.	Electrolytic tin plate. Reconditioned tin plate.	0.50 lb. per base box.
13. Dusters and sprayers, hand, for disinfectant and pest control; parts requiring solderable coatings	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
14. Equipment or appliance parts requiring solderable coatings.	Electrolytic tin plate. Reconditioned tin plate. Short ternes. Long ternes. Reconditioned terne plate.	0.50 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
15. (a) Fuel tanks, except for automotive equipment	Electrolytic tin plate. Short ternes. Long ternes. Reconditioned terne plate.	0.25 lb. per base box 1.30 lbs. per base box. 4 lbs. per base box.
(b) Fuel tanks, for automotive equipment.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 6 lbs. per base box.
16. Gas mask canisters.	Short ternes. Long ternes. Reconditioned terne plate. Hot dipped tin plate.	1.30 lbs. per base box. 4 lbs. per base box. 3.30 lbs. per base box (2A charcoal). 0.50 per base box
17. Gas meters.	Electrolytic tin plate. Reconditioned tin plate. Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box.
18. Heat exchangers.	Short ternes. Long ternes. Reconditioned terne plate. Hot dipped tin plate.	1.30 lbs. per base box 4 lbs. per base box 1.25 lbs. per base box. 0.50 lb. per base box.
19. Integral parts of signal cells—but only for current collectors and baskets.	Electrolytic tin plate. Reconditioned tin plate. Hot dipped tin plate. Reconditioned tin plate.	11 lbs. per base box 11 lbs. per base box
20. Lining of drying chambers for milk and egg dehydration.	Hot dipped tin plate. Reconditioned tin plate. Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box. 1.30 lbs. per base box 4 lbs. per base box.
21. Maple syrup evaporators.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box.
22. Oilers (excluding cans as defined by Order M-81).	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box 0.50 lb. per base box. 1.30 lbs. per base box 4 lbs. per base box.
23. Oil lanterns.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box.
24. Repair parts for domestic laundry equipment.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box.
25. Safety cans for inflammable liquids.	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box 0.50 lb. per base box.
26. Textile spinning cylinders, card screens, spools and bobbins.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box.
27. Torpedoes for oil and gas well shooting	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box 0.50 lb. per base box
28. Vaporizing liquid fire extinguishers.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
29. Wick holders for oil stoves	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box 4 lbs. per base box
30. Articles to be purchased by or for the account of the Army and Navy of the United States, the United States Maritime Commission, and the Veterans' Administration	Hot dipped tin plate. Electrolytic tin plate. Reconditioned tin plate. Short ternes. Long ternes. Reconditioned terne plate. As specified (including performance specifications).	1.25 lbs. per base box. 1.30 lbs. per base box. 4 lbs. per base box.

(f) *Additional permitted uses.* Any person may use electrolytic tin plate waste waste, hot dipped tin plate waste waste, terne plate waste waste, tin plate scrap, or terne plate scrap for any purpose. In addition any person may use tin plate or terne plate for any purpose (except to make items listed in paragraph (k) of order M-43) if his total annual consumption of tin plate and terne plate does not exceed 100 base boxes.

(g) *Optional use of 0.25 tin plate for terne plate.* Where ternes or terne plate is permitted to be used for an item listed in paragraph (e) above, a manufacturer may substitute electrolytic tin plate with a maximum permitted tin coating of 0.25 pounds per base box for that item.

Appendix A—Waivers of Navigation and Vessel Inspection Laws and Regulations

[CGFR 47-39]

EMPLOYMENT OF ALIENS AS UNLICENSED CREW MEMBERS ON SUBSIDIZED VESSELS

CONDITIONAL WAIVER OF MANNING REQUIREMENTS

Pursuant to the authority vested in the Commandant, U. S. Coast Guard, by the act of March 31, 1947 (Public Law No. 27, 80th Congress), as amended by the act of 31 July, 1947 (Public Law No. 293, 80th Congress), I hereby find it necessary in the orderly reconversion of the merchant marine from wartime to peacetime operations to waive compliance with the navigation and vessel inspection laws and regulations to the extent and upon the terms and conditions set forth in the succeeding numbered paragraphs.

1. *Waiver.* I hereby waive compliance with the provisions of sections 302 (a), (b) and (c) of the act of June 29, 1936, 49 Stat. 1992 (46 U. S. C. 1132 (a), (b) and (c)) to the extent that United States citizens with appropriate ratings are not available for employment in the unlicensed crew of subsidized vessels of the United States, but in no event to exceed twenty-five per centum of such entire unlicensed crew. The employment of aliens to supply such deficiencies, as herein authorized, shall be permitted only to the extent of the non-availability of United States citizens, as determined after reasonable efforts made by the master, owner and others concerned to secure the employment of United States citizens, and in no event to exceed twenty-five per centum of the entire unlicensed crew employed on any subsidized vessel of the United States; *Provided*, That such aliens as are employed under this waiver authority shall have served between December 7, 1941, and September 2, 1945, aboard vessels operated by the War Shipping Administration, the United States Maritime Commission, or the Army Transport Service, and shall present to the Shipping Commissioner or master of the vessel at the time of being employed authentic evidence of such service. This evidence shall consist of a certificate of discharge or other properly authenticated record of service showing the name of the vessel and the dates employed thereon.

2. *Effective date.* This order shall be in effect on and after August 1, 1947. Because of the technical character of this revision of regulations, and because of the urgency of providing waiver authority in order to effectuate the orderly reconversion of the merchant marine to peacetime operations, it is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Laws 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest. (Pub. Laws 27, 293, 80th Cong.)

Dated: July 31, 1947.

[SEAL] J. F. FARLEY,
Admiral, U. S. Coast Guard,
Commandant.

Bureau of Internal Revenue

[26 CFR, Part 81]

FEDERAL ESTATE TAX

DEDUCTION OF ATTORNEYS' FEES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of section 3791 of the Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791).

Regulations 105 amended; deduction of attorneys' fees incurred in contesting an asserted deficiency or in prosecuting a claim for refund.

Regulations 105 (26 CFR, Part 81) are amended as follows:

PARAGRAPH 1. Section 81.34 of Regulations 105 is amended by inserting immediately after the first paragraph thereof the following new paragraph:

§ 81.34 *Attorney's fees.* • • •

A deduction for attorneys' fees incurred in contesting an asserted deficiency or in prosecuting a claim for refund should be claimed at the time such deficiency is contested or such refund claim is prosecuted. A deduction for such fees shall not be denied, and the sufficiency of a claim for refund shall not be questioned, solely by reason of the fact that the amount of the fees to be paid was not established at the time that the right to the deduction was claimed.

PAR. 2. Section 81.73 of Regulations 105, as amended by Treasury Decision 5503, approved March 20, 1946 is further amended by inserting the following sentence at the end of the fourth paragraph thereof: "For deduction of attorneys' fees incurred in contesting an asserted deficiency, see § 81.34."

PAR. 3. Section 81.96 of Regulations 105, as amended by Treasury Decision 5239, approved March 10, 1943 is further amended by inserting the following sentence at the end of the first paragraph thereof: "For deduction of attorneys' fees incurred in prosecuting a claim for refund, see § 81.34."

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

NOTICE OF PUBLIC HEARING WITH RESPECT TO ESTABLISHMENT OF RULES AND REGULATIONS

By virtue of section 6a of the Federal Insecticide, Fungicide, and Rodenticide Act, approved June 25, 1947, and pursuant to the requirements of section 4 of the Administrative Procedure Act (60 Stat. 237), notice is hereby given of a public hearing to be held in the Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 9:00 a. m., e. s. t. (10:00 a. m., e. d. s. t.) August 25, 1947, with respect to proposed rules and regulations under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act. This public hearing is for the purpose of affording all interested persons an opportunity to submit, either orally or in writing, data, views and arguments with respect to such proposed rules and regulations or any modifications thereof. Persons unable to attend the hearing may submit their views in writing prior to August 25, 1947. Communications should be addressed to Insecticide Division, Livestock Branch, Production and Marketing Administration, Washington 25, D. C.

§ 162.1 *Words in singular form.* Words used in the singular form in the rules and regulations in this part shall include the plural, and vice versa, as the case may require.

§ 162.2 *Terms defined and construed.* All terms used in the rules and regulations in this part shall have the meaning set forth for such terms in the act. In addition, such terms shall be construed as follows:

(a) *Act.* "Act" means the Federal Insecticide, Fungicide, and Rodenticide Act.

(b) *Director.* "Director" means the Director of the Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee to whom he has heretofore lawfully delegated or to whom he may hereafter lawfully delegate the authority to act in his stead.

(c) *Economic poison.* "Economic poison" includes insecticides, fungicides, disinfectants, rodenticides and herbicides. A product shall be deemed to be an economic poison regardless of whether intended for use as packed or after dilution or mixture with other substances, such as carriers or baits. Products intended only for use after further processing, such as grinding to dust form or more extensive operations, shall not be deemed to be economic poisons. Substances which have recognized commercial uses other than uses as economic poisons shall not be deemed to be economic poisons unless such substances are (1) specially prepared for use as economic poisons, or (2) labeled or represented as economic poisons, or (3) marketed in channels of trade where they will presumably be purchased as economic poisons, or (4) ordinarily used principally as economic poisons.

Products intended only for manufacturing and not for use as economic poisons may be labeled "For Manufacturing Use Only."

(d) *Fungicide.* "Fungicide" includes but is not limited to:

(1) Plant fungicides, seed treatments, wood preservatives, and mildew and mold preventatives,

(2) Disinfectants, antiseptics and sterilizers, except those used on or in living man or other animals.

The term "fungicide" shall not include algaecides.

(e) *Active ingredient.* An "active ingredient" is an ingredient which:

(1) Is capable in itself and when used in the same manner and for the same purposes as directed for use of the product, of preventing, destroying, repelling, or mitigating insects, fungi, rodents, weeds or other pests; and

(2) Is present in the product in an amount sufficient to add materially to its effectiveness; and

(3) Is not antagonistic to the activity of the principal active ingredient;

Provided, however, That the Director may require an ingredient to be designated as an active ingredient if, in his opinion, it sufficiently increases the effectiveness of the economic poison to warrant such action.

(f) *Rodent.* "Rodent" means any animal of the order rodentia, such as rats, mice, rabbits, gophers, prairie dogs, squirrels, etc.

(g) *Official investigator.* "Official investigator" means any employee or agent of the Department of Agriculture or the Treasury Department authorized by the Director or by the Secretary of the Treasury to make investigations in connection with enforcement of the act.

§ 162.3 *English language to be used.* All statements, words and other information required by the act or regulations to appear on the label or labeling of any economic poison shall be in the English language, provided that in the case of articles intended solely for export the appropriate foreign language may be used.

§ 162.4 *Omission of label or labeling.* The omission of a label or labeling from any economic poison shall not affect any provision under the act or the regulations in this part with respect to any statement required to appear on such label or labeling.

§ 162.5 *Label*—(a) *Contents of label.* The label of every economic poison must show, clearly and prominently, the name of the product, the name and address of the manufacturer, the registrant or person for whom manufactured, the net contents, the ingredient statement, and a warning or caution statement which may be necessary to prevent injury to man, other animals, and useful vegetation. The label of any economic poison which is highly toxic to man must also contain the skull and crossbones, and the word "poison" in red on a contrasting background and the antidote statement in immediate proximity thereto. The antidote statement shall include directions to call a physician immediately. The label of every economic poison, if necessary to prevent injury to man, other animals, and useful vegetation, must contain the signal word "Danger", "Warning", or "Caution", together with an appropriate warning or caution statement as required in § 162.8.

(b) *Name and address of manufacturer.* An unqualified name and address given on the label shall be considered as the name and address of the manufacturer. If the registrant's name appears on the label and the registrant is not the manufacturer or if the name of the person for whom the economic poison was manufactured appears on the label, it must be qualified by appropriate wording such as "Packed for • • •", "Distributed by • • •", or "Sold by • • •", to show that the name is not that of the manufacturer. When a person manufactures an economic poison in two or more places or in a place different from the manufacturer's principal office, the actual place of manufacture of each particular package need not be stated on the label except when, under the special circumstances existing, the failure to name it may be misleading to the public. The address of the manufacturer, registrant or person for whom manufactured shall include the street address, if any, unless the street address is shown in a current city directory or telephone directory.

(c) *Name, brand or trademark of economic poison.* The name, brand or trademark of the economic poison appearing on the label shall be that under which the economic poison is registered.

(d) *Net content.* (1) The net content shall be exclusive of wrappers or other material, and shall be deemed to be average content unless stated as a minimum quantity.

(2) Net content shall be stated in the terms of weight or measure in general use to give accurate information as to the quantity of the economic poison. If there is no general use, the net content statement shall be in terms of liquid measure if the product is a liquid, and in terms of weight if it is a solid, semi-solid, viscous, or a mixture of liquid and solid. Statements of liquid measure shall be in terms of the United States gallon, quart, pint, and fluid ounce, at 68° F. The statements of weight shall be in terms of avoirdupois pound and ounce. All statements of net content shall be in terms of the largest unit present.

(3) If the contents are stated as a minimum quantity, variation below is not permissible and variation above shall not be unreasonably large.

(4) If the contents are not stated as a minimum quantity, variation shall be permitted only to the extent that they represent deviations unavoidable in good packing practice. The average quantity in the packages in a shipment shall not fall below the average quantity stated, nor shall there be any unreasonable variation from the average in the contents of any package.

§ 162.6 *Ingredient statement*—(a) *Location of ingredient statement.* The ingredient statement must appear on the front panel of the label except in cases where the Director determines that, due to the size or form of the container and not merely to the design of the label or the presence of advertising matter, a statement on the front panel is impractical, and permits such statement to appear on the side or back panel. When so permitted, the ingredient statement must be in larger type and more prominent than would be possible on the front panel. The ingredient statement must run parallel with other printed matter on the label, and must be on a clear contrasting background not obscured or crowded, and sufficiently conspicuous and in type large enough to be readily read by the purchaser.

(b) *Names of ingredients.* The well-known common name of the ingredient must be given or, if the ingredient has no common name, the correct chemical name. If there is no common name and the chemical composition is unknown or complex, the Director may permit the use of a new or coined name which he finds to be appropriate for the information and protection of the user. If the use of a new or coined name is permitted, the Director may prescribe the terms under which it may be used. A trademark or trade name may not be used as the name of an ingredient.

(c) *Percentages of ingredients.* Percentages of ingredients shall be determined by weight and the sum of the percentages of the ingredients shall be 100. Sliding scale forms of ingredient statements shall not be used.

(d) *Designation of ingredients.* (1) Active ingredients and inert ingredients shall each be so designated, and the term "inert ingredients" shall appear in the same size type and be equally as prominent as the term "active ingredients."

(2) If the name but not the percentage of each active ingredient is given, the names of the active and inert ingredients shall, respectively, be shown in the descending order of the percentage of each present, and the name of each ingredient shall be given equal prominence.

(e) *Active ingredient content.* The active ingredient content of any product, as stated on the ingredient statement, shall be the content when it reaches the user.

§ 162.7 *Economic poisons highly toxic to man.* The Secretary hereby finds that economic poisons which fall within the following categories when tested on any common laboratory animal are highly toxic to man within the meaning of section 6a (2) of the act:

(a) *Significant number of deaths.* Those which produce a significant number of deaths at a dosage of up to 50 milligrams per kilogram of body weight when administered orally; or

(b) *Serious impairment of health.* Those which produce serious impairment of health at a dosage of up to 100 parts per million of the gas or vapor administered by continuous inhalation for one hour or less or a dosage of 100 milligrams per kilogram of body weight when administered by continuous contact with the bare skin for 24 hours or less;

Provided, however, That the Director may, upon application, exempt any economic poison which meets the above standard but which is not in fact highly toxic to man, from the requirements of the act and the regulations in this part with respect to economic poisons highly toxic to man.

§ 162.8 *Warning or caution statement.* The warning or caution statement, when required, must appear on the label in a place sufficiently prominent to warn the user, and must state clearly and in non-technical language the particular hazard involved in the use of the economic poison, e. g., ingestion, skin absorption, inhalation, inflammability or explosion, etc., and the precautions to be taken to avoid accident, injury, or damage.

(a) *Signal words.* The signal words "poison", "danger", "warning", and "caution" indicate differences in hazards and shall be used as follows:

(1) The signal word "poison" in red on a contrasting background in immediate proximity to the skull and crossbones and an antidote, including directions to call a physician immediately, shall appear on all economic poisons highly toxic to man.

(2) The signal word "danger" shall appear on all economic poisons which:

(i) Produce a significant number of deaths in any common laboratory animal at a dosage of 50–100 milligrams per kilogram of body weight when administered orally; or

(ii) Produce serious impairment of health in any common laboratory animal at a dosage of 100–300 parts per million of the gas or vapor, administered by continuous inhalation for a period of one hour or less, or a dosage of 100–300 milligrams per kilogram of body weight when administered by continuous contact with the bare skin for a period of 24 hours or less.

(3) The signal word "Warning" shall appear on economic poisons which offer hazards of a serious nature but less dangerous than those requiring the signal word "Danger".

(4) The signal word "Caution" shall appear on economic poisons which offer hazards less serious than those requiring the signal word "Warning".

(b) *Explosive or flammable products.* All economic poisons which are flammable or which form explosive mixtures with air must bear appropriate cautionary instructions.

§ 162.9 *Directions for use.* Directions for use shall be in non-technical language and in clear legible type. Directions for use in a foreign language may be included in addition to directions in English.

§ 162.10 *Registration*—(a) *Eligibility.* Any manufacturer, packer, distributor or shipper of an economic poison is eligible as a registrant and may register such economic poison.

(b) *Effect of registration by manufacturer or distributor.* If an economic poison is registered by a manufacturer or distributor, any person may, without further registration, purchase such economic poison from such manufacturer or distributor and market the same; *Provided,* That:

(1) The product is in the manufacturer's or registrant's original unbroken immediate container; and

(2) The claims made by such person and the directions for its use do not differ in substance from the representations made in connection with registration.

(c) *Procedure for registration.* Applications for registration should be addressed to Insecticide Division, Livestock Branch, Production and Marketing Administration, Washington 25, D. C. Application forms will be furnished upon request. Applications should be submitted as far in advance as possible and at least 30 days before the time when it is desired that registration take effect. No fees are charged for registration.

(d) *Effective date of registration.* Registration of an economic poison shall become effective when notice is received by the registrant.

(e) *Responsibility of a registrant.* The registrant is responsible for the composition of the product, for the adequacy of the warning or caution statement, including the poison warning and antidote statement and its safety and efficacy, and for all other claims or representations on the labeling.

(f) *Changes in labeling or formulae.* (1) Changes in the labeling or formula of a registered economic poison must be submitted in advance to the Insecticide Division, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. The registrant must describe the exact changes desired and the proposed effective date and, upon request, shall submit a description of tests which justify such changes.

(2) After the effective date of a change in labeling or formula the product shall be marketed only under the new claims or formula, except that a reasonable time may be permitted by the Director to dispose of properly labeled stocks of old products.

(g) *Claims must conform to registration.* Claims made for an economic poison must not differ in substance from representations made in connection with registration, including representations with respect to effectiveness, ingredients, directions for use, or pests against which the product is recommended.

§ 162.11 *Guarantee of registration of economic poisons*—(a) *By whom given.* Any manufacturer, distributor, wholesaler, or other person residing in the United States may furnish to any person to whom he sells an economic poison a guarantee that the economic poison was lawfully registered at the time of sale and delivery to such person, and that the economic poison complies with all the requirements of the act and of the regulations in this part.

(b) *Reference to guarantee.* No reference to or suggestion that a guarantee of registration has been given shall be made in the labeling of any economic poison.

(c) *Contents of guarantee.* In order to afford effective protection, each guarantee must:

(1) Be signed by and contain the name and address of the person giving it; and

(2) State that the economic poison was lawfully registered at the time of sale and delivery and that it complies with all other requirements of the Federal Insecticide, Fungicide, and Rodenticide Act.

(d) *Scope of guarantee.* A guarantee may be (1) limited to a specific shipment or other delivery of a product, in which case it may be a part of or attached to the invoice or bill of sale covering such shipment or delivery, or (2) general and continuing, in which case, in its application to any shipment or other delivery of a product, it shall be considered to have been given at the date when such product was shipped or delivered by the person giving the guarantee.

(e) *Expiration of guarantee.* Any guarantee shall expire when the product is repacked or relabeled by the purchaser or when it becomes otherwise in violation of the act or these regulations after shipment or other delivery by the person who gave such guarantee.

(f) *Forms of guarantee.* The following are suggested forms of guarantee;

(1) Limited form for use on invoice or bill of sale:

---------- hereby guarantees
(Name of guarantor)
that the economic poison herein listed is lawfully registered with the Secretary of Agriculture and that the same complies with all requirements of the Federal Insecticide, Fungicide, and Rodenticide Act.

(Signature and postoffice address of guarantor)

(2) General and continuing form:

The economic poisons comprising each shipment or other delivery hereafter made by ----------, to or on the order
(Name of guarantor)
of ----------
(Name and address of person receiving guarantee)
are hereby guaranteed to be lawfully registered with the Secretary of Agriculture and to comply with all requirements of the Federal Insecticide, Fungicide, and Rodenticide Act, as of the date of such shipment or delivery.

(Signature and postoffice address of guarantor)

Date

§ 162.12 *Coloration and discoloration.* The white economic poisons hereinafter named shall be colored or discolored in accordance with this section. The hues, values, and chromas specified are those contained in the Munsell Book of Color, Munsell Color Company, 10 East Franklin Street, Baltimore, Maryland.

(a) *Coloring agent.* The coloring agent must produce a homogenously colored product not subject to change in color beyond the minimum requirements specified in the regulations in this part during ordinary conditions of marketing or storage, and must not cause the product to be ineffective or result in its causing damage when used as directed.

(b) *Arsenicals and barium fluosilicate.* Standard lead arsenate, basic lead arsenate, calcium arsenate, magnesium arsenate, zinc arsenate, zinc arsenite, and barium fluosilicate shall be colored any hue, except the yellow-reds and yellows, having a value of not more than 8 and a chroma of not less than 4, or shall be discolored to a lightness value not over 7.

(c) *Sodium fluoride and sodium fluosilicate.* Sodium fluoride and sodium fluosilicate shall be colored blue or green having a value of not more than 8 and a chroma of not less than 4, or shall be discolored to a lightness value not over 7.

§ 162.13 *Adulteration*—(a) *Valuable constituent.*

(1) A valuable constituent will be considered as wholly abstracted whenever the designation or representation of the product imports its presence therein and such constituent has been wholly omitted therefrom in the preparation of the product or has been wholly removed from the completed product.

(2) A valuable constituent will be considered as partly abstracted whenever the designation or representation of the product imports its presence therein, and such constituent is not present in the usual or customary amount or in the amount indicated in the labeling.

(b) *Professed standard or quality.* An economic poison will be considered adulterated whenever:

(1) Its strength falls below its professed standard by reason of the fact that it is less effective than indicated by the labeling or the representations under which it is sold; or

(2) Its strength or purity falls below its professed standard or quality by reason of the fact that it contains less of the active ingredients or more of the inert ingredients than indicated by the labeling or the representations under which it is sold.

§ 162.14 *Misbranding*—(a) *False or misleading statements.* Among representations in the labeling of an economic poison which may render it misbranded are the following:

(1) A false or misleading statement concerning composition of the product.

(2) A false or misleading statement concerning the effectiveness of the product as an economic poison or device.

(3) A false or misleading statement about the value of the product for purposes other than as an economic poison or device.

(4) A false or misleading comparison with other economic poisons or devices.

(5) A false or misleading representation as to the safety of the economic poison or of its ingredients. Statements such as "non-poisonous", "non-injurious", or "non-hazardous" imply to the purchaser that the product is safe even, for example, if swallowed in large quantities by a child, and that no medical attention would be required in such cases. Such statements should not be made unless the product is in fact safe under all conditions.

(6) Any statement directly or indirectly implying that the economic poison or device is recommended or endorsed by any agency of the Federal Government, is considered misleading.

(7) The name of an economic poison which contains two or more ingredients may be misleading because it suggests the name of one or more but not all such ingredients, even though the names of the other ingredients are stated elsewhere in the labeling. It is permissible, however, when the percentage of each active ingredient is given in the name, to omit reference in the name to the inert ingredients.

(8) Prominent reference in the labeling to one or more active ingredients without giving equal prominence to the other active ingredients or to the presence of inert ingredients may be misleading.

(9) A true statement used in such a way as to give a false or misleading impression to the purchaser constitutes misbranding.

(10) A statement may be misleading because it is indefinite.

(b) *Justification of false and misleading statements not permitted.* (1) The use of any false or misleading statement on any part of the labeling, given as the statement or opinion of an expert or other person or based upon such statement or opinion shall not be justified, nor may such statement be justified by the fact that the statement or opinion is actually that of the expert or other person.

(2) The use of a false or misleading statement in the labeling cannot be justified by an explanatory statement.

§ 162.15 *Enforcement*—(a) *Collection of samples.* Samples of economic poisons and devices shall be collected by official investigators or by any employee of the Federal Government, or of a State, territory, or political subdivision who has been duly designated by the Director.

(b) *Investigations.* Official investigators shall make investigations to locate shipments of economic poisons or devices which may be in violation of law; visit manufacturers and distributors and obtain records of interstate shipments and other information concerning economic poisons and devices marketed by such persons; examine shipping records, such as those of railroads, express and trucking companies; and visit wholesale and retail establishments and other places to locate interstate shipments of economic poisons and devices.

(c) *Examination of samples.* Methods of examination of samples shall be those adopted and published by the Association of Official Agricultural Chemists, where applicable, and such other methods as may be necessary to determine whether the product complies with the law.

(d) *Notice of apparent violation.* (1) If from an examination or analysis a sample appears to be in violation of the act, a notice in writing shall be sent to the person against whom action is contemplated, giving him an opportunity to offer such written explanation as he may desire. The notice shall state the manner in which the sample fails to meet the requirements of the act and the regulations in this part.

(2) Any such person may, in addition to his reply to such notice, file a written request for an oral hearing in connection therewith, giving his reasons therefor. The Director may grant such oral hearing at his discretion.

(3) No hearing shall be granted prior to the seizure of any economic poison.

§ 162.16 *Notice of judgment.* Publication of judgments of the courts in cases arising under the criminal or seizure provisions of the act shall be made in the form of notices, circulars, or bulletins as the Director may direct.

§ 162.17 *Shipments for experimental use*—(a) *Experimental use under Federal or State supervision.* An economic poison shipped or delivered for experimental use by or under the supervision of any Federal or State agency authorized by law to conduct research in the field of economic poisons shall not be subject to the provisions of the act and the regulations in this part.

(b) *Experimental use by other persons.* (1) An economic poison shipped or delivered for experimental use by other qualified persons but not under the supervision of a Federal or State agency authorized by law to conduct research in the field of economic poisons, shall be exempt from the provisions of the act and of the regulations in this part, *Provided*, That a permit for such shipment or delivery is obtained prior thereto. Permits will be of two types, specific and general. A specific permit will be issued to cover a particular shipment on a specified date to a named person. A general permit will be issued to cover more than one shipment over a period of time to different persons.

(2) All applications for permits covering shipments for experimental use must be signed by the shipper or person making delivery and must contain the following:

(i) Name and address of shipper and place of shipment.

(ii) Proposed date of shipment or proposed shipping period.

(iii) Name and composition of the product.

(iv) Quantity to be shipped.

(v) Name and address of person to whom shipped, in the case of a single shipment, or description and occupation of such persons, if more than one shipment.

(vi) A statement indicating whether the product is sold or is delivered without cost.

(vii) A signed statement that the economic poison is intended for experimental use only.

(viii) Proposed labeling which, in addition to other statements must indicate that the product is for experimental use only.

(c) *Cancellation of permits.* Any permit for shipment for experimental use may be cancelled at any time for any violation of the terms thereof.

§ 162.18 *Exemptions*—(a) *Economic poisons intended for export.* Any economic poison intended solely for export to a foreign country shall be exempt from the provisions of the act only if prepared and packed according to the specifications or directions of the foreign purchaser. A mere order for the product with no instructions for preparation or packaging shall not entitle any such product to this exemption.

(b) *Economic poisons intended for use by manufacturer or dyer.* Any economic poison specified in § 162.12 which is intended solely for use by a textile manufacturer or dyer as a mothproofing agent, which would not be suitable for such use if colored and which will not come into the hands of the public except when incorporated into a fabric, shall be exempt from the requirements of section 3 (a) (4) of the act and of § 162.12.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 13]

[Docket No. 8481]

COMMERCIAL RADIO OPERATORS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendments of §§ 13.2, 13.21, 13.22, and 13.61.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Based on a study of the design, construction and reliability of operation of low power standard and FM broadcast stations, the Commission is of the opinion that the licensees of certain of such stations may be expected to meet the operating requirements prescribed by the rules and regulations if the normal watch is maintained by an operator with less technical qualification than is required to obtain the First Class Radiotelephone Operator's license; provided, a higher class operator is employed as technical supervisor and is made responsible for all major adjustments and repairs.

3. The proposed amendments, authority for which is contained in sections 303 (f) and (r) of the Communications Act of 1934, as amended, are set forth in this notice.

4. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission, on or before September 1, 1947, a written statement or brief setting forth his comments. The Commission will consider any such comments that are received before taking any final action regarding the proposed amendments, and if any comments are received which appear to warrant the holding of an oral argument before final action is taken, notice of the time and place of such oral argument will be given.

It is proposed to amend Part 13 of the rules and regulations of the Federal Communications Commission, as follows:

1. Section 13.2 *Classes of licenses*, is amended by adding at the end thereof a new paragraph, as follows:

(d) Broadcast radio operator license.

2. Section 13.21 *Examination elements*, is amended by adding at the end thereof a new paragraph, as follows:

(7) *Practical broadcast operation.* Practical matters relating to minor adjustments and normal operating practices of standard and FM broadcast stations.

3. Section 13.22 *Examination requirements*, is amended by adding at the end thereof a new paragraph, as follows:

(g) *Broadcast radio operator license.* (1) Ability to transmit and receive spoken messages in English.

(2) Written examination elements: 1 and 7.

4. Section 13.61 *Operator authority*, is amended by adding at the end thereof a new paragraph, as follows:

(g) Broadcast radio operator license: To serve as staff operator of any standard broadcast station employing a non-directional antenna and not exceeding 1 kw. power, or of an FM broadcast station of not more than 1 kw. effective radiated power; provided

(1) The holder of a First Class Radiotelephone Operator License is employed as technical supervisor.

(2) Internal tuning adjustments, major repairs and overhauls are made by or under the direction of the technical supervisor.

(3) The duties of a broadcast radio operator may include such operations as placing the station on and off the air, keeping the transmitter log, making external tuning adjustments, other minor adjustments as may be required as a result of primary power supply variations and failures, and replacement only of such defective parts as tubes, fuses and other items designed for simple plug-in replacement.

Adopted: August 1, 1947.

Released: August 1, 1947.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

CHARLES EBERT

In re: Estate of Charles Ebert, deceased. File No. D-28-11047; E. T. sec. 15487.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Mary Ebert, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country, (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person identified in subparagraph 1 hereof, in and to the estate of Charles Ebert, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country, (Germany);

3. That such property is in the process of administration by Philip Ebert, as executor, acting under the judicial supervision of the Surrogate's Court, County of Queens, State of New York;

and it is hereby determined:

4. That to the extent that the person identified in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 23, 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General,
Director, Office of Alien Property.

Bureau of Land Management

[1894287]

MISSOURI

NOTICE OF FILING OF PLAT OF SURVEY

JULY 30, 1947.

Notice is given that the plat of survey of lands hereinafter described will be officially filed in the Bureau of Land Management, Washington 25, D. C., effective at 10:00 a. m. on October 1, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 1, 1947 to December 30, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 11, 1947, to October 1, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 1, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on December 31, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 11, 1947, to December 31, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 31, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in Bureau of Land Management, Washington 25, D. C., shall be acted upon in accordance with the regulations contained in section 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that Title.

Inquiries concerning these lands shall be addressed to the Director, Bureau of Land Management, Washington 25, D. C.

The lands affected by this notice are described as follows:

GASCONADE AND OSAGE COUNTIES, MISSOURI, 5TH P. M.

T. 43 N., R. 6 W.,
Sec. 19, lot 1, (8.85 acres);
T. 43 N., R. 7 W.,
Sec. 24, lot 3, (42 acres).

This land comprises a small island in the Gasconade River, Missouri, situated at an elevation of 15 to 25 feet above normal water line. About two-thirds of the island has been cleared and devoted to crops. The soil is sandy loam which supports a native growth of small trees and brush.

FEDERAL COMMUNICATIONS COMMISSION

OPERATOR LICENSES AND EXAMINATIONS

AUGUST 1, 1947.

The Commission announced today the first step in its plan to place the commercial radio operator examinations and licenses in step with the advancements that have been made in the industry.

The plan provides, in part, for three classes of broadcast operator licenses authorizing operation of Standard, International, FM, Facsimile, Television, Developmental and Auxiliary Broadcast stations. At the present time only the first class radiotelephone operator's license authorizes operation of these stations.

Under the new plan, the three new classes of broadcast operator's licenses would be valid for operator duties as follows:

Broadcast engineer-operator. Chief Engineer or Staff Operator of any Standard, International, FM, Facsimile, Television, Developmental and Auxiliary stations.

Broadcast technician-operator. Chief Engineer of a Standard Broadcast Station of not more than 1 kilowatt power employing a non-directional antenna system or an FM Broadcast Station.

Staff Operator of any Standard, International, FM, Facsimile, Television, Developmental and Auxiliary station.

Broadcast radio-operator. Staff Operator of a Standard Broadcast Station not exceeding 1 kilowatt power employing a non-directional antenna system, or the Staff Operator of an FM Broadcast Station of not more than 1 kilowatt effective radiated power.

All broadcast stations would be required to employ at least one Engineer-Operator with the exception of (1) FM Broadcast stations (2) Standard Broadcast stations of 1 kilowatt or less with non-directional antenna. The excepted stations could employ at least one Technician-Operator in lieu of the Engineer-Operator.

The Commission's current proposal provides only for the issuance of the Broadcast Radio-Operator license to persons who will serve under the technical supervision of a person holding a higher class of operator's license.

The examination for Broadcast Radio-Operator's license will cover technical subjects relating to routine operation of a broadcast transmitter and associated equipment to the extent that such an operator can on his own responsibility place the transmitter on and off the air, replace tubes and other defective parts that are readily replaceable by plug-in methods, assure compliance with the rules and regulations relating to modulation and frequency stability, and insure that the operator will call the responsible technical supervisor should any circumstance arise requiring a decision or action beyond the scope of his responsibility under the Broadcast Radio-Operator license. The examination will also cover appropriate portions of the rules and regulations governing the operation of Standard and FM Broadcast stations to insure proper maintenance of the station logs and other records and adherence to broadcast station operating procedures.

Further proposals will be made with respect to the implementation of the two remaining classes of broadcast station operator licenses. When these proposals are adopted in final form they will be carried into effect as rapidly as the examinations, study guides, and license forms can be produced and distributed to the Field Offices.

The Commission is fully aware of the problems of existing holders of operator licenses, particularly those that arise in the transition from one kind of operator license to another. In the proposals for implementation of the new classes of licenses, provision will be made to recognize experience gained under existing licenses in prescribing the conditions under which the new licenses may be obtained.

Secretary.

CENTRAL AND SOUTH WEST CORP. ET AL.

ORDER PERMITTING APPLICATIONS-DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of July A. D. 1947.

In the matter of Central and South West Corporation, Central Power and Light Company, Southwestern Gas and Electric Company, File No. 70-1547.

Central and South West Corporation ("Central"), a registered holding company, Central Power and Light Company ("Power and Light") and Southwestern Gas and Electric Company ("Southwestern"), public utility subsidiaries of Central, having jointly filed applications-declarations and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6, 7, 9, 10 and 12 thereof and Rules U-42, U-43, and U-50 promulgated thereunder with respect to:

(1) The issue and sale of unsecured serial notes by Central to the First National Bank of Chicago and the John Hancock Mutual Life Insurance Company in the principal amount of $4,300,000, payable at the rate of $125,000 semi-annually from January 1, 1948 through January 1, 1959, with a final installment of $1,425,000 maturing on July 1, 1959 and bearing interest at the rate of 2%, 2¼%, and 3% per annum, depending on date of maturity;

(2) The prepayment and retirement by Central of two secured notes presently outstanding in the aggregate principal amount of $348,000;

(3) The amendment by Power and Light of its Articles of Incorporation regarding the reclassification of its authorized common stock from 250,000 no par value shares to 1,072,100 shares with a par value of $10 each, and the exchange of its 202,180 shares presently outstanding no par value common stock held by Central for 772,104 shares of the new $10 par value common stock;

(4) The issue and sale by Power and Light of 299,996 shares of its common stock, par value $10 each, to Central and the acquisition of such stock by Central for a cash consideration of $2,999,960;

(5) The issue and sale by Southwestern of 65,500 shares of its common stock, no par value, to Central and the acquisition of such stock by Central for a cash consideration of $1,000,000; and

Central having requested an exemption from the competitive bidding provisions of Rule U-50 in connection with the issue and sale of the said unsecured serial notes; and

Power and Light having requested that it be relieved from the obligation to make prepayments of its serial notes issued in December, 1945; and

A public hearing having been held, after appropriate notice, and the Commission having considered the record herein;

It is ordered, That the said amended joint applications-declarations be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

It is further ordered, That the proposed issue and sale of unsecured serial notes in the principal amount of $4,300,000 by Central be, and hereby is, exempted from the provisions of Rule U-50.

It is further ordered, That Power and Light be, and hereby is, relieved from any obligation imposed by that portion of Amendment No. 5 filed in Commission File No. 70-1191 or by the Order of the Commission dated December 13, 1945 entered in said proceeding requiring the prepayment of the serial notes issued by Power and Light therein.

By the Commission.

CLIFFS CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 30th day of July A. D. 1947.

Notice is hereby given that The Cliffs Corporation (Cliffs), a registered investment company, has applied for an order pursuant to section 6 (c) of the Investment Company Act of 1940 exempting Cliffs from the provisions of section 30 of said act and the rules promulgated thereunder, which require the filing of reports with this Commission and the transmission of reports to shareholders.

Cliffs was consolidated with The Cleveland-Cliffs Iron Company on July 9, 1947 when an Agreement of Consolidation was filed with the Secretary of State of Ohio. Its corporate entity, except for certain limited purposes, ceased as of that date and, subject to the rights of its dissenting shareholders, its former shareholders by operation of law became shareholders of The Cleveland-Cliffs Iron Company, a new company arising out of the consolidation. In view of the termination of its corporate existence, Cliffs submits that neither the filing of its reports with this Commission nor the transmission of reports to its former shareholders is necessary or appropriate in the public interest or in the interest of its former shareholders.

All interested persons are referred to the application, which is on file in the Philadelphia, Pennsylvania offices of this Commission, for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after August 11, 1947 unless prior thereto a hearing upon the application is ordered by this Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may submit to the Commission in writing, not later than August 8, 1947 at 5:30 p. m., his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or a request to the Commission that a hearing be held thereon. Any such communication or request should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request and the issues of fact or law raised by the application which he desires to controvert. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

By the Commission.

SUBPART A—SUBSTANTIVE PROVISIONS

§ 125.1 *Student defined.* As used in this part, the term "student" means an alien admitted temporarily to the United States as a nonquota immigrant under the provisions of section 4 (e) of the Immigration Act of 1924 (43 Stat. 155; 8 U. S. C. 204 (e)) and under the provisions of this part.

§ 125.2 *Time for which admitted.* A student shall be admitted to the United States for a period of time not to exceed one year. If his intended course of study is less than one year, the period of admission shall not exceed the period of such intended course of study plus necessary travel time. He shall not be admitted for a period of time extending beyond the date 60 days prior to the end of the period during which he will be eligible for readmission to the country from which he came or to some other foreign country. Such eligibility will ordinarily be established by the presentation of a passport having the period of validity prescribed in § 176.500 of this chapter.

§ 125.3 *Conditions of admission.* In order to be admissible as a student an alien shall:

(a) Be at least 15 years of age.

(b) Be qualified to enter and have definitely arranged to enter an accredited school, college, academy, seminary, or university, particularly designated by him and approved by the Attorney General;

(c) Establish that he seeks to enter the United States solely for the purpose of pursuing a definite course of study in such institution and that he will carry a course of studies in day classes, which course will consist of a minimum of 12 semester hours or the equivalent of that

amount if he is an undergraduate student or, if he is a graduate student, will consist of a full program of study and will be in the amount and of the nature required by the school; also establish that he has sufficient scholastic preparation and knowledge of the English language to enable him to undertake his intended course, as indicated by the institution admitting him;

(d) Establish that he is or will be financially able, subject to the provisions of this part, to pursue such course of study;

(e) Establish that he intends to leave the United States at the expiration of the period of his admission or of any authorized extension of such period or upon cessation of the status under which admitted, whichever occurs first;

(f) Furnish bond on Form I–374 or Form 574 in the sum of not less than $150 to insure that he will depart from the United States at the expiration of his authorized stay or upon failure to maintain the status under which admitted, whichever occurs first, if such bond is required by an officer in charge or by a board of special inquiry or pursuant to an order entered on appeal from the decision of such board;

(g) Present whatever document or documents are required by the applicable Executive order and regulations prescribing the documents to be presented by aliens entering the United States under the provisions of section 4 (e) of the Immigration Act of 1924, such document or documents to include evidence of compliance with all applicable provisions of Title III of the Alien Registration Act, 1940 (54 Stat. 673; 8 U. S. C. 451) relating to registration and fingerprinting;

(h) Establish that he is not a member of any class of aliens subject to exclusion from the United States under the applicable provisions of the immigration laws or regulations.

§ 125.4 *Extension of stay; period of time; conditions.* After a student is admitted to the United States for a fixed period of time, his stay may be extended for a period or periods not exceeding one year each. Any such extension of his stay shall be subject to the same time limitations as are placed on original admissions by § 125.2 and must be predicated on a finding that the student establishes that he has fulfilled and will continue to fulfill the conditions of admission prescribed by § 125.3. As a condition precedent to the granting of an extension, the district director having jurisdiction may require the student to furnish bond, or bond in greater sum, on the form and containing the conditions stated in § 125.3 (f). Where a bond furnished on admission is to be continued during the time of an extension of stay, any arrangements necessary in that connection must be made by the student.

Cross Reference: For procedure for extensions of stay, see § 125.13.

§ 125.5 *Deportation.* A student who violates or fails to fulfill any of the conditions of his admission to or extended stay in the United States or who otherwise becomes a member of any deportable class defined in any of the immigration laws shall be made the subject of deportation proceedings in accordance with the provisions of the applicable immigration laws and the provisions of Part 150 of this chapter.

SUBPART B—PROCEDURAL AND OTHER NONSUBSTANTIVE PROVISIONS

§ 125.11 *Authority to admit.* If the examining immigrant inspector is satisfied beyond a doubt that an alien is admissible as a student, he may admit him as such. If the examining immigrant inspector is satisfied that an alien would be admissible as a student provided a bond was furnished in accordance with the provisions of § 125.3 (f), the examining immigrant inspector may refer the case to the officer in charge of the port and if the officer in charge concludes that the alien would be admissible provided such bond was furnished, the officer in charge may admit the alien as a student upon the furnishing of such bond. If the examining immigrant inspector is not satisfied that an alien applying for admission to the United States as a student is admissible as a student, he shall hold the alien for examination by a board of special inquiry. The bond prescribed in § 125.3 (f) may be exacted by the board of special inquiry. All admissions shall be subject to the time limitations prescribed in § 125.2.

§ 125.12 *Records of admission, readmission, and departure.* (a) When a student is admitted to the United States on surrender of an immigration visa, the endorsements and records, other than Form I–151, required by § 108.6 of this chapter shall be made. In addition, Form I–94 in triplicate shall be executed in the case of every student admitted to the United States on surrender of an immigration visa. The admitting immigrant inspector shall note on the Form I–94 the name and location of the institution to which the student is destined. The original Form I–94 shall be sent to the district headquarters of the district to which the student is destined. The duplicate Form I–94 shall be given to the student at the time of his admission to the United States. The triplicate Form I–94 shall be fastened to the face of the immigration visa and shall accompany it to the Central Office. The duplicate Form I–94 shall be the alien registration receipt card, Form I–151 shall not be furnished to students; in that respect, § 108.6 (a) of this chapter shall not apply to students.

(b) When a student is admitted to the United States on surrender of an immigration visa, the admitting immigrant inspector shall stamp any passport presented by the student (as the term "passport" is defined in § 176.101 (e) of this chapter) to show the word "Admitted" and the date and place of admission, and shall add the serial number of the Form I–94 issued.

(c) A notice of the admission of a student shall be sent from the port of admission to the appropriate official of the institution to which the student is destined, with advice as to the location of the district immigration office to which the required reports from the institution and any applications by the student shall be sent.

(d) During a student's authorized stay in the United States, he may under certain circumstances visit certain countries and be readmitted to the United States without obtaining a new immigration visa (see § 176.203 (d) of this chapter). When that occurs, no notice of the readmission need be sent from the port of readmission to the institution. The readmitting immigrant inspector shall execute Form I–94 in triplicate, showing the name and location of the institution to which destined and the serial number of the Form I–94 issued on the original entry, such number having been endorsed in the student's passport on his original entry. The original of the Form I–94 shall be retained at the port of entry and filed with other records of arrival; the duplicate Form I–94 shall be given to the student at the time of his readmission; and the triplicate Form I–94 shall be sent to the district headquarters office of the district responsible for the supervision of the student.

(e) When a student departs from the United States either temporarily or permanently, he shall surrender his duplicate Form I–94. Notwithstanding the provisions of Part 108 of this chapter, the duplicate Form I–94 surrendered by a departing student shall be forwarded to the district headquarters office of the district where the institution which the student is or was last attending is located. If it is definitely shown or known that the student's departure is permanent, the file in that district shall be closed and the surrendered duplicate Form I–94 with an additional notation showing that the case has been closed shall be sent to the Central Office; otherwise, the form shall be held in that district for six months. If during that time no notice of the student's readmission is received by a new Form I–94 or otherwise, inquiry shall be made as to the student's whereabouts and status. If it is found that the student has departed permanently from the United States or has been readmitted under some other status, the district file shall then be closed and the duplicate Form I–94 bearing the additional endorsement showing termination shall be sent to the Central Office.

§ 125.13 *Extension of stay; procedure.* (a) A student may apply for an extension of the period of his temporary admission. Such application shall be submitted on Form I–535 approximately 30 days before the expiration of the period of admission, or previously authorized extension thereof, to the district director of the district in which is located the institution which the student is attending. All available data specified in Form I–535 shall be furnished by the applicant. The application shall be accompanied by his passport and by the duplicate Form I–94 issued to him at the time of his entry.

(b) After making such inquiry as may be necessary, the district director shall make a decision on the application and such decision shall be final: *Provided*, That the district director shall not grant any extension of stay which would authorize the student to remain in the United States for a period of more than four years after arrival unless the district director first obtains approval from the Commissioner: *And provided further*, That the Commissioner may from time to time require in individual cases or in certain classes of cases that district directors submit to him for review or decision cases of applications on Form I–535 on which they have acted or which they receive. In all cases the district director shall send notice of the decision to the student. If the decision is favorable, such notice shall be made by placing a signed endorsement on the duplicate Form I–94, showing the date to which the stay is extended and by returning the duplicate Form I–94 and the passport to the student. The district director of the district in which is located the institution which a student is attending shall to the extent practicable notify by form letter each student of the imminent expiration of authorized stay unless the district director is in receipt of an application for an extension of such stay or of information that the student will depart from the United States at the expiration of the period of authorized stay.

§ 125.14 *Transfers from one school to another.* A student may transfer from one approved institution to another only if he first secures written permission from the district director of the district in which is located the institution from which the transfer is desired. Any application for permission to transfer should be submitted to the district director by letter at least 30 days in advance of the desired transfer. There shall be placed on the duplicate Form I–94 a signed endorsement showing the name and location of the institution to which the transfer is authorized, and the duplicate Form I–94 shall be returned to the student. When a student is permitted to transfer from one approved institution to another and the institution to which he transfers is located in another immigration district, the district director of the first district shall forward his complete file (including the original and any triplicate Forms I–94) pertaining to the student to the director of the district into which the student transfers and shall send a notice of the transfer to the Central Office.

§ 125.15 *Employment.* (a) A student shall not be permitted to work during a school term either for wages or for board or lodging unless he has insufficient means to cover his necessary expenses. If a student wishes to accept employment, he shall apply prior to the acceptance of such employment to the district director of the district in which is located the institution which he is attending. If the district director is satisfied that the student is meeting all of the requirements in this part and that he does not have sufficient means to cover his expenses and that the employment requested will not interfere with his carrying successfully a course of study of the required amount, he may grant permission to the student to accept such employment. A district director may, in his discretion and subject to all the limitations prescribed in this section, permit a student to take employment during summer vacations. Subject to the limitations in this section and part, a student may in connection with his admission be granted permission to accept employment, but where permission is granted in that connection, the facts must be reported to the district immigration office responsible for handling the case while the student is in the United States.

(b) In cases where employment for practical training is required or recommended by the school, the district director may permit the student to engage in such employment for a six-month period subject to extension for not over two additional six-month periods, but any such extensions shall be granted only upon certification by the school and the training agency that the practical training cannot be accomplished in a shorter period of time.

§ 125.16 *Schools; petition for approval.* Any school, college, academy, seminary, or university desiring approval as a school for immigrant students may file with the Attorney General a petition in writing (Form I–17), stating its name and location; the date when established; the requirements for admission, including age; whether coeducational; the courses of study offered and the time required to complete each course; the degrees, if any, conferred; the calendar of its school year, including terms and semesters; whether day or night sessions are held or both; the average annual number of students attending; the number of teachers or instructors employed; the approximate total annual cost of board, tuition, etc., per student; and the causes for expulsion: *Provided*, That when a catalog is issued by such school, college, academy, seminary, or university, a copy of the latest edition thereof shall be filed with and made part of the petition with appropriate references to the pages of such catalog where the information herein required may be found. If the Attorney General is satisfied that such school, college, academy, seminary, or university has been established for at least two years immediately preceding the filing of the petition herein required; that it is a bona fide institution of learning; and that it possesses the necessary facilities and is otherwise qualified for the instruction and education of immigrant students he may approve such school, college, academy, seminary, or university as a school for immigrant students.

§ 125.17 *Schools; conditions for approval.* No petition for approval as a school for immigrant students shall be considered unless such petition is accompanied by the written agreement of the school, college, academy, seminary, or university seeking such approval, to report in writing to the district director of the district in which such institution is located, immediately upon the admission of an immigrant student to such institution, the name, age, and local address of such student; the name and complete address of a friend or relative of such student in the United States; the date when such student was admitted to such institution; the course of study to be pursued by him; and at the termination of the attendance of such student, to report at once, in writing, to the district director of the district in which such institution is located the date when and the reasons why such attendance was terminated. The foregoing conditions for approval of schools are hereby made applicable to all such approvals heretofore granted and the continuance of approval of a school will depend on the observance of this section.

§ 125.18 *Schools; officer to make petition.* Form I–17 and the written agreement accompanying it must be executed by the principal officer of the school, college, academy, seminary, or university having authority to execute contracts.

§ 125.19 *Schools; withdrawal of approval.* If it shall appear to the satisfaction of the Attorney General that any school, college, academy, seminary, or university approved as a school for immigrant students fails, neglects, or refuses to comply with all the terms of its agreement, he may withdraw or revoke his approval of such school, college, academy, seminary, or university as a school for immigrant students.

The rule stated *supra* shall become effective on August 10, 1947. The effective date is being delayed for less than the 30 days generally prescribed by section 4 (c) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C., Sup., 1003) because it is desirable that the cases of alien students coming to the United States to enroll for the 1947 fall term be handled under the provisions of this rule.

This rule is based on those provisions of statutes which pertain to admission, status, and departure of nonquota immigrant students, such provisions being cited in the rule hereby prescribed. The general purpose of this rule is to make available to alien students and to officials of schools in the United States enrolling such students a comprehensive statement of what is required of them and as to how they should proceed in meeting immigration requirements.

T. B. Shoemaker,
Acting Commissioner of Immigration and Naturalization.

Approved: August 1, 1947.

Tom C. Clark,
Attorney General.

SUBPART A—REGULATIONS PRESCRIBED

§ 322.1 *Application of regulations.* Pursuant to the authority of section 22 (i) of the Second Liberty Bond Act, as amended (59 Stat. 47, 31 U. S. C. and Sup. 757c (i)) and the Armed Forces Leave Act of 1946, as amended by Pub. Law No. 254, 80th Cong., the following regulations in this part are hereby prescribed for the replacement out of the fund established by the Government Losses in Shipment Act, as amended, of any losses to the United States resulting from payments made in connection with the redemption of United States Savings Bonds and Armed Forces Leave Bonds, and shall apply to losses resulting from payments made (a) by the Treasurer of the United States, (b) by any Federal Reserve Bank or Branch, as Fiscal Agent of the United States, and (c) by any bank or other financial institution duly qualified as a paying agent pursuant to Treasury Department Circulars No. 750, Revised, or No. 811.

SUBPART B—REPORTS OF LOSSES

§ 322.2 *Loss to the United States.* A loss to the United States may result from an erroneous (or unauthorized) payment in connection with the redemption of the bonds.

§ 322.3 *Erroneous payments reported to or discovered by Federal Reserve Banks.* If a financial institution, qualified to pay savings bonds or Armed Forces Leave Bonds, finds an erroneous payment to have been made, either before or after the bonds have been forwarded to the Federal Reserve Bank, immediate report thereof should be made to the Federal Reserve Bank. Any such erroneous payments so reported, and any other erroneous payments found by a Federal Reserve Bank of bonds received from a duly qualified paying agent shall, so far as possible, be adjusted between the Federal Reserve Bank and the paying agent concerned.

§ 322.4 *Report to Treasury of cases involving erroneous payments.* Any such erroneous payments which cannot be adjusted by a Federal Reserve Bank and any other erroneous payments found after the account of the Treasurer of the United States has been charged shall immediately be reported by the Federal Reserve Bank to the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, in the case of Savings Bonds or, in the case of Armed Forces Leave Bonds, to the Division of Loans and Currency, Washington 25, D. C.

SUBPART C—FINAL DETERMINATION OF LOSSES

§ 322.5 *Reported erroneous payment, general action by Treasury.* Following receipt of the report of an erroneous payment, the Treasury Department will appropriately advise the paying agent concerned, unless such action is unnecessary. The Department shall determine whether or not appropriate adjustment may be effected with the persons concerned in the erroneous payment and in this connection will expect the cooperation of the paying agent, if necessary.

(a) If it is determined that no loss to the United States will occur the paying agent will be so advised.

(b) If it is determined that a final loss to the United States has occurred, the paying agent will be given every opportunity to present the full facts relating to the payment for consideration of the Secretary of the Treasury. If the Secretary shall determine that the final loss resulted from no fault or negligence on the part of the paying agent, notice to that effect will be given the paying agent and he will be relieved from liability to the United States. If, however, the Secretary of the Treasury is unable to find that the loss resulted from no fault or negligence on the part of the paying agent, notice to that effect will be given such paying agent, who will be expected to make prompt restitution.

§ 322.6 *Restitution by paying agents.* In no case will the Treasurer of the United States, a Federal Reserve Bank (including any of its Branches) or the financial institution qualified as a paying agent, whichever made the erroneous payment, be called upon to make restitution unless and until the Secretary has determined that a final loss has occurred as a result of an erroneous payment, and is unable to find that such loss resulted from no fault or negligence on the part of the paying agent.

SUBPART D—REPLACEMENT OF LOSSES OUT OF FUND

§ 322.7 *Replacement and recovery in connection with losses.* When it is established to the satisfaction of the Secretary of the Treasury that a loss has resulted from a payment made in connection with the redemption of a United States Savings Bond or an Armed Forces Leave Bond, the loss shall be subject to immediate replacement out of the fund established by the Government Losses in Shipment Act, as amended. Any recovery or repayment on account of any such loss as to which replacement shall have been made out of the fund, shall be credited to the fund.

SUBPART E—INVESTIGATION OF LOSSES

§ 322.8 *Use of United States Secret Service.* The Treasury Department, and, in appropriate cases, Federal Reserve Banks, as Fiscal Agents of the United States, may request the Secret Service to investigate losses and assist in the recovery of improper payments. The Treasurer of the United States, the Federal Reserve Banks, and qualified paying agents should cooperate with the Secret Service to the fullest extent in facilitating investigations and making recoveries and they will be expected to take such actions as may be necessary on their part to complete such investigations and recoveries.

SUBPART F—SUPPLEMENTS, AMENDMENTS, ETC.

§ 322.9 *Supplements, amendments, etc.* The Secretary of the Treasury may at any time or from time to time supplement, amend, or withdraw, in whole or in part, the provisions of this part, or of any amendments or supplements thereto, information as to which will be furnished promptly to the Federal Reserve Banks and to eligible financial institutions qualified to make payments of savings bonds or Armed Forces Leave Bonds under the provisions of Treasury Department Circulars No. 750, Revised, and No. 811, respectively.

Compliance with the notice, public rule making procedure and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this revision for the reason that it is issued merely to conform the provisions of Department Circular No. 751, Revised, to Pub. Law 254, 80th Cong., amending the Armed Forces Leave Act of 1946.

This revision will become effective on September 2, 1947.

PART 324—ARMED FORCES LEAVE BONDS[1]

AUGUST 1, 1947.

Armed Forces Leave Bonds are issued pursuant to the Armed Forces Leave Act of 1946 as amended,[2] (hereinafter referred to as the act) to living members and living former members of the Armed Forces of the United States in settlement and compensation of accumulated leave under the conditions set forth in the act. In accordance with the terms of the act these bonds are issued under authority and subject to the provisions of the Second Liberty Bond Act, as amended. Pursuant to authority contained in said acts, Department Circular No. 793, dated November 12, 1946 (31 CFR 1946 Supp., 324), which contains the regulations governing Armed Forces Leave Bonds, is hereby amended and issued as a First Revision to read as follows:

AUTHORITY: §§ 324.1 to 324.19, inclusive, issued under sec. 22 (1), 59 Stat. 47, Pub. Law 704, 79th Cong., 60 Stat. 963, Pub. Law 254, 80th Cong.; 31 U. S. C. and Sup. 757 (c) (1).

SUBSTANTIVE REGULATIONS

§ 324.1 *Designation.* The bonds issued for the above purpose are designated "Armed Forces Leave Bonds".

§ 324.2 *Issue and inscription.* Armed Forces Leave Bonds are issued by the Secretary of the Treasury (hereinafter referred to as the Secretary) acting through the Army, Navy, Marine Corps, and Coast Guard, which are designated as issuing agents. They are inscribed only in the names of living members or living former members of the armed forces. In each case a single bond in the highest appropriate multiple of $25 is issued where the amount due is $50 or more.[3] The name and serial or service number of the owner will be inscribed on the bond and at the option of the issuing agent the address may also be inscribed. No exchange will be permitted for bonds of lower denomination, for example, if a bond for $275 is issued to a particular owner he may not exchange that bond for a bond in the amount of $200 and a bond in the amount of $75.

§ 324.3 *Date and maturity of bond, and interest.* The issue date of a bond will be the first day of the quarter-year period (January 1, April 1, July 1, or October 1) next following the date of discharge from the armed forces of the former member whose name is to be inscribed thereon, provided he was discharged on or after January 1, 1943, and prior to September 1, 1946, or in case a member of the armed forces was still on active duty on September 1, 1946, his bond will be dated October 1, 1946. Each bond will mature five years from its issue date, but shall be redeemable in cash at any time after September 1, 1947, at the option of the owner, at full face value plus accrued interest. Interest will accrue at the rate of 2½% per annum from the issue date to the date of maturity or to the last day of the month in which payment is made, whichever may be earlier. Interest will be paid only with the principal sum.

§ 324.4 *Transfer and pledge.* The bonds are nontransferable by sale, exchange, assignment, pledge, hypothecation or otherwise, except that they may be assigned by the owner to the Administrator of Veterans' Affairs for redemption by such Administrator, for the purpose of paying premiums or the difference in reserve in case of conversion to insurance on another plan or a policy loan made prior to July 31, 1946, on a United States Government life insurance policy or a national service life insurance policy under such regulations as may be prescribed by the Administrator of Veterans' Affairs. No claims by attempted transferees or by persons loaning money on the security of the bonds will be recognized.

§ 324.5 *Claims of creditors.* By the terms of the act the bonds are exempt from claims of creditors, including any claim of the United States, and shall not be subject to attachment, levy, or seizure by or under any legal or equitable process whatever. Accordingly, no claims of creditors, assignees for the benefit of creditors, trustees or receivers in bankruptcy or equity will be recognized, and no payment of the bonds to any such persons will be made, either during the lifetime of the person whose name is inscribed on the bonds or after his death.

§ 324.6 *Assignment to the Administrator of Veterans' Affairs.* Any registered owner of an Armed Forces Leave Bond who desires to use his bond in payment of premiums or other payments in connection with United States Government life insurance or national service life insurance policies should mail or deliver his bond to the Office of the Veterans' Administration to which he pays his premiums. The bond should be accompanied by a completed VA Form 9-1625, "Directions for use of Proceeds of Armed Forces Leave Bonds", obtainable at any Veterans' Administration Office. Before submitting the bond to the Veterans' Administration the assignment form printed on the bottom of the back of the bond should be signed by the owner exactly as his name appears on the face of the bond. No certification or witness to the signature of the owner on such assignment form will be required.

§ 324.7 *General payment and redemption provisions.* Armed Forces Leave Bonds may be redeemed before, at, or after maturity, in accordance with the terms of this part at face value plus accrued interest to the date of maturity or to the last day of the month in which payment is made whichever may be earlier. Only payment of the entire amount will be permitted. No partial payment and no reissue of the bond in part may be made. No power of attorney to request payment in behalf of the registered owner will be recognized.

§ 324.8 *Payment to registered owner (general).* At any time after September 1, 1947, an owner whose name is inscribed on the face of an Armed Forces Leave Bond may at his option redeem such bond at full face value plus accrued interest upon (a) presentation of the bond (unless marked "Duplicate") to any incorporated bank or trust company or other organization qualified as a paying agent under the provisions of Department Circular No. 811 or any amendment thereto, (b) establishing his identity, (preferably through use of original separation papers bearing his description and witnessed signature) to the satisfaction of the paying agent, and (c) signing the request for payment exactly as his name is inscribed on the face of the bond and adding his home or business address. Even though the request for payment has been signed or signed and certified prior to the presentation of the bond, nevertheless, the paying agent is required to establish to its satisfaction the identity of the owner, requesting payment and such paying agent may require the owner to sign again the request for payment. No charge will be made to the owner.

§ 324.9 *Payment to registered owner (other cases).* Registered owners to

[3] Except that upon request settlement and compensation will be made entirely in cash to any applicant who has not made application for settlement and compensation and who makes application to the Secretary after July 26, 1947, the date of enactment of the amendatory act. The term "Secretary" as used in this footnote means in the case of personnel of the Army, the Secretary of War; in the case of personnel of the Navy and Marine Corps, the Secretary of the Navy; and in the case of personnel of the Coast Guard, the Secretary of the Treasury, and the designated representatives of each such Secretary.

whom qualified paying agents are not readily accessible and those who have bonds marked "Duplicate" should sign the request for payment of their bonds in the presence of and have their signatures thereto duly certified by an authorized certifying officer and should present and surrender their bonds to the appropriate Federal Reserve Bank [1] or to the Treasurer of the United States, Washington 25, D. C., except that bonds marked "Duplicate" should be forwarded to the Division of Loans and Currency, at the same address.

(a) *Certification of request.* After the request for payment has been signed the certifying officer should complete and sign the certificate appearing at the end of the form for request for payment.

(b) *Certifying officers.* The following officers are authorized to certify requests for payment of Armed Forces Leave Bonds:

(1) *Designated officers.* Certain designated officers in the Treasury Department in Washington;

(2) *Banks, trust companies and branches.* Any officer of any bank or trust company incorporated in the United States or its organized territories, or domestic or foreign branch of such bank or trust company, including those doing business in the organized territories or insular possessions of the United States under Federal charter or organized under Federal law, Federal Reserve Banks, Federal Land Banks, and Federal Home Loan Banks; any employee of any such bank, or trust company expressly authorized by the corporation for that purpose, who should sign over the title "Designated Employee"; and Federal Reserve Agents and Assistant Federal Reserve Agents, located in the several Federal Reserve Banks;

(3) *Veterans' home or hospital or other facility.* The officer in charge of any home, hospital, or other facility of the Veterans' Administration (only for patients and members of such facilities);

(4) *Foreign countries.* United States diplomatic and consular representatives; notaries public, if their official character and jurisdiction are certified by a United States diplomatic or consular officer over an impression of his rubber stamp, or by his certificate over his seal which should be transmitted with but should not be impressed on the bond itself. (See also subparagraph (5) of this paragraph);

(5) *Armed forces.* Commissioned officers of the Army, Navy, Marine Corps, and Coast Guard of the United States for members of their establishments or civilian employees (and the families of such members or employees) under their jurisdiction, persons in countries in which there are no United States diplomatic or consular representatives and persons who are in areas remote from such representatives;

(6) *Issuing agents for savings bonds of Series E.* Any officer of a corporation which is a duly qualified issuing agent for savings bonds of Series E may certify a request for payment of an Armed Forces Leave Bond. All certifications by such officers must be authenticated by a legible imprint of the issuing agent's dating stamp;

(7) *Special provisions.* The Commissioner and Associate Commissioner of the Public Debt, the Chief of the Division of Loans and Currency, or a Federal Reserve Bank is authorized to make special provision for certification in any particular case in which none of the officers authorized to certify requests for payment of Armed Forces Leave Bonds is readily accessible.

(c) *Instructions to certifying officers.* Certifying officers should require positive identification of the person signing a request for payment.

§ 324.10 *Right to payment on death of owner.* Upon the death of an owner of an Armed Forces Leave Bond the bond becomes payable only to his survivors in the following order:

(a) Surviving wife or husband and children, if any, in equal shares;

(b) If such owner leaves no surviving spouse or children, then in equal shares to such owner's surviving parents, if any. If there are no such survivors the bond will be retired and the amount covered into the general fund of the Treasury. Accordingly, payment will not be made to an executor or administrator of the estate of a deceased registered owner, and if a bond should come into the possession of such an executor or administrator, or other person not a survivor, following the death of the owner it should be immediately delivered to one of the survivors, if any; otherwise forwarded to the Division of Loans and Currency, Washington 25, D. C., with a signed statement that there are no known survivors.

§ 324.11 *Payment to survivors.* Survivors of a deceased registered owner in the order provided in the preceding section are entitled to receive payment of an Armed Forces Leave Bond at their option and upon application to the Secretary of the Treasury at any time following the death of such registered owner, whether before, upon or after maturity of the bond. Application for such payment should be made on Form PD 2066, copies of which may be obtained from any Federal Reserve Bank. See § 324.15 for instructions as to filing the application.

(a) *Definition of survivors.* Survivors are defined in the act as follows:

(1) "Spouse" means a lawful wife or husband;

(2) "Children" include

(i) A legitimate child;

(ii) A child legally adopted;

(iii) A stepchild, if, at the time of death of the member or former member of the armed forces, such stepchild is a member of the deceased's household;

(iv) An illegitimate child, but in the case of a male member or former male member of the armed forces only if he has been judicially ordered or decreed to contribute to such child's support; has been judicially decreed to be the putative father of such child; or has acknowledged under oath in writing that he is the father of such child; and

(v) A person to whom the member or former member of the armed forces at the time of death stands in loco parentis and so stood for not less than twelve months prior to the date of death;

(3) "Parent" includes father and mother, grandfather and grandmother, stepfather and stepmother, father and mother through adoption, and persons who, for a period of not less than one year prior to the death of the member or former member of the armed forces, stood in loco parentis to such member or former member: *Provided*, That not more than two parents may receive the benefits provided under this act and preference shall be given to the parent or parents, not exceeding two, who actually exercised parental relationship at the time of or most nearly prior to the date of the death of such member or former member of the armed forces.

(b) *Payment only.* Only payment of the entire amount of the bond will be permitted. No partial payment and no reissue of the bond in part may be made. Payment in all cases will be made by separate checks drawn in the proper amounts to the individual survivors, except that in the case of a survivor under 17 years of age or under mental disability, the check will be drawn either to the guardian of such survivor, if the Secretary has received notice of the appointment of such guardian, or in the absence of such notice, to a proper person selected by the Secretary, for the use and benefit of such survivor, without the necessity of resorting to judicial proceedings for the appointment of a legal representative.

(c) *All survivors must join.* Since no partial payment or reissue may be made, all survivors of the class entitled to receive payment must unite in the application, except that in the case of survivors under 17 years of age or under mental disability, legally qualified guardians, if any, may sign in their behalf, and in the absence of such legal guardians, such proper persons as the Secretary may select to act on behalf of such survivors.

(d) *Time of vesting of survivors' rights.* A survivor's right to receive payment becomes fixed upon the date of the death of the owner. If a survivor dies before receiving payment the right to receive payment of his or her share of the bond passes to the estate of such survivor. For example, if the registered owner dies and leaves a widow and two children and the widow dies prior to receipt of payment, her share passes to her estate and payment of the bond will be made one-third to the widow's representative and one-third to each of the surviving children. If no executor or administrator is appointed for the estate of a deceased survivor, settlement may be made in the same manner as provided for the settlement without administration of estates of deceased owners of United States registered bonds.

§ 324.12 *Loss, theft, destruction, mutilation, or defacement of bonds.* If an Armed Forces Leave Bond is lost, stolen, destroyed, mutilated or defaced, relief may be granted before maturity by the issue of a substitute bond to be marked "Duplicate", or at or after maturity by payment of the bond in accordance with the provisions of section 8 of the Government Losses in Shipment Act (U. S. C., Title 31, sec. 723a). Relief in such cases will be governed by the regulations contained in Department Circular 300, as amended. In any such case immediate notice of the facts, together with a complete description of the bond (including name and address of owner, bond serial number, amount, and issue date), should be given to the Treasury Department, Division of Loans and Currency, Washington 25, D. C., which will forward appropriate forms for requesting relief, together with full instructions. Usually such relief will be granted without requiring a bond of indemnity.

§ 324.13 *Checks.* (a) Payment to survivors of checks issued to the registered owner (1) in full settlement of leave, (2) in payment of bonds, or (3) in payment of the odd amount due the member or former member of the armed forces over and above the bond issued in settlement of leave, will be made to the persons entitled as provided in the above regulations relating to bonds. Accordingly, such checks received by executors or administrators of deceased registered owners should not be deposited for collection but should be turned over to the survivors or returned to the issuing office with a statement of the facts.

(b) In the case of a survivor entitled to payment who dies before receiving and collecting the check issued in the name of the survivor, payment will be made to his estate.

PROCEDURE

§ 324.14 *Presentation and surrender of bonds.* Presentation and surrender of an Armed Forces Leave Bond should be made in accordance with the applicable provisions of this part. The use of registered mail is suggested if the owner does not present and surrender the bond in person. Bonds marked "Duplicate" issued in lieu of lost, stolen, destroyed, mutilated, or defaced bonds should be submitted to the Treasury Department, Division of Loans and Currency, Washington 25, D. C.

§ 324.15 *Payment to survivors.* Survivors applying for payment under § 324.11 should forward the bonds, accompanied by the applications on Form PD 2066, to the appropriate Federal Reserve Bank or to the Treasury Department, Division of Loans and Currency, Washington 25, D. C. Usually payment will be expedited by the use of the Federal Reserve Banks. The form must be accompanied in each case by (a) a death certificate for the registered owner, (b) an explanation of any discrepancy between the name as given on the face of the bond and the name as given in the death certificate, and (c) in case of an application by parents other than the actual father and mother still living together, a signed and sworn statement giving the basis for the claim of parental relationship as defined in the act (see § 324.11). The right is reserved to require other and further evidence in cases where such action appears desirable. Federal Reserve Banks as fiscal agents of the United States are authorized to make payment to survivors upon applications in accordance with these regulations, but may submit any doubtful or unusual cases to the Treasury Department, Division of Loan and Currency, for final decision.

§ 324.16 *Designation of agents to make determination.* The various Federal Reserve Banks as fiscal agents of the United States, the Fiscal Assistant Secretary of the Treasury, the Assistant to the Fiscal Assistant Secretary, the Commissioner and Associate Commissioner of the Public Debt, and the Chief of the Division of Loans and Currency are designated to make determinations on behalf of the Secretary as provided in the act.

GENERAL

§ 324.17 *Taxation.* Under the act all amounts paid or payable under section 6 in cash, bonds or both (except interest in the case of bonds) shall be exempt from taxation.

§ 324.18 *Address for communications.* All inquiries after issue in connection with the payment of or transactions in Armed Forces Leave Bonds should be addressed to the Federal Reserve Bank of the District in which the owner resides, or to the Treasury Department, Division of Loans and Currency, Washington 25, D. C., except that any inquiries regarding the use of such bonds in connection with Government life insurance or national service life insurance payments should be addressed to the Office of the Veterans' Administration to which the assured has been paying premiums, or to the Director of Insurance Accounts Service, Veterans' Administration, Washington 25, D. C.

§ 324.19 *Additional regulations.* The Secretary of the Treasury may at any time, or from time to time, prescribe additional, supplemental, amendatory or revised rules and regulations governing Armed Forces Leave Bonds.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this revision for the reason that it is issued merely to conform the regulations governing Armed Forces Leave Bonds to the act (Pub. Law 254, 80th Cong.) amending the Armed Forces Leave Act of 1946 under which amendatory Act Armed Forces Leave Bonds are made redeemable at the option of the owners at any time after September 1, 1947.

This revision will become effective on September 2, 1947.

325.16 Preservation of rights.
325.17 Redemption of bonds not payable by agents.
325.18 Functions of Federal Reserve Banks.
325.19 Supplements, amendments, etc.

AUTHORITY: §§ 325.1 to 325.19, inclusive, issued under sec. 22 (l) 59 Stat. 47, Pub. Law 704, 79th Cong., 60 Stat. 963, Pub. Law 254, 80th Cong.; 31 U. S. C. and Sup. 757 (c) (l).

SUBPART A—AUTHORITY TO ACT

§ 325.1 *Financial institutions authorized to act.* Commercial banks, trust companies, savings banks, savings and loan associations, building and loan associations (including cooperative banks), credit unions, cash depositories, industrial banks, and similar financial institutions which (a) are incorporated under Federal Law or under the laws of a State, Territory or possession of the United States or the District of Columbia; (b) in the usual course of business conduct, subject to withdrawal, funds for deposit or the purchase of shares; (c) are under the supervision of the banking department or equivalent authority of the jurisdiction in which incorporated; (d) maintain regular offices for the transaction of their business; and (e) are open daily and observe regular business hours, are eligible to become paying agents of Armed Forces Leave Bonds and, upon qualification in accordance with § 325.2, are hereby authorized to make payments in connection with the redemption of Armed Forces Leave Bonds (hereinafter

referred to as bonds), subject to the provisions of this part and any instructions issued hereunder.

§ 325.2 *Application and qualification.* Federal Reserve Banks, as Fiscal Agents of the United States, are authorized to qualify eligible institutions hereunder, and to terminate any such qualification as hereinafter provided. Any financial institution qualified as a paying agent of United States Savings Bonds is authorized hereunder to act as a paying agent of Armed Forces Leave Bonds. The institution will not be required to effect a new formal Application-Agreement for the purpose. The act of payment of an Armed Forces Leave Bond by a qualified paying agent of savings bonds will qualify it as a paying agent of Armed Forces Leave Bonds and will render it subject to the terms and conditions applicable to the payment of such bonds and subject to the same terms and conditions as are set forth in the Application-Agreement entered into by it as a paying agent of savings bonds. Any other eligible institution not now qualified to pay savings bonds but possessing adequate authority under its charter that desires to qualify to make payments in connection with the redemption of the bonds should make application to the Federal Reserve Bank of the Federal Reserve District in which it is located[1] on Application-Agreement Form PD 2125 (see appended Exhibit A), copies of which may be obtained from the appropriate Federal Reserve Bank. If the application is approved, the Federal Reserve Bank will forward to the applicant a Notice of Qualification Form PD 2126 (see appended Exhibit B), establishing that it is qualified to make payments in connection with the redemption of the bonds. If the application is not approved, the applicant will be so advised in writing by the Federal Reserve Bank of the District.

§ 325.3 *Termination of an agent's qualification to pay bonds.* The Secretary of the Treasury or under authority of the Secretary the appropriate Federal Reserve Bank, as Fiscal Agent of the United States, may, by written notice, at any time and without previous demand or notice, terminate the qualification of any paying agent hereunder. A duly qualified paying agent may discontinue making payments at any time upon written notice to the Federal Reserve Bank, and its qualification shall thereupon cease.

SUBPART B—GENERAL

§ 325.4 *Meaning of terms in this circular.* For the purpose of this part, unless otherwise indicated specifically, or by context, the terms:

(a) "Paying agent(s)" or "agent(s)" shall mean any eligible financial institution duly qualified pursuant to the provisions of this circular to make payments in connection with the redemption of Armed Forces Leave Bonds including such branches located within the United States (including its territories and possessions and the Canal Zone) and the Republic of the Philippines, as it may wish to utilize. For the purpose of this part the term "branches" shall include any bank facilities which may be established with the specific approval of the Treasury Department at army and navy installations and other places.

(b) "Bond(s)" shall include only Armed Forces Leave Bonds unless otherwise indicated specifically or by context.

(c) "Owner(s)" shall mean the living member or former member of the armed forces whose name is inscribed in his or her own right on a bond.

(d) "Federal Reserve Bank" includes each Federal Reserve Bank and any Bank thereof authorized by the parent Federal Reserve Bank to conduct any of the transactions in connection with which the term is used in this part.

§ 325.5 *Reimbursement of agents' costs.* (a) Each paying agent shall be entitled to receive reimbursement for its service for all bonds paid and accounted for by it during the period from September 1, 1947 through December 31, 1947 at the rate of:

15 cents each for the first 1,000 bonds
10 cents each for all over 1,000 bonds

Thereafter the number of Armed Forces Leave Bonds paid will be combined with the number of savings bonds paid in computing reimbursement. In other words, paying agents will be entitled to receive 15 cents each for the first 1,000 Armed Forces Leave Bonds and savings bonds combined paid and accounted for in each calendar quarter, and 10 cents each for all over 1,000 bonds of either kind paid and accounted for in that quarter. Each Federal Reserve Bank is authorized to establish a definite and regular closing time for determining those paid bonds to be considered as accounted for in a reimbursable period. Such closing time may be based upon a time that the paid bonds are forwarded to, or received by, the Federal Reserve Bank and shall be uniformly applied throughout the District of such Bank. The scale of rates shall be applicable separately to the agent and to each of its branches utilized in making payments under this part, if the bonds paid by each are separately scheduled and accounted for. The payment of such amount as the agent is entitled to receive shall be made by the Federal Reserve Bank on behalf of the Treasury Department.

(b) Paying agents shall not make any charge whatever to the owners of the bonds in connection with payments hereunder.

§ 325.6 *Announcements, etc., of authority to pay bonds.* Any announcement of or any reference to an agent's authority to pay bonds may be made only in a form or manner or contain such statements or substance as may be approved by the Secretary of the Treasury or, under authority of the Secretary, by the Federal Reserve Bank of the District, as Fiscal Agent of the United States.

SUBPART C—SCOPE OF AUTHORITY OF PAYING AGENTS

§ 325.7 *General.* Only one Armed Forces Leave Bond has been or will be issued to any one living member or former member of the armed forces discharged under honorable conditions and otherwise entitled to receive a payment in such form (except for a very few instances where adjustments have been necessary after payment was made). That bond will be inscribed only in such member's name. The lowest denomination bond authorized for issuance is $50 (except for $25 adjustment bonds) and higher denomination bonds are issued only in multiples of $25. The bonds are issued pursuant and subject to the terms of Treasury Department Circular No. 793. The bonds are not transferable by sale, exchange, assignment, pledge, hypothecation or otherwise except as they may be assigned to the Administrator of Veterans Affairs pursuant to the Armed Forces Leave Act of 1946, as amended, and regulations prescribed by that Administrator pursuant thereto. No claims by attempted transferees or by persons loaning money on the security of the bonds will be recognized. By the terms of the Armed Forces Leave Act of 1946, as amended, the bonds are exempt from claims of creditors, including any claim of the United States, and shall not be subject to attachment, levy, or seizure by or under any legal or equitable process whatever. Accordingly, no claims of creditors, assignees for the benefit of creditors, trustees or receivers in bankruptcy or equity will be recognized, and no payment of the bonds to any such persons will be made, either during the lifetime of the person whose name is inscribed on the bond or after his death. Upon the death of an owner of a bond the bond becomes payable only to his survivors as defined in the Armed Forces Leave Act. It is of the utmost importance that payment of the appropriate redemption value of the bonds be made only to and received by the persons entitled and strictly under the terms and conditions of the bonds and applicable regulations.

§ 325.8 *Payments—to owner named on bond.* Subject to the terms of the bonds and to the provisions of the regulations governing them and the provisions of this part, an agent may make payment of a bond only to the individual whose name is inscribed as the owner in his own right on the bond: *Provided*, That such individual presents the bond to the agent for payment and that the individual is known to the agent or establishes his identity to the complete satisfaction of the agent. This authority shall be held to include the payment of bonds to a person whose name as inscribed on the bond has been changed by marriage (but not otherwise). Both names must be shown, for example—"(Miss) Mary T. Jones, now by marriage Mrs. Mary J. Smith."

§ 325.9 *Specific limitations of payment authority.* An agent is not authorized to pay a bond:

(a) If the bond is presented for payment prior to September 2, 1947. Payment in any form or manner to a bond owner before that date is not authorized in any circumstance.

(b) If the agent does not know or cannot establish to its complete satisfaction the identity of the person requesting payment as the owner of the bond.

(c) If the owner requesting payment (form for which appears on the back of each bond) does not sign his name in ink exactly as it is inscribed on the face of the bond and show his home or business address. (See also § 325.10 (d).)

(d) If the bond appears to bear a material irregularity, for example, an altered, illegible, incomplete or unauthorized inscription or issue date; or if a bond appears to be altered, or is mutilated or defaced in such a manner as to create doubt or arouse suspicion with respect to the bond or any essential part thereof.

(e) If the bond is marked "Duplicate." (An owner of a bond marked "Duplicate" must submit it to the Treasury Department, Division of Loans and Currency, Washington 25, D. C., after completing the request for payment and having it duly certified by an authorized certifying officer.)

(f) If the owner is deceased, incompetent or under legal guardianship or the owner's name as inscribed on a bond is changed for any reason other than marriage, or if it is known to the agent that the owner has been declared, in accordance with law, incompetent to manage his estate.

(g) If partial redemption is requested. (Only payment of the entire amount of principal and interest due may be made and under no circumstances will an exchange be permitted for bonds of a lower denomination.)

Attention is directed to § 325.17 for handling bonds of the foregoing classes of cases which may not be paid by agents.

SUBPART D—PAYMENT AND ACCOUNTING

§ 325.10 *Examination of bonds presented for payment.* Before making payment of bonds presented hereunder the agent:

(a) Shall determine that the person requesting payment as the "owner" (as defined in this part) is known or his identity is established to the satisfaction of the agent.

(b) Shall examine the bond and determine that it is a bond which the agent is authorized to pay under the provisions of this part.

(c) If the request for payment on the back of the bond is already executed, shall determine that the request is properly signed by the registered owner presenting the bond and that his home or business address is shown.

(d) If the request for payment on the back of the bond has not been executed or has been improperly executed by the owner presenting the bond, shall require such owner to properly sign the request and show his home or business address.

§ 325.11 *Certification of requests for payment.* In view of the provisions of this part governing the payment of the bonds and the requirements as to the data to be endorsed on each bond, under § 325.12, an agent will not be required in the case of any bond paid by it to complete the certification form at the end of the request for payment, nor determine the authenticity of any certification which may appear on the bond at the time it is presented for payment: *Provided, however*, That each agent submitting paid bonds shall be understood by such submission to have represented and certified that the identity of the owner requesting payment has been duly established by one of its officers or by an employee duly authorized by the agent.

§ 325.12 *Determination of redemption values and payment of bonds.* The redemption value of a bond is determined according to the number of months that it has been outstanding. The Federal Reserve Bank of the District will furnish each agent monthly with a table of redemption values from which it will be possible, after determining the month and year of issue of any bond, to establish its current value. After establishing such value, payment thereof to the owner requesting payment shall be made in cash. No objection will be made to an arrangement between the owner and the agent under which the owner accepts in lieu of cash, a credit to his checking, savings or share account with the agent, or a check or similar instrument payable to his order. Each agent shall place in the upper left-hand portion on the face of each bond paid by it the word "Paid," the amount and date of payment and the name, location and code number assigned to the agent by the Federal Reserve Bank. Other data pertinent to the payment procedure of an agent may be included if approved by the Federal Reserve Bank of the District. Each paying agent of savings bonds acting also as a paying agent of Armed Forces Leave Bonds should use the same payment stamp for both activities. The Federal Reserve Bank will furnish any additional rubber stamps necessary for this purpose, or, in lieu thereof, will approve suitable stamps in the possession of or prepared by an agent. The affixation of such data shall be construed by and between the agent and the Treasury Department to be a certification by the paying agent that the bond has been paid in accordance with the terms and requirements of this part and the Armed Forces Leave Act of 1946, as amended, and regulations issued pursuant thereto, and that payment of the proceeds of the bond has been made to the owner.

§ 325.13 *Forwarding paid bonds to the Federal Reserve Bank.* After payment, the bonds shall be forwarded to the Federal Reserve Bank of the District in accordance with instructions issued by such Federal Reserve Bank.

§ 325.14 *Redemption of paid bonds by Federal Reserve Banks.* Upon receipt of the paid bonds the Federal Reserve Bank will make immediate settlement with the paying agent for the total amount of payments made on such bonds; however, such settlement shall be subject to adjustment if any discrepancies are discovered at a later date.

§ 325.15 *Losses resulting from payments.* The amendment to the Armed Forces Leave Act of 1946, Public No. 254, Enacted July 26, 1947, provides in section 4 thereof that the provisions of subsection (i) of section 22 of the Second Liberty Bond Act, as amended, shall apply with equal force to payments of Armed Forces Leave Bonds. The said subsection provides:

(i) Any losses resulting from payments made in connection with the redemption of savings bonds shall be replaced out of the fund established by the Government Losses in Shipment Act, as amended, under such regulations[2] as may be prescribed by the Secretary of the Treasury. The Treasurer of the United States, any Federal Reserve Bank, or any qualified paying agent authorized or permitted to make payments in connection with the redemption of such bonds, shall be relieved from liability to the United States for such losses, upon a determination by the Secretary of the Treasury that such losses resulted from no fault or negligence on the part of the Treasurer, the Federal Reserve Bank, or the qualified paying agent. • • • The provisions of section 3 of the Government Losses in Shipment Act, as amended,[3] with respect to the finality of decisions by the Secretary of the Treasury shall apply to the determinations made pursuant to this subsection. • • •

(a) *Consideration of facts concerning loss.* In any case in which a loss occurs, the paying agent shall be afforded ample opportunity to present all of the facts pertaining to the circumstances of the payment for consideration by the Secretary.

§ 325.16 *Preservation of rights.* Nothing contained in the regulations in this part shall be construed to limit or restrict any existing rights which holders of bonds may have acquired under the Armed Forces Leave Act or the regulations prescribed thereunder.

§ 325.17 *Redemption of bonds not payable by agents.* Any bonds which an agent is not authorized to pay pursuant to the provisions of this circular should be forwarded by the owner, or his agent, after certification of the requests for payment, to the Federal Reserve Bank or Branch of the District for redemption except that in the case of bonds marked "Duplicate" the bonds should be sent to the Treasury Department, Division of Loans and Currency, Washington 25, D. C. If an agent should undertake to forward such unpaid bonds at the request and in behalf of the person entitled to payment, such bonds must be sent separate and apart from bonds which the agent has paid.

---

[1] For the purpose of this part, eligible institutions in Puerto Rico, the Virgin Islands and the Canal Zone shall be considered as being within the Second Federal Reserve District and shall make application to the Federal Reserve Bank of New York, and eligible institutions in Alaska, Hawaii and Guam shall be considered as being within the Twelfth Federal Reserve District and shall make application to the Federal Reserve Bank of San Francisco.

[2] Regulations governing replacement of losses resulting from payments made in connection with the redemption of Armed Forces Leave Bonds are set forth in Treasury Department Circular No. 751, Second Revision.

[3] The provisions of section 3 of the Government Losses in Shipment act, as amended, with respect to the finality of decisions by the Secretary of the Treasury are—"Notwithstanding any provision of law to the contrary, the decision of the Secretary of the Treasury that such loss, destruction, or damage has occurred or that such shipment was made substantially in accordance with such regulations shall be final and conclusive and shall not be subject to review by any other officer of the United States."

§ 325.19 *Functions of Federal Reserve Banks.* The Federal Reserve Banks, as Fiscal Agents of the United States, are authorized to perform such duties, and prepare and issue such forms and instructions, as may be necessary to the fulfillment of the purpose and requirements of this part. The Federal Reserve Banks, when authorized by the Treasury Department, may utilize any or all of their Branches in the performance of these duties.

§ 325.19 *Supplements, amendments, etc.* The Secretary of the Treasury may at any time or from time to time revise, supplement, amend, or withdraw, in whole or in part, the provisions of this part, or any revisions, supplements or amendments thereto, information as to which will be furnished promptly to the Federal Reserve Banks and to the agents qualified hereunder.

Compliance with the notice, public rule making procedure and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) with respect to this circular is found to be contrary to the public interest because Armed Forces Leave Bonds are redeemable at any time after September 1, 1947, at the option of the owners, and a substantial amount of time is essential in order to establish the procedure necessary for the payment of the bonds after the date set by the Congress.

The regulations set forth in this part will become effective immediately, the requirements of section 4 (c) of the Administrative Procedure Act being dispensed with to facilitate the redemption of Armed Forces Leave Bonds by the owners thereof after September 1, 1947, in accordance with Public Law 254, 80th Congress.

[SEAL] A. L. M. WIGGINS,
Acting Secretary of the Treasury.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 9—EXECUTIVE ORDERS, PROCLAMATIONS, AND PUBLIC LAND ORDERS APPLICABLE TO THE NAVY

FARFAN NAVAL RADIO STATION, CANAL ZONE

Authority for the issuance of orders affecting naval and military reservations in the Canal Zone was delegated to the Secretary of War by Executive Order 9746, July 1, 1946. Orders with respect to naval reservations in the Canal Zone, issued pursuant to Executive Order 9746, will be printed in full under Title 35 in § 21.4.

For an addition to the tabulation in § 9.5, see § 21.4 of Title 35, *infra*, with respect to setting aside lands in the Panama Canal Zone for a naval reservation to be known as the Farfan Naval Radio Station.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

NOTE REGARDING CODIFICATION

Executive orders affecting military and naval reservations in the Canal Zone have been published in full text under Title 3—The President, and have been tabulated under §§ 21.3 and 21.4 of this title. Authority for the issuance of such orders was delegated to the Secretary of War by Executive Order 9746, July 1, 1946. 3 CFR 1946 Supp. Orders with respect to military and naval reservations in the Canal Zone, issued pursuant to Executive Order 9746, will be printed in full under Title 35, each order appearing as a paragraph in § 21.3, in the case of military reservations, or as a paragraph in § 21.4, in the case of naval reservations.

[Canal Zone Order 2]

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

GATUN LAKE MILITARY RESERVATION

By virtue of the authority vested in the President by section 5 of title 2 of the Canal Zone Code, approved June 19, 1934, and delegated to me by Executive Order No. 9746 of July 1, 1946, it is ordered as follows:

§ 21.3 *Military reservations in Canal Zone*—(a) *Gatun Lake Military Reservation—(1) Setting apart of reservation; boundaries.* The following described area of land situated in the Canal Zone is hereby reserved and set apart as, and assigned to the uses and purposes of, a military reservation which shall be known as Gatun Lake Military Reservation and shall be under the control and jurisdiction of the Secretary of War, except that it shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code as amended and supplemented:

Beginning at an unmarked point "A", which is at the intersection of contour 87.0 feet with the northern boundary of the Fort Gulick Military Reservation, the approximate geodetic position of which (referred to the Panama-Colon Datum of the Canal Zone Triangulation System) is in North latitude 9° 19' plus 5,400 feet, and in West longitude 79° 51' plus 580 feet:

Thence by metes and bounds:

S. 40° 00' E., 1,120 feet to an unmarked Point "B";

Due South, 2,460 feet to an unmarked Point "C";

S. 80° 00' E., 1,730 feet to an unmarked Point "D";

N. 62° 00' E., 2,670 feet to an unmarked Point "E";

Due South, 1,800 feet to an unmarked Point "F";

S. 50° 30' E., 2,210 feet to an unmarked Point "G";

Due South, along the 79° 50' Meridian, 12,150 feet to an unmarked Point "H";

S. 79° 00' W., 12,210 feet to an unmarked Point "I";

N. 46° 30' W., 1,290 feet to an unmarked Point "J";

N. 30° 00' W., 1,850 feet, to an unmarked Point "K";

N. 65° 00' W., 1,750 feet, to an unmarked Point "L" on the 87.0 contour on the easterly boundary of the Fort Wm. D. Davis Military Reservation, the approximate geodetic position of which is in North latitude 9° 17' plus 750 feet and in West longitude 79° 52' plus 3,390 feet;

Along the 87 foot contour in a northerly and easterly direction to the point of beginning.

The above area contains an area of 1,864 acres or 754 hectares, more or less, and includes the following islands together with certain small unnamed islands: Advent, Egronal, Banana, Mango, Zorra, Iguana, Piedras, Terapa and Brazo.

The above area is as shown on Panama Canal Drawing No. M-6114-53 entitled "Boundary of Gatun Lake Military Reservation" made by the Section of Surveys, Office Engineering Division, The Panama Canal and on file in the office of the Governor, The Panama Canal, Balboa Heights, Canal Zone.

(2) *Executive order superseded.* This order supersedes Executive Order 8782 of June 12, 1941 establishing a military reservation on certain islands in Gatun Lake, Canal Zone. (2 C. Z. Code 5; E. O. 9746, July 1, 1946, 3 CFR 1946 Supp.)

ROBERT P. PATTERSON,
Secretary of War.

[Canal Zone Order 6]

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATION

FORT GULICK MILITARY RESERVATION

By virtue of the authority vested in The President of the United States by section 5 of title 2 of the Canal Zone Code and delegated to me by Executive Order No. 9746 of July 1, 1946, it is ordered as follows:

§ 21.3 *Military reservations in Canal Zone.* * * *

(b) *Fort Gulick Military Reservation—(1) Setting apart of reservation; boundaries.* The following-described area of land in the Canal Zone (including the corridor hereinafter described) is hereby reserved and set apart as, and assigned to the uses and purposes of, a military reservation, which shall be known as Fort Gulick Military Reservation, and which shall be under the control and jurisdiction of the Secretary of War, subject to the provisions of subparagraph (2) of this paragraph:

The area comprising this reservation, consisting of the main reservation and a 100-foot right of way or corridor connecting the reservation with the Bolivar Highway, is situated southeasterly of Mount Hope on the western shore of the Quebrada Ancha Arm of Gatun Lake, in the Canal Zone, and the boundary is more particularly described as follows:

Main Reservation

Beginning at monument No. 1, which is a 1½ inch galvanized iron pipe set in concrete, located on the continuous 92 foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the geographic position of which monument, referred to the Canal Zone triangulation system, is in latitude 9° 18' N. plus 2,416.6 feet and longitude 79° 52' W. plus 3,280.0 feet from Greenwich

Thence from said initial point, by metes and bounds:

N. 19° 50'00" E., 1,345.0 feet, parallel to and 50 feet easterly of the centerline of the Fort Gulick-France Field Road, to monument No. 35, which is a 1½ inch galvanized iron pipe;

S. 24° 59'30" E., 626.4 feet, to monument No. 36, which is a 1½ inch galvanized iron pipe;

Due East, 9,122.1 feet, through monuments Nos. 37 to 43, inclusive, which are 1½ inch galvanized iron pipes, and 47 to 74, inclusive, which are 2½ inch galvanized iron pipes, to monument No. 75, which is a concrete post, 8 inches square, located on the continuous 100 foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the distances being, 374.3 feet, 125.1 feet, 244.1 feet, 235.2 feet, 254.4 feet, 224.3 feet, 335.1 feet, 156.6 feet, 32.5.0 feet, 161.0 feet, 400.0 feet, 400.0 feet, 300.0 feet, 227.0 feet, 173.0 feet, 264.0 feet, 517.4 feet, 367.0 feet, 134.0 feet, 340.4 feet, 137.2 feet, 203.0 feet, 300.0 feet, 332.0 feet, 92.0 feet, 312.0 feet, 180.0 feet, 73.0 feet, 262.0 feet, 440.8 feet, 113.0 feet, 347.0 feet, 334.0 feet, 126.0 feet, 125.0 feet, 107.2 feet, successively, from beginning of course,

Due East 100 feet, more or less to an unmarked point on the continuous 87 foot contour of the shore line of Gatun Lake;

In a general southwesterly direction, along the 87 foot contour of the shore line of Gatun Lake, as it meanders, to an unmarked point, from which the bearing and distance to the above mentioned monument No. 1 is N. 23° 09'00" W., 15 feet, more or less;

N. 23° 09'00" W., 15 feet more or less, to the point of beginning.

The tract as described contains an area of 1.755 acres, more or less.

Right of Way or Corridor From Bolivar Highway

The right of way or corridor connecting the main reservation with Bolivar Highway is a strip of land 100 feet in width, extending 50 feet on each side of the centerline which is described as follows:

Beginning at a brass plug located on the centerline of the Fort Gulick Road (present width of pavement 24 feet) and 100.0 feet southeasterly of the centerline of Bolivar Highway, the geographic position of which monument, referred to in the Canal Zone triangulation system, is in latitude 9° 19' plus 3,524.7 feet, and longitude 79° 53' plus 5,287.8 feet from Greenwich.

Thence from said initial point in a general easterly direction, 4,179 feet, more or less, along the centerline of the Fort Gulick Road to monument No. 23B, which is a brass plug on the westerly boundary line of the main reservation as above described.

The right of way or corridor as described contains an area of 9 acres, more or less.

The directions of the lines refer to the true meridian. All geographic positions are referred to the Panama-Colon datum of the Canal Zone triangulation system.

The boundary of the main reservation, from monument No. 1 to monument No. 75, inclusive, was surveyed by the Section of Surveys, the Panama Canal, in January and February 1940, and in December 1946. The centerline of the right of way or corridor from Bolivar Highway to the main reservation was surveyed by the Constructing Quartermaster, Panama Canal Department, U. S. Army, in January 1940.

The entire reservation, consisting of the main reservation and the right of way or corridor, contains an area of 1765 acres, more or less, and is shown on Panama Canal drawing No. M6114-65 entitled "Boundary of Fort Gulick Military Reservation," scale 1:10 000, dated December 6, 1946, on file in the Governor's Office, Balboa Heights, Canal Zone, and in the Department Engineer's Office, Panama Canal Department, U. S. Army, Quarry Heights, Canal Zone.

(2) *Conditions and limitations.* The reservation made by subparagraph (1) of this paragraph shall be subject to the following conditions and limitations:

(i) The area comprising this reservation shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code as amended and supplemented.

(ii) The military authorities shall bear all the costs of the transfer of such area, including the cost of surveys and of cancellation of any agricultural licenses or other permits which may be in force in the area.

(iii) No sanitary sewage originating within the developed sections of the reservation shall be permitted to discharge into the drainage basin of Gatun Lake.

(iv) The right is reserved to the Panama Canal to make such use of the corridor as may be involved in the construction of necessary intersecting highways, overhead and underground power, telephone, telegraph and pipe lines, and drainage channels.

(v) The public shall be permitted access through or across the corridor to the road known as the Old Gatun Road and to areas adjacent to the corridor, and over any intersecting highway which may be constructed as provided in subdivision (iv) of this subparagraph.

(3) *Executive orders superseded.* This order supersedes Executive Order 8737 of April 16, 1941, and Executive Order 9110 of March 24, 1942, establishing and enlarging, respectively, the Fort Gulick Military Reservation. (2 C. Z. Code 5; E. O. 9746, July 1, 1946, 3 CFR, 1946 Supp.)

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

CERRO TIGRE MILITARY RESERVATION

By virtue of the authority vested in The President of the United States by section 5 of title 2 of the Canal Zone Code and delegated to me by Executive Order No. 9746 of July 1, 1946, it is ordered as follows:

§ 21.3 *Military reservations in Canal Zone.* * * *

(c) *Cerro Tigre Military Reservation—*(1) *Setting apart of reservation; boundaries.* The following-described area of land situated in the Canal Zone is hereby reserved and set apart as, and assigned to the uses and purposes of, a military reservation, which shall be known as Cerro Tigre Military Reservation and which shall be under the control and jurisdiction of the Secretary of War, except that it shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code as amended and supplemented:

Beginning at a concrete monument marked "A", located 185.0 feet more or less, easterly from the centerline of Madden Road, the geographic position of which monument, referred to the Canal Zone triangulation system is in North latitude 9° 04' plus 1,000.00 feet and in West longitude 79° 38' plus 1,500.0 feet from Greenwich.

From monument "A" the bearing and distance to triangulation station "Gato" is, S. 71° 56'10" E., 2,000.7 feet.

Thence from said initial point, by metes and bounds:

N. 26° 34'00" E., 1,118.0 feet, to a concrete monument marked "B";

N. 84° 28'00" E., 2,071.0 feet, to a concrete monument marked "C";

S. 35° 56'00" E., 2,470.0 feet, to a concrete monument marked "D";

S. 15° 40'00" W., 1,296.0 feet, to a concrete monument marked "E";

S. 45° 00'00" W., 1,245.0 feet, to a concrete monument marked "F";

N. 73° 43'00" W., 609.4 feet, to a concrete monument marked "G";

S. 34° 54'10" W., 1,019.7 feet, through a concrete monument marked "H" to a concrete monument marked "I", the distances being 298.2 feet and 721.5 feet, successively, from beginning of course;

S. 70° 37'10" W., 42.6 feet, to a concrete monument marked "J";

S. 00° 03'20" E., 591.1 feet, to a concrete monument marked "J-1";

S. 00° 02'20" E., 84.5 feet, to a concrete monument marked "K";

N. 83° 10'20" W., 1,313.5 feet, through a concrete monument marked "L" to a concrete monument marked "M", the distances being 170.8 feet and 1,142.7 feet, successively, from beginning of course;

N. 77° 57'20" W., 996.3 feet, through a concrete monument marked "N" to a concrete monument marked "O", the distances being 629.2 feet and 167.1 feet, successively, from beginning of course;

N. 69° 49'30" W., 248.5 feet, to a concrete monument marked "P";

N. 12° 46'50" E., 187.4 feet, to a concrete monument marked "Q";

N. 44° 23'20" E., 94.1 feet, to a concrete monument marked "R";

N. 65° 21'50" E., 53.6 feet, to a concrete monument marked "S";

N. 41° 37'40" E., 230.9 feet, to a concrete monument marked "T";

N. 22° 30'50" E., 761.7 feet, to a concrete monument marked "U";

N. 35° 53'10" E., 405.1 feet to a concrete monument marked "V";

N. 08° 49'30" W., 339.5 feet, through a concrete monument marked "V-1", to a concrete monument marked "X", the distances being 188.0 feet and 151.5 feet, successively, from beginning of course;

N. 06° 43'10" E., 869.5 feet, through 2 inch galvanized iron pipe monuments marked "X-1" and "X-2", to a 2 inch galvanized iron pipe monument marked "Y", the distances being 239.0 feet, 260.5 feet and 370.0 feet, successively, from beginning of course;

S. 81° 47'20" E., 1,134.6 feet, through 2 inch galvanized iron pipe monuments marked "Y-1", "Y-2" and "Y-3", to a 2 inch galvanized iron pipe monument marked "Z", the distances being 400.0 feet, 162.0 feet, 281.0 feet and 311.6 feet, successively, from beginning of course;

N. 26° 05'20" W., 1,723.0 feet, to monument "A" the point of beginning.

The directions of the lines refer to the true meridian. All geographic positions are referred to the Panama-Colon datum of the Canal Zone triangulation system.

The boundary from monument "Z" to monument "G" in a clockwise direction, was surveyed by the Section of Surveys, the Panama Canal in April 1930, and from monument "G" to monument "Z", in a clockwise direction, was surveyed by the Section of Surveys, the Panama Canal in December, 1946.

The area of the tract is 397.2 acres and is as shown on Panama Canal Drawing No. M6114-73, entitled "Boundary of Cerro Tigre Military Reservation", Scale 1 to 4,000, dated January 27, 1947, on file in the office of the Governor, the Panama Canal and the office of the Commanding General, the Panama Canal Department, U. S. Army, Quarry Heights, C. Z.

(2) *Executive order superseded.* This order supersedes Executive Order No. 5369 of June 16, 1930 establishing a military reservation known as the Cerro Tigre Ordnance Depot. (2 C. Z. Code 5; E. O. 9746, July 1, 1946, 3 CFR, 1946 Supp.)

[Canal Zone Order 9]

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

FARFAN NAVAL RADIO STATION

By virtue of the authority vested in the President of the United States by section 5 of title 2 of the Canal Zone Code, and delegated to me by Executive Order No. 9746 of July 1, 1946, and after consultation with the Secretary of the Navy, it is ordered as follows:

§ 21.4 *Naval reservations in Canal Zone—*(a) *Farfan Naval Radio Station—Setting apart of reservation; boundaries.* The following-described area of land situated in the Canal Zone is hereby reserved and set apart as, and assigned to the uses and purposes of, a naval reservation, which shall be known as the Farfan Naval Radio Station and which shall be under the control and jurisdiction of the Secretary of the Navy, except that it shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code, as amended and supplemented:

Beginning at monument "J", which is a concrete post, 8 inches square, located on the easterly side of the Bruja Military Road and on the easterly boundary of the Fort Kobbe Military Reservation, the geographic position of which monument, referred to the Canal Zone triangulation system is in north latitude 8° 56' plus 200.6 feet and west longitude 79° 35' plus 3,637.1 feet from Greenwich.

From monument "J" the bearing and distance to Army triangulation station "North Base" is, S. 56° 27'10" W., 584.9 feet.

Thence from said initial point, by metes and bounds:

Due North, 2,797.8 feet, through monuments N-1, N-2 and N-3 which are 2½ inch galvanized iron pipes, to monument H-3, which is a 10 inch square concrete monument, the distances being 705.1 feet, 750.0 feet, 1,070.0 feet and 272.7 feet, successively, from beginning of course;

N. 89° 58'00" E., 470.6 feet, to monument H-2, which is a 10 inch square concrete monument;

N. 77° 59'30" E., 965.5 feet, through monuments H-2-A and H-2-B which are 2½ inch galvanized iron pipes, to monument H-1 which is a 10 inch square concrete monument, the distances being 196.0 feet, 474.5 feet, and 295.0 feet, successively, from beginning of course.

N. 87° 46'20" E., 30.9 feet, to monument N-6 which is a 2½ inch galvanized iron pipe;

Due East 2,190.6 feet, through monuments N-7, N-8, N-9, N-10 and N-10-A, which are 2½ inch galvanized iron pipes to monument N-B which is an 8 inch square concrete post, the distances being 279.0 feet, 507.7 feet, 231.7 feet, 324.9 feet, 213.0 feet and 634.3 feet, successively, from beginning of course.

S. 58° 07'15" E., 2,077.4 feet, through monument NBX, which is a 2½ inch galvanized iron pipe, to monument N-C which is an 8 inch square concrete post, the distances being 1,050.0 feet and 1,027.4 feet, successively, from beginning of course.

Due South, 5,999.3 feet, through monuments N-11, N-12, N-13, N-14 and N-15 which are 2½ inch galvanized iron pipes, to an unmarked point, located in a swamp, referred to as N-D on the map, the distances being 275.8 feet, 800.1 feet, 699.9 feet, 244.6 feet, 435.5 feet and 3543.4 feet, successively, from beginning of course;

Due West 3,464.0 feet, to monument N-24-N, which is an 8 inch square concrete post;

N. 52° 07'00" W., 2,452.1 feet, through monuments N-25-N and N-25-A which are 2½ inch galvanized iron pipes, to monument N-26-N, which is an 8 inch square concrete post, the distances being 1,489.1 feet, 463.0 feet and 500.0 feet, successively, from beginning of course;

Due north, 2,591.5 feet, through monuments 55, 54, 53, 52, and 51, which are 2½ inch galvanized iron pipes, to monument "J", the point of beginning, the distances being 78.5 feet, 600.0 feet, 303.0 feet, 530.0 feet, 520.0 feet, and 500.0 feet, successively from beginning of course;

The direction of the lines refer to the true meridian. All geographic positions are referred to the Panama-Colon datum of the Canal Zone triangulation system.

The western, eastern and southern boundaries were surveyed by the Section of Surveys, the Panama Canal, in December 1940 and January 1941, and the northern, northeastern and southwestern boundaries were surveyed by the Section of Surveys, the Panama Canal in November 1946.

The area of the tract is 819.7 acres and is as shown on Panama Canal Drawing No. M-6114-74, entitled "Boundary of Farfan Naval Radio Station, West Bank, Balboa, C. Z.", scale 1 to 5000, dated January 30, 1947, on file in the office of the Governor, The Panama Canal and the office of the Commandant, Fifteenth Naval District.

PROPOSED RULE MAKING

TREASURY DEPARTMENT

Bureau of Internal Revenue

[26 CFR, Part 181]

STILLS AND DISTILLING APPARATUS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of sections 2818, 3176, 3250 (j) (3) and 3791 of the Internal Revenue Code (26 U. S. C. A. 2818, 3176, 3250 and 3791).

1. Regulations 23 (Part 181, 26 CFR), as amended, are hereby amended in these respects:

(a) Sections 181.9, 181.10, 181.13 (a), 181.14 (a), 131.15 (c) and 181.19 are amended; and

(b) Section 181.13 (g) is added, as follows:

§ 181.9 *Name plate of manufacturer on still.* Each still and worm or condenser must be identified as follows:

(1) Name of manufacturer.

(2) Address of manufacturer.

(3) Manufacturer's serial number for the article.

Such identification shall be shown by the manufacturer on a plate, securely attached to the apparatus by riveting or brazing, or be cut, by the manufacturer, by suitable die legibly and durably in the material of which the apparatus is made. The identification marks may not be covered by insulating or other material, or otherwise obscured or concealed. Such marks on stills and worms or condensers will be disclosed by the manufacturer or vendor in the notice to the collector, and in the affidavits required by §§ 181.13 and 181.14. (Sec. 3791, I. R. C.)

§ 181.10 *Payment of tax—*(a) *Special tax return.* Special (occupational) taxes imposed on manufacturers of stills and worms or condensers and the special (commodity) taxes on such articles will be paid by the manufacturer pursuant to the filing of a special tax return, Form 11, showing the information required by the form. Such returns shall be sworn to before a notary public or other official duly authorized to administer oaths.

(b) *Special (occupational) tax.* The special (occupational) tax as manufacturer of stills is due on the 1st day of July in each year, or on commencing such trade or business. In the former case, the tax shall be reckoned for one year, and in the latter, it shall be reckoned proportionately from the 1st day of the month in which the liability to the special tax commenced, to and including the 30th day of June following. It shall be the duty of the special-tax payers to render their returns with required remittances to the collector at such times within the calendar month in which the special tax liability commenced as shall enable him to receive such returns, duly signed and verified, together with the remittances, not later than the last day of the month, except in cases of sickness or absence, as provided by section 3634, I. R. C.

(1) *Posting of stamp.* The special (occupational) tax stamp must be conspicuously posted in the establishment or place of business of the manufacturer of stills.

(c) *Special (commodity) tax.* The special (commodity) tax on each still or worm or condenser intended for distilling is due when the manufacture thereof is completed and must be paid at the time such article is removed from the place of manufacture or at the time of being set up, if manufactured on the premises where intended to be used, by affixing to the article the special (commodity) tax stamp provided by the Commissioner. At the time of affixing such stamp it must be canceled by the manufacturer by writing across the face thereof, in permanent ink, the word "canceled" followed by the name of the manufacturer, the manufacturer's serial number of the article, and the date of cancellation.

(1) *Method of affixing stamp.* After cancellation of the stamp has been completed, the stamp shall be enclosed in a moisture proof case having a transparent face. The case, with stamp enclosed, must be secured to the article by means of screws, bolts, or rivets, or by brazing. (Secs. 3270, 3271, 3272, 3273, 3634, and 3791, I. R. C.)

§ 181.13 *Taxable status of stills*—(a) *Evidence of use.* Any still or worm or condenser (as defined by § 181.3), with the exception only of retorts for the production of wood alcohol, sold to a user by the manufacturer or otherwise disposed of or used by the manufacturer, will be presumed to be intended for use in distilling, as defined by § 181.12, unless, as to each still or worm or condenser, satisfactory evidence shall be filed, as hereinafter provided, showing that the same will not be used for distilling. Unless such evidence is filed, special (occupational) tax as manufacturer of stills will be incurred by the manufacturer and special (commodity) tax on each still or worm or condenser must be paid by the manufacturer at the time of its removal from the place of manufacture or, if manufactured on the premises where intended to be used, at the time of being set up.

* * * * *

(g) *Exportation.* Stills or worms or condensers intended for purposes other than distilling as defined in § 181.12 may be removed for export by the manufacturer, or dealer, subject to the application and permit prescribed by § 181.14 (a) without payment of the commodity tax thereon. The collector will note on the permit issued in such case the following: "Removed for export to (insert the name and address of the consignee and the foreign port to which the article is to be exported)—No commodity tax due." Such stills or distilling apparatus will have branded or stamped thereon, in a conspicuous place, the words "For Export," followed by the serial number of the article and the manufacturer's name. When such articles are manufactured from metal plates, the words "For Export" with the serial number of the article and the manufacturer's name directly thereunder, will be stamped (in letters and figures which must, in no case, be less than one-half inch in height) thereon with a suitable die, or otherwise permanently affixed to each article. When the article is constructed of or encased in wood, the words "For Export," the serial number of the article and the manufacturer's name will be branded thereon. (Secs. 3331 and 3791, I. R. C.)

§ 181.14 *Procedure for removal and use*—(a) *Application and permit for removal.* No still, boiler (doubler or pot still), worm, condenser, or other distilling apparatus, shall be removed from the premises of the manufacturer, or dealer, as the case may be for delivery to a user, or for his own use, or for export without payment of tax, until the collector of the district in which the manufacturer or vendor is located has received from the manufacturer or vendor an application on Form 110, in triplicate, for permission to remove the distilling apparatus, and permit on such form has been received from such collector to remove the same. Such application shall disclose the name and address of the manufacturer or vendor, the approximate date the apparatus is to be removed, the name and address of the person by whom the apparatus is to be used or the name and address of the person to whom the apparatus is to be exported, the purpose for which it is to be used, the type and kind of apparatus, its capacity, the manufacturer's serial number of the apparatus, and, if the apparatus is taxable, the serial number of the manufacturer's special (occupational) tax stamp and the serial number of the special (commodity) tax stamp for the apparatus. The collector issuing the removal permit shall furnish a copy of such permit either (1) to the district supervisor in whose district the apparatus is to be set up, registered and used, or (2) in the case of removal for export, to the collector of customs at the port of exportation who upon exportation shall endorse thereon a certificate that the article described in the body of the application has been exported and return the Form 110 to the collector of internal revenue. No distilling apparatus may be set up or used for distilling as defined by § 181.12 without application to and permit from the district supervisor in whose district the apparatus is to be used as provided in § 181.14 (b). (See §§ 181.17 to 181.27 relative to exportation of stills with benefit of drawback.)

§ 181.15 *Registry of sills.* * * *

(c) *Change in location or ownership of distilling apparatus.* In the event a user desires to remove any distilling apparatus to another location after the same has been registered, no permit therefor will be required. The user must, however, prior to removal, file Form 26 to register the apparatus "not for use" and to disclose the location to which the removal is to be made and the approximate date of such removal. After removal, no such distilling apparatus intended for use in distilling, as defined in § 181.12, may be again set up without application to and permit from the district supervisor in whose district the apparatus is to be used, as provided in § 181.14 (b). Likewise, when a user sells or otherwise disposes of any distilling apparatus, no permit for removal, sale, or disposition thereof will be required. The user must, however, prior to disposal of such apparatus, file Form 26 with the district supervisor to register the apparatus "not for use" and to disclose the method of disposition (sale, destruction, or otherwise), the name and address of the person to whom disposed of, the approximate date the apparatus is to be removed and the purpose for which it is intended to be used. After removal, no such distilling apparatus intended for use in distilling, as defined in § 181.12, may be again set up without application to and permit from the district supervisor in whose district the apparatus is to be used, as provided in § 181.14 (b). Where there has been a change in ownership, custodianship, control, or a removal to other premises, of any still or distilling apparatus, the person in whose possession, custody, or under whose control the still or distilling apparatus is set up must immediately register the same with the district supervisor. (Secs. 2810, 2818, 3170 and 3791, I. R. C.)

§ 181.19 *Drawback of tax.* Under the law the allowance of drawback is restricted to the tax paid on stills "manufactured for export and actually exported." No drawback can be allowed on worms or condensers exported. Where commodity tax has been paid on stills intended for export and drawback is desired, the manufacturer shall brand such articles, make application for allowance of drawback, and deliver such articles into Custom's custody as provided in §§ 181.20, 181.21, 181.22 and 181.23. (Sec. 3250 (j) (3), I. R. C.)

2. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER. (Secs. 2318, 3176, 3250, 3791 of the Internal Revenue Code (26 U. S. C. A. 2818, 3176, 3250 and 3791).)

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-63, 59-47]

REPUBLIC SERVICE CORP. ET AL.

NOTICE OF FILING, NOTICE OF AND ORDER REOPENING CONSOLIDATED PROCEEDINGS, NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 1st day of August A. D. 1947.

In the matter of Republic Service Corporation and its subsidiaries, File Nos. 54–63 and 59–47.

I. On August 1, 1946, the Commission issued its findings and opinion (Holding Company Act Release No. 6320) disapproving both a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by Republic Service Corporation ("Republic"), a registered holding company, and a plan filed pursuant to section 11 (d) of the act by Irving H. Isaac, a preferred stockholder of Republic, for the recapitalization of Republic. The Commission granted Republic and Isaac a period of 30 days (or such additional time as may be applied for upon a proper showing) to file amendments not inconsistent with its findings and opinion.

Upon application for an extension of time within which to file an amended plan, the Commission by order dated August 29, 1946, extended the time for filing such amended plan to September 15, 1946. On September 16, 1946, a joint plan for the reorganization of Republic was filed by Republic and Isaac. Since the filing of said joint plan the Commission on November 12, 1946, permitted the sale of the physical assets of Lehigh Ice Company and Susquehanna Ice Company, two wholly-owned non-utility companies of Republic.

Subsequently a declaration was filed by Republic, which is now pending before the Commission, proposing the sale of all the outstanding securities of three of its wholly-owned subsidiary companies, namely, The Mauch Chunk Heat, Power & Electric Light Co., Renovo Edison Light, Heat & Power Company and Renovo Heating Company, to Pennsylvania Power & Light Company for a base consideration of $674,590 to be paid in shares of common stock of Pennsylvania Power & Light Company, with certain cash adjustments as of the date of closing.

II. Notice is hereby given that on July 14, 1947, Republic and Irving H. Isaac filed an amended joint plan, pursuant to sections 11 (d) and 11 (e) of the act, for the reorganization of Republic, which is based on the prior consummation of the sale by Republic of all the outstanding securities of The Mauch Chunk Heat, Power & Electric Light Co., Renovo Edison Light, Heat & Power Company and Renovo Heating Company as well as the sale of the common stock of Pennsylvania Power & Light Company received by Republic in exchange therefor.

All persons are referred to the aforesaid amended joint plan which is on file in the offices of the Commission for a full statement of the transactions therein proposed which may be summarized as follows:

It is proposed to organize a new corporation under the laws of Pennsylvania, bearing the name of Republic Service Corporation. Such new corporation shall have an authorized capital of 100,000 shares of common stock, $10.00 par value per share, with full cumulative voting rights and preemptive rights to

purchase or subscribe for additional stock of any class. Republic shall initially subscribe and pay for 100 shares of such new common stock at the rate of $10.00 per share. The new corporation would then issue to Republic 70 224 shares of its new common stock and in exchange take over all the assets and assume all of the liabilities of Republic. Republic in turn proposes to distribute as soon as practicable the 70,324 shares of new common stock so acquired to the holders of its preferred stock in the ratio of four shares of the new common stock for each share of preferred. (The Commission in its findings and opinion dated February 19, 1943, found, among other things, that the common stock of Republic may not participate in any recapitalization of the Company; "Republic Service Corporation et al.", 12 S. E. C. 852 (1943), Holding Company Act Release No. 4128).

It is further proposed that the new corporation will issue and sell privately, to one or more lending institutions, its promissory notes in the aggregate principal amount of $950,000 at an interest rate of not to exceed 3% per annum. Such loan is to be secured by a pledge of all the outstanding securities of the operating subsidiary companies of the new corporation. The proceeds of such loan would be used, together with the proceeds of the sale of the Pennsylvania Power & Light Company common stock and other treasury cash, to pay the face amount of Republic's $1,763,900 principal amount First Lien Collateral Trust Bonds with interest to the payment date without premium. Thereafter the indenture trustee shall (a) deliver to the new corporation all assets pledged under the Trust Indenture other than the cash required for the aforesaid payments which the new corporation is entitled to receive; and (b) execute and deliver to the new corporation an appropriate release. Thereupon Republic shall be dissolved.

It is contemplated that as soon as practicable after the consummation of this amended joint plan, application will be made to the Pennsylvania Public Utility Commission for authority to consolidate Fulton Electric Light, Heat and Power Company, Greencastle Light, Heat, Fuel & Power Company and Mercersburg, Lehmasters & Markes Electric Co., three utility subsidiary companies of Republic, into a single corporation by merger, sale or otherwise and have such corporation and other subsidiaries issue first mortgage bonds. The proceeds from the sale of such bonds would be used to pay off subsidiary indebtedness to the new corporation, which in turn would use such funds, together with other funds, to pay the indebtedness of $950,000 principal amount above referred to.

The plan proposes that the time within which the preferred stockholders of Republic may turn in their stock in exchange for the new common stock of the new corporation shall be five years from the effective date of the plan, subject to certain specified exceptions. Thereafter any such unexchanged shares of the new common stock shall belong to the new corporation free of all claims of the preferred holders.

The Commission has been requested that if it should approve the amended joint plan, such order or orders of approval shall contain recitals necessary to meet the requirements of the Internal Revenue Code, as amended, including section 1808 of Supplement R thereof.

The Commission has been further requested, in the event that this amended joint plan is approved, to apply to an appropriate District Court of the United States for an order to enforce and carry out the provisions of said amended joint plan.

The Commission being required by the provisions of section 11 (e) of the act before approving any plan thereunder to find, after notice and opportunity for hearing, that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected by such plan, and it appearing appropriate to the Commission in the public interest and in the interest of investors that hearings in these consolidated proceedings be reopened for the purpose of considering said amended joint plan and to afford all interested persons an opportunity to be heard with respect thereto and that the application with respect to said amended joint plan shall not be granted except pursuant to further order of the Commission:

It is ordered, That hearings in these consolidated proceedings be reopened on said matters at 10:00 a. m., e. d. s. t., on the 26th day of August 1947, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated at that time by the Hearing Room Clerk in Room 318. All persons desiring to be heard or otherwise wishing to participate in the proceedings and not heretofore granted leave to be heard or participate shall notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before August 22, 1947.

It is further ordered, That Willis E. Monty, or any other officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the amended joint plan, as submitted or as hereafter modified, is necessary to effectuate the provisions of section 11 (b) of the act and is in substantial compliance with the Commission's findings, opinion and order dated August 1, 1943;

(2) Whether the proposed amended joint plan, as submitted or as further modified, is fair and equitable to the persons affected thereby;

(3) Whether the securities to be issued in connection with the proposed amended joint plan are appropriate in nature and reasonably adapted to the security structure and earning power of the proposed new corporation and its holding company system and whether any terms or conditions should be imposed in connection therewith;

(4) Whether, if the amended joint plan is approved by the Commission, it is appropriate in the public interest and in the interest of investors that any terms and conditions be imposed in connection with such approval and, if so, what such terms and conditions should be;

(5) Whether the fees and expenses to be paid in connection with the amended joint plan or the proceedings with respect thereto are reasonable and appropriate;

(6) Whether the accounting entries in connection with the amended joint plan are in conformity with the standards of the Act and Rules promulgated thereunder;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That jurisdiction be, and it hereby is, reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth or which may arise in these proceedings or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall serve notice of filing said application and amended joint plan and of said hearing by mailing a copy of this notice and order by registered mail to Republic Service Corporation and its subsidiary companies, to Irving H. Isaac, to the Pennsylvania Public Utility Commission, to The Pennsylvania Company for Banking and Trusts, Indenture Trustee, to the attorneys of record in the legal proceedings specifically enumerated in the amended joint plan, and that notice of said matters shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Republic shall give additional notice of said hearing to all known holders of its outstanding First Lien Collateral Trust Twenty-Five Year Bonds, 5% Series A, and to all known holders of its preferred stock and common stock, by causing a copy of this notice and order and a copy of the amended joint plan to be mailed to such holders at their last known addresses, such mailing to be made not less than 15 days prior to the date of said hearing.

By the Commission.

COMMUNITY GAS AND POWER CO. AND AMERICAN GAS AND POWER CO.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of July A. D. 1947.

The Commission, by orders dated April 10, 1946, and January 14, 1947, having approved a plan providing, among other things, for the liquidation of Community Gas and Power Company and the reorganization of American Gas and Power Company; and

The Commission having approved said plan subject, among other things, to the conditions specified in Rule U-24 and to the condition that said orders should not be operative to authorize the consummation of the proposed transactions until an appropriate District Court of the United States, upon application thereto, should have entered an order enforcing said plan; and

The District Court of the United States for the District of Delaware, upon application thereto by the Commission, having entered an order on April 24, 1947 enforcing said plan; and

Certain debenture holders having appealed from said order to the United States Circuit Court of Appeals for the Third Circuit, and said Circuit Court having entered an order on July 22, 1947 granting a stay of the District Court's order pending the determination of the appeal now set for argument during the week commencing October 6, 1947; and

The sixty-day period provided by Rule U-24 having expired on June 23, 1947, and the Commission having entered an order on June 23, 1947 extending said period until July 31, 1947; and

The Company having now requested a further extension of time so as to permit consummation of the plan after July 31, 1947; and

The Commission having considered said request and the status of said appeal pending before said Circuit Court and deeming it appropriate that an extension of time be granted;

It is ordered, That the time within which the transactions proposed in said plan may be consummated is hereby extended until thirty days from the date of the entry of the final order determining said appeal or, in the event no writ to the Supreme Court of the United States is applied for, then thirty days from the last day upon which such application could have been made.

By the Commission.

COMMONWEALTH & SOUTHERN CORP. (DELAWARE) ET AL.

ORDER APPROVING AMENDED PLAN SUBJECT TO CONDITIONS AND REQUIRING DIVESTITURE BY HOLDING COMPANIES OF INTERESTS IN SUBSIDIARIES

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 1st day of August 1947.

In the matter of The Commonwealth & Southern Corporation (Delaware), respondent, File No. 59-20; The Commonwealth & Southern Corporation (Delaware) and its subsidiary companies, respondents, File No. 59-8; The Commonwealth & Southern Corporation (Delaware), File No. 54-75; The Commonwealth & Southern Corporation (Delaware), The Southern Company, File No. 54-152.

The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, and The Southern Company ("Southern"), a Delaware corporation newly organized by Commonwealth, having filed an application and amendments thereto pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for approval of a plan involving, among other things, the transfer by Commonwealth to Southern of $3,000,000 cash and Commonwealth's investments in Alabama Power Company ("Alabama Power"), Georgia Power Company ("Georgia Power"), Mississippi Power Company ("Mississippi Power"), Gulf Power Company ("Gulf Power") and Savannah River Electric Company ("Savannah River") in exchange for 10,000,000 shares of common stock of Southern to be issued by Southern to Commonwealth; and

In connection with such plan, subject to the condition that the transactions proposed in the plan are carried out pursuant to a finding of this Commission to the effect that the electric properties of Alabama Power, Georgia Power, Mississippi Power and Gulf Power are retainable under common control as an integrated public utility system under the standards of the act and that the continued existence of Southern as a holding company over such retainable properties is appropriate under such standards, and to an order thereon approving such plan, Southern and Commonwealth having entered into agreements as follows:

(1) That Commonwealth will dispose or cause the disposition of its direct or indirect interest in all of its subsidiaries other than Alabama Power, Georgia Power, Mississippi Power, Gulf Power and Savannah River, and that the Commission may enter an appropriate order to such effect under section 11 (b) (1);

(2) That Commonwealth (as long as Southern is its subsidiary) and Southern will dispose or cause the disposition of their direct or indirect interest in the gas and transportation properties of Alabama Power, and Gulf Power, and that the Commission may enter an appropriate order to such effect under section 11 (b) (1);

(3) That Commonwealth will dispose of any remaining direct or indirect interest in Southern as soon as possible after Commonwealth's retirement of its preferred stock; and

The applicants having requested that the Commission enter an order finding that the transactions proposed in the plan are necessary or appropriate to effectuate the provisions of section 11 (b) of the act and having requested that the Commission's order approving the plan shall contain the recitals required by sections 371 (f) and 1808 (f) of the Internal Revenue Code; and

The proceedings on the plan having been consolidated with proceedings instituted previously under sections 11 (b) (1) and 11 (b) (2) involving Commonwealth and its subsidiary companies, and with proceedings with respect to plans filed by Commonwealth pursuant to section 11 (e) of the act; and

Public hearings having been held after appropriate notice, and the Commission having considered the record and having this day issued its findings and opinion herein; and

The Commission having found that said plan is necessary to effectuate the provisions of section 11 (b) and is fair and equitable to the persons affected thereby, and having further found that the electric properties of Alabama Power, Georgia Power, Mississippi Power and Gulf Power are retainable under common control as an integrated public utility system under the standards of the Act and that the continued existence of Southern as a holding company over such retainable properties is appropriate under such standards;

It is ordered, That said plan be and hereby is approved, subject (a) to the terms and conditions contained in Rule U-24, (b) insofar as the plan concerns acquisitions of securities by Southern from Commonwealth and the acquisition by Commonwealth of 10,000,000 shares of common stock of Southern, to the terms and provisions in the aforementioned agreements by Southern and Commonwealth, (c) to the condition that Commonwealth shall, within fifteen days from the date hereof, file with this Commission a further amendment to said plan agreeing to pay such fees and remuneration for services rendered and make reimbursement for proper costs incurred in connection with these proceedings, as the Commission shall finally determine, award, allow or allocate upon petition of any interested person, and (d) to the general reservation of jurisdiction by the Commission to entertain such further proceedings, to make such supplemental findings and to take such further action as it may deem appropriate in connection with said plan, the transactions incident thereto and the consummation thereof, and to take such further action as it may deem necessary or appropriate to effectuate the provisions of section 11 (b) of the act; and to the specific reservation of jurisdiction to con-

sider such supplemental plans as may be filed pursuant to sections 11 (d) and 11 (e) of the act.

It is further ordered and recited, That the transactions embraced within the plan, hereinafter specified, are necessary or appropriate to the integration or simplification of the holding company system of which Southern, Commonwealth, Alabama Power, Georgia Power, Mississippi Power, Gulf Power and Savannah River are members and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

1. The transfer and delivery by Commonwealth to Southern and the acquisition by Southern, pursuant to the plan, of $3,000,000 cash and

3,775,000 shares of common stock without par value of Alabama Power
2,500,000 shares of common stock without par value of Georgia Power
410,000 shares of common stock without par value of Gulf Power
450,000 shares of common stock without par value of Mississippi Power
500 shares of common stock without par value of Savannah River and all of its demand notes amounting, at September 30, 1946, to $1,450,634; and

2. The issue and delivery by Southern to Commonwealth and the acquisition by Commonwealth pursuant to the plan, of 10,000,000 shares of common stock of Southern having a par value of $5 per share.

It is further ordered, Pursuant to section 11 (b) (1) of the act that Commonwealth shall sever its relations with all companies other than Alabama Power, Georgia Power, Mississippi Power, Gulf Power, Savannah River, The Commonwealth & Southern Corporation (of New York) and Southern, by disposing or causing the disposition, in an appropriate manner not in contravention of the applicable provisions of the act and the rules and regulations promulgated thereunder, of its direct and indirect ownership, control and holding of securities issued and properties and businesses owned, controlled or operated by such other companies.

It is further ordered, Pursuant to section 11 (b) (1) of the act that Commonwealth shall cease to own, operate, control, or have any interest, direct or indirect, in the gas and transportation properties and businesses of Georgia Power and Gulf Power and the transportation properties and business of Alabama Power.

It is further ordered, Pursuant to section 11 (b) (1) of the act that Southern shall cease to own, operate, control or have any interest, direct or indirect, in the gas and transportation properties and businesses of Georgia Power and Gulf Power and the transportation properties and business of Alabama Power.

It is provided, That jurisdiction be and it is hereby reserved with respect to all steps to be taken to effectuate the divestments ordered herein.

It is further provided, With respect to the findings, opinion and order herein, in their entirety, and with respect to the entry, publication, and service thereof that they shall be without prejudice to the right of the Commission to enter such other and further appropriate orders from time to time as the Commission may deem necessary to secure compliance with the provisions of the act and the pertinent rules and regulations thereunder and to carry out the provisions of this order.

It is further ordered, That this order shall be effective immediately upon its issuance.

By the Commission.

COMMONWEALTH & SOUTHERN CORP. (DELAWARE)

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 1st day of August 1947.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company. Applicant designates sections 11 and 12 (c) of the act and Rule U-46 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than August 15, 1947 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be given on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application-declaration, as filed or as amended, may be permitted to become effective or may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application-declaration which is on file in the office of the Commission, for a statement of the transaction therein proposed which is summarized below:

Commonwealth proposes, subject to the approval of the Commission, to pay a dividend of $3 per share or an aggregate of $4,323,741 on the shares of its preferred stock outstanding on June 30, 1947. The dividend was declared on July 30, 1947 and is payable on the 28th day after the date of the order of this Commission permitting such payment or on October 1, 1947, whichever date is later, to stockholders of record at the close of business on the 10th day after the date of such order (or if such 10th day is not a business day, the first business day following such 10th day) or on September 10, 1947, whichever date is later. The Commission action requested in the pending application is similar in substance to the Commission action requested in three applications approved by the Commission in 1943, four applications approved in 1944, four applications approved in 1945, four applications approved in 1946, and two approved in 1947, covering proposed distributions to preferred stockholders.

The applicant requests that the Commission's order be issued herein on or before August 30, 1947 and become effective forthwith so that Commonwealth may pay the proposed dividend not later than October 1, 1947.

By the Commission.

FLORIDA POWER & LIGHT CO. AND AMERICAN POWER & LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING APPLICATION DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of July A. D. 1947.

Florida Power & Light Company "Florida"), an electric utility subsidiary of American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, having filed an application-declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 with respect to the issuance and sale pursuant to the competitive bidding provisions of Rule U-50 of $10,000,000 principal amount of First Mortgage Bonds, --% Series due 1977, $10,000,000 principal amount of --% Sinking Fund Debentures due 1972 and 150,000 shares of --% Cumulative Preferred Stock of the par value of $100 per share; and

The Commission having by order dated July 17, 1947 granted the application and permitted the declaration, as amended, to become effective subject to the condition that the proposed issue and sale of said securities shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in these proceedings and a further order entered by the Commission in the light of the record so completed, and subject to a further reservation of jurisdiction with respect to the payment of all legal fees incurred in connection with the proposed transactions; and

Florida having filed a further amendment herein, which amendment has been joined in by American, stating that in response to the public invitation for bids no bids were received on the preferred stock; that American proposes to purchase and Florida proposes to sell 100,000 shares of the common stock of Florida for a cash consideration of $2,500,000. Certificates for said shares will be delivered at the option of American prior to January 29, 1948, provided however, that should Florida prior to January 29, 1948 sell preferred stock of an aggregate value of in excess of $2,500,000 then, Florida shall at the option of American, repay to American the sum of $2,500,000 and the obligation to deliver common stock of Florida shall be cancelled. Said amendment further states that pursuant to the competitive bidding requirements of Rule U-50, the bonds and debentures were offered for sale with the results set forth below:

FIRST MORTGAGE BONDS

Underwriting Group	Coupon rate	Price to company (Percent)	Cost to Company (Percent)
Lehman Bros.	3	101.8867	2.9671

The First Boston Corp.	5½	101.059	3.2145
Lehman Bros.	5½	100.412	3.2504

[1] Plus accrued interest.

Said amendment having further stated that with respect to the First Mortgage Bonds, Florida has accepted the bid of the group headed by Lehman Brothers as set out above and that the bonds will be offered for sale to the public at a price of 102.60% of the principal amount thereof resulting in an underwriters' spread of 0.7093% of the principal amount of said bonds; and that with respect to the debentures, Florida has accepted the bid of the group headed by Halsey, Stuart & Co., Inc., as set out above and that the debentures will be offered for sale to the public at a price of 101% of the principal amount thereof resulting in an underwriters' spread of 0.81% of the principal amount of said debentures; and

The Commission finding that the proposed payment of counsel fees in the amount of $17,500 to Reid & Priest, New York counsel for Florida; $12,500 to Loftin, Anderson, Scott, McCarthy & Preston, local counsel for Florida, in full compensation for all services rendered or to be rendered in connection with the issuance and sale of the bonds, debentures and preferred stock; and $12,000 to LeBoeuf & Lamb, counsel for the successful bidders for the bonds and debentures, which latter fee is to be paid by the successful bidder, are not unreasonable; and

The Commission having considered the record herein and finding with respect to the joint amendment filed by American and Florida to the application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint amendment to the application-declaration be granted and permitted to become effective, and finding no reasons for imposing terms and conditions with respect to said matters other than those set forth below:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for said bonds and debentures under Rule U-50 be, and the same hereby is, released, and that the application-declaration as amended by the amendment filed on July 30, 1947 with respect to the bonds and debentures be, and the same hereby is, granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That jurisdiction heretofore reserved with respect to fees of counsel for the company in connection with the transactions proposed in the application-declaration, as amended, and the fee of counsel for the successful bidder with respect to the sale of said bonds and debentures be, and the same hereby is, released; and

It is further ordered, That jurisdiction heretofore reserved with respect to the results of competitive bidding on the preferred stock and legal fees for counsel for the underwriters with respect to the sale of such stock be, and hereby is, continued; and

It is further ordered, That the application-declaration, as amended, with respect to the purchase by American and sale by Florida of common stock of Florida be, and hereby is granted, and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

FEDERAL REGISTER

VOLUME 12 NUMBER 155

Washington, Friday, August 8, 1947

TITLE 3—THE PRESIDENT

PROCLAMATION 2740

EXTENSION OF TIME FOR RENEWING TRADE-MARK REGISTRATIONS: SWITZERLAND

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS by the act of Congress approved July 17, 1946, 60 Stat. 568, the President is authorized, under the conditions prescribed in that act, to grant an extension of time for the fulfillment of the conditions and formalities for the renewal of trade-mark registrations prescribed by section 12 of the act authorizing the registration of trade-marks used in commerce with foreign nations or among the several States or with Indian tribes, and to protect the same, approved February 20, 1905, as amended (15 U. S. C. 92), by nationals of countries which accord substantially equal treatment in this respect to citizens of the United States of America;

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by the aforesaid act of July 17, 1946, do find and proclaim that with respect to trade-marks of nationals of Switzerland registered in the United States Patent Office which have been subject to renewal on or after September 3, 1939, there has existed during several years since that date, because of conditions growing out of World War II, such disruption or suspension of facilities essential to compliance with the conditions and formalities prescribed with respect to renewal of such registrations by section 12 of the aforesaid act of February 20, 1905, as amended, as to bring such registrations within the terms of the aforesaid act of July 17, 1946; that Switzerland accords substantially equal treatment in this respect to trade-mark proprietors who are citizens of the United States, and that accordingly the time within which compliance with conditions and formalities prescribed with respect to renewal of registrations under section 12 of the aforesaid act of February 20, 1905, as amended, may take place is hereby extended with respect to such registrations which expired after September 3, 1939, and before June 30, 1947, until and including June 30, 1948.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 6th day of August, in the year of our Lord nineteen hundred and [SEAL] forty-seven and of the Independence of the United States of America the one hundred and seventy-second.

HARRY S. TRUMAN

By the President:

G. C. MARSHALL,
Secretary of State.

AUTHORITY: §§ 268.101 to 268.124, inclusive, issued under authority contained in Article Third, paragraph (b) and (j) of the Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 4 (b), 55 Stat. 498 as amended, sec. 302 (a), 52 Stat. 43; 15 U. S. C., Sup., 713 (a), 713 a-8 (b), 7 U. S. C. 1302 (a).

§ 268.101 *Administration.* The program will be administered in the field by the county agricultural conservation committees under the general supervision of the State PMA Committee.

Forms may be obtained from county committees in areas where loans and purchase agreements are available, or from other field offices of PMA. County committees will determine or cause to be

determined the quantity and grade of the oats, the amount of the loan, and the value of the oats delivered under a loan or purchase agreement. All loan and purchase documents will be completed and approved by the county committee, which will retain copies of all such documents. The county committee may designate in writing certain employees of the county agricultural conservation association to approve such forms on behalf of the committee.

The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents or with the address of the CCC field office to which loan documents may be forwarded for disbursement.

§ 268.102 *Availability of loans and purchase agreements*—(a) *Area.* (1) Loans shall be available on eligible oats stored on farms or in approved public grain warehouses in all States.

(2) Purchase agreements shall be available on eligible oats in all areas where loans are available.

(b) *Time.* Loans and purchase agreements shall be available through December 31, 1947.

§ 268.103 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which the CCC has entered into a Lending Agency Agreement (Form PMA–97) or other form prescribed by the Administrator.

§ 268.104 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing oats in 1947, as landowner, landlord, tenant, or sharecropper.

§ 268.105 *Eligible oats.* Eligible oats shall be oats which were produced in 1947, the beneficial interest in which is now in the producer, and always has been in him or in him and a former producer whom he succeeded before the oats were harvested; *Provided,* Such oats grade No. 3 or better in accordance with Official Grain Standards and do not grade weevily, smutty, ergotty, garlicky, bleached, thin, or tough. (Oats containing in excess of 14.5 percent moisture grade tough and are not eligible.) When stored on the farm the oats must have been stored in the granary at least 30 days prior to inspection for measurement, sampling, and sealing unless otherwise approved by the State PMA Committee.

§ 268.106 *Eligible storage.* Eligible storage for oats shall meet the following requirements:

(a) Under the loan program, eligible farm storage shall consist of farm bins and granaries which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of the oats, permit effective fumigation for the destruction of insects, and afford protection against rodents, other animals, thieves, and weather.

(b) Under the loan and purchase agreement program, eligible warehouse storage shall consist of (1) public grain warehouses situated at terminal, subterminal or country points, for which a Uniform Grain Storage Agreement (CCC Form H) is in effect; (warehousemen desiring approval should communicate with the CCC field office serving the area in which the warehouse is located); or (ii) warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission.

(c) Under the purchase agreement program, oats stored in other than eligible warehouse storage will be purchased on delivered basis.

§ 268.107 *Approved forms.* The approved forms consist of the loan and purchase agreement documents which, together with the provisions of this bulletin, govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or purchase agreement or in executing any of the loan or purchase documents, will render him subject to prosecution under the United States Criminal Code.

Notes and chattel mortgages, and note and loan agreements, must be dated prior to January 1, 1948 and be executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Purchase agreements must be signed and dated by the producer and mailed or delivered to the county committee prior to January 1, 1948. Notes and chattel mortgages, note and loan agreements, and purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producer's note on CCC Commodity Form A, secured by a chattel mortgage on CCC Commodity Form AA.

(b) *Warehouse storage loans.* Approved forms shall consist of note and loan agreement on CCC Commodity Form B, secured by negotiable warehouse receipts representing the oats stored in approved warehouses. All oats pledged as security for a loan on a single CCC Commodity Form B must be stored in the same warehouse.

(c) *Purchase agreement program.* The approved forms shall consist of the Purchase Agreement (Purchase Form 1) signed by the producer and approved by the county committee, negotiable warehouse receipts, and such other forms as may be prescribed by the Director, Grain Branch, PMA.

(d) *Warehouse receipts.* Oats stored in eligible warehouse storage in connection with a loan or purchase agreement must be represented by warehouse receipts which satisfy the following requirements:

(1) Warehouse receipts must be issued in the name of the producer, properly endorsed in blank so as to vest title in the holder, and be issued by an approved warehouseman.

(2) Each warehouse receipt should set forth in its written terms that the oats are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(3) Liens for warehouse charges will be recognized by CCC but only from May 15, 1947, or the date of the warehouse receipt, whichever is later.

(4) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight and grade, test weight and all special grading factors.

(5) In the case of warehouse receipts issued for oats delivered by rail or barge, CCC will accept inbound weight and inspection certificates properly identified with the oats covered thereby in lieu of the information required by subparagraph (4) of this paragraph. In areas where licensed inspectors are not available at terminal and subterminal warehouses, CCC will accept inspection certificates based on representative samples which have been forwarded to and graded by licensed grain inspectors.

§ 268.108 *Determination of quantity.* A bushel shall be 32 pounds of oats when determined by weight, or 1.25 cubic feet of oats testing 32 pounds per bushel when determined by measurement. A deduction of ¾ of a pound for each sack will be made in determining the net quantity of the oats when stored as sacked oats. The quantity determined by measurement will be the following percentages of the quantity determined for 32 pound oats:

For oats testing	*Percent*
40 pounds or over	125
39 pounds or over, but less than 40 pounds	121
38 pounds or over, but less than 39 pounds	118
37 pounds or over, but less than 38 pounds	115
36 pounds or over, but less than 37 pounds	112
35 pounds or over, but less than 36 pounds	109
34 pounds or over, but less than 35 pounds	106
33 pounds or over, but less than 34 pounds	103
32 pounds or over, but less than 33 pounds	100
31 pounds or over, but less than 32 pounds	96
30 pounds or over, but less than 31 pounds	93
29 pounds or over, but less than 30 pounds	90
28 pounds or over, but less than 29 pounds	87
27 pounds or over, but less than 28 pounds	84

Any fraction of a bushel resulting from the above determination of quantity will be dropped in stating the number of bushels placed under loan.

§ 268. 109 *Dockage.* Since dockage is not a grade factor in the case of oats, the quantity of oats will be determined without reference to dockage.

§ 268.110 *Liens.* The oats must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the oats, proper waivers must be obtained.

§ 268.111 *Service fees*—(a) *Loans.* Where the oats under loan are farm-stored the producer shall pay a service fee of 1 cent per bushel, and where the oats under loan are warehouse-stored the producer shall pay a service fee of ½ cent per bushel.

(b) *Purchase agreement.* At the time the producer applies for a purchase agreement he shall pay a preliminary minimum service fee of $1.50. In addition, where delivery of oats is made under the purchase agreement, the producer shall pay a service fee of ½ cent on each bushel of oats delivered in excess of 300 bushels.

§ 268.112 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan or purchase agreement to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien-holders. Indebtedness owing to the CCC shall be given first consideration after claims of prior lienholders.

§ 268.113 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 268.114 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the oats under loan or his remaining interest may be restricted by CCC.

§ 268.115 *Safeguarding of the oats.* The producer obtaining a farm-stored loan is obligated to maintain the farm-storage structures in good repair, and to keep the oats in good condition.

§ 268.116 *Insurance.* CCC will not require the producer to insure the oats placed under farm-storage loan; however, if the producer does insure such oats such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the oats involved in the loss.

§ 268.117 *Loss or damage to the oats.* The producer is responsible for any loss in quantity or quality of the oats placed under farm-storage loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 268.118 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the oats by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 268.119 *Maturity, delivery, and satisfaction*—(a) *Loans.* Loans mature on demand but not later than April 30, 1948. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity, or to deliver the mortgaged oats in accordance with the instructions of the county committee. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the oats under loan were stored, at the applicable loan rate, according to grade and/or quality. If the settlement value of the oats delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the oats is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to CCC, or may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the oats may be delivered before the maturity date of the loan upon prior approval by the county committee. In the case of warehouse storage loans, if the producer does not repay his loan upon maturity CCC shall have the right to sell or pool the oats in satisfaction of the loan in accordance with the provisions of the Producer's Note and Loan Agreement and § 268.120.

(b) *Purchase agreements.* The producer who signs a purchase agreement (Purchase Form 1) shall not be obligated to deliver any specified quantity of oats to CCC. If the producer who signs a purchase agreement desires to sell oats to CCC he shall, during the month of May 1948, submit warehouse receipts representing eligible oats stored in eligible warehouse storage to the county committee for the quantity of such oats he elects to sell to CCC, or, in the case of oats stored in other than eligible warehouse storage, he shall notify the county committee of his intention to sell and request delivery instructions. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to an approved warehouse, or as otherwise directed by the Administrator of PMA or his authorized representative. When delivery is completed, payment shall be made as prescribed by the Administrator. The producer shall direct to whom payment of the purchase price shall be made.

In the case of oats stored in eligible warehouse storage, purchases will be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipts and accompanying documents. Oats delivered from other than eligible warehouse storage will be purchased on the basis of official weights, grades and other quality factors at destination, or official weights at destination and official grades and other quality factors at the inspection point shown on the shipping order furnished the producer, which unless otherwise agreed shall be the customary location, on the route of shipment, of an inspector licensed under the U. S. Grain Standards Act; or, if such oats are delivered to a local CCC bin site, on the basis of the weight, grade and quality determinations made by the county committee (in accordance with instructions for the determination of such factors under the loan program) and approved by the producer at the time of delivery.

§ 268.120 *Removal of the oats under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the oats and sell them, either by separate contract or after pooling them with other lots of oats similarly held. The producer has no right of redemption after the oats are pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled oats as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the oats, even though part or all of such pooled oats are disposed of under such policies at prices less than the current domestic price for such oats. Any sum due the producer as a result of the sale of the oats or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 268.121 *Release of the oats under loan.* A producer may at any time obtain release of the oats under loan by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local bank for collection. In such case, where CCC is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial release of the oats prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan and accrued interest represented by the quantity of the oats to be released. In the case of warehouse-storage loans, each partial release must cover all of the oats under one warehouse receipt number.

§ 268.122 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by CCC will

be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 C. C. C. Form F, or such other form as CCC may prescribe, of all payments received on producers' notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the CCC field office serving the area.

§ 268.123 *CCC field offices.* The field offices of CCC, and the areas served by them, are shown below:

Chapter IX—Producton and Marketing Administration (Marketing Agreements and Orders)

[Lemon Reg. 233, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State or Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

Lemon Regulation 233 (§ 953.340) (12 F. R. 5274) is hereby amended to read as follows:

(b) *Order, as amended.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 3, 1947, and ending at 12:01 a. m., P. s. t., August 10, 1947, is hereby fixed at 575 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 233 (12 F. R. 5274) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

PART 131—HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

MISCELLANEOUS AMENDMENTS

§ 131.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of section 57 of Public Law No. 320, 74th Congress, approved August 24, 1935 (49 Stat. 781; 7 U. S. C. 851 et seq.), and to the provisions of the marketing agreement and to the marketing order (9 CFR 131.1 et seq.) effective thereunder on December 7, 1936, and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders applicable to anti-hog-cholera serum and hog-cholera virus (9 CFR, Cum. Supp., 132.1 et seq.), after due notice a public hearing was held at Washington, D. C., on April 29–30, 1946, to consider proposed amendments to the marketing agreement and to the marketing order regulating the handling of anti-hog-cholera serum and hog-cholera virus. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions of said order as hereby amended, in conjunction with the marketing agreement as amended, will tend to effectuate the declared policy of the act;

(2) The said order, as hereby amended, regulates the handling of anti-hog-cholera serum and hog-cholera virus in the same manner and is applicable only to persons in the respective classes of industrial and commercial activity specified in the amended marketing agreement, effective as of the same time as the effective date of this order, upon which a hearing has been held.

(b) *Additional findings.* The foregoing findings are supplementary, and in addition, to the findings made in connection with the issuance of the aforesaid order; and all of said previous findings are hereby ratified and affirmed, except insofar as such findings may be in conflict with the findings set forth herein.

(c) *Determinations.* It is hereby determined that:

(1) The marketing agreement for handlers of anti-hog-cholera serum and hog-cholera virus, executed by the Secretary on the 2d of December 1936, effective December 7, 1936, has been amended by the said order, and the said order as hereby amended is in conformity with such marketing agreement as amended which is to become effective as of the same time as the effective date of this order.

(2) Handlers of not less than 75 percent of the volume of anti-hog-cholera serum and hog-cholera virus which is handled in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce, for the marketing (i. e. calendar) year 1946 have signed the aforesaid amended marketing agreement.

Order relative to handling. It is, therefore, ordered that, from and after the effective date hereof, the marketing order dated December 2, 1936, effective December 7, 1936, regulating the handling of anti-hog-cholera serum and hog-cholera virus is hereby amended to conform to the amended marketing agreement as follows:

1. Delete paragraph 10 of Article I, section 1 (9 CFR, 131.1 (j)), reading as follows:

§ 131.1 *Definitions.* • • •

(j) *Volume contract purchaser.* "Volume contract purchaser" means that class or classes of buyers comprising persons or agencies who regularly purchase, for delivery within a definite period of time, serum and virus in specified amounts, adequate, in the opinion of the control agency, to justify such special classification.

2. Amend paragraph 8 of Article I, section 1 (9 CFR, 131.1 (h)) to read as follows:

(h) *Wholesaler.* "Wholesaler" means that class of buyers comprising (1) persons or agencies who do not administer serum and virus but are regularly engaged in purchasing and maintaining stocks of serum and virus in sufficient quantities to supply dealer demand, who are properly located and equipped with proper storage and distributing facilities to supply dealer demand, who resell principally to dealers, and who shall have been found by the control agency on submitted evidence acceptable to said control agency to perform in good faith the usual functions of a wholesaler, including, but without limitation, the absorbing of all expenses incidental to the advertising, transportation, and selling of serum and virus, after receipt by them, to other trade groups, together with the furnishing of field or veterinary service necessary to determine whether the products sold have served their purpose in specific cases, and (2) persons or agencies who regularly purchase, for delivery within a definite period of time and pay for at sellers' posted prices at time of delivery, serum and virus in specified quantities, adequate, in the opinion of the control agency, to justify such classification.

S. A.", or words of similar import and meaning of equal size and conspicuousness revealing the country in which

said ware has been manufactured. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45 b) [Modified cease and desist order, Samuel E. Bernstein, Inc., Now, National Silver Company, Docket 1068, July 3, 1947]

At a regular session of the Federal Trade Commission, held at its office in the city of Washington, D. C., on the 3d day of July A. D. 1947.

In the Matter of Samuel E. Bernstein, Inc., Now National Silver Company

An order having heretofore been entered by the Federal Trade Commission in this proceeding on July 7, 1926, requiring Samuel E. Bernstein, Inc., its agents, servants, employees and representatives to cease and desist from using the word "Sheffield" in connection with the sale of silverplated ware not made in Sheffield, England; and the National Silver Company having merged with the original respondent herein in 1928, and having thereafter been subject to the provisions of said order to cease and desist, and said National Silver Company having filed its petition on November 22, 1946, seeking the reopening and modification of said order to cease and desist; and on January 5, 1947, having entered into a stipulation with Daniel J. Murphy, Assistant Chief Trial Counsel for the Commission, subject to the approval of the Commission, which stipulation provides, in addition to other provisions, that without further evidence or intervening procedure, the Commission may make its findings as to the facts and conclusion based thereon, and enter its order disposing of this proceeding;

And the Commission having approved said stipulation, and having found that changed conditions of fact, subsequent to the original order to cease and desist herein, and the public interest, require the said order be reopened and modified by the addition thereto of a provision, as follows:

Provided, however, That the word "Sheffield" may be used in connection with the sale of silverplated ware, not made in Sheffield, England, if it is used only in immediate connection with the word or words "design" or "pattern", or words of similar import and meaning so as clearly to reveal that the article described is a modern copy, or modern reproduction of the "design" or "pattern" of a piece of Sheffield Plate manufactured in the 18th Century, and such descriptive words are qualified by the words, "Made in U. S. A.", or words of similar import and meaning of equal size and conspicuousness revealing the country in which said ware has been manufactured.

It is ordered, That the respondent, National Silver Company, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of silverplated ware in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist:

From employing or using in connection with the sale of silverplated ware which was not made in Sheffield, England, the word "Sheffield" along or in connection with any other word or words, sign, symbol or device to describe or designate such silverplated ware either by stamping or impressing the name "Sheffield" thereon or in any other manner: *Provided, however,* That the word "Sheffield" may be used in connection with the sale of silverplated ware, not made in Sheffield, England, if it is used only in immediate connection with the word or words "design" or "pattern", or words of similar import and meaning of equal size and conspicuousness so as clearly to reveal that the article described is a modern copy, or modern reproduction of the "design" or "pattern" of a piece of Sheffield Plate manufactured in the 18th Century, and such descriptive words are qualified by the words, "Made in U. S. A.", or words of similar import and meaning of equal size and conspicuousness revealing the country in which said ware has been manufactured.

It is further ordered, That respondent shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with said order.

By the Commission.

AUTHORIZATION TO FIX COMMUNITY CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Secretary of Agriculture by the Sugar Control Extension Act of 1947, General Sugar Order 2 (§ 705.102[1]) and all orders fixing community ceiling prices issued pursuant to the authority contained therein are hereby revoked, effective August 6, 1947: *Provided, however,* That all such orders shall be deemed to be in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any violation thereof, or right accrued, or liability incurred thereunder.

Issued this 5th day of August 1947.

[SEAL] CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

Opinion Accompanying Revocation of General Order 2

General Order No. 2, as amended, delegates to the Administrator of the Sugar Rationing Administration and any Director of a Field Office of the Sugar Rationing Administration, Department of Agriculture, the authority to issue and put into effect orders establishing maximum dollar-and-cents prices for sales at retail of any food item subject to price control under the jurisdiction of the Secretary of Agriculture.

Orders fixing the highest retail prices which may be charged in any particular locality for sugar and rice issued pursuant to General Order No. 2, as amended, were for the purpose of informing retailers and consumers of the exact maximum prices in any locality for sugar and rice. Due to large reductions in the field staff of the Sugar Rationing Administration, it is not possible to revise such orders to reflect increases in the price of sugar.

Ceiling prices on sugar sold at the retail level are retained, however, by Maximum Price Regulations 422 and 423 wherein each individual retailer is required to compute his own individual ceiling according to the method set forth by the provisions of either MPR 422 (Group 3 and 4 stores) or MPR 423 (Group 1 and 2 stores) whichever is applicable to him.

PART 710—FOOD PRICES

DIRECT CONSUMPTION SUGAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 60 is amended in the following respects:

1. The table of maximum basis prices in section 2 (a) (1) is amended to read as follows:

(i) For sales of fine granulated cane sugar refined in Continental United States, $6.40.

(ii) For sales of fine granulated beet sugar processed in Continental United States, $8.30.

(iii) For sales of fine granulated cane sugar from off-shore areas, domestic and foreign, duty paid, $6.35.

(iv) For sales of turbinado, washed-white or similar sugar from off-shore areas, domestic or foreign, duty paid, for direct consumption, $6.05.

(v) For sales of plantation granulated sugar processed from United States mainland sugarcane, $6.30.

(vi) For sales of direct-consumption sugars other than those provided for above, in this section, processed from United States mainland sugarcane, including but not limited to turbinado, plantation white and highwashed sugars, $6.20.

2. In section 2 (b) (1) the figure "$5.335" is substituted for the figure "$5.20."

This amendment shall become effective 12:01 a. m., August 6, 1947.

PART 710—FOOD PRICES

RAW CANE SUGAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 16 is amended in the following respects:

In sections 8 (a) (1) (i) and 8 (b) (1) the figure "4.95" is substituted for the figure "4.815."

This amendment shall become effective 12:01 a. m. August 6, 1947.

Issued this 5th day of August 1947.

[SEAL] CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

Statement of Consideration Involved in the Issuance of Amendment No. 7 to Maximum Price Regulation 16 and Amendment No. 12 to Maximum Price Regulation 60

The accompanying amendments to Maximum Price Regulations Nos. 16 and 60 increase the maximum prices of raw cane sugar and direct consumption raw sugar 13.5 cents per hundredweight and of all direct consumption sugars, except direct consumption raw sugar, 15 cents per hundredweight.

These increases in maximum prices are necessary under the terms of section (6) (c) of the Price Control Extension Act of 1946, as continued by the Sugar Control Extension Act of 1947, which provides that Commodity Credit Corporation may not "absorb any increase in the price paid for Cuban sugar over 3.675 cents per pound, raw basis, f. o. b. Cuba [the minimum basis price established by the Cuban Contract], as being paid for such sugar, in Cuba, on June 30, 1946," to enable the Commodity Credit Corporation to continue the importation of Cuban sugar into the United States under the terms of its contract with the Cuban Government.

These increases are made applicable to all sugars covered by the regulations, as has been the case with earlier increases for the same reasons outlined in the statements of considerations accompanying the issuance of Amendments 2 and 3 to Maximum Price Regulation 16.

Thence following the right bank of Tanana River westerly, down-stream, to the place of beginning.

This area includes the drainage basin on the north side of the Tanana River between the initial point and the western boundary of the Porcupine Creek Valley.

This order shall not otherwise become effective to change the status of the surveyed or unsurveyed public lands which are not continued withdrawn by this order until 10:00 a. m. on October 2, 1947. At that time, subject to valid existing rights (including the rights of the United States to any lands containing improvements owned by it, and the rights of natives based on occupancy), and the provisions of then existing withdrawals, the unsurveyed lands shall become subject to settlement and other forms of appropriation in accordance with the appropriate laws and regulations, and the surveyed lands shall become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 2, 1947, to December 31, 1947, inclusive, the surveyed public lands affected by this order shall be subject to (1) application under the homestead laws or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 12, 1947, to October 1, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 2, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on January 2, 1948, any of the surveyed lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 12, 1947, to December 31, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on January 2, 1948, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the proper district land office (at Fairbanks or Anchorage, Alaska), shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254). Applications under the homestead laws shall be governed by the regulations contained in Parts 65 and 66 of Title 43 of the Code of Federal Regulations and applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the district land office at Fairbanks, or Anchorage, Alaska.

Very little of the land restored by this order has been surveyed. The major part of the area is of a character unsuitable for agricultural purposes.

Chapter II—Bureau of Reclamation, Department of the Interior

[Order 2351]

PART 421—ADMINISTRATION AND DISPOSITION OF CERTAIN PROPERTY ACQUIRED BY THE BUREAU OF RECLAMATION FROM THE WAR ASSETS ADMINISTRATION AND OTHER FEDERAL AGENCIES

STATUTORY AUTHORITY; DELEGATION OF AUTHORITY

Sections 421.1 and 421.2 are revised to read as follows:

§ 421.1 *Statutory authority.* Pursuant to the provisions of the Acts of July 1, 1946 (60 Stat. 348) and July 25, 1947 (Public Law 247, 80th Cong.), (hereinafter called "the act" in this part), the Secretary of the Interior is authorized to promulgate regulations for the administration and disposition of property acquired by transfer to the Bureau of Reclamation (hereinafter called "the Bureau") from the War Assets Administration and other agencies.

§ 421.2 *Delegation of authority.* The Commissioner of Reclamation, and such officers or employees of the Bureau as he may designate, are hereby authorized to use, sell, lease, or otherwise dispose of the property so acquired, subject to the provisions of this part. The Commissioner of Reclamation, to the extent that he deems necessary for the proper administration of project construction, settlement and development, is authorized to revise or adjust (a) the dates and time periods fixed by this part of the allocation and disposition of the acquired property, and (b) quantities and amounts of such property.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Docket No. 3666]

PART 71–85 TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 28th day of July A. D. 1947.

It appearing, that pursuant to section 233 of the Transportation of Explosives Act approved March 4, 1921, (41 Stat. 1445), and Part II of the Interstate Commerce Act, the Commission has formulated and published certain regulations for transportation of explosives and other dangerous articles:

It further appearing, that in applications received we are asked to amend the aforesaid regulations as set forth in provisions made part hereof:

It is ordered, That the aforesaid regulations for transportation of explosives and other dangerous articles be, and are hereby, amended as follows:

Part 2—List of Explosives and Other Dangerous Articles (CFR 73)

Amending commodity list section 4, order August 16, 1940, as follows:

Article	Classed as	Exemptions and packing (See Sec.)	Label required if not exempt	Maximum quantity in one outside container by rail express
(Add) Benzyl bromide	Cor. L	No exemption, 250A	White	5 pints
(Add) Bromotoluene, see benzyl bromide				
(Add) Bromide trifluoride	Cor. L	No exemption, 252B	White	25 pounds
(Add) Peracetic acid	Oxy. M	No exemption, 186C	Yellow	5 pints
(Add) Tetrafluorethylene, inhibited	Noninf. G	402, 301	Green	300 pounds

Part 3—Regulations Applying to Shippers (CFR–75)

1. Superseding and amending section 25, *Specification containers in outside cantainers,* order August 16, 1940, to read as follows:

25 Outside specification shipping containers containing no corrosive liquids, except as provided in secs. 258 to 261, may be shipped when tightly packed in specification boxes or barrels or in nonspecification boxes, barrels or crates complying with governing tariffs. The outside package must be marked with the prescribed name of contents and labeled as required. Packages required by these regulations to be marked "This Side Up" must be packed in the outside package with their filling holes up, and the outside package must be marked "This side up". The outside container must also be marked "Inside Packages Comply With Prescribed Specifications" unless the specification markings on the inside packages are visible through openings in the outside package.

2. Superseding and amending section 150, *Inflammable solid,* order August 16, 1940, to read as follows:

150 An inflammable solid is a solid substance other than one classified as an explosive, which is liable, under conditions incident to transportation, to cause fires through friction, through absorption of moisture, through spontaneous chemical changes, or as a result of retained heat from the manufacturing or processing.

3. Superseding and amending section 183 *Packing nitrates—exemptions,* order October 28, 1942, to read as follows:

183 Nitrate of aluminum, nitrate of ammonia, nitrate of barium, nitrate of lead, nitrate of potash, nitrate of sodium (nitrate of soda), nitrate of strontia, nitro carbonitrate, calcium nitrate, or other inorganic nitrates and guanidine nitrate, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, and highway when packed as follows: In metal cans in outside fiberboard boxes; in wooden boxes, kegs, or barrels, metal cans, metal drums or fiber drums; in glass bottles in outside fiber boxes not exceeding 50 pounds net weight; calcium nitrate in bags; ammonium nitrate, or guanidine nitrate, in bags containing not over 200 pounds, net weight, made moisture proof, tight against sifting, and of strength not less than bags made of 8-ounce burlap. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements. (See column 5 of Commodity List, Part 2, for maximum quantity that may be shipped in one outside package by express.)

4. Amending order August 16, 1940, as follows (add):

186C (a) Peracetic acid must be shipped in solution not exceeding 40 percent strength and must be packed in specification containers as follows:

(b) *Spec. 15A, 15B, 15C, 16A or 19A.* Wooden boxes with inside containers which must be: Glass or earthenware, not over one gallon capacity each, cushioned with sterile absorbent cotton or other cushioning material which will not react with the contents to generate heat. Cushioning material must be in sufficient quantity to completely absorb the contents of the inner container.

(c) *Spec. 12B.* Fiberboard boxes with inside containers which must be: Glass or earthenware, not over one quart capacity each, cushioned with sterile absorbent cotton or other cushioning material which will not react with the contents to generate heat. Cushioning material must be in sufficient quantity to completely absorb the contents of the inner container.

(d) *Spec. 1A or 1C.* Carboys not over 5 gallons capacity, or spec. 1D carboys.

5. Amending section 245, order August 16, 1940, as follows (add):

(v) Bromine trifluoride.
(w) Benzyl bromide.

6. Amending section 247, *Packing acetyl chloride, antimony pentachloride, benzoyl chloride, etc.,* order August 16, 1940, as follows (add):

(k) *Spec. 103A or 103A–W.* Tank cars, authorized for benzyl chloride only. When shipped in unstabilized condition,

the lading must be anhydrous and must be free from impurities such as iron. Tanks for these cars must be made of solid nickel at least 99 per cent pure and all cast metal parts of the tank in contact with the lading have a minimum nickel content of approximately 96.7 per cent.

7. Amending order August 16, 1940, as follows (add):

250A (a) Benzyl bromide (bromotoluene) must be packed in specification containers as follows:

(b) *Spec. 15A, 15B, or 15C.* Wooden boxes, with inside containers which must be: Glass bottles, not over 5 pints capacity each, closed by means of screw caps which are resistant to action of the contents; bottles must be packed in metal cans having slip-on or friction closure; cans must be cushioned in outside boxes with incombustible material.

8. Amending order August 16, 1940, as follows (add):

252B (a) Bromine trifluoride must be packed in specification containers as follows:

(b) *Spec. 3A1800, 3E1800, 3B240, or 4B240.* Cylinders.

9. Superseding and amending paragraph (d), section 268 *Packing nitric acid*, order August 16, 1940, to read as follows:

(d) *Spec. 1A or 1C.* Carboys in boxes or kegs; authorized only for acid not over 1.43 specific gravity (43.61° Baume). Straight-sided carboys must be used.

10. Superseding and amending paragraph (d) (2), section 268 *Packing nitric acid*, order June 29, 1945, to read as follows:

(d) (2) *Spec. 1D.* Boxed glass carboys of not over 6.5 gallons nominal capacity; authorized only for acid not over 1.43 specific gravity (43.61° Baume). Means shall be provided so that accumulated pressure in bottle shall not exceed 10 pounds per square inch gage at 130° F. or shall vent at a pressure not to exceed 10 pounds per square inch gage.

11. Amending section 268, order August 16, 1940, as follows (add):

(d) (3) Cushioning for carboys must be incombustible mineral material, elastic wood strips, natural cork blocks or rubber blocks. Other materials may be used if approved by the Bureau of Explosives. The use of hay, excelsior, loose ground cork, or similar materials, whether treated or untreated, is prohibited.

12. Superseding and amending paragraph (d), section 269 *Packing perchloric acid*, order August 16, 1940, to read as follows:

(d) Cushioning for carboys must be incombustible mineral material, elastic wood strips, natural cork blocks or rubber blocks. Other materials may be used if approved by the Bureau of Explosives. The use of hay, excelsior, loose ground cork, or similar materials, whether treated or untreated, is prohibited.

13. Superseding and amending paragraph (f), section 302 *Compressed gases*, orders November 8, 1941, and December 12, 1942, to read as follows (add):

(f) (1) Inside non-refillable metal containers charged with a solution of materials and compressed gas or gases, which is nonpoisonous and noninflammable. Authorized as follows:

(f) (2) Capacity not to exceed 30 cubic inches (16.6 fluid ounces).

(f) (3) Pressure in the container not to exceed 55 pounds per square inch absolute at 70° F.

(f) (4) Liquid content of the material and gas must not completely fill the container at 130° F.

(f) (5) Each completed container filled for shipment must be heated until content reached a minimum temperature of 130° F., without evidence of leakage, distortion or other defect.

14. Amending the orders of November 8, 1941, and December 12, 1942, paragraph (f) section 302 *Packing compressed gases*, to read section 302A, which is as follows:

302A *Manifolding containers in transportation.* No means of interconnecting such as manifolding of individual containers may be employed for the following gases unless individual containers or cargo tanks are equipped with individual shutoff valves, which must be tightly closed while in transit, and safety devices mounted directly on each individual container or cargo tank. Manifold branch lines to these individual shutoff valves shall be sufficiently flexible to prevent injury to the valves which otherwise might result from use of rigid branch lines. Use of this authority will be permitted because of the present emergency and until further order of the Commission.

15. Superseding and amending table, paragraph (k), section 303 *Filling limit restrictions*, order August 16, 1940, to read as follows:

	Maximum permitted filling density (see sec. 300 (b))	Cylinders marked as shown in this column must be used except as provided in note 1 and sec. 303 (p) (2) to 303 (p) (6)
(Change) Dichlorodifluoromethane.	119	ICC-3A225; ICC-3H-225; ICC - 4A225, ICC-4B225.
(Add) Tetrafluorethylene, inhibited.	90	ICC-3A1200, ICC-3E-1800.

16. Amending paragraph (p) (9), section 303 *Marking on cylinders*, order August 16, 1940, as follows (add):

(p) (9) (g) When the space originally provided for dates of subsequent retests becomes filled, the stamping of additional test dates into the external surface of footrings of cylinders is authorized.

17. Superseding and amending paragraph (p) (11), section 303 *Cylinders exposed to action by fire*, order August 16, 1940, to read as follows:

(p) (11) *Cylinders exposed to action of fire.* Cylinders which have been in a fire must not again be placed in service until they have been properly heat-treated and retested as prescribed in section 303 (p) (12): *Provided*, That cylinders made of plain carbon steel with not over 0.25 percent carbon need not be heat-treated, and may be used after passing the pressure test prescribed. Acetylene cylinders, except those authorized in Spec. ICC–8 to be made of 4130X steel, need not be heat-treated or tested provided porous filling is found to be unchanged and intact.

18. Cancelling note to paragraph (a) (2), section 332 *Hydrocyanic acid, liquid*, order March 26, 1945.

19. Amending section 332 *Hydrocyanic acid, liquid*, order August 16, 1940, as follows (add):

(a) (5) Metal drums of not over 20 gallons capacity constructed of not less than 20 gauge bodies with welded side seams and not less than 18 gauge heads double seamed to bodies. Steel sheets for bodies and heads shall be low carbon open hearth or electric steel. Openings over 2.3 inches diameter not permitted. Flanges shall be welded, or riveted and soldered, or pressed in and soldered, to drums. Closures to be of the threaded plug or cap type and to be gastight but may be equipped with suitable venting device. Shipments are authorized for intrastate transportation by private and qualified contract carriers by motor vehicle only

Appendix to Part 5—Shipping Container Specifications (CFR 72)

1. Superseding and amending paragraph 15 (b), specification 3A *Specimens must be*, order July 24, 1944, to read as follows:

(b) Specimens must be: Gauge length 8 inches with width not over 1½ inches; or, gauge length 2 inches with width not over 1½ inches; provided, that gauge length at least 24 times thickness with width not over 6 times thickness is authorized when cylinder wall is not over $\frac{3}{16}$ inch thick. The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within one inch of each end of the reduced section. When size of cylinder does not permit securing straight specimens, the specimens may be taken in any location or direction and may be straightened or flattened cold, by pressure only, not by blows; when specimens are so taken and prepared, the inspector's report must show in connection with record of physical tests detailed information in regard to such specimens. Heating of specimen for any purpose is not authorized.

2. Superseding and amending specification 4D, orders August 19, 1946, and November 4, 1946, to read as follows:

SPECIFICATION 4D—INSIDE CONTAINERS—WELDED STEEL FOR AIRCRAFT USE

Containers must comply with specification 3A except as follows (paragraph references are to specification 3A):

2. (a) *Type and size.* Welded steel spheres (two seamless hemispheres) or circumferentially welded cylinders (two seamless drawn shells) not over 1100 cubic inches capacity.

(b) *Service pressure.*[1] At least 300 to not over 500 pounds per square inch.

3. *Inspection by whom and where.* By competent inspector of the manufacturer, or a disinterested inspection agency; chemical analyses and tests, as specified, to be made within the limits of the United States.

5. *Steel.* Open-hearth or electric steel of uniform and weldable quality. Content percent for the following not over: Carbon, 0.25; phosphorus, 0.045; sulfur, 0.050, except that the following steels commercially known as 4130X, Type 304, 321, and 347 stainless steels may be used with proper welding procedure and complying with the following analyses:

4130X

	Percent
Carbon	0.25/0.35.
Manganese	0.40/0.60.
Phosphorus	0.04 max.
Sulfur	0.05 max.
Silicon	0.20/0.35.
Chromium	0.80/1.10.
Molybdenum	0.15/0.25.
Zirconium	
Nickel	

	Stainless steels		
	301	321	347
	Percent	Percent	Percent
Carbon (maximum)	0.08	0.08	0.08
Manganese (maximum)	2.00	2.00	2.00
Phosphorus (maximum)	.030	.030	.030
Sulfur (maximum)	.030	.030	.030
Silicon (maximum)	.75	.75	.75
Nickel	8.0/11.0	9.0/13.0	9.0/13.0
Chromium	18.0/20.0	17.0/20.0	17.0/20.0
Molybdenum			
Titanium		(1)	
Columbium			(2)

[1] Titanium shall not be less than 5 x C and not more than 0.60 percent.
[2] Columbium shall not be less than 10 x C and not more than 1.0 percent.

[1] The service pressure limits the use of the container. It is generally shown by marks on container; for example ICC-4D300 indicates the service pressure as 300 pounds per square inch.

width not over 6 times thickness is authorized when cylinder wall is not over $\frac{3}{16}$ inch thick. The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within one inch of each end of the reduced section. When size of cylinder does not permit securing straight specimens, the specimens may be taken in any location or direction and may be straightened or flattened cold, by pressure only, not by blows; when specimens are so taken and prepared, the inspector's report must show in connection with record of physical tests detailed information in regard to such specimens. Heating of specimen for any purpose is not authorized.

8. *Manufacture.* By best appliances and methods; dirt and scale to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished container appreciably; reasonably smooth and uniform surface finish required.

8A. This paragraph does not apply.

9. (a) *Wall thickness.* The wall stress at minimum test pressure shall not exceed 24,000 pounds per square inch, except where steels commercially known as 4130X, Type 304, 321, and 347 stainless steels are used, stress at test pressure shall not exceed 37,000 pounds per square inch. Minimum wall 0.040 inch for any diameter container.

(b) Calculation for a sphere must be made by the formula:

$S = \frac{PD}{4tE}$ where S=wall stress in pounds per square inch;

P=test pressure prescribed for water jacket test, i. e., at least two times service pressure, in pounds per square inch; D=outside diameter in inches; t=minimum wall thickness in inches; E=0.85 (provides 85 percent weld efficiency factor).

(c) (Added) Calculation for a cylinder must be made by the formula:

$S = \frac{P(1.3D2 + 0.4d2)}{D2 - d2}$ where S=wall stress in pounds per square inch;

P=test pressure prescribed for water jacket test, i. e., at least two times service pressure, in pounds per square inch;

D=outside diameter in inches; d=inside diameter in inches.

11. *Openings in container.* (a) Each opening in container, except those for safety devices, must be provided with a fitting, boss, or pad, securely attached to container by brazing or by welding or by threads. If threads are used, they must comply with the following:

(1) Threads must be clean cut, even, without checks, and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the container; gaskets required, adequate to prevent leakage.

(b) Closure of fitting, boss, or pad must be adequate to prevent leakage.

13. (d) Containers must be tested as follows:

(1) Each container to at least 2 times service pressure, or

(2) One container out of each lot of 200 or less to at least 3 times service pressure. Others must be examined under pressure of 2 times service pressure and show no defects.

14. (a) *Flattening test for spheres.* Between parallel steel plates on a press with welded seam at right angles to the plates; test one sphere taken at random out of each lot of 200 or less after hydrostatic test. Any projecting appurtenances may be cut off (by mechanical means only) prior to crushing.

(b) (Added) *Flattening test for cylinders.* Between knife edges, wedge shaped, 60° angle, rounded to ½ inch radius; test one cylinder[2] taken at random out of each lot of 200 or less, after hydrostatic test.

15. (a) *Physical test for spheres.* Required on 2 specimens cut from flat representative sample plate of the same heat taken at random from the steel used to produce the sphere. This flat steel from which the 2 specimens are to be cut must receive the same heat-treatment as the spheres themselves. Sample plates to be taken for each lot of 200 or less spheres.

(b) *Specimens for spheres must be.* Gauge length 2 inches with width not over 1½ inches; provided, that gauge length at least 24 times thickness with width not over 6 times thickness is authorized when wall of sphere is not over $\frac{3}{16}$ inch thick.

(c) (Added) *Physical test for cylinders.* Required on 2 specimens cut from 1 cylinder[2] taken at random out of each lot of 200 or less.

(d) (Added) *Specimens for cylinders must be.* Gauge length 8 inches with width not over 1½ inches; or gauge length 2 inches with width not over 1½ inches; provided, that gauge length at least 24 times thickness with width not over 6 times thickness is authorized when cylinder wall is not over $\frac{3}{16}$ inch thick. The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within 1 inch of each end of the reduced section. Heating of specimen for any purpose is not authorized.

(e) (Added) Yield point for spheres and cylinders must be taken as the stress in pounds per square inch corresponding to a strain of at least 0.003 inch per inch determined under cross head speed not over ⅛ inch per minute; the zero point for strain measurement shall be taken at approximately 12,000 pounds per square inch. Provided, that "drop of beam" method is authorized for steel which has a "sharpkneed" stress-strain diagram.

16. Acceptable results for physical and flattening tests.

(a) Elongation at least 40 percent for 2 inch gauge length or at least 20 percent in other cases; yield point not over 70 percent of tensile strength; flattening test not required.

(b) Elongation at least 20 percent for 2 inch gauge length or 10 percent in other cases; flattening required to 50 percent of the original outside diameter without cracking.

17. This paragraph does not apply.

[2] For lots of 30 or less, physical and flattening tests are authorized to be made on a ring at least 8 inches long cut from each cylinder and subjected to the same heat-treatment as the finished cylinder.

18. Reheat-treatment authorized; subsequent thereto, acceptable containers must pass all prescribed tests. Repair of welded seams by welding prior to reheat-treatment authorized.

19. *On each container.* By stamping plainly and permanently only where the metal is at least 0.09 inch thick, or on a metal nameplate permanently secured to the container by means other than soft solder, or by means that would not reduce the wall thickness.

(a) ICC-***; stars to be replaced by specification number under which the container was made, followed by the service pressure (for example, ICC-4D300, etc.).

(c) Inspector's official mark, near serial number; date of test (such as 8-46 for August, 1946), so placed that dates of subsequent tests can be easily added.

20. *Size of marks.* Of sufficient size to be legible.

21. *Inspector's report.* No change, except use the words "spheres" or "cylinders," whichever applies, throughout and use the words "container" where the metal is at least 0.09 inch thick or the metal "nameplate" instead of "shoulders of cylinders" after the words "Marks stamped into the".

3. Amending specification 8, order August 16, 1940, as follows (add):

21. *Additional type.* For seamless cylinders, contracted for by the U. S. Navy or U. S. Coast Guard, made of steel commercially known as 4130X (see paragraph 5 of Specification 3AA) the prescribed limitations of carbon content, yield point, and elongation of steel are hereby waived provided the cylinders otherwise comply with this specification and the following conditions:

(a) Minimum wall thickness must be such that the wall stress under interior pressure of 1,000 pounds per square inch will not exceed 18,000 pounds per square inch when calculated under paragraph 9 (b) of Specification 3A.

(b) The elongation of the steel must be at least 20 percent in 2 inches.

(c) The test pressure under paragraph 12 of this specification must be at least 1,000 pounds per square inch.

(d) The cylinders must pass a flattening test, as prescribed in paragraph 14 of Specification 3A; flattening required, without cracking, to 6 times wall thickness.

(e) Reports of manufacture and tests of the cylinder shells must include the following additional information: Chemical analysis data on manganese, chromium, molybdenum, and other alloy materials present, if any; definite statement as to the heat-treatment used.

4. Superseding and amending paragraph 17, specification 9, order February 13, 1946, to read as follows:

17. *On each cylinder.* By embossing plainly and permanently on valve end of cylinder before heat-treatment the marks ICC-9 and registered symbol of manufacturer.

5. Superseding and amending paragraphs 3 (a) and 12 (a), specification 23G, order January 28, 1946, to read as follows:

3. (a) *Side walls.* To be not less than four-ply of continuous fiber sheets convolutely or spirally wound; combined strength to be not less than 300 pounds dry; combined thickness to be not less than 0.060 inch.

12. (a) *Material.* Box material must be not less than 300 pound test board when commercially dry.

6. Superseding and amending paragraph 17, specification 40, order February 13, 1946, to read as follows:

17. *On each cylinder.* By embossing plainly and permanently on valve end of cylinder before heat-treatment, the marks ICC-40 and registered symbol of manufacture.

7. Amending paragraph 7, specification 42E, order February 24, 1947, as follows (add):

(b) Threaded plugs, or caps, and flanges must be close fitting with gasket surfaces which bear squarely on each other when without gasket; they must have not over 12 threads per inch, with at least 3 threads engaged when gasket is in place; two 5/16 inch drainage holes are authorized in flange.

Part 4—Regulations applying particularly to carriers by rail freight (CFR 80)

1. Superseding and amending paragraph (g) (1), section 532 *Matches*, order August 16, 1940, to read as follows:

(g) (1) Carload lots of strike-anywhere (friction) matches must be loaded as compactly as possible to avoid motion within the car, especially lengthwise of the car. Protruding nails, metal band anchors or other projections on sidewalls, ends, door posts, studding, or car floors liable to puncture packages must be removed or adequately covered to prevent damage to containers of matches. Car doorways should be boarded on the inside to keep packages from contact with the doors, and the inside lining of the car should be supplemented when necessary by strips nailed to the car and close enough together to keep the boxes from being jammed against the studding and broken by high pressures on small areas. The strongest dimension of the box should be loaded lengthwise of the car.

2. Superseding and amending paragraph (c), section 548 *Application of placards*, order August 16, 1940, to read as follows:

(c) Placards applied to the sides of the box cars must be placed on doors, or close to left-hand side of door frames.

3. Superseding and amending paragraph (h), section 548 *Application of placards*, order August 19, 1946, to read as follows:

(h) Explosives placards and car certificates must be placed alongside of each other.

NOTE: Because of the present emergency and until further order of the Commission, gondola cars for the shipment of bombs or poison gas, may be placed on both sides and both ends of car.

4. Superseding and amending in part, table, paragraph (a), section 584 *Waybills, switching orders, or other billing*, order November 4, 1946, to read as follows:

	Label notation to follow entry of the article on the billing	Placard notation to follow entry of the article on the billing	Placard indorsement must be 3/8" high and appear on the billing near the space provided for the car number
For high explosives, initiating explosives and low explosives, class A, and smokeless powder for small arms in quantity exceeding 50 pounds net weight.	None	None	"Explosives."
For less dangerous explosives, class B, except smokeless powder for small arms in quantity exceeding 50 pounds net weight.	None	None	"Dangerous."

5. Superseding and amending paragraph (a) (1), section 589 *Placards on cars*, order May 8, 1947, to read as follows:

(a) (1) A car requiring car certificates and "Explosives," "Dangerous," or "Poison Gas" placards under the provisions of these regulations shall not be transported unless such freight car is at all times placarded and certificated as required by these regulations. Placards lost in transit shall be replaced at next inspection point and those not required must be removed.

6. Superseding and amending paragraph (e) (1), section 589 *Notice to crews*, order February 12, 1947, to read as follows:

(e) (1) At all terminals or other places where trains are made up by crews other than road crew accompanying the outbound movement of cars, the railroad shall execute a consecutively numbered notice showing the location in the freight train of every car placarded "Explosives." A copy of such notice shall be delivered to the train and engine crew and a copy thereof showing delivery to the train and engine crew shall be kept on file by the railroad at each point where such notice is given. At points other than terminals where train or engine crews are changed, the notice shall be transferred from crew to crew.

7. Superseding and amending paragraph (f) (1), section 589 *Position in train of cars containing explosives*, order May 8, 1947, to read as follows:

(f) (1) In a train standing or during transportation thereof, a car placarded "Explosives" shall, when the length of the train permits, be not nearer than the sixteenth car from both the engine or occupied caboose; and shall when the length of the train will not permit them to be so placed, be as near as possible to the middle of the train. When moved in a train engaged in "pickup" and "setoff" service it shall be placed not closer than the second car from the engine or second car from the caboose to avoid unnecessary switching and handling of such car enroute.

8. Superseding and amending paragraph (g) (1), section 589 *Position in train of loaded placarded tank cars*, order February 12, 1947, to read as follows:

(g) (1) In a train either standing or during transportation thereof, a placarded loaded tank car shall not, when the length of the train permits, be nearer than the sixth car from the engine or occupied caboose, but in no instance nearer than the second car in such train unless the entire train consists of such cars, or the train is engaged in "pickup" and "setoff" service.

9. Superseding and amending paragraph (i) (1) heading, section 589, order February 12, 1947, to read as follows:

POSITION IN TRAIN OF CARS PLACARDED "EXPLOSIVES" AND "POISON GAS" OR CONTAINING POISON LIQUIDS WHEN ACCOMPANIED BY CARS CARRYING GAS HANDLING CREWS.

10. Superseding and amending paragraph (a), section 596 *Inspection of tank cars*, order August 16, 1940, to read as follows:

(a) Loaded tank cars must be inspected by the carrier before acceptance at the originating points and when received in interchange to see that they are not leaking and that the air and hand brakes, journal boxes and trucks are in proper condition for service.

11. Superseding and amending paragraph (a), section 598 *Inspection of cars at interchange*, order February 26, 1942, to read as follows:

(a) Cars containing explosives requiring explosives placards (see sec. 525 (a)), which are offered by connecting lines must be carefully inspected by the receiving line on the outside, including the roof; and, if practicable, the lading must also be inspected. These cars must not be forwarded until all discovered violations have been corrected.

Part 7—Regulations Applying to Shipments Made By Way of Common, Contract or Private Carriers By Public Highway (CFR 85)

Superseding and amending footnote "a" of chart, section 825 *Loading and storage chart*, order April 27, 1944, to read as follows:

[a] Blasting caps or electric blasting caps in quantities not exceeding 1,000 caps may also be loaded and transported with all articles named except those in columns b, c, e, and f. Blasting caps and/or electric blasting caps may be transported in the same motor vehicle with high explosives or nitroglycerin, desensitized liquid nitroglycerin, or diethylene glycol dinitrate, in conformity with section 824 of these regulations.

It is further ordered, That this order shall become effective on October 28, 1947, and shall remain in full force and effect until further order of the Commission;

And it is further ordered, That a copy of this order shall be served upon all parties of record herein; and notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

PART 520—CONSERVATION OF RAIL EQUIPMENT EXCEPTIONS, PERMITS, AND SPECIAL DIRECTIONS

SHIPMENTS OF SUMMER APPLES

In accordance with the provisions of § 500.73 of General Order ODT 18A, Revised, as amended, it is hereby authorized, that:

§ 520.517 *Shipments of summer apples.* Notwithstanding the restrictions contained in § 500.72 of General Order ODT 18A, Revised, as amended, any person may offer for transportation and any rail carrier may accept for transportation at point of origin, forward from point of origin, or load and forward from point of origin, any carload freight consisting of summer apples when the origin of any such freight is any point or place in the State of Virginia and the quantity loaded as bulk freight in such car is not less than 29,000 pounds.

This General Permit ODT 18A, Revised-19A, shall become effective August 8, 1947, and shall expire October 15, 1947.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—National Wildlife Refuges, Individual Regulations

PART 29—PLAINS REGION NATIONAL WILDLIFE REFUGES

FISHING IN VALENTINE NATIONAL WILDLIFE REFUGE, NEBRASKA

Section 29.920 is revised to read as follows:

§ 29.920 *Valentine National Wildlife Refuge, Nebraska; fishing.* Non-commercial fishing in accordance with the State laws of Nebraska is permitted during the daylight hours on the waters of Dads, Dewey, Hackberry, and Willow Lakes within the Valentine National Wildlife Refuge, Nebraska, in accordance with the following provisions:

Entry on and use of this refuge for any purpose is governed by the regulations of the Secretary dated December 19, 1940 (5 F. R. 5284, 50 CFR, Cum. Sup. Part 12) as amended, and strict compliance therewith is required. Each fisherman must comply with the applicable State fishing laws and regulations, and must have on his person and exhibit at the request of any authorized Federal or State officer whatever license is required by such laws and regulations, which license shall serve as a Federal permit for fishing in the waters of the refuge.

Persons may use boats (other than motorboats) for fishing in the waters of the refuge. Boats (other than motorboats), or floated craft used for fishing purposes may be placed on the waters of the refuge only at such points as may be designated by suitable posting. The use of motorboats, either inboard or outboard, is prohibited on all waters except for official purposes.

During periods of waterfowl concentrations or other wildlife concentrations, fishing may be closed on such areas of the refuge as, in the judgment of the officer in charge, such limitations or restrictions are necessary in order to provide adequate protection for wildlife. Such limitations or restrictions are to be clearly designated by posting. Fishing is prohibited during the open season for the hunting of migratory waterfowl.

State cooperation may be enlisted in the regulation, management, and operation of the public fishing areas, and the State may promulgate such special regulations as may be necessary for such regulation, management, and operation. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of fishing.

(Sec. 84, 35 Stat. 1104 as amended, 18 U. S. C. and Sup. 1945)

Dated: July 31, 1947.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR, Part 21]

HOT SPRINGS NATIONAL PARK, ARKANSAS

NOTICE OF PUBLIC HEARINGS IN CONNECTION WITH THE LEASING OF HOT WATER

Notice is hereby given that pursuant to the authority vested in me by the acts of March 3, 1891 (26 Stat. 842; 16 U. S. C. 362–368), and August 25, 1916 (39 Stat. 535; 16 U. S. C. 1–3), a public hearing will be held at the Park Administration Building, Hot Springs National Park, Arkansas, on September 8 and 9, 1947, commencing at 10 a. m. for the purpose of reviewing and making recommendations to the Secretary with respect to the present policy on the disposition of hot water from the springs in the park. Such review will include consideration of these questions: (1) Should hot water be made available to new users and on what basis? (2) Should tubbage rights not now being used be canceled? (3) Should there be an over-all reduction in bath rates?

The hearing will be held by a committee of three consisting of John B. Bennett of the Office of the Secretary, who will act as chairman; Preston P. Patraw, Finance Officer, National Park Service; and either Miner R. Tillotson, Regional Director, or Elvind T. Scoyen, Associate Regional Director, Region III, National Park Service.

All interested parties will be afforded an opportunity to be heard. Those desiring to be heard should inform Superintendent Thomas Boles at Hot Springs National Park of their intention in writing before September 1, 1947. Written statements may also be filed with the committee at the time of the hearing.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Ch. IX]

[Docket No. AO 187]

HANDLING OF IRISH POTATOES GROWN IN WYOMING AND WESTERN NEBRASKA

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements (7 CFR and Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held in the High School Auditorium at Scottsbluff, Nebraska, beginning at 10:00 a. m., m. s. t., August 25, 1947, with respect to a proposed marketing agreement and order regulating the handling of Irish potatoes grown in Wyoming and Western Nebraska and with respect to proposed changes thereto. The proposed marketing agreement and order and the proposed changes thereto have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions which relate to the provisions of the proposed marketing agreement and order, to the provisions of the proposed changes thereto, or to any modifications of said proposals, which are hereinafter set forth. A committee of producers and handlers was appointed early in May to draft an agreement and order for Wyoming and Western Nebraska. The committee proposed the following marketing agreement and order:

SECTION 1. *Definitions.* As used herein, the following terms have the following meanings:

(a) "Secretary" means the Secretary of Agriculture of the United States, or any other officer or member of the United States Department of Agriculture who is or may hereafter be authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

(b) "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937); 7 U. S. C. 601 et seq., Supp. 5, 1939), as amended.

(c) "Person" means an individual, partnership, corporation, association, legal representative, or any organized group or business unit of individuals.

(d) "Production area" means and includes the following counties in Nebraska: Sioux, Scotts Bluff, Banner, Kimball, Cheyenne, Morrill, Box Butte, Dawes, Sheridan, Cherry, Garden, Deuel, Keith, and Lincoln; and the following counties in Wyoming: Laramie, Platte, Goshen, Niobrara, Converse, Park, Sheridan, Johnson, Fremont, and Washakie.

(e) "Potatoes" means all varieties of Irish potatoes grown in the aforesaid production area.

(f) "Handler" is synonomous with shipper and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes in fresh form, whether of his own production or other.

(g) "Ship" means to transport, sell, or in any other manner place potatoes in the current of commerce between the aforesaid production area and any point outside thereof, so as directly to burden, obstruct or affect such commerce.

(h) "Producer" means any person engaged in the production of potatoes for market.

(i) "Fiscal year" means the period beginning on July 1 of each year and ending June 30 of the following year.

(j) "Committee" means the Administrative Committee established pursuant to section 2.

(k) "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

(l) "Seed potatoes" means and includes all potatoes officially certified and tagged, marked, or otherwise appropriately identified, by an official State seed certifying agency.

(m) "District" means, describes, and refers to one of the geographical divisions of the production area hereby established as follows:

District No. 1.—Kimball, Banner, Cheyenne, Deuel Counties in Nebraska and Laramie County in Wyoming.

District No. 2.—Scotts Bluff, Morrill, Sioux, Box Butte, Dawes, Sheridan, Cherry, Garden, Keith, and Lincoln Counties in Nebraska and Platte, Goshen, Niobrara, Converse, Sheridan, and Johnson Counties in Wyoming.

District No. 3.—Fremont, Park, and Washakie Counties in Wyoming.

SEC. 2. *Administrative committee*—(a) *Establishment and membership.* (1) An Administrative Committee, consisting of nine members, six of whom shall be producers and three of whom shall be handlers, is hereby established. For each member of the committee, there shall be an alternate member, who shall have the same qualifications as the member.

(2) Producers who may be selected as members or alternates of the committee shall be individuals who are producers of potatoes in the respective district for which selected or officers or employees of a corporate producer or corporate producers of such district: *Provided*, That no producer shall be eligible for selection on said committee if such producer has been, during the then current fiscal year, engaged in handling potatoes other than of his own production, except as an officer or employee of a producer's cooperative marketing association. The handlers who may be selected as members or alternates of the committee shall be individuals who are handlers of potatoes in the respective district for which selected or officers or employees of a handler or handlers in such district.

(b) *Term of office.* The term of office of members and alternates of the committee shall be for one year beginning on the first day of July and continuing until the end of the then current fiscal year, and until their successors are selected and qualify. Members and alternates of the committee shall serve during the fiscal year for which they are selected and qualify, or during that portion thereof beginning on the date on which they qualify during the fiscal year and continuing until the end thereof, and until their successors are selected and have qualified.

(c) *Initial committee members and alternates.* The initial members and alternates of the committee shall be selected by the Secretary for a term of office ending on June 30, 1948. In thus selecting the initial members and their respective alternates the Secretary may consider such nominations or suggestions, if any, as may be submitted by producers, handlers, and/or groups thereof, and such nominations or suggestions may be by virtue of elections conducted by groups of producers and groups of handlers.

(d) *Nominations.* (1) Except for initial members and alternates, the Administrative Committee shall hold or cause to be held prior to June 15 of each year, after the effective date hereof, a meeting of producers and a meeting of handlers, in each of the districts designated in section 1 (m) hereof, for the purpose of designating nominees from among whom the Secretary may select members and alternates of the committee, and at each such meeting at least two nominees shall be designated for each position as member and as alternate member on the committee as representative or representatives of the respective district. (2) In arranging for such meetings, the Administrative Committee may, if it deems such to be desirable, utilize the services and facilities of existing organizations and agencies. (3) Nominations for successors to the committee members shall be supplied to the Secretary in such manner and form as he may prescribe, not later than fifteen days prior to the date of expiration of the terms of the incumbent members and alternate members. (4) Each producer is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for membership on the committee for the respective district in which such producer is engaged in producing potatoes: *Provided*, That in the event a producer is engaged in producing potatoes in more than one district, such producer shall elect the district within which he shall participate in designating nominees as aforesaid. Each producer shall be entitled to cast only one vote regardless of the number of districts in which he produces potatoes. Only producers may participate in designating nominees for producer members and alternates. Each handler is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for membership on the committee for the respective district in which such handler is engaged in handling potatoes: *Provided*, That in the event a handler is engaged as a handler in more than one district, such handler shall elect the district which he may participate within in designating nominees. Each handler shall be entitled to cast only one vote regardless of the number of districts in which he may be engaged as a handler. The Secretary may select the producer members of the Administrative Committee and their respective alternates, subsequent to the initial members and alternates, from nominations made by producers as provided in this section. The Secretary may select handler members of the Administrative Committee and their respective alternates, subsequent to the initial members and alternates, from nominations made by handlers as provided in this section.

(e) *Selection.* The Secretary shall select one producer member and one handler member, with their respective alternates, to represent District No. 1 four producer members and two handler members, with their respective alternates, to represent District No. 2, and one producer member, with his respective alternate, to represent District No. 3.

(f) *Failure to nominate.* If nominations are not made within the time and in the manner specified by the Secretary pursuant to paragraph (d) of this section, the Secretary may, without regard to nominations, select the members and alternate members of the committee, which selection shall be on the basis of the representation provided for herein.

(g) *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

(h) *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate member, a successor for his unexpired term may be selected by the Secretary from nominations made in the manner specified in paragraph (d) of this section, or the Secretary may select such member or alternate member from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available to the Secretary within thirty days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for herein.

(i) *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is alternate during such member's absence. In the event of death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for the unexpired term of such member is selected and has qualified.

(j) *Procedure.* (1) Seven members shall be necessary to constitute a quorum of the committee. Any action of the committee shall require six concurring votes. (2) The committee may provide procedure for meeting by telephone, telegraph, or other means of communications, and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided*, That if an assembled meeting of the committee is held all votes shall be cast in person.

(k) *Expenses and compensation.* The members of the committee and their respective alternates when acting as members, may be reimbursed for expenses necessarily incurred by them in performance of their duties and in the exercise of their powers hereunder, and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $5.00 per each day or portion thereof, spent in attendance at meetings of the committee. The committee shall have the power to pay expenses incurred by members in performance of official duties.

(l) *Powers.* The committee shall have the following powers:

(1) To administer the provisions hereof in accordance with its terms;

(2) To make rules and regulations to effectuate the terms and provisions hereof;

(3) To receive, investigate, and report to the Secretary complaints of violation of the provisions hereof;

(4) To recommend to the Secretary amendments hereto.

(m) *Duties.* It shall be the duty of the committee:

(1) To act as intermediary between the Secretary and any producer or handler;

(2) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(3) To investigate the growing, shipping, and marketing conditions with respect to potatoes and to assemble data in connection therewith;

(4) To furnish to the Secretary such available information as he may request;

(5) To select subcommittees of committee members, a chairman and such other officers as may be necessary, and to adopt such rules and regulations for conduct of its business as it may deem advisable;

(6) At the beginning of each fiscal year, to submit to the Secretary a budget of its expenses for such fiscal year, together with a report thereon;

(7) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant hereto; a copy of each such report shall be furnished to the Secretary and a copy of each of such report shall be made available at the principal office of the committee for inspection by producers and handlers.

(8) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the salaries and define the duties of each such person, and

(9) To consult, cooperate and exchange information with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives hereunder.

(n) *Obligations.* Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds, together with all books and records, in his possession, to his successor in office or to a trustee designated by the Secretary and shall execute such assignments and other instruments as

may be necessary or appropriate to vest in such successor or trustee full title to all of the property, funds, and claims vested in such member pursuant hereto: *Provided*, That the provisions hereof shall apply to alternate members in possession of funds, property, books or records, or participating in the receipt or disbursement of funds.

SEC. 3. *Expenses and assessments*—(a) *Expenses*. The committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out the functions of the committee pursuant to the provisions hereof during each fiscal year. The funds to cover such expenses shall be acquired by levying assessments as hereinafter provides.

(b) *Assessments*. (1) Each handler who first handles potatoes shall, with respect to the potatoes so handled by him, pay to the committee such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers. (2) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Such increase shall be applicable to all potatoes handled during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

(c) *Accounting*. (1) If, at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year, unless he demands payment thereof, in which event such proportionate refund shall be paid to him. (2) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

(d) *Funds*. All funds received by the Administrative Committee pursuant to any provision hereof shall be used solely for the purposes herein specified and shall be accounted for in the following manner: (1) The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements; and (2) whenever any person ceases to be a member of the committee, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and [illegible] as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member.

SEC. 4. *Regulation of quality—(a) Marketing policy*. At the beginning of each fiscal year, the committee shall prepare and submit to the Secretary a report setting forth its proposed policy for the marketing of potatoes during such fiscal year. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, the committee shall formulate a new marketing policy and shall submit a report thereof to the Secretary. The committee shall notify producers and handlers of the contents of such reports.

(b) *Recommendations for regulations*. (1) It shall be the duty of the committee to investigate the supply and demand conditions for grade, size, and quality of all varieties of potatoes, including seed potatoes. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grades, sizes, or qualities of any or all varieties of potatoes, including seed potatoes. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grades, sizes, or qualities of any or all varieties of potatoes, including seed potatoes, during any period, it shall recommend to the Secretary the particular grades, sizes, and qualities, or any combination thereof, of all varieties of such potatoes deemed advisable to be shipped during such period. (2) In determining the grade, size, and qualities of all varieties of potatoes including seed potatoes, or any and all combinations thereof deemed advisable to be regulated in view of the prospective demand thereof, the committee shall give due consideration to the following factors: (i) Market prices, including prices by grades, sizes, and varieties of potatoes for which regulation is recommended; (ii) potatoes on hand in the market areas as manifested by supplies en route and on tract at the principal markets; (iii) available supply, quality, and condition of potatoes in the production area and other production areas; (iv) supplies from competing areas and regions producing potatoes; (v) the trend and level of consumer income, and (vi) other relevant factors.

(c) *Issuance of regulations*. Whenever the Secretary shall find, from the recommendations, information and evidence submitted by the committee, or from other available information, that to limit the shipment of any or all varieties of potatoes, including seed potatoes, to particular grades, sizes, and qualities thereof would tend to effectuate the declared policy of the act, he shall so limit by appropriate regulations thereon the shipments of such potatoes during a specified period. The Secretary may require the committee to submit additional information. The Secretary shall notify the committee of any such regulation and the committee shall give reasonable notice thereof to handlers.

(d) *Inspection and certification*. Whenever limitations on potato shipments are in effect, each first handler shall, prior to making each shipment of potatoes, cause each shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Then each handler shall make arrangements with the inspecting agency to forward promptly to the committee a copy of the inspection certificate, issued as aforesaid.

(e) *Exemptions*. (1) The committee shall adopt, subject to approval by the Secretary, and give public notice of the procedure pursuant to which certificates of exemption will be issued to producers. (2) The committee shall cause to be issued certificates of exemption to any producer who furnished adequate evidence to the committee that by reason of a regulation issued pursuant to this section he will be prevented from having as large a proportion of his own production of any specified variety or varieties of potatoes shipped during the remainder of the shipping season, as the average of all producers of each specified variety or varieties. The committee or its authorized representative shall be permitted at any time to make a thorough investigation of any producer claim pertaining to exemptions. Such certificates of exemption shall permit such producer to have as large a proportion of his own production of any specified variety or varieties of potatoes shipped as the average of all producers of each specified variety or varieties. (3) If any producer is dissatisfied with the determination by the committee with respect to the producer's application for an exemption certificate, said producer may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any producer filing an appeal shall furnish evidence satisfactory to the committee, for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the certificate of exemption to be granted. The committee shall notify the appellant of the final determination and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination. (4) The Secretary shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to this section. (5) Records shall be maintained by the committee and a weekly report furnished to the Secretary showing the applications received, exemptions granted, exemptions denied and shipments made under exemptions.

SEC. 5. *Regulation of surplus*. (a) It shall be the duty of the committee to investigate supply and demand conditions for potatoes. Whenever the committee finds that a surplus of potatoes exists in the production area, it shall determine the extent of such surplus of potatoes of any variety, grade, size or quality. If it is deemed advisable, the committee shall recommend the control and disposition of such surplus potatoes and plans for equalizing the burden of surplus elimination or control among the producers and handlers thereof under uniform rules established by the committee and approved by the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee, or from other available information, that the control and disposition of surplus potatoes will tend to effectuate the declared policy of the act, he shall, by appropriate regulations, control and dispose of such surplus potatoes and shall further provide for equalizing the burden of such surplus elimination or control among producers and handlers thereof. At any time during which the Secretary provides for the control and disposition of surplus potatoes, the Secretary may designate the committee as an agency to assist in and to effectuate the elimination or control of surplus potatoes.

SEC. 6. *Potatoes not subject to regulation*. Nothing contained herein shall authorize any limitation of the shipment of potatoes for any of the following purposes: (a) potatoes shipped for consumption by charitable institutions or for distribution by relief agencies, and (b) potatoes shipped for manufacturing or conversion into by-products. The Secretary may, on the basis of the recommendations of the committee or other available information, determine that potatoes shipped for livestock feed or for other specified purposes shall also be exempt from the provisions hereof. The Secretary shall give adequate notice to the committee of any determination made pursuant to this section. The committee may prescribe adequate safeguards to prevent potatoes shipped for the purposes stated above from entering commercial channels of trade contrary to the provisions hereof.

SEC. 7. *Reports*. Upon the request of the committee, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its duties hereunder. The Secretary shall have the right to modify, change or rescind any reports requested pursuant to this section.

SEC. 8. *Compliance*. Except as provided herein, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions hereof, and no handler shall ship potatoes except in conformity to the provisions hereof.

SEC. 9. *Right of the Secretary*. The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

SEC. 10. *Effective time and termination—(a) Effective time*. The provisions hereof shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

(b) *Termination*. (1) The Secretary may, at any time, terminate the provisions hereof by giving at least one day's notice by means of a press release or in any other manner which he may determine. (2) The Secretary may terminate or suspend the operations of any or all of the provisions hereof whenever he finds that such provisions do not tend to effectuate the declared policy of the act. (3) The Secretary shall terminate the provisions hereof at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such year, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effected only if announced on or before June 30 of the then current fiscal year. (4) The Secretary shall terminate the provisions hereof at the end of any fiscal year, upon the written request of handlers signatory hereto who submit evidence satisfactory to the Secretary that they handled not less than sixty-seven percent of the total volume of potatoes handled by the signatory handlers during the preceding fiscal year; but such termination shall be effective only if announced on or before June 30 of the then current fiscal year.[1] (5) The provisions hereof shall, in any event, terminate whenever the provisions of the act authorizing them, cease to be in effect.

(c) *Proceedings after termination*. (1) Upon the termination of the provisions hereof, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all funds and the property then in the possession of, or under control of the committee, including claims for any funds unpaid, or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(3) Any person to whom funds, property, or claims have been transferred, or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

SEC. 11. *Effect of termination or amendment*. Unless otherwise expressly provided by the Secretary, the termination hereof, or of any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise in connection with any provision hereof, or any regulation issued hereunder, or (b) release or extinguish any violation hereof, or of any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary, or of any other person with respect to any such violation.

SEC. 12. *Duration of immunities*. The benefits, privileges, and immunities conferred upon any person by virtue hereof shall cease upon the termination hereof, except with respect to acts done under and during the existence hereof.

SEC. 13. *Agents*. The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

SEC. 14. *Derogation*. Nothing contained herein is, or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or in accordance with such powers, to act in the premises whenever such action is deemed advisable.

SEC. 15. *Personal liability*. No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

SEC. 16. *Separability*. If any provision hereof is declared invalid, or the applicability thereof to any persons, circumstances, or thing is held invalid, the validity of the remainder hereof, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

SEC. 17. *Amendments*. Amendments hereto may be proposed from time to time, by the committee or by the Secretary.

SEC. 18. *Counterparts*. This agreement may be executed in multiple counterparts and when one counterpart is signed by the secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

SEC. 19. *Order with marketing agreement*. Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of potatoes in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[1]

[1] Applicable only to the proposed marketing agreement.

SEC. 20. *Additional parties.* After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

The Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington, D. C., has proposed the following changes in, to and for provisions of the proposed marketing agreement and order:

1. Change section **1** (d) to read as follows:

(d) "Production area" means and includes the following counties in Nebraska, Sioux, Scotts Bluff, Banner, Kimball, Cheyenne, Morrill, Box Butte, Dawes, Sheridan, Cherry, Garden, Deuel, Keith, and Lincoln, and all the counties in the State of Wyoming.

2. Change section 1 (m) to read as follows:

(m) "District" means, describes, and refers to one of the geographical divisions of the production area hereby established as follows:

District No. 1. Kimball, Banner, Cheyenne, Deuel Counties in Nebraska and Laramie County in Wyoming.

District No. 2. Scotts Bluff, Morrill, Sioux, Box Butte, Dawes, Sheridan, Cherry, Garden, Keith, and Lincoln Counties in Nebraska, and Platte, Goshen, Niobrara, Converse, Sheridan, and Johnson Counties in Wyoming.

District No. 3. All the remaining counties in Wyoming not included in Districts No. 1 and No. 2.

The Fruit and Vegetable Branch, Production and Marketing Administration, further proposed that consideration be given to such other changes in the proposed marketing agreement and order as may be necessary to make such marketing agreement and order conform to the provision of the substitutions, additions and changes proposed by it. Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture, Room 0306, South Building, Washington 25, D. C., or may be there inspected.

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

NOTICE OF PROPOSED PACK SPECIFICATIONS AND MINIMUM REQUIREMENTS

Notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237), approved June 11, 1946, that the administrative rules herein set forth are proposed by the Walnut Control Board in accordance with the authority vested in it by the marketing agreement, as amended, and section 1 of Article III (§ 901.4 (a)) of the marketing order, as amended (7 CFR 901.1 et seq.; 7 CFR, Cum. Supp. 901.4, 901.17, 901.19; 12 F. R. 5033), regulating the handling of walnuts grown in California, Oregon, and Washington, issued under Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.)

Prior to the final issuance of such rules, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Walnut Control Board, 213 Wholesale Terminal Building, Los Angeles 21, California, and which are received by it not later than 1:00 p. m., P. s. t., on the tenth day after the date of the publication of this notice in the FEDERAL REGISTER.

Such proposed rules are as follows:

Pack specifications and minimum requirements for merchantable unshelled walnuts—(a) *Size and variety or type specifications*—(1) *Varietal packs.* Merchantable walnuts when packed separately by varieties, within a 10 percent tolerance for dissimilar varieties, shall be designated by the recognized variety name or as "Budded". When packed in combination, walnuts of recognized varieties of similar type with respect to shape and construction or varietal derivation, shall also be designated as "Budded".

(i) *Standard sizes*—(a) *Large.* Walnuts of which not over 12 percent by count pass through a round opening $^{75}/_{64}$ inches in diameter.

(*b*) *Medium.* Walnuts at least 88 percent, by count, of which pass through a round opening $^{75}/_{64}$ inches in diameter and of which not over 12 percent by count pass through a round opening $^{71}/_{64}$ inches in diameter.

(c) *Babies.* Walnuts at least 88 percent, by count, of which pass through a round opening $^{71}/_{64}$ inches in diameter and of which not over 10 percent by count pass through a round opening $^{69}/_{64}$ inches in diameter.

(ii) *Special sizes*—(a) *Mammoth.* Walnuts of which not over 12 percent by count pass through a round opening $^{98}/_{64}$ inches in diameter.

(*b*) *Jumbo.* Walnuts of which not over 12 percent by count pass through a round opening $^{82}/_{64}$ inches in diameter.

(c) With the exception of Babies, varietal packs shall be designated by both size and variety; i. e., Large Budded, Medium Franquettes, Mammoth Willson Wonders, Jumbo Mayettes, etc.

(*d*) Babies may be packed separately and designated by variety; or Baby sizes of the Eureka, Franquette, and Payne varieties may be packed separately or in combination and designated as Long Type Babies (or Selected Small). Placentia type Babies of which at least 90 percent by count will not pass through a round opening $^{67}/_{64}$ inches in diameter may also be packed separately or in combination with Franquette or Payne varieties and designated as Long Type Babies.

(c) Willson Wonders of Jumbo size may be designated as Extra Large Willson Wonders.

(2) *Seedling or mixed packs.* Walnuts produced from seedling trees or walnuts of recognized varieties of dissimilar types packed in combination, shall be graded in accordance with the same sizes specified for varietal packs and designated, respectively, as Large Soft Shells, Medium Soft Shells, and Baby Soft Shells, except that Baby Soft Shells may be designated as Round Type Babies and the following pack is also authorized:

(i) *No. 1's or No. 1 Soft Shell.* Walnuts produced from seedling trees or walnuts containing more than 10 percent of dissimilar varieties and of which not over 12 percent by count pass through a round opening 74/64 inches in diameter.

(ii) Soft Shells of Mammoth size may be designated as Mammoth Specialty Grade. This designation is specifically provided for walnuts of the Bijou, Klondyke, Mammoth Mayette or other abnormally large varieties packed in combination and meeting the size specifications for "Mammoth".

(b) *External appearance and condition.* Merchantable walnuts must be free of excessively dirty nuts, nuts affected by adhering hulls, dark spots, and nuts having perforated or broken or split shells, except that the following tolerances, by count, shall be permitted within the packs specified: 1st Quality Grade, 10 percent for splits and an additional 5 percent for defects other than splits; 2d and 3d Quality Grades, 10 percent for splits and an additional 10 percent for defects other than splits. In determining the percentage of externally defective walnuts in a lot, all walnuts affected as follows shall be considered as not free from defects:

(1) *Excessively dirty nuts.* Walnuts with shells coated or caked with adhering dirt or other foreign matter so as to seriously damage the appearance. Walnuts with slightly chalky deposits on the shells shall not be considered excessively dirty.

(2) *Adhering hull.* Walnuts the shells of which have adhering to them any portion of the hull.

(3) *Dark spots.* Discoloration or stains contrasting with the color of the remainder of the shell which result in unclean or unsightly appearance or render a given pack of walnuts unattractive.

(4) *Perforated shells.* Walnuts with improperly developed areas on the shell resembling abrasions and usually including small holes penetrating the shell wall, if an area of surface aggregating more than three-eighths of an inch in diameter is affected.

(5) *Broken shells.* Walnuts with any material portion of the shell missing or with the halves completely broken apart or separated.

(6) *Split shells or splits.* Walnuts with the shell halves completely separated but held together by the kernel.

(c) *Quality grade specifications.* The quality grade of any lot of walnuts shall be the highest quality grade to which such lot is eligible under the following specifications. Within a 5 percent tolerance, no quality grade shall be given any lot of walnuts unless the kernels are well dried (firm and crisp). A kernel, as referred to herein, means all of the non-fibrous content of one individual walnut, i. e., two halves, four quarters, etc. The color chart referred to in these specifications as the WCB color chart is the chart adopted June 15, 1944 by the then Program Committee under War Food Order 82, and is available for inspection at the office of the Walnut Control Board, 213 Wholesale Terminal Building, Los Angeles 21, California.

(1) First Quality Grade Walnuts shall contain not less than 90 percent (by count) of nuts the kernels of which are free from defects, except that not less than 95 percent, by count shall be free from insect damage. At least 50 percent of the kernels in any lot shall be light in color in accordance with the WCB color chart; only sound kernels shall be scored "light". In determining the percentage of sound kernels in a lot of walnuts for qualification as of First Quality Grade, all walnuts the kernels of which show the following defects shall not be considered as sound:

(i) *Insect damage.* Kernels affected in any way by codling moth larvae, ants, moths, beetles, or any other insects.

(ii) *Moldy kernels.* Kernels showing on their surface mold readily discernible to the eye, except that kernels bearing a few loose filaments of white or light gray mold which are easily blown off shall not be considered moldy.

(iii) *Shriveled kernels.* Kernels which are noticeably shrunken, leathery or tough as distinguished from kernels which are fully developed. A kernel with one-eighth or more of its surface affected by shriveling shall be considered as noticeably shrunken and scored as unsound. Kernels which are thin in cross section but which otherwise are normally developed shall not be considered shriveled. *Provided*, That with respect to walnuts produced in the states of Oregon and Washington, kernels shriveled one-eighth or more but less than one-half shall be scored one-half sound. However, in any 100 nuts not more than 10 such nuts may be combined to make 5 percent sound; each additional such nut shall count as one percent defective.

(iv) *Blanks.* Walnuts with kernels so shrunken or improperly matured as to be inedible or worthless.

(v) *Rancid kernels.* Kernels which have a decomposed appearance or a rancid taste.

(vi) *Black kernels.* Kernels as dark or darker in color than those illustrated in row "E" of the WCB color chart.

(2) Second quality grade walnuts shall contain not less than 86 percent, by count, of kernels practically free from defects, except that 90 percent of the kernels shall meet the minimum specifications established herein for third quality grade. At least 30 percent of the kernels in any lot shall be light in color in accordance with the WCB Color Chart; only sound kernels shall be scored "light". In determining the percentage of sound kernels in a lot of walnuts for qualification as of second quality grade, all walnuts showing the defects described under first quality grade, shall not be considered as sound, except that:

(i) *Partially moldy kernels.* Kernels affected by a slight covering of white or gray mold which does not affect more than one-fourth of the surface of the kernel will be classed as sound.

(ii) *Shriveled kernels.* The provisions under first quality grade for scoring shriveled kernels in walnuts produced in the States of Oregon and Washington shall apply to California walnuts in scoring for shriveling under second quality grade.

(3) *Third Quality Grade Walnuts.* The minimum requirements for this grade are the minimum specifications for quality and soundness for merchantable walnuts. Third Quality Grade shall contain not less than 90 percent, by count, of passable kernels. In determining the percentage of passable kernels in a lot of walnuts, all walnuts, the kernels of which show the following defects, shall not be considered passable:

(i) *Insect damage.* Kernels affected in any way by codling moth larvae, ants, moths, beetles, or any other insects.

(ii) *Moldy kernels.* Kernels on which there is fruiting mold of any description, or mold mycelia affecting more than one-fourth of the surface of the kernel.

(iii) *Shriveled kernels.* Kernels which are edible but so shriveled as to be one-half or less than half the normal size. Each shriveled kernel shall be classed as half sound; that is, two such kernels shall be counted as one sound and one defective kernel.

(iv) *Blanks.* Walnuts with kernels so shrunken or improperly matured as to be inedible or worthless.

(v) *Rancid.* Kernels which have a decomposed appearance or a rancid taste.

NOTICES

DEPARTMENT OF THE INTERIOR

Office of the Secretary

ALASKA

NOTICE FOR FILING OBJECTIONS TO PUBLIC LAND ORDER NO. 386 WITHDRAWING PUBLIC LANDS NEAR NORTHWAY AND TANACROSS, ALASKA, FOR CLASSIFICATION AND SURVEY

Notice is hereby given that for a period of 90 days from the date of publication of this notice, persons having cause to object to the terms of Public Land Order No. 386[1] of July 31, 1947, withdrawing the following-described land for classification and survey, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

NORTHWAY

All that part of a tract of land, lying on the south side of the Tanana River, more particularly described as follows:

Beginning at a point on left bank of Tanana River, opposite the mouth of Gardiner Creek, approximate latitude 62°50' N., approximate longitude 141°32' W., U. S. G. S. map, Topographic Reconnaissance Map, Upper Tanana Valley, 1922;

Thence S. 45° W., 10 miles;

Thence N. 55° W., approximately 22 miles, crossing Nabesna River to east bank of the Kalutna River;

Thence northwesterly following east bank of Kalutna to the south bank of the Tanana River;

Thence southeasterly upstream, following left bank of Tanana River to the place of beginning;

containing an estimated area of 325 sq. mi. (208,000 acres).

TANACROSS

All that part of a tract of land, lying on the north side of the Tanana River, more particularly described as follows:

Beginning at a point on right bank of Tanana River, approximate latitude 63°23'40" N., longitude 143° 40' W., U. S. G. S. map, Topographic Reconnaissance Map Upper Tanana Valley 1922, and about 10 miles by airline down-river from Tanacross Indian Village;

Thence northwesterly, approximately 2 miles to the summit of the divide between the streams flowing westerly into the Tanana River and streams flowing northerly and easterly into Lake Mansfield drainage basin;

Thence northerly along said divide to the watershed between the tributaries of George Creek and the streams flowing into Lake Mansfield drainage;

Thence northeasterly along that divide to the watershed between Wolf Creek and the streams flowing into Lake Mansfield drainage;

Thence along the divide, between streams flowing into the Yukon River drainage and those flowing into the Tanana River, to the watershed on the west of Porcupine Creek;

Thence southwesterly along said watershed to the right bank of the Tanana River, approximate latitude 63°24' N., longitude 142°56' W.;

Thence following the right bank of Tanana River, westerly, down-stream, to the place of beginning.

This area includes the drainage basin on the north side of the Tanana River between the initial point and the western boundary of the Porcupine Creek Valley.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8363, 8364, 8395]

TWIN CITIES BROADCASTING CORP (WDGY) ET AL.

CORRECTED ORDER TO SHOW CAUSE

In re applications of Twin Cities Broadcasting Corporation (WDGY), Minneapolis, Minnesota, Docket No. 8363, File No. BP-5429, for construction permit; Pontiac Broadcasting Company (WCAR), Detroit, Michigan, Docket No. 8364, File No. BP-5971, for construction permit; and modification of broadcast license of Twin Cities Broadcasting Corporation (WDGY), Minneapolis, Minnesota, Docket No. 8395, File No. BS-669.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 3d day of June 1947;

It appearing, that Twin Cities Broadcasting Corporation (WDGY) is presently licensed to operate Station WDGY at Minneapolis, Minnesota, on the frequency 1130 kilocycles, with 5 kilowatts power daytime, and with 500 watts power between local sunset and sunset at Albuquerque, New Mexico; and that Station KWKH, Shreveport, Louisiana, is assigned the use of that frequency, with 50 kw power, unlimited time; and

It further appearing, that the operation of Station WDGY between sunset at Minneapolis, Minnesota, and sunset at Albuquerque, New Mexico, causes co-channel interference to the 1.32 mv/m groundwave service contour and to the 1.11mv/m sky wave service contour of Station KWKH, Shreveport, Louisiana; and

It further appearing, that the Commission on April 30, 1947, designated for hearing in a consolidated proceeding the applications of Twin Cities Broadcasting Corporation (WDGY) (File No. BP-5429; Docket No. 8363), requesting a construction permit to operate Station WDGY at Minneapolis, Minnesota, on 1130 kilocycles, with 50 kilowatts power, unlimited time, using directional antenna, and Pontiac Broadcasting Company (WCAR) (File No. BP-5971; Docket No. 8364), requesting a construction permit to operate Station WCAR at Detroit, Michigan, on 1130 kilocycles, with 50 kilowatts power, unlimited time, using directional antenna; and

It further appearing, that, pursuant to section 312 (b) of the Communications Act of 1934, any station license may be modified by the Commission either for a limited time or for the duration of the term thereof, if in the judgment of the Commission such action will promote the public interest, convenience and necessity, provided that no such order of modification shall become final until the holder of such outstanding license shall have been notified in writing of the proposed action and the grounds or reasons therefor and shall have been given reasonable opportunity to show cause why such an order of modification should not issue;

It is ordered, That, pursuant to section 312 (b) of the Communications Act of 1934, as amended, opportunity be, and it is hereby, afforded Twin Cities Broadcasting Corporation, licensee of Station WDGY, Minneapolis, Minnesota, to show cause at a hearing before the Commission, at a time and place to be designated by subsequent order of the Commission, why the existing station license issued to said Twin Cities Broadcasting Corporation (WDGY) should not be modified so as to authorize operation on 1130 kilocycles with 5 kilowatts power either daytime only, or with directional antenna or other means to avoid causing interference to the normally protected primary service (0.1 mv/m contours day) and the secondary nighttime service (0.5—50% skywave contour) of Station KWKH; and that International Broadcasting Corporation (KWKH), Shreveport, Louisiana, be, and it is hereby made a party to this proceeding.

It is further ordered, That the above-ordered hearing to show cause be, and it is hereby, consolidated with the above-described consolidated hearing on the said applications of Twin Cities Broadcasting Corporation (WDGY) and Pontiac Broadcasting Company (WCAR) for construction permits; and that the order of April 30, 1947, designating for consolidated hearing the said applications for construction permits, be, and it is hereby, amended to make § 1.857 of the Commission's rules and regulations applicable to the entire proceeding.

DOUGLAS L. CRADDOCK (WLOE)

CORRECTED ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Douglas L. Craddock (WLOE), Leaksville, North Carolina, Docket No. 8427, File No. BML-1253, for modification of license.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of June 1947;

The Commission having under consideration the above-entitled application requesting an increase of power from 100 w to 250 w at Station WLOE, Leaksville North Carolina, and a petition filed by Radio Roanoke, Incorporated, licensee of station WROV, Roanoke, Virginia, requesting that said application be designated for hearing and that petitioner be made a party thereto;

It is ordered, That the petition of Radio Roanoke, Incorporated, be, and it is hereby granted, and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Douglas L. Craddock be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station WLOE as proposed and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of the station as proposed would involve objectionable interference with stations WROV, Roanoke, Virginia; WDNC, Durham, North Carolina; WSSB Durham, North Carolina; WBIG, Greensboro, North Carolina, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of the station as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of station WLOE as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Radio Roanoke, Incorporated, licensee of station WROV, Roanoke, Virginia; Durham Radio Corporation, licensee of station WDNC, Durham, North Carolina; Public Information Corporation, licensee of station WSSB, Durham, North Carolina, and North Carolina Broadcasting Company, Incorporated, licensee of station WBIG, Greensboro, North Carolina, be, and they are hereby, made parties to this proceeding.

By the Commission.

[Docket Nos. G-834, G-839, G-918]

AUSTIN FIELD PIPE LINE CO. AND MICHIGAN CONSOLIDATED GAS CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

Upon consideration of the application filed on June 27, 1947, at Docket No. G-918, by Michigan Consolidated Gas Company (Michigan Consolidated), a Michigan corporation having its principal place of business at Detroit, Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural-gas facilities, and the operation of other such facilities, or, in the alternative, a finding by the Commission that such construction and operation are not subject to the requirements of said section 7 of the Natural Gas Act, as amended, all as more fully described in such application on file with the Commission and open to public inspection, public notice thereof having been given, including publication in the FEDERAL REGISTER on July 19, 1947 (12 F. R. 4834); and

It appearing to the Commission that:

(a) Pursuant to the Commission's order of March 20, 1947, hearings were held on April 14 to 23, 1947, inclusive, upon the applications filed by Austin Field Pipe Line Company (Austin Company) at Docket No. G-834 and Michigan Consolidated at Docket No. G-839, the proceedings upon which had been consolidated for the purpose of hearing.

(b) On May 1, 1947, Panhandle Eastern Pipe Line Company (Panhandle Eastern), an intervener, acting pursuant to the provisions of Rule 28 of the Commission's rules of practice and procedure (effective September 11, 1946) (18 CFR 1.28), including prior notice of its intention so to do, filed a motion to reverse certain rulings of the trial examiner made in course of the above-mentioned hearings at Docket Nos. G-834 and G-839.

(c) It is in the public interest that further hearings be held with respect to the applications filed at Docket Nos. G-834 and G-839 for the reception of evidence as to the effect thereon of the construction and operations proposed by Michigan Consolidated at Docket No. G-918;

(d) Good cause exists for consolidating the further proceedings to be had at Docket Nos. G-834 and G-839 with proceedings at Docket No. G-918 for the purpose of hearing.

The Commission, therefore, orders that:

(A) Further proceedings be held with respect to the applications filed at Docket Nos. G-834 and G-839, limited to the reception of evidence as to the effect thereon of the construction and operations proposed by Michigan Consolidated Gas Company at Docket No. G-918 and the ultimate usefulness of the proposed facilities, including the Austin Field line, should circumstances require, for the transportation and storage of gas which might be obtained from the Panhandle Eastern Pipe Line Company.

(B) Such further proceedings at Docket Nos. G-834 and G-839 be and the same are hereby consolidated with the proceedings at Docket No. G-918 for the purpose of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's Rules of Practice and Procedure (effective September 11, 1946), a hearing be held on the 13th day of August, 1947, at 10:00 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters involved and the issues presented by the applications and other pleadings in the above-entitled proceedings as limited by paragraph (A) above.

(D) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's Rules of Practice and Procedure.

Date of issuance: August 4, 1947.

INTERSTATE COMMERCE COMMISSION

[No. 29800]

INCREASES IN TENNESSEE FREIGHT RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 24th day of July A. D. 1947.

It appearing, that a petition has been filed on behalf of The Alabama Great Southern Railroad Company and other common carriers by railroad operating in the State of Tennessee, averring that in Ex Parte No. 162, Increased Railway Rates, Fares, and Charges, 1946, and Ex Parte 148, Increased Railway Rates, Fares and Charges, 1942, 266 I. C. C. 537, the Commission authorized certain increases in interstate rates and charges throughout the United States, which were established January 1, 1947, and that the Railroad and Public Utilities Commission of the State of Tennessee, by opinion and order dated June 26, 1947, in its Docket No. 2767, refused to authorize or permit said petitioners to apply to the transportation of property moving intrastate by railroad in Tennessee, increases in freight rates and charges corresponding to those approved for interstate application in the proceedings above cited.

It further appearing, that said petitioners allege that the intrastate rates and charges which they are required to maintain for the transportation of property moving intrastate by railroad in Tennessee as a result of said opinion and order of June 26, 1947, of the Railroad and Public Utilities Commission of the State of Tennessee, cause undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and undue, unreasonable, and unjust discrimination against interstate and foreign commerce;

And it further appearing, that the said petition brings in issue freight rates and charges made or imposed by authority of the State of Tennessee;

It is ordered, That in response to the said petition an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Tennessee for the intrastate transportation of property, made or imposed by authority of the State of Tennessee cause any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum rates and charges, shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Tennessee subject to the jurisdiction of this Commission be, and they are hereby, made respondents of this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Tennessee be notified of this proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State and to the Railroad and Public Utilities Commission of the State of Tennessee at Nashville, Tenn.

It is further ordered: That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

And it is further ordered, That this proceeding be, and the same is hereby, assigned for hearing September 4, 1947, 9:30 a. m. United States standard time (or 9:30 a. m. local daylight saving time, if that time is observed), at the Andrew Jackson Hotel, Nashville, Tenn., before Examiner Fred L. Sharp.

By the Commission, Division 1.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-664]

STANDARD SILVER-LEAD MINING CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 4th day of August A. D. 1947.

The Spokane Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Capital Stock, $1.00 Par Value, of Standard Silver-Lead Mining Company. The application alleges that (1) this security was originally listed on this Exchange on March 30, 1911; (2) that the Snowshoe Mine is the mine that has been operated most recently by the issuer; (3) that operations at this mine were suspended in October 1945; (4) that for the years 1938 to 1944 inclusive the financial statements of this issuer showed a net loss; (5) that a loss of approximately $10,000 has been indicated for 1945 operations; (6) that the financial condition, operating results, and future prospects of the issuer of this security are such that they do not warrant a continuation of the listing and registration of the security on the Spokane Stock Exchange; and (7) that the rules of the Spokane Stock Exchange with respect to the striking of a security from listing and registration have been complied with.

Upon receipt of a request, prior to September 3, 1947, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

MARKET STREET RAILWAY CO. ET AL.

ORDER DENYING MOTION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 1st day of August A. D. 1947.

In the matter of Market Street Railway Company, and Standard Gas and Electric Company and certain of its subsidiary companies, File No. 4-63; Russell M. Van Kirk, Bloomfield Hulick, Edmund T. Willetts, committee for the Market Street Railway Company prior preference capital stock, File No. 68-84

Standard Gas and Electric Company ("Standard"), a registered holding company, having filed a motion that the Commission (1) dismiss the applications of Russell M. Van Kirk, et al., Committee for the prior preference capital stock of Market Street Railway Company ("Market Street"), a non-utility subsidiary of Standard, for an examination by the Commission of the past and present relationships among Market Street, Standard, and certain other companies in the Standard Holding Company System, (2) vacate the Commission's order of May 20, 1947, which directed the holding of hearings in connection with such examination and restrained Market Street from making any payments to Standard until the date of such hearing and for a period of 60 days thereafter, (3) in the alternative, stay its proceedings until a certain action by Standard against Market Street now pending in the United States District Court for the Northern District of California be disposed of and (4) if the foregoing requests be denied and without prejudice thereto, to transfer the Commission's hearings to San Francisco;

The Commission having heard oral argument on such motion and having duly considered the matter and issued its opinion herein, on the basis of said opinion.

It is ordered, That said motion of Standard be and hereby is denied in all respects.

It is further ordered, That the provision in said order of the Commission of May 20 which restrained Market Street from making any payments to Standard until the date of hearing set in such order and for a period 60 days thereafter be and hereby is expressly reaffirmed and continued in effect, without prejudice to the right of Standard or Market Street to request approval of any specific proposal respecting payments.

By the Commission.

AMERICAN & FOREIGN POWER CO., INC., ET AL.

INTERIM ORDER GRANTING EXEMPTION FROM COMPETITIVE BIDDING REQUIREMENTS AND RESERVING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the city of Philadelphia, Pa., on the 1st day of August A. D. 1947.

In the matter of American & Foreign Power Company, Inc. and Electric Bond and Share Company, File No. 54-111; Electric Bond and Share Company, et al., respondents, File No. 59-12.

American & Foreign Power Company, Inc. ("Foreign Power"), and its parent, Electric Bond and Share Company, both registered holding companies, having filed an Amended Plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, such Amended Plan providing, in general, for the reorganization of Foreign Power including the elimination of the presently outstanding debenture and serial note debt, preferred and second preferred stocks, common stock, option warrants and preferred stock allotment certificates of Foreign Power; and the conversion of Foreign Power's present structure into a capital structure consisting of $35,000,000 principal amount of 3½% Sinking Fund Prior Debentures due 1968, the proceeds of which together with cash are proposed to be used to retire the presently outstanding debentures of the company, and $91,391,600 principal amount of 4¼% Sinking Fund Debentures due 1982, and 5,000,000 shares of new no par value common stock; and the Commission having issued its Notice of Filing and Order for Hearing on said Amended Plan and hearings having been held thereon; and

Foreign Power having requested that the proposed issue and sale of said 3½% Sinking Fund Prior Debentures be exempted from the competitive bidding requirements of the Commission's Rule U-50 for the reason that compliance with paragraphs (b) and (c) of said rule is not necessary or appropriate in the public interest or for the interest of investors or consumers; and further requesting that such exemption be granted prior to the consideration of the other issues raised with respect to said Amended Plan; and

The Commission finding it appropriate and in the public interest and in the interest of investors to determine the question of the method of the proposed sale of the 3½% Sinking Fund Prior Debentures, if made, in advance of the substantive issues with respect to the propriety of the proposed sale under the act and with respect to the pending Amended Plan subject to which the proposed financing is conditioned; and

The Commission finding that in the light of the several unique factors in the present case an exemption from the competitive bidding requirements of Rule U-50 may be appropriately granted and that the basis for such finding be set forth at a later date in the Commission's Findings and Opinion passing upon the pending Amended Plan:

It is ordered, That pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935, the said application for an exemption of the proposed issue and sale by Foreign Power of $35,000,000 principal amount of 3½% Sinking Fund Prior Debentures due 1968 from the requirements of subsection (b) and (c) of Rule U-50 as to competitive bidding be, and it is hereby granted.

It is further ordered, That jurisdiction be, and it is hereby, reserved expressly to pass upon all other matters involved in these proceedings including the propriety of the proposed issue and sale under the applicable provisions of the act and the rules and regulations thereunder and the terms and conditions of any such sale and the fees and expenses in connection therewith.

By the Commission.

GENERAL PUBLIC UTILITIES CORP. AND NEW YORK STATE ELECTRIC & GAS CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 31st day of July 1947.

General Public Utilities Corporation ("GPU"), a registered holding company, and its subsidiary, New York State Electric & Gas Corporation ("New York State"), having filed a joint application-declaration and an amendment thereto, pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-43 promulgated thereunder, with respect to the following transactions:

The authorized common stock of New York State consists of 50,000 shares, without par value, of which 46,484 shares are issued and outstanding; all of such shares are held by GPU. The stated capital applicable to such 46,484 shares of common stock is $22,000,000. New York State proposes to eliminate the 3,516 shares of unissued common stock and to reclassify its issued and outstanding 46,484 shares of common stock, without par value, into 880,000 shares of common stock of a par value of $25 per share. Thus, after the reclassification, the par value of New York State's issued and outstanding common stock will be $22,000,000. Pursuant to such reclassification, GPU proposes to surrender to New York State the 46,484 shares of common stock, without par value, of New York State now held by it and to receive in exchange therefor the 880,000 shares of $25 par value common stock of New York State which will result from the reclassification; and

Applicants-declarants having stated that the New York Public Service Commission of the State of New York having by orders dated April 30, 1947 and May 13, 1947 consented to the reclassification of the common stock of New York State; and

The joint application-declaration having been filed on June 27, 1947 and an amendment thereto having been filed on July 21, 1947, and notice of said filings having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint application-declaration, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint application-declaration, as amended, be granted and permitted to become effective:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and

conditions prescribed in Rule U-24, that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

DERBY GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 1st day of August A. D. 1947.

In the matter of Derby Gas & Electric Corporation, The Derby Gas & Electric Company, The Danbury and Bethel Gas and Electric Light Company, and The Wallingford Gas Light Company; File No. 70-1575.

Notice is hereby given that Derby Gas & Electric Corporation ("Derby"), a registered holding company, and its subsidiaries, The Derby Gas and Electric Company ("Derby Connecticut"), The Danbury and Bethel Gas and Electric Light Company ("Danbury") and The Wallingford Gas Light Company ("Wallingford") have filed an application-declaration pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and the applicable rules thereunder. All interested persons are referred to said application-declaration, which is on file in the office of the Commission, for a full statement of the transactions therein proposed, which are summarized below:

Derby's funded debt consists of $2,861,000 principal amount of 2¾% Debentures, Series due 1956, and $1,370,000 principal amount of 3% Debentures, Series due 1954, all of such debentures being owned by The Equitable Life Assurance Society of the United States ("Equitable"). Derby is also indebted to Equitable in the amount of $438,000, represented by promissory notes maturing October 25, 1947, and bearing interest at the rate of 2¼% per annum. Derby's outstanding capital stock consists of 218,048 shares of no par value common stock. Derby Connecticut and Wallingford have no outstanding funded debt, whereas Danbury has outstanding $150,000 principal amount of 5% First Refunding Mortgage Gold Bonds due in 1953. All of the shares (other than directors' qualifying shares) of the outstanding capital stocks of these three companies, consisting of common stocks, are owned by Derby. Derby Connecticut, Danbury, and Wallingford are indebted to Derby in the amounts of $368,000, $855,000 and $12,000, respectively, evidenced by 3½% promissory demand notes. Pursuant to the order of this Commission dated July 29, 1946, said demand notes will ultimately be surrendered against the issuance to Derby by each of said subsidiaries of additional common stock.

Derby Connecticut, Danbury and Wallingford are engaged in constructing certain gas manufacturing, transmission and storage facilities, and intend to construct additional electrical distribution facilities. This construction program will require an aggregate amount of approximately $693,000. It is proposed that such funds will be obtained by borrowings from the parent, Derby, from time to time as cash is needed, to be evidenced by 3½% demand notes to be issued to Derby. Upon completion of said construction program, it is proposed that Derby will surrender for cancellation said demand notes to each of said subsidiaries in consideration of the issuance to Derby of common stock of each such subsidiary in an amount (taken at the par or stated value of $25 per share in each case) equal to the principal amount of said demand notes of each such subsidiary to be so surrendered by Derby.

In order to provide the necessary funds (a) to lend to its subsidiaries $693,000 in connection with the above construction program, (b) to retire its $438,000 principal amount of 2¼% promissory notes, which had been issued to finance the construction program of the subsidiaries, (c) and to provide $61,340 working capital (of which $35,000 would be used to pay the estimated financing expenses), Derby proposes the following transactions:

1. The issue by Derby to Equitable of $5,131,000 principal amount of 3% Debentures, Series due 1957, in exchange for $4,231,000 aggregate principal amount of Derby's 3% Debentures, Series due 1954, and 2¾ Debentures, Series due 1956, now held by Equitable, and the payment by Equitable of $913,340 in cash.

2. The issue and sale by Derby to underwriters of additional shares of its common stock sufficient to provide Derby with approximately $279,000.

Applicants-declarants consider sections 6 (a), 6 (b), 7, 9 (a) (1), 10, 12 (c) and 12 (d) of the act and Rules U-42 and U-44 as applicable to the proposed transactions. Applicants-declarants state that the proposed issue by Derby of new debentures and additional common stock are excepted from the competitive bidding requirements of Rule U-50 by virtue of paragraphs (a) (2) and (a) (4) thereof, respectively, and that the proposed issue by the subsidiaries of Derby of demand notes and common stock are excepted by virtue of paragraph (a) (3) of the rule.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in the application-declaration and that said application shall not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said application-declaration under the applicable provisions of the act and the general rules and regulations promulgated thereunder be held at 11:00 a. m., e. d. s. t., on the 19th day of August, 1947, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of the Commission on or before August 15, 1947, his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Willis E Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration and that upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters or questions upon further examination:

1. Whether the new 3% Debentures, Series due 1957, and the new common stock proposed to be issued and sold by Derby are reasonably adapted to the security structure and earning power of the company and are necessary and appropriate to the economical and efficient operation of the business or businesses in which the company is engaged.

2. Whether the prices proposed to be paid for said debentures and common stock are reasonable, and whether the other terms and conditions of said transactions are detrimental to the public interest or the interest of investors and consumers.

3. Whether the indenture securing the new debentures contains adequate protective provisions for the benefit of the security holders.

4. Whether Derby Connecticut, Danbury and Wallingford are entitled to the exemptions from the provisions of section 7 of the act which they have asserted under section 6 (b) thereof in connection with the proposed issuance and sale by such companies to Derby of demand notes and of additional shares of common stock.

5. Whether the proposed acquisitions by Derby of demand notes and shares of additional common stock of Derby Connecticut, Danbury and Wallingford meet the applicable provisions of the act.

6. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors and consumers in connection with the proposed transactions.

7. Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That notice of said hearing be given to Derby, Derby Connecticut, Danbury, Wallingford and the Connecticut Public Utilities Commission by registered mail and to all other interested persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for all releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[Dissolution Order 63]

STEEL WIRE CORP.

Whereas, by assignment from American Giese Wire Corporation pursuant to Dissolution Order Number 58, dated July 7, 1947 (12 F. R. 4621), the Attorney General of the United States has acquired all of the presently outstanding shares of the capital stock of Steel Wire Corporation, an Illinois corporation; and

Whereas, Steel Wire Corporation has been dissolved by action of the Attorney General of the State of Illinois for failure to file an annual report and to pay franchise taxes for the year 1942; and

Whereas, Steel Wire Corporation has been substantially liquidated under the supervision of the undersigned;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors have been paid, except possible claims for taxes owing by the corporation, and except such claim if any as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the corporation; and

2. Having determined that it is in the national interest of the United States that the dissolution and liquidation proceedings with respect to said corporation be completed and that its assets be distributed;

Hereby orders, that the officers and directors of Steel Wire Corporation (to wit, Robert Kramer, President and Director, Francis J. Carmody, Secretary and Director, and Martin S. Watts, Treasurer and Director, and their successors, or any of them), continue the proceedings for the dissolution of Steel Wire Corporation; and further orders, that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of said corporation and the dissolution thereof, and

(b) They shall then pay all known Federal, state, and local taxes and fees owed by or accruing against the said corporation; and

(c) They shall then pay over, transfer, assign and deliver to the Attorney General of the United States all of the funds and property, if any, remaining in their hands after the payments as aforesaid, the same to be applied by him, first in satisfaction of such claims, if any, as he may have for monies advanced or services rendered to or on behalf of the corporation, and second, as a liquidating distribution of assets to the Attorney General of the United States as holder of all the issued and outstanding stock of the corporation; and

Further orders, that nothing herein set forth shall be construed as prejudicing the right, under the Trading with the Enemy Act, as amended, of any person who may have a claim against said corporation to file such claim with the Attorney General of the United States against any funds or property received by the Attorney General of the United States hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person: *And provided, further,* That any such claim against said corporation shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of Steel Wire Corporation, pursuant to this Order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) of subdivision (b) of section 5 of the Trading with the Enemy Act, as amended, and the acquittance and exculpation provided therein.

Executed at Washington, D. C., this 4th day of August 1947.

For the Attorney General.

[SEAL] DAVID L. BAZELON,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9882

APPOINTMENT OF THE MEMBERS OF A MILITARY TRIBUNAL ESTABLISHED FOR THE TRIAL AND PUNISHMENT OF MAJOR WAR CRIMINALS IN GERMANY

By virtue of the authority vested in me by the Constitution and the statutes, and as President of the United States and Commander in Chief of the Army and Navy of the United States, it is ordered as follows:

1. I hereby designate James Morris, Associate Justice, Supreme Court of the State of North Dakota, George James Burke, Member of Advisory Committee on rules of criminal procedure, Supreme Court of United States, and Paul M. Hebert, Dean of Law School, Louisiana State University, as the members of one of the several military tribunals established by the Military Governor for the United States Zone of Occupation within Germany pursuant to the quadripartite agreement of the Control Council for Germany, enacted December 20, 1945, as Control Council Law No. 10, and pursuant to Articles 10 and 11 of the Charter of the International Military Tribunal, which tribunal was established by the Government of the United States of America, the Provisional Government of the French Republic, the Government of the United Kingdom of Great Britain and Northern Ireland, and the Government of the Union of Soviet Socialist Republics, for the trial and punishment of major war criminals of the European Axis. Such members may, at the direction of the Military Governor of the United States Zone of Occupation, serve on any of the several military tribunals above mentioned.

2. The members herein designated shall receive such compensation and allowances for expenses as may be determined by the Secretary of War and as may be payable from appropriations or funds available to the War Department for such purposes.

3. The Secretary of State, the Secretary of War, the Attorney General, and the Secretary of the Navy are authorized to provide appropriate assistance to the members herein designated in the performance of their duties and may assign or detail such personnel under their respective jurisdictions, including members of the armed forces, as may be requested for the purpose. Personnel so assigned or detailed shall receive such compensation and allowances for expenses as may be determined by the Secretary of War and as may be payable from appropriations or funds available to the War Department for such purposes, except that personnel assigned or detailed from the Navy Department shall receive such compensation and allowances for expenses to which they may be entitled by reason of their military grade and service and as may be payable from appropriations or funds available to the Navy Department for such purposes.

order, and upon other available information, it is hereby found that the limitation of shipments of fresh cauliflower, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., August 10, 1947, and ending at 12:01 a. m., m. s. t., October 16, 1947, no handler shall handle any lot of fresh cauliflower except cauliflower that meets the requirements of U. S. No. 1 Grade, as such grade is defined in the U. S. Standards for Cauliflower, issued by the United States Department of Agriculture, effective August 7, 1939, and that meets the following specifications: (i) The size shall be fairly uniform and shall be that which will pack not more than 12 nor less than 11 heads in a crate having inside dimensions of $8\frac{1}{2}$" x $17\frac{1}{2}$" x $21\frac{5}{8}$"; and (ii) each of such heads shall have an average diameter, exclusive of jacket leaves, of not less than 4 inches, and heads shall be packed at least fairly tight in the crate.

(2) As used in this section, the term "fairly uniform" means that the average diameters, exclusive of jacket leaves, of the several cauliflower heads contained in any crate of the inside dimensions mentioned above do not vary more than two (2) inches.

(3) As used in this section, the term "fairly tight" means that the cauliflower heads, when packed in a crate of the inside dimensions mentioned above, will have no more than a slight movement in such crate, but not so much that there will be any injury under ordinary handling conditions, and will not be loose enough to permit the addition of another head.

(4) As used in this section, the terms "cauliflower," "handler," and "handle" shall have the same meaning as when used in the amended marketing agreement and order. (49 Stat. 753, 50 Stat. 246; 7 U. S. C. 608c; 7 CFR Cum. Supp. 910.7)

[Lemon Reg. 234]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.341 *Lemon Regulation 234*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 10, 1947, and ending at 12:01 a. m., P. s. t., August 17, 1947, is hereby fixed at 450 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 233 (12 F. R. 5274) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 7th day of August 1947.

[Orange Reg. 190]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.336 *Orange Regulation 190*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 10, 1947, and ending at 12:01 a. m., P. s. t., August 17, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1, unlimited movement; (b) Prorate District No. 2, 1,900 carloads; and (c) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate Districts Nos. 1, 2, and 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed

in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 41-8]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

FLIGHT NAVIGATOR CERTIFICATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 1st day of August 1947.

The purpose of this amendment is to provide an effective date after which all air carrier flight navigators must be certificated.

Part 34, Flight Navigator Certificates, becomes effective on August 1, 1947. Inasmuch as it will require a period of several months for the Administrator to prepare and process the necessary examinations, and for navigators in various localities to take these examinations, it is necessary to postpone until November 15, 1947, the date after which all air carrier flight navigators must be certificated.

This amendment provides for an additional period of time for the accomplishment of the certification of air carrier flight navigators. The amendment relieves restrictions and, therefore, publication required by section 4 (c) of the Administrative Procedure Act is unnecessary.

Effective August 1, 1947, § 41.330 of the Civil Air Regulations is amended to read as follows:

§ 41.330 *When required.* In all operations where celestial navigation is necessary, either as a primary or secondary means of navigation, at least one member of the flight crew must on and after November 15, 1947, hold a flight navigator certificate issued in accordance with the provisions of Part 34. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 4754]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BOLTA COMPANY ET AL.

§ 3.6 (cc) *Advertising falsely or misleadingly—Source or origin—Place—Imported product or parts as domestic:* § 3.66 (k) *Misbranding or mislabeling—Source or origin—Place—Imported product or parts as domestic:* § 3.71 (b) *Neglecting, unfairly or deceptively, to make material disclosure—Imported product or parts as domestic.* In connection with the offering for sale, sale, and distribution of sunglasses in commerce, (1) offering for sale or selling, separately or as a part of completed sunglasses, sunglass lenses which are imported from any foreign country without affirmatively disclosing thereon or in immediate connection therewith such foreign origin; or, (2) representing in any manner that sunglass lenses of foreign manufacture, whether or not they are mounted in sunglass frames, are of domestic manufacture; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, The Bolta Company et al., Docket 4754, July 3, 1947]

At the regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3d day of July A. D. 1947.

In the Matter of The Bolta Company, a Corporation, and New York Merchandise Company, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission upon the amended and supplemental complaint of the Commission, the answers of respondents, testimony and other evidence in support of the allegations of said complaint and in opposition thereto taken before examiners of the Commission theretofore duly designated by it, reports of the trial examiners, exceptions thereto, briefs in support of the complaint and in opposition thereto, and oral arguments of counsel, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondents The Bolta Company, a corporation, and New York Merchandise Company, Inc., a corporation, their respective officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of sunglasses in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale or selling, separately or as a part of completed sunglasses, sunglass lenses which are imported from any foreign country without affirmatively disclosing thereon or in immediate connection therewith such foreign origin.

2. Representing in any manner that sunglass lenses of foreign manufacture, whether or not they are mounted in sunglass frames, are of domestic manufacture.

It is further ordered, That the respondent shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] WM. P. GLENDENING, JR.,
Acting Secretary.

The names of the county and the delivering office must form a part of the address of all mail articles.

The following are prohibited except as samples: Live bees, leeches, and silkworms; liquids and substances for analysis or medical examination; and pathological specimens.

Prohibitions. The articles prohibited or restricted as parcel post are likewise prohibited or restricted in the regular mails, except that the restrictions relating to money, precious stones, etc., do not apply to the regular mails; and that oiled or varnished cloth or similar substances are prohibited unconditionally.

However, gold, foreign values, banknotes, letters of exchange, life-insurance policies, stocks, bonds, acknowledgments or receipts of deposit of values, or proxies may be delivered only by authorization of the Minister of Finance, Dublin.

Parcel post. (Eire).

Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: No.
Registration: No.
Insurance: Yes.
C. O. D.: No.
Exchange offices: New York, San Francisco, Chicago, Boston, Baltimore, Philadelphia.

Dimensions. Greatest length 3½ feet. Greatest length and girth combined 6 feet.

Insurance. Parcel-post packages may be insured, subject to the following limits of indemnity when prepaid at the postage rate applicable plus the insurance fees mentioned hereunder:

Limit of indemnity:	Fee (cents)
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55

Insurance return receipt: Requested at time of mailing, 5 cents; after mailing, 10 cents. (See § 21.107 (d))

Each insured parcel must have written on the address side (both in figures and in Roman letters), in United States currency and in gold francs, the amount for which the parcel is insured. (See § 21.107 (a) (6))

The insurance of all parcels containing coin, bullion, valuable jewelry, or any other precious article is obligatory. If a parcel containing such articles is mailed uninsured it shall be placed under insurance by the post office which first observes the fact of its having been mailed uninsured, and treated accordingly. Attention is called to the fact that coin exceeding £5 in value (except with a declaration indicating that they are intended to serve as ornaments), as well as gold in ingots of a value higher than £5 and silver in ingots or silver partially worked of a value higher than £20, are prohibited, even in insured parcels.

Parcels containing any other articles of gold or silver, jewelry, or any other precious object exceeding £100 in value shall be packed in a box, measuring not less than 3 feet 6 inches in length and girth combined.

For further information concerning insurance, see sections 102 and 108.

Observations. The names of the county and the delivering office must form a part of the address of all mail articles. See Regular mail "Observations" for names of counties comprising Eire.

Customs declarations must be drawn up clearly and precisely and, if practicable, in accordance with the classification of the Official Import List of Eire. They should bear the authentic signature of the sender.

The declaration should show as regards each article enclosed in the parcel: (a) The value, (b) the gross weight, (c) the net weight, and (d) the name of the country of origin. When the contents are composed of different kinds of articles, the exact quantity and value of each kind must be stated, as well as a description of the material of which the articles are composed; the number and size of each internal container being likewise given. As regards books, the following particulars are required: (a) The language in which the book is written, (b) whether

it is a novel or otherwise, (c) the nature of the binding (leather, imitation leather, etc.), and (d) whether the book is newly published or has been in use already.

Typewriter carbon paper must have the following statement by the sender on the customs declaration: "Typewriter carbon paper coated with wax and containing no oxidizable oily or fatty substance."

In the case of articles liable to customs duty which are eligible for preference, the preferential tariff will not be applied unless the customs declaration is inscribed in bold characters: "Preference claimed—Certificate of origin enclosed." Otherwise, the full customs duties will be applied to the articles.

The same applies to goods imported under permit, unless the declaration is clearly marked "Imported under license," and unless the relative license is produced at the time of customs examination. In such cases the license should be procured before the goods are imported.

If there is not sufficient space on the customs declaration to indicate fully all necessary particulars, such details may be written on the cover of the parcel. Reference should, however, be made to this fact on the customs declaration itself.

Parcels containing goods which are liable to ad valorem duty on importation into Eire (e. g., boots or shoes, articles of personal clothing, other articles of personal, domestic or household use made of woven material, woven or knitted piece goods, clocks or watches, automobile parts or accessories, etc.) should, if exported on sale, be accompanied in all cases by the invoice or, if the original invoice has been forwarded separately to the addressee of the parcel, by a true copy thereof. Private parcels containing such goods of a value of £5 or over should be accompanied by any documentary evidence available.

Invoices may be inclosed in parcels on the condition that the fact is mentioned on the customs declaration.

Original certificates concerning living plants should be addressed to the Secretary, Department of Agriculture, Dublin, before the parcel itself is mailed. A copy of the certificate should be attached to the parcel.

Other certificates, permits to import, etc., may be inserted in the packets or attached thereto.

The following charges are levied: (a) A minimum customs duty of 60 cents on every single class of dutiable goods contained in one packet or parcel, (b) a delivery fee of 12 cents on every parcel liable to customs duty.

Cinematograph films must be well packed in a tin case inclosed in a strong wooden box, and if the lid or bottom or any of the sides of the box are composed of more than one piece of wood, they must be tongued and grooved. A lining of suitable material must be placed between the upper edges of the box and lid, and the lid must be firmly screwed down. A white label bearing the word "Films" in plain black letters must be affixed to the packet.

The use of hay and straw of any description as packing for parcels (including straw envelopes used in wrapping bottles) is forbidden.

Addressees of gift parcels must procure "Duty Free" licenses to import before delivery of the parcels. However, as the senders are under no obligation with respect to the procuring or production of such licenses, gift parcels addressed to persons in Eire may be accepted for mailing without the production of import licenses by the senders.

Prohibitions. For sanitary reasons: Shaving brushes from Japan or other articles likely to be infected with anthrax, and any goods mixed therewith.

Circulars or advertisements relating to the prevention or treatment of venereal disease, unless addressed to duly qualified physicians or pharmacists.

Margarine, skimmed milk, exhausted or adulterated tea, and certain other diluted or adulterated foodstuffs must be suitably marked. Tea unfit for human consumption is prohibited.

Vaccines, serums, etc., and sterilized surgical catgut, require a permit from the Public Health Department, Dublin.

For the protection of animals and plants: Skins, horns, hoofs, and other parts of animals which may be prohibited for prevention of any contagious disease.

Plumage.

Elm trees.

Peat moss litter.

Hay and straw, including all articles made of straw.

Containers or wrappers which have previously been used for animal carcasses or parts thereof, and farm goods packed in such containers.

Sealskins of the genera Callorhinus alascanus, Callorhinus insinus, and Callarhinus kurilensis must be accompanied by a permit issued by the competent authorities of the country of origin.

"All plants and parts of plants must be accompanied by a license issued by the Ministry of Agriculture at Dublin, and must be imported under the conditions prescribed by that Ministry."

Arms, etc.: Firearms and deadly weapons and detached parts thereof, toy pistols and revolvers and blank cartridges therefor, require a license from the Department of Justice, Dublin. Safety fuses are prohibited.

State monopolies: False or counterfeit money.

Coins, other than gold or silver, minted in a foreign country.

Silver money of Eire or Great Britain which is not of legal weight or fineness.

For other reasons: Articles bearing false trademarks, i. e., (a) marks or stamps implying guarantee or sanction by a Government Department; (b) counterfeit marks, or marks imitating those of any manufacturer or dealer in Eire or Great Britain, unless the country of manufacture is also indicated; (c) unauthorized indications that the articles are dispatched on Government business; (d) imitations of Irish assay marks, or marks implying Irish manufacture, on clocks, watches, or other metal goods of foreign origin; (e) imitations of postage stamps, valid or obsolete.

Fictitious stamps and dies or other articles for making them.

Goods made in prisons

Articles contravening the Irish copyright laws.

Extracts, essences, or other concentrations of coffee, tea, chicory, or tobacco, or other mixtures thereof.

Tobacco, cigars or cigarettes packed with other articles.

The Irish Government has announced that bona fide gifts of manufactured tobacco (other than cigars) may be imported into Eire free of customs duty in quantities not exceeding 2 pounds in weight, and, if over that weight, upon payment of duty on the excess over 2 pounds.

All shipments of tobacco require a license to be secured by the addressee from the Revenue Commissioners, Dublin. Cut and compressed, sweetened, or adulterated tobacco is prohibited.

Oiled or varnished cloth or similar oiled or varnished articles, unless accompanied by a certificate signed by a responsible person reading as follows: "The oilcloths or similar articles contained in this parcel have been stoved at a temperature of 140° F. until completely dried, and then cured for at least a month before packing."

Carbon paper, except typewriter carbon paper which must have the following statement from the sender on the customs declaration: "Typewriter carbon paper coated with wax and containing no oxidizable oily or fatty substance."

Liquid celluloid, and solid celluloid known as "unseasoned," that is, not freed from all volatile solvent, and sometimes known as "Xylonite cake."

Saccharine and similar substances.

Coins, precious stones, jewelry, and all articles of platinum, gold, or silver, in uninsured parcels; coins exceeding £5 in value unless intended for ornament, gold ingots exceeding £5 in value, and silver in ingots or partially worked exceeding £20 in value, even in insured parcels.

Concerning the importation of gold, foreign values, banknotes, securities, etc., see under "Regular Mails."

Unsolicited advertisements from money-lenders.

Advertisements from fortune-tellers.

NOTE: A variety of merchandise requires a license to be secured by the addressee from the Minister for Agriculture or the Minister for Commerce at Dublin. Senders should assure themselves before mailing merchandise that the addressees have compiled with the requirements for importation.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

Subchapter N—Explosives or Other Dangerous Articles or Substances, and Combustible Liquids on Board Vessels

[CGFR 47-40]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

AMMONIUM NITRATE

By virtue of the authority vested in me by R. S. 4472, as amended (46 U. S. C. 170), and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875), I find that an emergency exists and the following amendment to the regulations governing explosives or other dangerous articles on board vessels shall be made effective on the date of publication of this document in the FEDERAL REGISTER. This amendment to regulations governing the transportation of explosives or other dangerous articles on board vessels is published without prior general notice of its proposed issuance for the reason that notice, public rule making procedure and effective date requirements in connection therewith are hereby found to be impracticable and contrary to the public interest. This extreme emergency is due to the dangerous character of ammonium nitrate as evidenced by the two ships which exploded at Texas City and the ship that exploded at Brest, France, all of which had ammonium nitrate fertilizer cargo on board.

Part 146 is amended by the addition of the following section:

§ 146.22–9 *Authorization to load or discharge ammonium nitrate.* (a) Shipments of ammonium nitrate or ammonium nitrate fertilizer in amounts exceeding 500 pounds shall not be laden on or discharged from any vessel at any point or place in the United States, its territories or possessions, not including the Panama Canal Zone, until authorization for such loading or discharging has been obtained by the owner, agent, charterer, master, or person in charge of the vessel from the District Commander or other officer of the Coast Guard designated by the Commandant of the Coast Guard for such purpose.

(b) Before such permit is issued the District Commander shall ascertain where it is proposed to load or unload the ammonium nitrate or ammonium nitrate fertilizer. If the District Commander finds that the proposed facility at which the vessel is to load or unload is in a congested area of the port, he shall withhold the issuance of a permit until the vessel secures the use of a facility in an area so remotely situated from populous centers that in the event of fire or explosion, loss of lives and property may be minimized. When the District Commander finds that the proposed facility is in a remote area, he is directed to make the use of such a facility a condition of the permit. The District Commander shall in the issuance of the permit observe the provision of § 146.01–12. (R. S. 4472, as amended; 46 U. S. C. 170; sec. 101, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

Dated: August 6, 1947.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 130–P]

PART 12—AMATEUR RADIO SERVICE

CANCELLATION AND SUPERSEDURE OF PREVIOUS ORDERS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of August 1947;

The Commission having under consideration the following matters: (1) the recent allocations of frequencies to the Amateur Radio Service, and particularly its order dated May 15, 1947, and effective June 23, 1947, allocating to the Amateur Radio Service the frequency band 5650 to 5925 Mc. in lieu of the band 5650 to 5850 Mc., subject to interference from industrial, scientific, and medical devices in the frequency band 5775 to 5925 Mc. and (2) the use of narrow band frequency or phase modulation for radiotelephone communication in certain amateur frequency bands for a temporary experimental period; and

It appearing, that the Commission's Order No. 130–L, dated January 2, 1947, as amended by Orders 130–M, N, and O, is inconsistent with the frequency allocations in the order of May 15, 1947, and made effective June 23, 1947; and

It further appearing, that it is desirable for public convenience to correlate the above-mentioned effective changes in amateur frequency allocation with the previous Commission orders of the 130 series, and to combine in a single order all of the frequency bands and approved types of emissions available for operation in the Amateur Radio Service; and

It further appearing, that the use of narrow band frequency or phase modulation for radiotelephone communication in the amateur frequency bands 3850 to 3900 kc, 14200 to 14250 kc, 28.5 to 29.0 Mc., and 51.0 to 52.5 Mc. will facilitate the development of narrow band frequency modulation techniques, which may prove of value to other services, and will aid in the elimination of interference to broadcast reception as well as having other advantages in the public interest; and

It further appearing, that since the frequency allocations described above are already in effect, and the permission for narrow band FM operation constitutes the removal of a restriction under authority contained in section 303 (c), (g), and (r) of the Communications Act of 1934, as amended, general notice of proposed rule making is not required under authority of section 4 of the Administrative Procedure Act;

It is ordered, That the previous orders in the 130 series be cancelled and superseded by this order, as follows:

A. The following frequency bands and types of emission are available for use for amateur station operation, subject to the limitations and restrictions set forth herein:

(1) 3500 to 4000 kc. Use of this band is restricted to amateur radio stations as follows:

(a) 3500 to 4000 kc, using type A1 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying west of the Territory of Hawaii to 170° west longitude.

(b) 3850 to 4000 kc, using type A3 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying west of the Territory of Hawaii to 170° west longitude, subject to the further restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(2) 7000 to 7300 kc, using type A1 emission.

(3) 14000 to 14400 kc, using type A1 emission, and, on frequencies 14200 to 14300 kc, type A3 emission, subject to the restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(4) 27.160 to 27.430 Mc, using types A0, A1, A2, A3, and A4 emissions and also special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), subject to such interference as may result from the emissions of industrial, scientific and medical devices on the frequency 27.320 Mc.

(5) 28.0 to 29.7 Mc, using type A1 emission, and on frequencies 28.5 to 29.7 Mc, using type A3 emission, and on frequencies 29.0 to 29.7 Mc, using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(6) 50.0 to 54.0 Mc, using types A1, A2, A3, and A4 emissions and, on frequencies 52.5 to 54.0 Mc, special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(7) 144 to 148 Mc, using types A0, A1, A2, A3, and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(8) 235 to 240 Mc, using types A0, A1, A2, A3, and A4 emissions, and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(9) 420 to 450 Mc, using types A0, A1, A2, A3, A4, and A5 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). Peak antenna power shall not exceed 50 watts in order to minimize interference to aircraft altimeters temporarily allocated to this band.

(10) 1215 to 1295 Mc, 2300 to 2450 Mc, 3300 to 3500 Mc, 5650 to 5925 Mc, 10,000 to 10,500 Mc, 21,000 to 22,000 Mc, and any frequency or frequencies above 30,000 Mc, using on these frequencies types A0, A1, A2, A3, A4, A5 and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), and pulse emissions. Operations in the frequency bands 2300 to 2450 Mc and 5650 to 5925 Mc are subject to such interference between 2400 and 2450 Mc and between 5775 and 5925 Mc, respectively, as may result from emissions of industrial, scientific and medical devices on the frequencies 2450 and 5850 Mc, respectively.

B. In addition to the types of emission available in paragraph A above, narrow band frequency or phase modulation may be used by certain amateur stations for radiotelephone communication until further order of the Commission, but in no event beyond August 1, 1948, as follows:

(1) Amateur stations licensed to and operated by Class A amateur operators in the frequency bands 3850 to 3900 kc and 14200 to 14250 kc;

(2) Amateur stations licensed to and operated by all classes of amateur operators in the frequency bands 28.5 to 29.0 Mc and 51.0 to 52.5 Mc.

This authorization is subject to the conditions that the band-width of the modulated carrier shall not exceed the band-width occupied by an amplitude-modulated carrier of the same audio characteristics, and that the purity and stability of such emissions shall be maintained in accordance with the requirements of § 12.133 of the Commission's Rules Governing the Amateur Radio Service.

C. No frequencies or types of emission other than those assigned in this order shall be used for amateur operation.

(Sec. 303 (b), 48 Stat. 1082, 303 (c), 48 Stat. 1082, 303 (r), 50 Stat. 191; 47 U. S. C. 303 (b), 303 (c), 303 (r))

By the Commission.

Released: August 4, 1947.

[SEAL] T. J. SLOWIE,
Secretary.

AUTHORITY: §§ 28.1 to 28.19, inclusive, issued under sec. 3, 50 Stat. 872; 25 U. S. C. 532.

§ 28.1 *Definitions.* Wherever used in the regulations in this part the terms defined in this section shall have the meaning herein stated.

(a) "Commissioner" means the Commissioner of Indian Affairs.

(b) "Superintendent" means the Superintendent of the Klamath Indian Agency.

(c) "District Director" means the officer in charge of the district office of the Indian Service, under which the Klamath Indian Agency is placed for administrative purposes. The authority of the District Director under these regulations may be delegated by him in writing to his subordinates in the district office.

(d) "Klamath Tribes" means the Klamath and Modoc Tribes and Yahooskin Band of Snake Indians of the Klamath Reservation in Oregon.

(e) "Business Committee" means the Business Committee of the Klamath Tribes elected in accordance with the constitution and bylaws approved by the Commissioner.

(f) "Board" means the Klamath Loan Board elected in accordance with the regulations in this part.

(g) "Fund" means the reimbursable loan fund authorized by the acts of August 28, 1937 and August 7, 1939 (50 Stat. 872, 53 Stat. 1253, 25 U. S. C. 530–535, 542 (a)).

(h) "Loan agreement" means the approved application, supporting papers, commitment order, and note or notes.

§ 28.2 *Purpose of regulations.* The purpose of the regulations in this part is to prescribe the terms and conditions of loans from the fund.

§ 28.3 *Loan Board.* The fund shall be administered by a Board of three adult enrolled members of the Klamath Tribes.

(a) *Election.* Board members shall be elected by the Klamath General Council. The Commissioner may prescribe detailed election procedures which are not inconsistent with the provisions of this section. Only adult enrolled members, or minor enrolled members who are heads of families shall be entitled to vote. Voting shall be by secret ballot. The members of the present Board shall remain in office until their terms expire, unless suspended under the regulations in this part. Thereafter, one new member shall be elected each year for a term of three years, or until his successor is elected. The candidate receiving the highest number of votes shall be deemed to have been elected. If a vacancy occurs, a successor shall be elected at a special meeting of the Klamath General Council at which the same procedure shall be followed as in the case of a regular election. The person so elected shall serve only for the unexpired term of the member whom he replaces.

(b) *Officers.* Each year within 30 days after the election of a new member, the Board shall meet and elect from among its members, a chairman and a vice-chairman. The Board shall select and employ a secretary, who shall not be a member of the Board.

(c) *Duties of officers.* The chairman shall preside at meetings of the Board, perform acts and other duties usually performed by a presiding officer, and sign papers as authorized or directed by the Board. The vice-chairman shall perform the duties of chairman during his ab-

sence, or as authorized by the Board. The secretary shall keep a complete record of all meetings of the Board, make reports, and perform such other duties as may be required by the Board.

(d) *Meetings.* The Board shall meet at least once each month, but shall not meet oftener than once a week, unless the Business Committee authorizes meetings to be held oftener during a specified period of time when the volume of business justifies more frequent meetings.

(e) *Quorum.* Two members shall constitute a quorum.

(f) *Suspension.* The Business Committee may suspend a member of the Board at any time for cause, notice of which shall be given to the member in writing. A suspended member shall have no authority to act for or on the Board during a period of suspension. The Commissioner may suspend all powers of the Board if he finds after investigation that the Board is being administered in a manner detrimental to the interests of the tribe. In case more than one member has been suspended by the Business Committee at a particular time, or if the Commissioner has suspended all powers of the Board, the Superintendent may exercise such functions of the Board as may be necessary to protect the funds loaned, but new loans may not be made during such period.

(g) *Expenses.* The Board may hire clerical and other assistance necessary to administer the fund. Salaries of Board members, and expenditures in connection with the business of the Board, may be paid as administrative expenses. Necessary travel by members of the Board, or by officers and employees of the Board, by common carrier, shall be on Government transportation requests in accordance with existing Government travel regulations. Transportation requests shall be issued by the Superintendent. All claims for services rendered shall be submitted to the Superintendent on a form provided by him for that purpose. All claims of whatever nature shall be subject to audit and approval by the Superintendent.

(h) *Budget.* The Board shall, at the beginning of each fiscal year, submit to the Business Committee for approval a written budget of estimated income from interest and service fees and estimated expenses for the ensuing fiscal year. The budget shall show the rate of compensation to Board members and employees, the amount outstanding in loans, the amount delinquent, and potential losses. Budgets shall be acted upon by the Business Committee, and, if approved, shall constitute the Superintendent's authority to make disbursements thereunder as expenses are incurred, provided that no disbursements shall be made in excess of the amount of income received from interest and service fees, or in violation of any of the regulations in this part. Budgets may be modified by the Business Committee upon request of the Board.

§ 28.4 *Eligibility.* Loans may be made to enrolled members of the Klamath Tribes, and to cooperative associations of members, provided, that the articles of association and bylaws of cooperative associations must be approved by the District Director.

§ 28.5 *Application.* Applications shall be submitted to the Board on a form approved by the Commissioner. Each application shall indicate the purposes for which the loan is to be used, the period of the loan, the rate of interest and amount of service fees to be paid, the security to be given, and the procedures to be followed in handling and repaying the loan.

§ 28.6 *Purpose of loans.* Loans may be made for any purpose authorized by section 2 of the act of August 28, 1937 (50 Stat. 872; 25 U. S. C. 531).

§ 28.7 *Approval of loans.* Loan agreements must be executed on a form approved by the Commissioner.

(a) *Action by Board.* Action on applications shall require an affirmative vote of at least two members of the Board. In order to receive final approval, all loans must be acted upon favorably by the Board.

(b) *Approval by Board.* Except as otherwise indicated in these regulations, the Board shall have authority to approve loans where the applicant's total indebtedness to the fund will not exceed $2,000.

(c) *Approval by Superintendent.* Except as otherwise indicated in the regulations in this part, loans acted upon favorably by the Board, where the applicant's total indebtedness to the fund will exceed $2,000 but not to exceed $3,000, may be approved by the Superintendent.

(d) *Approval by District Director.* Except as otherwise indicated in the regulations in this part, loans acted upon favorably by the Board where the applicant's indebtedness to the fund will exceed $3,000 but not exceed $5,000, may be approved by the District Director. Loans to cooperatives; loans for the purchase of livestock, equipment, or machinery with maturities exceeding six years; educational loans; and loans to individuals who are Government employees shall require approval of the District Director regardless of amount. Burial loans in excess of $500; emergency loans in excess of $500 to applicants who do not have security adequate to protect the loans; and loans for maintenance and support of aged, infirm, or incapacitated members in excess of $500 shall also require approval of the District Director.

(e) *Approval by Commissioner.* All loans in excess of $5,000 shall require approval by the Commissioner.

(f) *Restrictions on approval.* Loans shall not be approved for less than $25. Any loans to borrowers who are delinquent in payment of previous indebtedness to the fund shall require the approval of the Business Committee in addition to the approvals set forth in other sections of the regulations in this part. Not more than two loan agreements may be in effect with the same borrower at the same time. Only joint loans may be made to a husband and wife who are both eligible for loans, and any existing loan to either spouse shall be consolidated with such loan.

(g) *Amount of loans.* The amounts set forth in the regulations in this part refer to the total amounts of loans, regardless of whether they are joint or partnership loans.

(h) *Modifications.* Modifications of loan agreements involving the extension of the terms of repayment shall require approval of the District Director. Other modifications shall be handled through the same channels as the original applications, except that the District Director may approve modifications of loan agreements approved originally by the Commissioner in cases in which the amounts of the loans are not increased.

§ 28.8 *Interest and service fees.* Borrowers shall pay 3 percent interest annually on the basis of 360 days per annum, from the date the funds are advanced on the loan until they are repaid. No interest shall, however, be charged on educational loans. Except on loans for educational purposes, and loans for the maintenance and support of aged, infirm, and incapacitated members, service fees may be charged on loans. A schedule of service fees shall be established by the Business Committee, provided that such fees shall not exceed the amounts set forth in the following table:

Loans of $500 or less:
5 percent of the amount of the loan.
Over $500 but not over $1,000:
$25 plus 4 percent of amount over $500.
Over $1,000 but not over $1,500:
$45 plus 3 percent of amount over $1,000.
Over $1,500 but not over $2,000:
$60 plus 2 percent of amount over $1,500.
Over $2,000:
$70 plus 1 percent of amount over $2,000.

§ 28.9 *Records and reports.* The Board shall keep records and accounts and make signed reports as directed by the Commissioner. Borrowers shall be required to furnish such information as the duly authorized representative of the Commissioner, the Board, or the Business Committee may deem necessary to provide proper information regarding the status of loans.

§ 28.10 *Maturity.* The period of maturity of loans shall be determined according to the circumstances. Crop loans, and loans for the purchase of nonrecoverable items, shall not be made with maturities exceeding one year, except when the loans are for enterprises from which insufficient income will be received the first year to repay the loan in full.

§ 28.11 *Security.* Borrowers shall furnish security, if available, up to an amount adequate to protect the loan. Securing papers shall be filed in accordance with State laws, except that liens on trust property other than crops, and assignments of income from trust property may be filed in the Klamath Agency office. If authorized by the Board, filing costs may be paid as an administrative expense of the Board.

§ 28.12 *Title to property.* Unless otherwise provided in the borrower's loan agreement, title to all property purchased with loans shall be taken in the name of the United States in trust for the Klamath Tribes.

§ 28.13 *Insurance.* Buildings with a total value of $500 or more purchased with or constructed with the proceeds of loans, or pledged as security for loans, shall be insured against loss by fire. Borrowers may be required to insure other property given as security, or purchased with borrowed funds, against loss by fire or other cause.

§ 28.14 *Penalties on default.* Unless the loan agreement otherwise provides, failure on the part of any borrower to conform to the terms of the loan agreement, or to make every honest effort to continue operations successfully, will be deemed grounds for any one or all of the following steps to be taken at the option of the Board: (a) Discontinue any further advances of funds contemplated by the loan agreement; (b) take possession of any or all collateral given as security and the property purchased with borrowed funds; (c) prosecute legal action against the borrower, or against officers of cooperative associations; (d) declare the entire amount advanced immediately due and payable; (e) prevent further disbursements of borrowed funds under the control of the borrower; (f) in the case of cooperative associations, liquidate or operate, or arrange for the operation of the association until its indebtedness is paid, or until the Board has received acceptable assurance of its repayment and of compliance with the loan agreement.

In the event the Board fails to take action which the Superintendent deems necessary to protect a loan, the Superintendent shall advise the Business Committee in writing of the failure of the Board to act, and state whatever action he deems necessary. The Business Committee may then take any of the steps set forth in this section which the Board could have taken.

§ 28.15 *Assignment.* The Board may not assign any loan agreement or any interest therein to a third party, discount paper or borrow money, without the approval of the Commissioner.

§ 28.16 *Repayments.* Repayments on loans shall be made to the bonded Government disbursing agent or his authorized representative, who shall issue an official receipt therefor.

§ 28.17 *Deceased borrowers.* The Board shall take all steps necessary to safeguard property purchased with or given as security for loans by deceased borrowers, until the loans are paid in full, or until the indebtedness is assumed by heirs or other parties in accordance with instructions of the Commissioner.

§ 28.18 *Responsibility of superintendent.* The Superintendent shall advise the Business Committee in writing of any loans approved by the Board in violation of the regulations in this part. No disbursements shall be made by the Superintendent on such loans. The Superintendent shall also advise the Business Committee in writing of any loans approved by the Board which are believed by him to be unsound, and he may withhold disbursements on such loans until they receive the approval of the Business Committee. The Superintendent shall report to the Business Committee any borrowers who are delinquent in payment of either principal or interest on their loans for a period longer than thirty days. The Business Committee shall advise the Board of the action which it deems necessary to protect the loan. In the event the Board fails to take such action within ten days, the Business Committee may act.

§ 28.19 *Repeal.* Sections 28.20 to 28.57, inclusive, of this part of 25 CFR, approved by the Secretary December 4, 1937, as amended August 23, 1938, November 18, 1938, July 24, 1940, and July 28, 1944, are hereby repealed.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments in writing to E. Morgan Pryse, District Director, U. S. Indian Service, Building 34, Swan Island, Portland 18, Oregon, within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

[21 CFR, Part 36]

[Docket No. FDC-49]

STANDARDS OF FILL OF CONTAINER FOR CANNED SHRIMP

NOTICE OF PROPOSED RULE MAKING

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701; 52 Stat. 1046, 1055; 21 U. S. C. 341, 371); and on the basis of the evidence received at the above-entitled hearing duly held pursuant to notice issued on June 6, 1947 (12 F. R. 3725–3726), the following order be made:

Findings of fact. 1. By order published in the FEDERAL REGISTER of July 2, 1942 (7 F. R. 4944), standards of fill of container were promulgated for canned wet pack shrimp and canned dry pack shrimp in nontransparent containers. The effective date of the order was August 1, 1942, and since that date nearly all of the canned shrimp in nontransparent containers produced in the United States has been packed in compliance with these standards of fill of container. (R. 10, 91, 100–101; Ex. 7)[1]

2. The change from the lower fills which were used prior to the promulgation of these standards of fill of container made it necessary for canners to exercise more careful control at certain stages of the canning process. More care was necessary in packing the shrimp into the cans and additional precautions were necessary to prevent shrimp spilling from cans before sealing. The exercise of these additional precautions placed no unreasonable burden on the canners of shrimp. (R. 15–17, 33, 45, 56–57, 59, 61–62, 77, 115–117, 119–120, 127, 134–135)

3. The probability of an increase in breakage in the closure of cans during and after processing, as a result of compliance with the present requirements, was advanced at the hearing on July 8, 1947, as a reason for reducing the requirement as to fill. The causes of such difficulties are directly related to the structure of the cans used and to lack of proper control of canning operations, particularly the head-space of the can and the temperature of its contents when it is closed. (R. 10–12, 29–30, 35–36, 39–40, 45, 61–62, 65–67, 77, 79–80, 120, 133–134, 141)

4. Canners of shrimp presented at this hearing certain reasons for objecting to the present requirements of fill of container in addition to increased manufacturing difficulties. These included an increased tendency for struvite crystals (referred to in exhibits 3 and 6 as phosphate crystals) to form when canned shrimp is held after canning, lowering of keeping quality caused by the longer time of processing used with the present fill, a tendency for shrimp in some cans to stick together, and an increase in the number

[1] The citations following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing which are the basis for these findings.

of broken and twisted shrimp. (R. 12, 15, 43, 45, 51–52, 61–62, 74–75, 77, 96, 121–122; Exs. 3, 4, 6)

5. For many years it has been observed that small glass-like crystals of the compound struvite (magnesium ammonium phosphate) will develop in an occasional can of shrimp. This is objectionable, since uninformed consumers sometimes mistake the crystals for particles of glass. The cause of the formation of these crystals is not known. There is some indication of an increase in the occurrence of struvite crystals in canned wet pack shrimp after the promulgation of the present standards. No relationship between the incidence of struvite crystals and the drained weight of shrimp has been established. (R. 12–14, 30–32, 37, 45, 52, 67–70, 74–75, 77, 80–81, 82–87, 89, 102–108, 125–126, 139; Exs. 3, 6, 9)

6. Apprehension was expressed that the longer processing time now used would render the shrimp somewhat softer when held for an extended period, unless they were held in cold storage. There is insufficient evidence to show that any increase in softening of shrimp packed under the present standard is of significance to consumers. Nor is the evidence sufficient to show whether the hazards of holding canned shrimp from one season to another have been increased by the longer processing time now employed. (R. 50–52, 58, 64–65, 73–74, 77, 79, 100–101, 122–129, 135–136; Ex. 9)

7. Sometimes the shrimp in cans of wet pack shrimp stick together and at times one or more shrimp is broken. This happened to a lesser extent when cans contained less shrimp. No impairment of quality of any significance has resulted from the fill now required. (R. 15, 43, 45, 77, 100–101, 107, 121–122, 124, 127; Ex. 9)

8. Sales of canned shrimp have been slow due to high prices. It is the opinion of many dealers that sales would be facilitated if canned shrimp were available in a smaller quantity than 7 ounces, the weight of shrimp in the No. 1 can wet pack. This was the smallest can permitted until recently under requirements of the wartime tin conservation order. During the last few months some canners have packed shrimp in smaller cans. There was some evidence that certain of these smaller cans are not of a size well adapted to the packing of large and extra large shrimp. However, there is no evidence indicating that there should be established a standard of fill of container for large and extra large shrimp different from the standard of fill of container for medium and small shrimp. (R. 17–25, 45, 49, 77, 93, 99–100, 104, 107, 116–117, 119–120, 131–133; Exs. 4, 8, 9)

Conclusions. On the basis of the foregoing findings of fact it is concluded that:

(a) Reducing the standard of fill of container for wet pack shrimp would result in the replacement of shrimp with brine. The reduction of the standard of fill of container for dry pack shrimp would result in omitting from the can shrimp that could be contained therein. In both instances the size of the cans would inaccurately reflect the amount of shrimp contained therein, particularly because consumers of canned shrimp have been receiving well-filled cans for about five years.

(b) It would not promote honesty and fair dealing in the interest of consumers to reduce the requirements of cut-out weight in the standards of fill of container for canned wet pack shrimp and canned dry pack shrimp in nontransparent containers.

Wherefore, *It is ordered*, That the regulations promulgated July 2, 1942 (7 F. R. 4944), fixing and establishing standards of fill of container for canned wet pack shrimp and canned dry pack shrimp, in nontransparent containers, be not amended to provide for reduction in the requirement for cut-out weight.

Any interested person whose appearance was filed at the hearing may, within 20 days from the date of publication of this order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the General Counsel, Room 3255 Federal Security Building, 4th Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs should be submitted in quintuplicate.

Dated: August 7, 1947.

Administrator.

JOLIET BROADCASTING CO.

ORDER FOR FURTHER HEARING ON STATED ISSUE

In re application of Joliet Broadcasting Company, Joliet, Illinois, for renewal of license of radio station WJOL; Docket No. 6983, File No. B4-R-591.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of July 1947;

The Commission having under consideration a petition filed on April 25, 1947, by the Joliet Broadcasting Company, requesting the Commission to reconsider and set aside its order of January 24, 1947 re-opening the record in the above-entitled docket and designating for further hearing the above-entitled renewal application; and

It appearing, that the Commission, on January 18, 1946, in the first instance designated for hearing the said application for renewal of license on issues relating to a contractual arrangement between the licensee and A. J. Felman, whereby certain of station WJOL's broadcast hours are reserved for his use; that on April 15, 1946, the Commission held a hearing on said renewal application; and on July 16, 1946, issued its Proposed Decision looking toward a denial thereof without prejudice to further proceedings as follows:

The applicant will be granted a temporary license for a period of three months, provided that within thirty days after this decision becomes final the applicant shall file with the Commission a statement which establishes that it has full control over the operation of the station and the entire program structure thereof; and that no further effect will be given to the agreement of August 9, 1937, whereby A. J. Felman reserves to himself the right to certain broadcast hours of the station; and

that on November 20, 1946, the Commission heard oral argument on said Proposed Decision; and

It further appearing, that the Commission subsequently received complaints concerning the policy of the station licensee in permitting the broadcasting of programs containing information with regard to horse racing and gambling, and issued its aforementioned order of January 24, 1947 designating for further hearing the renewal application on the following issues:

To obtain detailed information regarding programs broadcast by Station WJOL, dealing with horse racing and gambling, with particular reference to complaints of the Chief of Police and other citizens; and

It further appearing, that the allegations of the aforementioned petition and the data submitted in support thereof do not warrant a setting aside of the Commission's order of January 24, 1947; and the Commission being desirous of hearing testimony and of securing complete information concerning the licensee's policies and practices in regard to the matters set forth in the above-quoted issue,

It is ordered, That under § 1.386 of the Commission's rules and regulations, the petition of the Joliet Broadcasting Company requesting the Commission to reconsider and set aside its order of January 24, 1947, re-opening the record in the above-entitled docket and designating for further hearing the above-entitled application and requesting also that the application be acted upon by the Commission in accordance with the record heretofore made, be, and it is hereby denied; and

It is further ordered, That the further hearing ordered by the Commission on January 24, 1947, be conducted upon the issue hereinabove set forth at a time and place later to be specified.

EARLE C. ANTHONY, INC., AND NATIONAL BROADCASTING CO., INC.

ORDER SETTING DATE FOR ORAL ARGUMENT

In re application of Earle C. Anthony, Inc., Los Angeles, California, Docket No. 7254, File No. BMPCT-12; National Broadcasting Company, Inc., New York, New York, Docket No. 7256, File No. BPCT-24; for construction permits for commercial television broadcast stations in Los Angeles, California, metropolitan area.

At a session of the Federal Communications Commission, held at Atlantic City, New Jersey, on the 28th day of July 1947;

It appearing, that the Commission on December 20, 1946, granted construction permits for television stations in Los Angeles to Earle C. Anthony, Inc. (Channel No. 9), National Broadcasting Company, Inc. (Channel No. 4), American Broadcasting Company, Inc. (Channel No. 7), The Times-Mirror Company (Channel No. 11), Television Productions, Inc. (Channel No. 5), and Dorothy S. Thackrey (Channel No. 13); and

It further appearing, that on January 7, 1947, Earle C. Anthony, Inc. requested the Commission to reconsider its decision granting it Channel No. 9 rather than Channel No. 4, and that this petition was denied by the Commission on June 11, 1947, in an opinion and order; and

It further appearing, that on June 27, 1947, Earle C. Anthony, Inc. filed with the Commission a further petition for reconsideration entitled "Exceptions to Opinion and Petition For Hearing and Leave to Amend and For Cancellation of National Broadcasting Company Authorization" and requested oral argument on this petition, and that on July 7, 1947, the National Broadcasting Company filed a reply and opposition thereto and indicated that if oral argument on Earle C. Anthony's petition is granted, the National Broadcasting Company desires to participate in such argument;

Now, therefore, *It is ordered*, That the petition filed by Earle C. Anthony, Inc. and the reply thereto filed by the National Broadcasting Company be, and are hereby set down for oral argument on August 25, 1947.

ATLANTIC BROADCASTING CO., INC. (WHOM)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Atlantic Broadcasting Company, Inc., (WHOM), Jersey City, New Jersey, for modification of license; Docket No. 8479, File No. BML-1256.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 24th day of July 1947;

The Commission having under consideration the above-entitled application for modification of license to move its main studios from Jersey City, New Jersey, to New York, New York;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the circumstances under which it was decided to request modification of license to change the location of the main studios of station WHOM.

2. To determine the comparative needs of the cities of Jersey City, New Jersey, and New York, New York, for broadcast service originating in local studios, and, in view thereof, whether a grant of this application would serve the public interest, convenience or necessity.

CAPITOL BROADCASTING CORP.

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL [1]

The Commission hereby gives notice that on July 28, 1947 there was filed with it an application (BTC-562) for its consent under section 310 (b) of the Communications Act to the proposed transfer of control of Capitol Broadcasting Corporation, license of WISH, Indianapolis, Indiana, from the stockholders of said Capitol Broadcasting Corporation (C. Bruce McConnell, Earl H. Schmidt, Frank McConnell, John E. Messick and Edward W. Harris), to the Universal Broadcasting Co., Inc.

The proposal to transfer control of the license arises out of a contract of June 9, 1947 pursuant to which the above-named stockholders of Capitol Broadcasting Corporation agree to sell and Universal Broadcasting Company, Inc. agrees to buy all of the shares of Capitol Broadcasting Corporation, presently issued and outstanding, (C. Bruce McConnell 2600 shares, Earl H. Schmidt 2500 shares, Frank McConnell 500 shares, John E. Messick 250 shares, Edward W. Harris 150 shares) for a total consideration of $554,000 (or $80.00 per share for all shares except those held by C. Bruce McConnell who will receive $120 per share) to be paid as follows: $5625 will be placed in escrow with the Fidelity Trust Company of Indianapolis, at the time of the making of the contract and the remaining $548,375 will be paid to the escrow agent by July 15, 1947. The total consideration will be paid to the transferors on the closing date. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on July 28, 1947, that starting on August 1, 1947, notice of the filing of the application would be inserted in a newspaper of general circulation at Indianapolis, Indiana, in conformity with the above rule.

In accordance with the procedure set out in said rule, no action will be had upon the application for a period of 60 days from August 1, 1947, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

CONSOLIDATED NATURAL GAS CO.

ORDER PERMITTING SUPPLEMENTAL DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 1st day of August 1947.

Consolidated Natural Gas Company ("Consolidated"), a registered holding company, having filed a supplemental declaration, pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935, with respect to the following transaction:

Pursuant to the authority of this Commission's order dated June 12, 1947 (Holding Company Act Release No. 7485), Consolidated offered not exceeding 545,672 shares of its capital stock to its stockholders at a price of $37.50 per share, of which shares 520,547 were subscribed for, or approximately 95.4% of the total number offered. Consolidated now proposes to issue and sell the remaining 25,125 shares on the New York Stock Exchange through brokers to be selected by the company who are regular members of such exchange, the company receiving the price at which the shares are sold by the brokers less the regular brokers' commissions on the sales. The net proceeds from the sale are to be used in furtherance of the system's construction program specified in the original application-declaration concerning which our order of June 12, 1947 was issued. Consolidated requests that the proposed issue and sale of securities be excepted from the competitive bidding requirements of Rule U-50; and

The supplemental declaration having been duly filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23, promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said supplemental declaration within the period specified within said notice, or oth-

erwise, and not having ordered a hearing thereon; and

The Commission observing no basis for making any adverse findings with respect to the proposed issue and sale under the applicable provisions of the act and rules thereunder, and in the particular circumstances of this case, deeming it appropriate in the public interest and in the interests of investors and consumers to grant applicant's request for an exception from the competitive bidding requirements of Rule U-50 with respect to the proposed issue and sale of common stock and to permit the said supplemental declaration to become effective immediately so as to permit expeditious consummation of the proposed transaction:

It is hereby ordered, Pursuant to Rule U-23 and subject to the terms and conditions prescribed in Rule U-24 that the supplemental declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

GENERAL PUBLIC UTILITIES CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 31st day of July 1947.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed a declaration, and an amendment thereto, with this Commission, pursuant to section 12 of the Public Utility Holding Company Act of 1935 and Rules U-44 and U-50 promulgated thereunder, regarding the sale of its entire holdings of common shares of New England Gas and Electric Association ("Negas"), consisting of 311,361 common shares, each of a par value of $8.00, acquired in connection with the consummation of a plan of recapitalization of Negas, and which it is required to dispose of pursuant to opinions and orders of this Commission (see Holding Company Act Release Nos. 7181 and 7306); and

GPU having proposed in said amended declaration to sell at competitive bidding the 311,361 common shares of Negas by inviting sealed written proposals for the underwriting of such shares by newspaper advertisement published on July 23, 1947, requesting any persons interested in such underwriting to advise GPU to that effect in writing on or before July 31, 1947; and on or after such specified date GPU proposes by telegram to notify all persons who have so signified their interest to present sealed bids at a designated time and place, the time to be not less than 48 hours after the sending by GPU of such telegraphic notice; and

Such declaration, as amended, having been duly filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23, promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified within said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to this declaration, as amended, that there is no basis for any adverse findings under the applicable provisions of the act and rules thereunder, deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, and further deeming it appropriate to grant the request of declarant that the order to be entered herein become effective on or before July 31, 1947:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that the said declaration, as amended, be, and the same hereby is permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that the proposed sale of Negas common stock shall not be consummated until the results of competitive bidding shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

It is further ordered, That jurisdiction be, and hereby is, reserved over the payment of all fees and expenses in connection with the proposed transaction.

By the Commission.

GENERAL PUBLIC UTILITIES CORP.

SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 4th day of August 1947.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed a declaration, and an amendment thereto, pursuant to section 12 of the Public Utility Holding Company Act of 1935 and Rules U-44 and U-50 promulgated thereunder, regarding the sale of its entire holdings of common shares of New England Gas and Electric Association ("Negas"), consisting of 311,361 common shares, each of a par value of $8.00, acquired in connection with the consummation of a plan of recapitalization of Negas, and which it is required to dispose of pursuant to opinions and orders of this Commission (see Holding Company Act Release Nos. 7181 and 7306); and

The Commission having, by order dated July 31, 1947, permitted said declaration to become effective subject to the condition, among others, that the proposed sale of Negas common shares not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order has been entered by the Commission in the light of the record so completed, and the Commission having reserved jurisdiction over the payment of all fees and expenses in connection with the proposed transaction; and

GPU having filed a further amendment dated August 4, 1947 to said declaration in which it is stated that it has offered the Negas common shares for sale pursuant to the competitive bidding requirements of Rule U-50 and has received the following bids:

	Price to company
The First Boston Corp	$11.016
White, Weld & Co	
Kidder, Peabody & Co	10 529

The amendment further stating that GPU has accepted the bid of The First Boston Corporation for the Negas common shares as set out above and that the Negas common shares will be offered for sale to the public at a price of $11.75 per share resulting in an underwriter's spread of $0.734 per share; and

The amendment further stating that the fees and expenses to be incurred in connection with the proposed transaction are estimated as follows:

Printing amendment to registration statement, prospectus, exhibits and other incidental printing	$20, 000
Federal transfer taxes	1, 250
Massachusetts transfer taxes	500
Legal fees:	
Shearman & Sterling & Wright	5, 000
William A. Hill	1, 000
Miscellaneous	5, 500
Total	33, 250

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to such matters:

It is ordered, That the jurisdiction heretofore reserved with respect to the results of competitive bidding for the common shares of Negas be, and the same hereby is, released, and that GPU shall dispose of its entire holdings of common shares of Negas, consisting of 311,361 common shares of a par value of $8.00 per share, in accordance with the terms of the above declaration as finally amended on August 4, 1947, and which amendment is hereby permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over all fees and expenses in connection with the proposed transaction be, and the same hereby is, released.

By the Commission.

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

PART 1—ADMINISTRATIVE REGULATIONS

DELEGATION OF AUTHORITY TO DETERMINE EQUITABLE ADJUSTMENTS UNDER SALES OR TRANSFERS OF SURPLUS PROPERTY

The Controller, Production and Marketing Administration, is hereby given authority and is designated as representative of the Secretary of Agriculture to:

Consider requests for equitable adjustment, in accordance with contract provisions therefor, arising out of sale or transfer of commodities which have been declared surplus pursuant to the Surplus Property Act of 1944, and authorize such adjustment as in his sound discretion he determines to be equitable under the circumstances. Each adjustment shall be based on adequate proof of facts; shall be in the form of a written determination supported by written findings of fact; shall be conditioned upon the contractor's releasing any and all claims he may have against the Government under the contract involved in the adjustment; and shall be referred to the Solicitor's Office for review of legal problems, if any, involved in the adjustment.

The designation of the Assistant Administrator for Fiscal and Inventory Control, Production and Marketing Administration, to determine equitable adjustment under sales or transfer of surplus property, bearing No. 2—Admin. and dated July 2, 1946,[1] is terminated, said office having ceased to exist in accordance with Memorandum No. 1188 of the Secretary of Agriculture, dated March 19, 1947, but any proceedings begun by the said Assistant Administrator under the designation of July 2, 1946, may be continued by the Controller, Production and Marketing Administration.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

PART 1—POLICIES

The Commission, on July 16, 1947, amended its statement of policy, by deleting § 1.4 *Wool Products Labeling Act*, so that said statement of policy Part 1, Policies (16 CFR, Cum. Supp.) shall read as follows, effective on date of publication thereof in the FEDERAL REGISTER.

Sec.
1.1 Status of applicant or complainant.
1.2 Policy as to private controversies.
1.3 Settlement of cases by stipulation.
1.4 Cooperation with other agencies.

AUTHORITY: §§ 1.1 to 1.4, inclusive, issued under sec. 6, 38 Stat. 721, 60 Stat. 237; 15 U. S. C. 46, 5 U. S. C. Sup. 1001 et seq.

§ 1.1 *Status of applicant or complainant.* The so-called "applicant" or complaining party has never been regarded as a party in the strict sense. The Commission acts only in the public interest. It has always been and now is the rule not to publish or divulge the name of an

applicant or complaining party, and such party has no legal status before the Commission except where allowed to intervene as provided by the statute.

§ 1.2 *Policy as to private controversies.* It is the policy of the Commission not to institute proceedings against alleged unfair methods of competition or unfair or deceptive acts or practices where the alleged violation of law is a private controversy redressable in the courts, except where said practices tend to affect the public. In cases where the alleged injury is one to a competitor only and is redressable in the courts by an action by the aggrieved competitor and the interest of the public is not involved, the proceeding will not be entertained.

§ 1.3 *Settlement of cases by stipulation.* Whenever the Commission shall have reason to believe that any person has been or is using unfair methods of competition or unfair or deceptive acts or practices in commerce, and that the interest of the public will be served by so doing, it may withhold service of complaint and extend to the person opportunity to execute a stipulation satisfactory to the Commission, in which the person, after admitting the material facts, promises and agree to cease and desist from and not to resume such unfair methods of competition or unfair or deceptive acts or practices. All such stipulations shall be matters of public record, and shall be admissible as evidence of prior use of the unfair methods of competition or unfair or deceptive acts or practices involved in any subsequent proceeding against such person before the Commission. It is not the policy of the Commission to thus dispose of matters involving intent to defraud or mislead: false advertisement of food, drugs, devices, or cosmetics which are inherently dangerous or where injury is probable; suppression or restraint of competition through conspiracy or monopolistic practices; violations of the Clayton Act; violations of the Wool Practices Labeling Act of 1939 or the rules promulgated thereunder; or where the Commission is of the opinion that such procedure will not be effective in preventing continued use of the unlawful method, act, or practice. The Commission reserves the right in all cases, for any reasons which it regards as sufficient, to withhold this privilege.

§ 1.4 *Cooperation with other agencies.* (a) In the exercise of its jurisdiction with respect to practices and commodities concerning which other federal agencies also have functions, it is the established policy of the Commission to cooperate with such agencies to avoid unnecessary overlapping or possible conflict of effort.

(b) It is the policy of the Commission not to institute proceedings in matters such as the labeling or branding of commodities where the subject matter of the questioned portion of the labeling or branding used is, by specific legislation, made a direct responsibility of another federal agency.

(c) In proceedings involving false advertisements of food, drugs, cosmetics, and devices as defined in section 15 of the Federal Trade Commission Act, account is taken of the labeling requirements of the Food and Drug Administration in any corrective action applied to the advertising. In the case of advertisements of food, drugs, cosmetics, or devices which are false because of failure to reveal facts material in the light of the advertising representations made or material with respect to the consequences which may result from the use of the commodity, it is the policy of the Commission to proceed only when the resulting dangers may be serious or the public health may be impaired, and in such cases to require that appropriate disclosure of the facts be made in the advertising.

Promulgated as of this date in pursuance of the action of the Federal Trade Commission under date of July 16, 1947, effective on date of publication thereof in the FEDERAL REGISTER.

By direction of the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

AUTHORITY: §§ 2.1 to 2.29, inclusive, issued under sec. 6, 38 Stat. 721, 60 Stat. 237; 15 U. S. C. 46, 5 U. S. C. Sup. 1001 et seq.

NOTE: In §§ 2.1 to 2.29, inclusive, the numbers to the right of the decimal point correspond with the respective rule numbers (I to XXIX) in the rules of practice, Federal Trade Commission, of even date herewith.

§ 2.1 *The Commission*—(a) *Offices.* (1) The principal office of the Commission is at Washington, D. C.

(2) All communications to the Commission must be addressed to Federal Trade Commission, Washington 25, D. C., unless otherwise specifically directed.

(3) Branch offices are maintained at New York, Chicago, San Francisco, Seattle, and New Orleans.

(4) Their addresses are: Federal Trade Commission, Room 501, 45 Broadway, New York 6, N. Y.; Federal Trade Commission, 1118 New Post Office Building, 433 West Van Buren Street, Chicago 7, Ill.; Federal Trade Commission, Federal Office Building, Room 133, Civic Center, San Francisco 2, Calif.; Federal Trade Commission, 447 Federal Office Building, Seattle 4, Wash.; Federal Trade Commission, Room 652, Federal Office Building, 600 South Street, New Orleans 12, La.

(b) *Hours.* Offices are open on each business day from 8:30 a. m. to 5 p. m.

(c) *Sessions.* (1) The Commission may meet and exercise all its powers at any place, and may, by one or more of its members, or by such examiners as it may designate, prosecute any inquiry necessary to its duties in any part of the United States.

(2) Sessions of the Commission for hearings will be held as ordered by the Commission.

(3) Sessions of the Commission for the purpose of making orders and for transaction of other business unless otherwise ordered, will be held at the principal office of the Commission at Pennsylvania Avenue at Sixth Street, Washington, D. C., on each business day at 10 a. m.

(d) *Quorum.* A majority of the members of the Commission shall constitute a quorum for the transaction of business.

(e) *Public information.* All requests, whether for information or otherwise, and submittals shall be addressed to the principal office of the Commission.

§ 2.2 *The Secretary.* The Secretary is the executive officer of the Commission and shall have the legal custody of its seal, papers, records and property; and all orders of the Commission shall be signed by the Secretary or such other person as may be authorized by the Commission.

§ 2.3 *Investigational hearings.* (a) Investigational hearings, as distinguished from formal hearings in adversary proceedings, shall be held only as ordered by the Commission and shall be held before the Commission, one or more of its members, or a duly designated representative for the purpose of hearing the testimony of witnesses and receiving documents and other data relating to subjects within the investigational jurisdiction of the Commission. Unless otherwise ordered by the Commission, such hearings shall be public. Hearings shall be stenographically reported and a transcript thereof shall be made which shall be a part of the record of the investigation.

(b) Every person required to attend and testify or submit documents or other data shall be entitled to retain or, on payment of lawfully prescribed costs, procure a copy or transcript of such person's testimony or documents produced.

§ 2.4 *Applications for complaint.* (a) Any person, partnership, corporation, or association may apply to the Commission to institute a proceeding in respect to any violation of law over which the Commission has jurisdiction.

(b) Such application for complaint shall be in writing, signed by or in behalf of the applicant, and shall contain a short and simple statement of the facts constituting the alleged violation of law and the name and address of the applicant and of the party complained of.

§ 2.5 *Complaints.* (a) Whenever the Commission shall have reason to believe that there is a violation of law over which the Commission has jurisdiction, and in case of violation of the Federal Trade Commission Act, if it shall appear to the Commission that a proceeding by it in respect thereof would be to the interest of the public, the Commission shall issue and serve upon the proper parties a complaint stating its charges and containing a notice of a hearing upon a day and at the place therein fixed, at least thirty (30) days after the service of said complaint.

(b) Upon request made within fifteen (15) days after service of the complaint, any party shall be afforded opportunity for the submission of facts, arguments, offers of settlement or proposals of adjustment where time, the nature of the proceeding and the public interest permit, and due consideration shall be given to the same. Such submission shall be in writing. The filing of such request shall not operate to delay the filing of the answer.

§ 2.6 *Service.* (a) Complaints, orders, and other processes of the Commission, and briefs in support of the complaint, will be served by the Secretary of the Commission by registered mail, except when service by other method shall be specifically ordered by the Commission, by registering and mailing a copy thereof addressed to the person, partnership, or corporation to be served at his or its principal office or place of business. When proceeding under the Federal Trade Commission Act service may also be made at the residence of the person, partnership, or corporation to be served.

(b) When service is not accomplished by registered mail, complaints, orders, or other processes of the Commission, and briefs in support of the complaint, may be served by anyone duly authorized by the Commission, or by any examiner of the Commission,

(1) By delivering a copy of the document to the person to be served, or to a member of the partnership to be served, or to the president, secretary, or other executive officer or a director of the corporation to be served; or

(2) By leaving a copy thereof at the principal office or place of business of such person, partnership, or corporation. When proceeding under the Federal Trade Commission Act service may also be made at the residence of the person, partnership, or corporation to be served.

(c) The return post-office receipt for said complaint, order, or other process or brief registered and mailed as aforesaid, or the verified return by the person serving such complaint, order, or other process or brief, setting forth the manner of said service, shall be proof of the service of the document.

§ 2.7 *Appearance.* (a) Any individual or member of a partnership which is a party to any proceeding before the Commission may appear for himself, or such partnership upon adequate identification, and a corporation or association may be represented by a bona fide officer of such corporation or association upon a showing of adequate authorization therefor.

(b) A party may also appear by an attorney at law possessing the requisite qualifications, as set forth in this section, to practice before the Commission.

(c) Attorneys at law who are admitted to practice before the Supreme Court of the United States, or the highest court of any State or Territory of the United States, or the United States Court of Appeals for the District of Columbia, or the District Court of the United States for the District of Columbia, may practice before the Commission.

(d) No register of attorneys who may practice before the Commission is maintained. No application for admission to practice before the Commission is required. A written notice of appearance on behalf of a specific party or parties in the particular proceeding should be submitted by attorneys desiring to appear for such specific party or parties, which notice shall contain a statement that the attorney is eligible under the provisions of this section. Any attorney practicing before the Commission or desiring so to practice may, for good cause shown, be disbarred or suspended from practicing before the Commission, but only after he has been afforded an opportunity to be heard in the matter.

(e) No former officer, examiner, attorney, clerk, or other former employee of this Commission shall appear as attorney or counsel for or represent any party in any proceeding resulting from any investigation, the files of which came to the personal attention of such former officer, examiner, attorney, clerk, or other former employee during the term of his service or employment with the Commission.

§ 2.8 *Answers.* (a) In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

(b) Ten (10) copies of answers shall be furnished. The original of all answers shall be signed in ink, by the respondent or by his attorney at law. Corporations or associations shall file answers through a bona fide officer or by an attorney at law. Answers shall show the office and post-office address of the signer.

(c) Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

(d) If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Such answer will constitute a waiver of any hearing as to the facts alleged in the complaint and the Commission may proceed to make its findings as to the facts and conclusions based upon such answer and enter its order disposing of the matter without any intervening procedure. The respondent may, however, reserve in such answer the right to other intervening procedure; including a hearing upon proposed conclusions of fact or law, in which event he may, in accordance with § 2.24, file his brief directed solely to the questions reserved.

§ 2.9 *Intervention.* (a) So far as the responsible conduct of public business shall permit, any interested person, after leave granted, may appear before the Commission, or its delegated responsible officer, for the presentation, adjustment, or determination of any issue, request, or controversy in any proceeding or in connection with any function of the Commission.

(b) Any person, partnership, corporation, or association desiring to intervene in a contested proceeding shall make application in writing, setting out the grounds on which he or it claims to be interested.

(c) The Commission may, by order, permit intervention by counsel or in person to such extent and upon such terms as it shall deem proper.

§ 2.10 *Motions.* (a) Motions before the Commission or the trial examiner shall state briefly the purpose thereof and all supporting affidavits, records, and other papers, except such as have been previously filed, shall be filed with such motions and clearly referred to therein.

(b) Motions in any proceeding before a trial examiner which relate to the introduction or striking of evidence, to matters of procedure, or to any other matters coming within the scope of the trial examiner's authority shall be made to the trial examiner and shall be ruled on by him. All other motions in any proceeding, except as otherwise provided in this part, shall be addressed to and shall be ruled on by the Commission, but in the case of motions to dismiss for alleged failure of proof based upon testimony taken before a trial examiner, the motion will be referred to the trial examiner for report and recommendation

before a ruling is made by the Commission.

(c) Ten (10) copies of all written motions shall be filed with the Commission.

(d) Prompt notice shall be given of the granting or denial, in whole or in part, of any written application, petition, or other request of any interested person made in connection with any formal proceeding. Except in affirming a prior denial or where the denial is self-explanatory, such notice shall be accompanied by a simple statement of grounds.

§ 2.11 *Continuances and extensions of time.* (a) Except as otherwise expressly provided by law, the Commission, for cause shown, may extend any time limits prescribed in this part. A hearing before a trial examiner shall begin at the time and place ordered by the Commission, but thereafter the course of the hearing shall be regulated by the trial examiner subject to the provisions of § 2.20.

(b) Applications for continuances and extensions of time should be made prior to the expiration of time prescribed by this part.

§ 2.12 *Documents*—(a) *Filing.* All documents required to be filed with the Commission in any proceeding shall be filed with the Secretary of the Commission.

(b) *Title.* Documents shall clearly show the docket number and title of the proceeding.

(c) *Copies.* Documents, other than correspondence, shall be filed in triplicate, except as otherwise specifically required by this part.

(d) *Form.* (1) Documents not printed shall be typewritten, on one side of paper only; letter size, eight (8) inches by ten and one-half ($10\frac{1}{2}$) inches; left margin, one and one-half ($1\frac{1}{2}$) inches; right margin, one (1) inch.

(2) Documents may be printed, in ten (10) or twelve (12) point type, on good, unglazed paper, of the dimensions and with the margins above specified.

(3) Documents shall be bound at left side only.

(4) The originals of all answers, briefs, motions, and other documents shall be signed in ink by the respondent or his duly authorized attorney. Where the respondent is an individual or a partnership, the originals of said documents shall be signed by said individual or by one of the partners, or by his or its attorney. Where the respondent is a corporation, the originals of said documents shall be signed under the corporate name by a duly authorized official of such corporation, or by its attorney. Where the respondent is an association, the originals of said documents shall be signed under the association name for said association by a duly authorized official of such association, or by its attorney.

(5) One copy of a brief or other document required to be printed shall be signed as the original.

§ 2.13 *Admission as to facts and documents.* (a) At any time after answer has been filed counsel or parties in any controversy may serve upon the opposing side a written request for the admission of the genuineness and authenticity of any relevant documents described in and exhibited with the request or the admission of the truth of any relevant matters of facts set forth in such documents.

(b) Copies of the documents shall be delivered with the request unless copies have already been furnished. Each of the matters on which an admission is so requested shall be deemed admitted unless, within a period designated within the request, not less than ten days after service thereof or within such further time as the Commission or the trial examiner may allow on motion and notice, the party so served serves upon the party making the request, a sworn statement either denying specifically the matters of which an admission is requested, or setting forth in detail the reasons why he can neither truthfully admit nor deny those matters. Service required hereunder may be made upon a respondent either by registering and mailing or by delivering a copy of the documents to be served to the respondent or his attorney, or by leaving a copy at the principal office or place of business of either. Service upon the attorney supporting the complaint may be either by registering and mailing or by delivering a copy of the documents to be served to such attorney.

§ 2.14 *Trial examiners.* (a) All hearings pursuant to formal complaints shall be presided over by the Commission, a member of the Commission, or by a trial examiner appointed by the Commission and duly qualified as an examiner or hearing officer within the meaning of the Administrative Procedure Act. So far as practicable trial examiners shall be assigned to cases in rotation.

(b) Subject to the published rules of the Commission and within its authority, officers presiding at hearings shall have the following powers and duties in all cases to which they are assigned by the Commission, to wit:

(1) To administer oaths and affirmations.

(2) To issue subpoenas authorized by law.

(3) To rule upon offers of proof and receive relevant evidence.

(4) To take or cause depositions to be taken whenever the ends of justice would be served thereby.

(5) To regulate the course of the hearings.

(6) To hold conferences for the settlement or simplification of the issues by consent of the parties.

(7) To dispose of procedural requests or similar matters.

(8) To make and submit to the Commission a recommended decision as provided by § 2.22.

(9) To certify questions to the Commission for its determination.

(10) To take any other action authorized by Commission rule consistent with the Administrative Procedure Act.

(c) Trial examiners shall perform no duties inconsistent with their duties and responsibilities as such. Save to the extent required for the disposition of ex parte matters as authorized by law, no trial examiner shall consult any person or party as to any fact in issue unless upon notice and opportunity for all parties to participate.

(d) Trial examiners shall not be responsible to, or subject to the supervision or direction of, any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for the Commission.

(e) The trial examiner is charged with the duty of conducting a fair and impartial hearing and of maintaining order in form and manner consistent with the dignity of the Commission. He will note on the record any disregard by counsel of his rulings on matters of order and procedure and where he deems it necessary shall make special written report thereof to the Commission. In the event that counsel supporting the complaint or counsel for any respondent shall be guilty of disrespectful, disorderly, or contumacious language or conduct in connection with any hearing, the trial examiner may suspend the proceeding and submit to the Commission his report thereon, together with his recommendations as to whether any rule should be issued to show cause why such counsel should not be suspended or disbarred pursuant to § 2.7 or subjected to other appropriate action in respect thereto. A copy of such trial examiner's report shall be furnished to any counsel upon whose language or conduct such report is made, and the Commission will take disciplinary action only after an opportunity for hearing has been accorded such counsel.

§ 2.15 *Hearings in adversary proceedings.* All hearings pursuant to formal complaint shall be public unless otherwise ordered by the Commission, and such hearings shall be subject to the following conditions and requirements:

(a) Every party respondent shall have the right of due notice, cross examination, presentation of evidence, objection, exception, motion, argument, appeal and all other fundamental rights.

(b) The taking of evidence and subsequent proceedings shall proceed with all reasonable diligence and with the least practicable delay.

(c) Not less than five (5) days notice of the time and place of any indefinitely postponed hearing shall be given to counsel of record or to parties, but in appointing such hearings due regard shall be had for the convenience and necessity of all parties or their representatives.

(d) The trial examiner may withdraw from a case when he deems himself disqualified, or he may be withdrawn by the Commission after timely affidavits alleging personal bias or other disqualification have been filed and the matter has been heard by the Commission or by a trial examiner whom it has delegated to investigate and report.

(e) Hearings shall be stenographically reported by the official reporter of the Commission under supervision of the presiding trial examiner. A transcript of said report shall be a part of the record and the sole official transcript of the proceeding. Transcripts will be supplied to respondents and to the public by the official reporter at rates not to exceed the maximum rates fixed by contract between the Commission and the reporter.

(f) Changes in the official transcript may be made only when they involve errors affecting substance and then only in the manner provided in this section. No physical changes shall be made in or upon the official record or copies thereof in the custody of the Commission. Lists of changes agreed to in writing by opposing counsel may be incorporated into the record, if and when approved by the trial examiner, at the close of evidence in support of the complaint, or at the final hearing before the trial examiner, or at any time thereafter before he files his report, and at no other times. If any changes are ordered by the trial examiner without such written agreement between opposing counsel they shall be subject to objection and exception.

§ 2.16 *Subpoenas.* (a) Subpoenas requiring the attendance of witnesses or the production of documentary evidence from any place in the United States, at any designated place of hearing, may be issued by the presiding trial examiner or a member of the Commission. Application therefor may be made either to the presiding trial examiner or to the Commission.

(b) Application for subpoenas for the production of documentary evidence shall be made in writing to the presiding trial examiner or to the Commission. The application must have reasonable scope and specify as exactly as possible the documents desired, and show their general relevancy. The application shall be verified by oath or affirmation.

(c) An appeal may be taken to the Commission by the parties from the presiding trial examiner's denial of a motion to quash or refusal to issue a subpoena for the production of documentary evidence.

§ 2.17 *Witnesses and fees.* (a) Witnesses at formal hearings shall be examined orally. Witnesses summoned in support of the complaint shall be paid the same fees and mileage as are paid witnesses in the courts of the United States.

(b) Witnesses whose depositions are taken, and the persons taking such depositions, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

(c) Witness fees and mileage, and fees for depositions, shall be paid by the party at whose instance witnesses appear.

§ 2.18 *Evidence*—(a) *In general.* Counsel supporting the complaint shall have the general burden of proof and the proponent of any factual proposition shall be required to sustain the burden of proof with reference thereto. The trial examiner, subject to appeal to the Commission as provided in § 2.20, shall admit relevant, material, and competent evidence, but shall exclude irrelevant, immaterial, and unduly repetitious evidence.

(b) *Documentary.* Where relevant and material matter offered in evidence is embraced in a document containing other matter not material or relevant and not intended to be put in evidence, such immaterial or irrelevant parts shall be excluded, and shall be segregated insofar as practicable.

(c) *Official notice of facts.* Where any recommended decision of the trial examiner or any decision of the Commission, or part thereof, rests upon the taking of official notice of a material fact not appearing in the evidence in the record, any party shall, upon timely motion, be afforded an opportunity to show the contrary.

(d) *Objections.* Objections to evidence shall be in short form, stating the grounds relied upon, and the transcript shall not include argument or debate thereon except as ordered by the presiding officer. Rulings on such objections shall appear in the record.

§ 2.19 *Depositions.* (a) For good and exceptional cause the testimony of any witness may be taken in any case whether at issue or not, by deposition de bene esse or, prior to the pendency of a case, according to the common usage in Chancery. Depositions may be taken orally or upon interrogatories before any person having power to administer oaths and who has been duly designated by the Commission or the presiding trial examiner.

(b) Unless notice be waived, no deposition shall be taken except after at least five (5) days' written notice to the parties within the United States and fifteen (15) days' notice when deposition is to be taken elsewhere.

(c) Any party desiring to take the deposition of a witness shall make application in writing to the Commission or the presiding trial examiner setting out the reasons why such deposition should be taken, the character of the deposition, the time when, the place where, and the name and Post Office address of the person before whom such deposition is to be taken, the name and Post Office address of each witness, and the subject matter concerning which the witness is expected to testify. If good and exceptional cause be shown, an order containing such instructions will be made and served upon the parties.

(d) Upon application granted, such deposition may be taken before a person having power to administer oaths other than the person designated in the notice, provided reasonable written notice of such change is given the opposing party. Each witness so testifying shall be duly sworn and the adverse party shall have the right to cross-examine such witnesses. The questions propounded to the witnesses and the answers thereto shall be reduced to writing, and, in the presence of the officer taking the deposition, read to the witness and subscribed by the witness and certified in usual form by said officer. Thereafter the said officer shall forward said deposition with three copies thereof, in an envelope under seal, endorsed with the title of the case, and addressed to the Commission at its office in Washington, D. C. If in a pending case, such sealed deposition shall immediately be forwarded to the presiding trial examiner and at a time of hearing read in evidence subject to such objections to the questions and answers as were noted at the time of taking the deposition or as would be valid were the witness personally present at such hearing.

§ 2.20 *Appeals to the Commission from rulings of trial examiners.* Except as provided for in § 2.16, parties shall not have the right to prosecute appeals from rulings of trial examiners during the course of hearings unless it be shown to the Commission that the prompt decision of such appeal is necessary to prevent unusual delay and expense.

Motions for reconsideration and reversal of previous rulings may be made before the trial examiner at the termination of the reception of evidence. In such motions each exception shall be separately set out, with exact citations to each portion of the record involved and references to the principal authorities relied upon. The trial examiner shall rule upon each exception. An appeal may be taken to the Commission from any adverse ruling on any such motion and the record relating thereto shall be certified to the Commission. Notice of such appeal shall be made on the record when the rulings are made and thereupon the trial examiner shall fix a time, not exceeding fifteen (15) days unless the necessity for further time shall clearly appear, for filing the appeal and a like time for filing the answer. Pending Commission decision and action upon such appeal the case shall remain open. Any such matters not thus laid before the Commission shall be deemed waived.

§ 2.21 *Proposed findings and conclusions before trial examiner.* At the close of the reception of evidence before the trial examiner in all formal proceedings, or within a reasonable time thereafter to be fixed by the trial examiner, parties may file for consideration by the trial examiner their proposed findings and conclusions, together with their reasons therefor. Such proposals shall be in writing and shall contain exact references to the record and authorities relied on. Copies thereof shall be furnished all parties, and three copies, including the signed original, shall be filed with the Commission.

Oral argument may be allowed at the discretion of the trial examiner. The record shall show the ruling on each such proposal. Exceptions to such rulings shall be subject to appeal under § 2.23 only.

§ 2.22 *Trial examiner's recommended decision in adversary proceedings.* (a) The trial examiner, as soon as practicable and within thirty (30) days after receipt of the complete transcript and all exhibits in adversary proceedings, shall make and file a recommended decision which shall become a part of the record and include a statement of (1) findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record; and (2) an appropriate order.

(b) Except where he shall have become unavailable to the Commission, the said recommended decision shall be made by the trial examiner who presided at the hearing.

(c) No officer, employee or agent, engaged in the performance of investigative or prosecuting functions for the Commission, and no party respondent or his agent or counsel in any case shall, in that or a factually related case, participate or advise in the recommended decision of the trial examiner, except as a

witness or as counsel in public proceedings.

(d) All findings, conclusions and orders recommended by the trial examiner shall be based upon the whole record and supported by reliable, probative and substantial evidence (including facts of which he may take official notice). No findings shall be recommended except such as he deems supported by the greater weight of the evidence.

(e) At any time prior to the filing of his recommended decision the trial examiner may, for good cause shown, reopen the case for the reception of further evidence.

(f) A copy of the trial examiner's recommended decision shall be served upon each party, counsel or other representative, who has appeared pursuant to § 2.7.

§ 2.23 *Exceptions.* (a) Any party may, within ten (10) days after receipt of a copy of the trial examiner's recommended decision, file with the Commission exceptions to any part thereof and to the trial examiner's failure to include proposed findings and conclusions requested under § 2.21. Each exception shall specify the portions of the record and the authorities relied on to sustain each point.

(b) Ten (10) copies of the exceptions shall be filed. All exceptions and rulings thereon shall become part of the record.

(c) A copy of such exceptions shall forthwith be furnished the trial examiner and a copy served upon each of the parties and counsel who were served with a copy of the trial examiner's recommended decision.

(d) If exceptions are to be argued, they shall be argued at the time of final argument upon the merits, except as otherwise provided in § 2.20.

§ 2.24 *Briefs and oral arguments before the Commission—(a) Questions for presentation.* Questions which may be presented for consideration and decision by the Commission on final hearing include the following:

(1) Whether the findings and conclusions recommended by the trial examiner are relevant and material to the issues and are supported by reliable, probative, and substantial evidence and by the greater weight of the evidence;

(2) Whether additional findings and conclusions, not recommended by the trial examiner, should be made either with or without sending the case back to the trial examiner for the reception of further evidence;

(3) Whether the trial examiner was justified in having taken official notice of any fact and whether the Commission should take official notice of any other fact;

(4) Whether due process was observed and whether there was any prejudicial irregularity in procedure;

(5) Whether the facts show a violation of law amenable to redress by the Commission and what conclusions of law are justified and requisite in the premises; and

(6) Whether an order to cease and desist, an order of dismissal, or other order, should be entered and issued, and the substance and form thereof.

(b) *Briefs*—(1) *Filing.* (i) Any party to a proceeding may file a brief in support of his contentions within the time limits fixed by the regulations in this part.

(ii) Briefs not filed on or before the time fixed in the rules will be received only by special permission of the Commission.

(2) *Time.* (i) Opening brief shall be filed by the attorney supporting the complaint within twenty (20) days after service upon him of a copy of the recommended decision of the trial examiner.

(ii) Brief on behalf of respondent shall be filed within twenty (20) days after service upon respondent or respondent's attorney of copy of brief in support of the complaint.

(iii) Where respondent shall have filed an answer admitting all material allegations of fact, the time so limited shall begin to run at the time of filing such answer.

(iv) In the event permission is granted for filing reply brief in support of the complaint, it shall be filed within ten (10) days after filing of brief on behalf of respondent. No further brief on behalf of respondent shall be filed.

(3) *Number.* Twenty (20) copies of each brief shall be filed.

(4) *Contents.* (i) Briefs, except the reply brief in support of the complaint, shall contain, in the following order:

(a) A concise abstract or statement of the case.

(b) A brief of the argument, exhibiting a clear statement of the points of fact or law to be discussed, with references to the pages of the record and the authorities relied upon in support of each point.

(ii) The exceptions, if any, to the recommended decision of the trial examiner may also be included in the brief.

(5) *Index.* Briefs comprising more than ten (10) pages shall contain on their top fly leaves a subject index with page references. The subject index shall be supplemented by an alphabetical list of all cases referred to, with references to pages where references are cited.

(6) *Form.* Briefs shall be printed, multigraphed or otherwise neatly processed on good unglazed white paper in type not smaller than ten (10) point double leaded, citations and quotations single leaded; footnotes not less than eight (8) point single leaded. Type page shall be not more than twenty-nine (29) picas wide by approximately forty-eight (48) picas deep and trimmed page shall be seven (7) inches by ten (10) inches, with an inside margin of not less than one (1) inch.

(7) *Length.* Unless leave be granted, briefs shall not exceed seventy-five (75) printed pages.

(8) *Signing.* At least one copy of each brief shall be signed in ink, by the respondent or his duly authorized attorney, as prescribed in § 2.12.

(c) *Oral arguments.* (1) Oral arguments before the Commission shall be had as ordered, on written application of the Chief Trial Counsel of the Commission, or of the respondent, or of attorney for respondent, filed within fifteen (15) days after filing of brief on behalf of respondent.

(2) Oral arguments before the Commission shall be reported stenographically unless otherwise ordered by the Commission.

§ 2.25 *Commission's adjudication.* (a) Upon submittal of a case to the Commission for final decision on the merits the Commission will consider the whole record, including the recommended decision of the Trial Examiner and the exceptions thereto, will resolve all questions of fact by what it deems to be the greater weight of the evidence thereon, will make its decision stating the reasons or basis therefor and enter an appropriate order, and wherever it decides that an order to cease and desist should be entered will also make, as provided by law, a report in writing stating its findings as to the facts. As authorized under the various statutes defining its power and duties the Commission adjudicates all formal proceedings brought before it and as authorized under the Administrative Procedure Act reserves such adjudications exclusively to itself.

(b) No officer, employee or agent, engaged in the performance of investigative or prosecuting functions for the Commission, and no party respondent or his agent or counsel in any case shall, in that or a factually related case, participate or advise in the decision of the Commission, except as a witness or as counsel in public proceedings.

§ 2.26 *Reports showing compliance with orders and with stipulations.* (a) In every case where an order to cease and desist is issued by the Commission for the purpose of preventing violations of law and in every instance where the Commission approves and accepts a stipulation in which a party agrees to cease and desist from the unlawful methods, acts or practices involved, the respondents named in such orders and the parties so stipulating shall file with the Commission, within sixty days of the service of such order and within sixty days of the approval of such stipulation, a report, in writing, setting forth in detail the manner and form in which they have complied with said order or with said stipulation; *Provided, however,* That if within the said sixty (60) day period respondent shall file petition for review in a circuit court of appeals, the time for filing report of compliance will begin to run de novo from the final judicial determination; *And provided further,* That where the order prevents the use of a false advertisement of a food, drug, device or cosmetic, which may be injurious to health because of results from such use under the conditions prescribed in the advertisement, or under such conditions as are customary or usual, or if the use of such advertisement is with intent to defraud or mislead, an interim report stating whether and how respondents intend to comply shall be filed within ten days.

(b) Within its sound discretion, the Commission may require any respondent upon whom such order has been served and any party entering into such stipulation, to file with the Commission, from time to time thereafter, further reports

in writing, setting forth in detail the manner and form in which they are complying with said order or with said stipulation.

(c) Reports of compliance shall be signed in ink by respondents or by the parties stipulating.

§ 2.27 *Reopening of proceedings.* (a) In any case where an order to cease and desist has been issued by the Commission it may, upon notice to the parties, modify or set aside, in whole or in part, its report of findings as to the facts or order in such manner as it may deem proper at any time prior to expiration of the time allowed for filing a petition for review or prior to the filing of the transcript of record in the proceeding in a Circuit Court of Appeals of the United States pursuant to a petition for review or for enforcement of such order.

(b) In any case where an order to cease and desist issued by the Commission has become final by reason of court affirmance or expiration of the statutory period for court review without a petition for such review having been filed, the Commission may at any time after reasonable notice and opportunity for hearing as to whether changed conditions of fact or of law or the public interest so require, reopen and alter, modify or set aside in whole or in part its report of findings as to the facts or order therein whenever in the opinion of the Commission, after such hearing, such action is required by said changed conditions or by the public interest.

(c) In any case where an order dismissing a formal complaint of the Commission has been entered the Commission may, upon reasonable notice to the parties and opportunity for a hearing as to whether said proceeding should be reopened, issue an order reopening the same whenever, in the opinion of the Commission, changed conditions of fact or of law or the public interest so require.

§ 2.28 *Trade practice conference procedure—(a) Purpose.* The trade practice conference procedure has for its purpose the establishment, by the Commission, of trade practice rules in the interest of industry and the purchasing public. This procedure affords opportunity for voluntary participation by industry groups or other interested parties in the formulation of rules to provide for elimination or prevention of unfair methods of competition, unfair or deceptive acts or practices and other illegal trade practices. They may also include provisions to foster and promote fair competitive conditions and to establish standards of ethical business practices in harmony with public policy. No provision or rule, however, may be approved by the Commission which sanctions a practice contrary to law or which may aid or abet a practice contrary to law.

(b) *When authorized.* Trade practice conference proceedings may be authorized by the Commission upon its own motion or upon application therefor whenever such proceedings appear to the Commission to be in the interest of the public. In authorizing proceedings, the Commission may consider whether such proceedings appear to have possibilities (1) of constructively advancing the best interests of industry on sound competitive principles in consonance with public policy, or (2) of bringing about more adequate or equitable observance of laws under which the Commission has jurisdiction, or (3) of otherwise protecting or advancing the public interest.

(c) *Application.* Application for a trade practice conference may be filed with the Commission by any interested person, party or group. Such application shall be in writing and be signed by the applicant or the duly authorized representative of the applicant or group desiring such conference. The following information, to the extent known to the applicant, shall be furnished with such application or in a supplement thereto:

(1) A brief description of the industry, trade, or subject to be treated.

(2) The kind and character of the products involved.

(3) The size or extent and the divisions of the industry or trade groups concerned.

(4) The estimated total annual volume of production or sales of the commodities involved.

(5) List of membership of the industry or trade groups concerned in the matter.

(6) A brief statement of the acts, practices, methods of competition or other trade practices desired to be considered, or drafts of suggested trade practice rules.

(d) *Informal discussions with members of the Commission's staff.* Any interested person or group may, upon request, be granted opportunity to confer in respect to any proposed trade practice conference with the Commission's trade practice conference division, either prior or subsequent to the filing of any such application. They may also submit any pertinent data or information which they desire to have considered. Such submission shall be made during such period of time as the Commission or its duly authorized official may designate.

(e) *Industry conferences.* Public notice of the time and place of any such authorized conference shall be issued by the Commission. A member of the Commission or of its staff shall have charge of the conference and shall conduct the conference pursuant to direction of the Commission and in such manner as will facilitate the proceeding and afford appropriate consideration of matters properly coming before the conference. A transcript of the conference proceedings shall be made, which, together with all rules, resolutions, modifications, amendments or other matters offered, shall be filed in the office of the Commission and submitted for its consideration.

(f) *Public hearing on proposed rules.* Before final approval by the Commission of rules for an industry, and upon public notice further opportunity shall be afforded by the Commission to all interested persons, corporations, or other organizations, including consumers, to submit in writing relevant suggestions or objections and to appear and be heard at a designated time and place.

(g) *Promulgation of rules.* When trade practice rules shall have been finally approved and received by the Commission, they shall be promulgated by official order of the Commission and published, pursuant to law, in the FEDERAL REGISTER. Said rules shall become operative thirty (30) days from date of promulgation or at such other time as may be specified by the Commission. Copies of the final rules shall be made available at the office of the Commission. Under the procedure of Commission a copy of the trade practice rules as promulgated by the Commission is sent to each member of the industry whose name and address is available, together with an acceptance form providing opportunity to such member to signify his intention to observe the rules in the conduct of his business.

(h) *Violations.* Complaints as to the use, by any person, corporation or other organization, of any act, practice or method inhibited by the rules may be made to the Commission by any person having information thereof. Such complaints, if warranted by the facts and the law, will receive the attention of the Commission in accordance with the law. In addition, the Commission may act upon its own motion in proceeding against the use of any act, practice or method contrary to law.

(i) *Amendment of rules.* Trade practice rules may be amended or rescinded by the Commission upon its own motion or upon application filed with it by any interested person, party or group. Such application shall be in writing, signed by the applicant or his duly authorized representative, and shall set forth the reasons for the requested action.

§ 2.29 *Public information.* (a) The rules of practice of the Commission, and such amendments as may be made thereto, shall be published in the FEDERAL REGISTER and may be obtained from the Commission upon application.

(b) The findings, conclusions of law, and final orders of the Commission in respective formal proceedings and a digest of accepted stipulations to desist from unlawful practices shall be published in the official reports of the Commission.

(c) Trade practice conference rules for respective industries, issued under § 2.27, may be obtained upon application to the Commission and shall be published in the FEDERAL REGISTER.

(d) Information concerning the activities of the Commission will be released from time to time under the direction or pursuant to the authority of the Commission.

(e) In proceedings instituted by the issuance of formal complaint, the pleadings, transcript of testimony, exhibits, and all documents received in evidence or made a part of the record therein shall be available for inspection and copying by the public at the convenience of the Commission.

(f) Documents, records, and reports made public by the Commission, including stipulations to cease and desist, certain trade practice conference records, and certain papers filed under the Wool Products Labeling Act, shall be available for inspection and copying at the convenience of the Commission.

(g) The records and files of the Commission, and all documents, memoranda, correspondence, exhibits, and information of whatever nature, other than the documentary matters above described, coming into the possession or within the knowledge of the Commission or any of its officers or employees in the discharge of their official duties, are confidential, and none of such material or information may be disclosed, divulged, or produced for inspection or copying except under the following circumstances:

(h) Upon good cause shown, the Commission may by order direct that certain records, files, papers, or information be disclosed to a particular applicant.

(1) Application by a member of the public for such disclosure shall be in writing, under oath, setting forth (i) the interest of the applicant in the subject matter; (ii) a description of the specific information, files, documents, or other material inspection of which is requested; (iii) whether copies are desired; and (iv) the purpose for which the information or material, or copies, will be used if the application is granted. Upon receipt of such an application the Commission will take action thereon, having due regard to statutory restrictions, its rules of practice and the public interest.

(2) In the event that confidential material is desired for inspection, copying, or use by some agency of the Federal or a State Government, a request therefor may be made by the administrative head of such agency. Such request shall be in writing, and shall describe the information or material desired, its relevancy to the work and function of such agency and, if the production of documents or records or the taking of copies thereof is asked, the use which is intended to be made of them. The Commission will consider and act upon such requests, having due regard to statutory restrictions, its rules of practice, and the public interest.

(i) In cases in which an officer or employee of the Commission has been lawfully served with a subpoena duces tecum, material designated herein as confidential shall be produced only when and as authorized by the Commission. Service of such subpoena shall immediately be reported to the Commission with a statement of all relevant facts. The Commission will thereupon enter such order or give such instructions as it shall deem advisable in the premises. If the officer or employee so served has not received instructions from the Commission prior to the return date of the subpoena, he shall appear in response thereto and respectfully decline to produce the documents or records subpoenaed (pointing out that he is not permitted to do so under this section), and request a continuance pending action by or instructions from the Commission. If, notwithstanding, the court or other body orders the production of any of the material subpoenaed, the officer or employee shall immediately report the facts to the Commission.

Promulgated as of this date in pursuance of the action of the Federal Trade Commission under date of July 16, 1947, and August 6, 1947, effective on date of publication thereof in the FEDERAL REGISTER.

By direction of the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

AUTHORITY: §§ 7.1 to 7.17, inclusive, issued under sec. 6, 38 Stat. 721, 60 Stat. 237; 15 U. S. C. 46, 5 U. S. C. Sup. 1001 et seq.

§ 7.1 *The Commission.* The Federal Trade Commission is composed of five Commissioners appointed by the President and confirmed by the Senate. It was established in 1914 as an agency to foster fair and free competition and to supplement the antitrust laws. It has remedial functions in the administration and enforcement of various statutes prohibiting the use of unfair, deceptive, discriminatory, and monopolistic trade practices. These functions are exercised by way of adversary proceedings and orders to cease and desist, by the stipulated acquiescence of the parties or by trade practice conference proceedings. The Commission also exercises supervision over associations engaged in export trade. The Commission also has advisory functions which are exercised by way of general investigations and reports to Congress or to the President and by recommendations for legislation. These functions are exercised through various divisions of the Commission as described in this part.

§ 7.2 *Offices.* (a) The principal office of the Commission is at Washington, D. C.

(b) All communications to the Commission should be addressed to Federal Trade Commission, Pennsylvania Avenue at Sixth Street, Washington 25, D. C., unless otherwise specified.

(c) Branch offices of the Office of Legal Investigations are maintained at Room 501, 45 Broadway, New York 6, N. Y.; 1118 New Post Office Building, 433 West Van Buren Street, Chicago 7, Ill.; Federal Office Building, Room 133, Civic Center, San Francisco 2, Calif.; 447 Federal Office Building, Seattle 4, Wash.; Room 652, Federal Office Building, 600 South Street, New Orleans 12, La.

§ 7.3 *Hours.* Offices are open on each business day from 8:30 a. m. to 5 p. m.

§ 7.4 *Sessions.* (a) The Commission may meet and exercise all its powers at any place, and may, by one or more of its members, or by such representatives as it may designate, prosecute any inquiry necessary to its duties in any part of the United States.

(b) Sessions of the Commission for hearings will be held as ordered by the Commission.

(c) Sessions of the Commission for the purpose of making orders and for transaction of other business unless otherwise ordered are held at the principal office of the Commission at Pennsylvania Avenue at Sixth Street, Washington, D. C., on each business day.

§ 7.5 *Quorum.* A majority of the members of the Commission constitutes a quorum for the transaction of business.

§ 7.6 *Public information.* All requests, whether for information or otherwise, and submittals should be addressed to the principal office of the Commission.

§ 7.7 *The Secretary.* The Secretary is the executive officer of the Commission and is the legal custodian of its seal, papers, records, and property; and all orders of the Commission are signed by the Secretary or such other person as may be authorized by the Commission.

§ 7.8 *Preliminary legal investigations.* All preliminary legal investigations of the Commission are conducted by the staff of its Office of Legal Investigations which is made up of a Director, an Assistant Director, a Chief Examiner, and a Chief of the Radio and Periodical Division. The Chief Examiner has four Assistants, and there is one Assistant Chief in the Radio and Periodical Division.

(a) *Applications for complaint.* (1) Any person, partnership, corporation, or association may apply to the Commission to institute a proceeding in respect to any violation of law over which the Commission has jurisdiction.

(2) Such application for complaint should be in writing, signed by or in behalf of the applicant, and should contain a short and simple statement of the facts constituting the alleged violation of law, and the name and address of the applicant and of the party complained of, together with all relevant available information. No forms or formal procedure are required in making an application for complaint.

(b) *Status of applicant for complaint.* The applicant is not a party to a Commission proceeding except where allowed to intervene as provided by the statute. It has always been and now is the rule not to publish or divulge the name of an applicant.

(c) *Docketing of applications for complaint.* Upon receipt of an application for complaint, the Commission through its Office of Legal Investigations, considers the essential jurisdictional elements before deciding whether or not it shall be docketed. Also, the Commission, acting on its own motion, dockets applications for complaint and initiates investigations. It is the policy not to docket an application for complaint or institute proceedings where the alleged violation of law is merely a private controversy and does not tend adversely to affect the public.

(d) *Investigation of docketed matters.* The general procedure is that after a matter has been docketed, it is assigned to an attorney or examiner for the purpose of developing all the material facts. He is directed to interview the applicant. He is also directed to interview the party complained against, advise him fully of the charges, and obtain relevant information, oral and documentary, including such as may be furnished in defense. Such additional investigation is made as may be necessary. Preliminary investigations under the Export Trade Act are made in the same manner.

(e) *Report on investigation of docketed matters.* After developing all the relevant facts, the attorney examiner summarizes the material in a report, reviews the law applicable, and makes recommendations as to what action he believes the Commission should take. The file is reviewed by the Chief Examiner, and, if found to be complete, is submitted by him to the Commission (through the Director of the Office of Legal Investigations), with a summary of the issues involved, his conclusions thereon, and his recommendation. He may recommend (1) closing of the file without prejudice to the right of the Commission to reinstate the matter if and when conditions may warrant, or (2) disposition of the application for complaint by the respondent signing a stipulation as to the facts, and an agreement to cease and desist from the practices set forth in the stipulation, or (3) issuance of formal complaint, or (4) other appropriate action.

(f) *Radio and periodical advertising.* The Radio and Periodical Division of the Office of Legal Investigations conducts a current and continuing survey of radio, newspaper, magazine, and mail order catalog or circular advertising. If it appears that a published advertisement may be misleading, a contact letter is sent to the advertiser containing a request for pertinent information and material regarding the product and the advertisement thereof. He is also invited to submit any statement he may care to make regarding the product and his advertising of it. When all available data have been examined and analyzed, the Chief of the Division makes his recommendation to the Commission (through the Director of the Office of Legal Investigations) in the same manner as described with relation to docketed matters.

§ 7.9 *Agreements to cease and desist on stipulated facts.* (a) The Commission maintains a Division of Stipulations consisting of a Director, Assistant Director, and staff of attorney conferees.

(b) Whenever the Commission has reason to believe that any person has been or is using unfair methods of competition or unfair or deceptive acts or practices in commerce, and that the interest of the public will be served by so doing, it may withhold the issuance of a formal complaint and extend an opportunity to execute a stipulation satisfactory to the Commission, in which the proposed respondent, after admitting the material facts, agrees to cease and desist from, and not to resume such unfair methods of competition or unfair or deceptive acts or practices. It is not the policy of the Commission thus to dispose of matters involving intent to defraud or mislead; false advertisement of food, drugs, devices, or cosmetics which are inherently dangerous or where injury is probable; suppression or restraint of competition through conspiracy or monopolistic practices; violations of the Clayton Act; violations of the Wool Products Labeling Act of 1939 or the rules promulgated thereunder; or where the Commission is of the opinion that such procedure will not be effective in preventing continued use of the unlawful method, act, or practice. The Commission reserves the right in all cases, for any reasons which it regards as sufficient, to withhold this privilege. Stipulations after acceptance by the Commission are matters of public record. When a case is referred to the Division of Stipulations, that Division gives the proposed respondent notice of such reference, together with a statement of the alleged illegal acts, practices, or methods, and requests a reply within a specified period of time.

(c) The proposed respondent may reply by correspondence or upon his request, may confer with the Director of the Division of Stipulations, or with a designated attorney conferee either in person or through his authorized representative.

(d) If the proposed respondent enters into a satisfactory stipulation to cease and desist from such practices as the Director of the Division of Stipulations deems in accord with the Commission's direction, and to have been sufficiently substantiated by the investigational records and reports, or by the admissions of the proposed respondent, said stipulation is submitted to the Commission for its approval. In the event of failure of the proposed respondent to sign a satisfactory stipulation covering the charges which the Director considers to have been so substantiated, the Director then reports the matter to the Commission with recommendation as to what action is required in the public interest. He may recommend formal complaint or closing of the matter in whole or in part without prejudice to the right of the Commission to reopen the same at a later date, or other appropriate action.

§ 7.10 *Procedure upon formal complaints and before the courts.* (a) When the issuance of a formal complaint is directed by the Commission, the matter is referred to the Office of Chief Trial Counsel for preparation of the complaint, and proceedings thereunder. The complaint names the respondent or respondents, alleges a violation or violations of law, and contains a statement of the charges. The proceedings are carried forward thereafter in conformity with the rules of practice.

(b) Should an order to cease and desist be issued by the Commission under the Federal Trade Commission Act or the Wool Products Labeling Act, the order becomes final sixty days after date of service upon the respondent, unless within that period the respondent petitions an appropriate United States Circuit Court of Appeals to review the order. In case of review, the Circuit Court enters a decree affirming, modifying, or setting aside the order of the Commission and enforcing the same to the extent that such order is affirmed. Final orders in such cases are enforceable by civil penalty suits, instituted by the Attorney General. Under the Clayton Act, however, an order to cease and desist does not become final by lapse of time. The order must be affirmed by the United States Circuit Court of Appeals on application for review by the respondent or upon petition of the Commission. After affirmation, appropriate proceedings may be brought for violation of the Court's decree.

(c) The function of preparing, trying, briefing and arguing complaints in litigated cases is a prosecuting function which is performed by a staff of attorneys who work under the supervision of the Chief Trial Counsel and three Assistant Chief Trial Counsel. Neither they nor any of the attorneys performing such function in a particular case or in a factually related one participate or advise in the decision of such case except under the same conditions that are applicable to attorneys representing the respondent therein and which conditions are set forth in the Commission's published rules of practice.

(d) The function of handling the Commission's cases which are reviewed by the courts after decision by the Commission is performed by the General Counsel, an Associate General Counsel and an Assistant General Counsel, with the necessary assisting attorneys. The Office of the General Counsel under supervision of an Assistant General Counsel administers trade mark, compliance and enforcement matters as hereinafter set out. The General Counsel also acts as the principal legal adviser to the Commission on the applicable law, precedent or policy in a wide variety of matters.

§ 7.11 *Hearings on formal complaints.* (a) When, after the issuance of formal complaint, issues are joined, the matter comes under the Commission's trial procedure, which is implemented through the Trial Examiner's Division, consisting of the Chief Trial Examiner, an Assistant Chief Trial Examiner, and a staff of trial examiners. The Chief Trial Examiner acts as the administrative head and chief law officer of the Division. He

exercises supervision over the forms of reports and coordinates methods of compliance by the trial examiners with the rules of practice.

(b) In so far as practicable, trial examiners are assigned in rotation to cases by the Commission on recommendation of the Chief Trial Examiner. The trial examiner thus designated proceeds to convene hearings for the reception of relevant evidence on the issues. A Commissioner may be assigned to this duty.

(c) Hearings are held in such parts of the country as may be necessary with due regard for the convenience of the parties and witnesses. All proper parties may be represented by counsel and all fundamental rights such as cross-examination of witnesses, adduction of evidence, objections, exceptions, motions, appeals, and the submission of briefs and oral argument are preserved to the respondents.

(d) After the evidence is concluded in a case and parties have been duly heard and their contentions considered, the Trial Examiner makes and files a recommended decision which includes a statement of (1) findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the record, and (2) an appropriate order. The Trial Examiner's recommended decision becomes a part of the record and a copy thereof is served on each party who may then file exceptions thereto and present substitute conclusions and form of order.

(e) The Commission, after considering the entire record, including the recommended decision of the trial examiner and the exceptions thereto, resolves all questions of fact by what it deems to be the greater weight of the evidence thereon, and makes its decision stating the reasons or basis therefor and enters an appropriate order. Wherever it decides that an order to cease and desist should be entered, the Commission also makes a report in writing stating its findings as to the facts.

§ 7.12 *Compliance and enforcement.* (a) Reports of compliance with orders to cease and desist are required in accordance with the provisions of § 2.26 of the rules of practice. The Commission may by order require such supplemental reports of compliance as it considers warranted. Reports of compliance must consist of a full statement showing the manner and form in which the order has been complied with. Mere statements that the respondent is not violating the order are not acceptable. A factual showing is required sufficient to enable the Commission to appraise the manner and form of compliance.

(b) After an order to cease and desist issued by the Commission pursuant to the Federal Trade Commission Act has become final as provided for under section 5 of that act, and the Commission has reason to believe that a respondent has violated such order, it shall certify the facts concerning the violation to the Attorney General, who may institute a suit in one of the District Courts of the United States for the recovery of civil penalties as provided in the act. In proceedings under the Federal Trade Commission Act, where a Circuit Court of Appeals of the United States has by decree commanded obedience to the Commission's order, enforcement may be accomplished by way of contempt proceedings in the Circuit court. With respect to orders under the various provisions of the Clayton Act, enforcement must be accomplished by way of contempt proceedings.

(c) Matters relating to reports of compliance with, and violation of, or enforcement of Commission orders are handled in the Office of Compliance, which is a part of the Office of the General Counsel, under the supervision of an Assistant General Counsel, except that the Appellate Division of the Office of the General Counsel handles appearances in the Circuit Courts in enforcement proceedings by way of contempt.

(d) Matters relating to reports of compliance with voluntary agreements to cease and desist (stipulations) are handled in the Division of Stipulations.

§ 7.13 *Trade mark procedure.* (a) The Trade Mark Act of 1946 authorizes the Commission to institute proceedings before the Commissioner of Patents in certain circumstances for cancellation of the registration of marks which do not conform to the requirements enumerated in the act. The functions delegated to the Commission by this act are administered in and prosecuted by the Office of the General Counsel through the Trade Mark Division.

(b) Applications to the Commission for the institution of proceedings for the cancellation of registration of trade, service, or certification marks should be in writing, signed by or in behalf of the applicant, and should contain a short and simple statement of the facts constituting the alleged basis for cancellation, the name and address of the applicant and the party complained of, together with all relevant and available information. No forms or formal procedure are required in making such an application. Such investigation as is required to secure the facts necessary for determining whether cancellation proceedings should be instituted will be made in appropriate cases.

(c) Application from members of the public and Governmental agencies seeking the intervention of the Commission under this act, and the results of any investigation made, are referred to the Office of the General Counsel, Trade Mark Division, for consideration and report to the Commission, with recommendation. If, after consideration of the matter, the Commission concludes that it should apply for cancellation of the mark as provided in the act, it directs the Office of the General Counsel, Trade Mark Division, to institute proceedings for cancellation of the registration.

(d) Proceedings instituted by the Commission for cancellation of registration before the Commissioner of Patents are subject to the rules and regulations of that agency.

§ 7.14 *Administration of Export Trade Act.* (a) The Export Trade Act is administered in the Export Trade Office, under the general direction of the Chief Trial Counsel. The Export Trade Act authorizes the organization and operation of export trade associations and extends to them certain limited exemptions from the antitrust laws. Such associations must be entered into for the sole purpose of engaging in export trade and must be actually so engaged and are prohibited from restraining the trade of a domestic competitor, from artificially or intentionally enhancing or depressing prices in this country, or substantially lessening competition or otherwise restraining trade within the United States.

(b) Under section 5 of the act, any association organized under the act is required to file with the Commission within thirty days, copies of organizational papers and thereafter to make annual reports, listing its members or stockholders, and such special reports as the Commission may require concerning the organization, business, conduct, practices, management, and relation to other associations, corporations, and individuals. No particular forms for reporting are required, but for the convenience of parties interested, forms of a first report and of the annual report currently used, are available on request. All reports must be verified. Such information is examined and analyzed by the Director of the Export Trade Office, who reports thereon to the Commission.

(c) If the Commission has reason to believe that an association has violated the antitrust laws, it conducts an investigation and if it concludes that the law has been violated, it makes to such association recommendations for the readjustment of its business in order that it may thereafter conduct its business in accordance with law. Any such investigation is conducted by the Director of the Export Trade Office, who reports to the Commission thereon, with recommendations as to any necessary readjustment of the association's business.

(d) The procedure followed in such investigations is in accordance with that for investigational hearings in § 2.3 of the rules of practice.

(e) The Assistaint Chief Trial Counsel for Export Trade matters examines and analyzes the evidence and reports thereon with his recommendation.

§ 7.15 *Administration of the Wool Products Labeling Act.* (a) The general administration of the Wool Products Labeling Act and of the rules and regulations issued thereunder is carried out at the direction of the Commission by the Director of Trade and Practice Conferences and Wool Act Administration. Rules and regulations including forms have been issued pursuant to the provisions of the act and were duly published in the FEDERAL REGISTER on July 15, 1941 (16 CFR, 300.1 to 300.36). Any affected person may obtain a copy thereof upon request to the Commission. Amendments of such rules and regulations may be made by the Commission as it deems necessary and proper for the administration and enforcement of the act, either upon its own motion or upon application filed with it by any interested person, in accordance with the rules of practice. Before any amendment is made, opportunity shall be afforded all interested persons to submit data, views and arguments, pursuant to appropriate notice published in the FEDERAL REGISTER.

(b) Among the various duties involved in such administration of the act are the formulation and issuance of rules and regulations or amendments thereto and the holding of such hearings as may be required from time to time; receiving, examining, and recording continuing guarantees for public record under section 9 of the act; acting upon applications for manufacturers' registered identification numbers and issuing or canceling such numbers; supervising and directing field inspection work and the handling of administrative compliance and matters of interpretation.

(c) Manufacturers' registered identification numbers are issued by the Commission under the provisions of (§ 300.4 of this chapter) to manufacturers residing in the United States and producing wool products subject to the act. Any such manufacturer desiring to obtain a registered identification number may file with the Commission an application therefor, such application to be in accordance with the specified form and appropriately executed and notarized. Numbers are issued when, upon examination of the application and related facts, the applicant is found to come within the terms of the rules and regulations and entitled to use such a registered identification number, the same being subject to revocation for cause or upon the applicant's discontinuance of the manufacture of wool products subject to the act.

(d) Continuing guarantees against misbranding as defined in the act may be filed with the Commission under section 9 thereof and when found to be in due form and substance as prescribed in the rules and regulations are recorded and held open to public inspection. They are renewable annually and at such other times as any change is made in the ownership or management of the guarantor. Necessary blanks may be obtained upon request.

(e) Through field inspection work wool products subject to the act as marketed by manufacturers, distributors, and dealers, are examined to ascertain whether they are properly labeled under the requirements and to effect administrative compliance in instances of alleged violation. Inspection likewise covers manufacturers' records. Administrative action to effect correction of infractions through voluntary cooperation is also taken under supervision of the Director in specific cases in which such means of correction are found adequate to effect immediate compliance and protect the public interest. If not so found, the matter may be referred to the Commission for further action. Thereafter, the statutory processes specified in the Federal Trade Commission Act may be ordered by the Commission or it may pursue such other remedial processes as are authorized in the Wool Products Labeling Act. Insofar as applicable, the practice and procedure in cases arising under the Wool Act will be as provided in cases arising under the Federal Trade Commission Act.

§ 7.16 *Trade practice conference proceedings.* (a) Rules for the elimination and prevention of unfair trade practices on an industry-wide basis are established by the Commission under the trade practice conference procedure, the requirements for which are contained in the Commission's published rules of practice. This procedure permits of the organization and utilization of cooperative effort among members of an industry for elevating the standards of business ethics and preventing unfair methods of competition, monopolistic restraint, and other trade abuses that are contrary to the laws administered by the Commission.

(b) The work is carried out by the Commission through the staff of the Office of Trade Practice Conferences and Wool Act Administration, which is under the supervision of a Director who is principal adviser to the Commission in such matters, an Associate Director, and three Assistant Directors.

(c) Proceedings for establishment of such rules for an industry may be instituted on the Commission's own motion or upon application from members of the industry. In pursuance thereof, a survey and study of the competitive problems of the industry is made and the results reported to the Commission with recommendation as to whether an industry conference should be called or other appropriate action taken. Upon direction of the Commission that a conference be held, a public announcement is made as to the time and place and all members of the industry are invited to attend and participate. The conference considers proposed rules submitted by members of the industry and those deemed necessary or desirable. These are studied and analyzed and report thereon is made to the Commission by the Director, together with his recommendations. Thereafter, proposed rules in the form deemed appropriate are released to the members of the industry and the public. Notice of hearing is issued to all interested or affected parties under which they are afforded opportunity to obtain copies of the proposed rules and to submit their suggestions, objections, and views, and also to be heard at a time and place designated in such public notice. All such hearings and trade practice conferences are open to the public and are conducted by a Commissioner or the Director or other designated official of the Office.

(d) After final hearing the entire proceedings, including the hearing record and other information submitted and bearing on the subject, are considered and reported by the Director to the Commission with his recommendations. Thereupon the entire matter receives the consideration of the Commission and all rules approved and accepted by it are promulgated and published in the FEDERAL REGISTER as rules for the industry. Copies of the rules are supplied to members of the industry, together with a form of acceptance by which each member of the industry may record his intention of observing the rules of the conduct of his business. Approved and accepted rules become operative thirty days after promulgation unless otherwise specified.

(e) Administration of the rules and compliance work in respect thereto are likewise handled through this office. Information is gathered from time to time as to operation of the rules and cooperative liaison with the industry is maintained to prevent, in accordance with the purposes of the rules, the inception or growth of unfair trade practices.

§ 7.17 *General economic surveys and reports.* (a) Under section 6 of its organic act, the Federal Trade Commission has broad powers to ascertain the facts with respect to the organization, business, conduct, practices, and management of any corporation subject to its jurisdiction, and the relations of any such corporation to other corporations and to individuals, associations, and partnerships. The Commission has power under this section to require such corporations to file with it annual or special and both annual and special reports or answers in writing to specific questions, furnishing to the Commission such information as it may require respecting the business, conduct, practices, management, etc., of any such corporation and its relation to other business enterprises. These functions of the Commission are performed by its Division of Accounts, Statistics, and Economic Reports.

(b) The administration of this Division is conducted by a Director who is also the Chief Economist, and by a Chief Accountant and Chief Statistician who are Assistant Directors of the Division. The Commission on its own initiative or upon the application of the Attorney General, may direct this Division, whenever a final decree has been entered against any defendant corporation under the Antitrust Acts, to ascertain and report the economic effects of such decree and the manner in which it is being carried out.

(c) The purposes of these general economic surveys are to ascertain and report the facts to the President or to the Congress concerning general economic conditions, the state of competition and the degree of concentration in a given industry, together with suggestions for remedial legislation. Such general economic surveys are made in response to the request of the President, at the direction of the Congress, or upon the initiative of the Commission.

(d) In the past, the economic and business facts developed by the Commission have contributed to the adoption of much remedial legislation, including the Stock Yards Act, the Securities Act, the Exchange Act, the Holding Company Act, the Revised Federal Power Commission Act, the Natural Gas Act, etc. In other cases, certain industries have voluntarily made changes in the conduct of their business following disclosures of uneconomic and harmful competitive trade practices.

(e) This division also furnishes general economic information, including industry-wide costs of production and of distribution and makes special reports to the Commission for submission to the President, the Congress, and to various government departments and agencies. The personnel of the division includes accountants, economists and statisticians, and as a regular part of its work,

members of its staff may be called upon to act as expert witnesses, to advise and consult with the Commission's attorneys, and to prepare accounting, economic, and statistical analyses in connection with legal cases. This is particularly true with respect to basing point and Robinson-Patman cases. The latter cases involve accounting and statistical problems particularly where differences in costs are used as a justification for price differences.

Promulgated as of this date in pursuance of the action of the Federal Trade Commission under date of July 16, 1947, and August 6, 1947, effective on date of publication thereof in the FEDERAL REGISTER.

By direction of the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED HOUSING [1]

Amendment 1 to the Controlled Housing Rent Regulation. Controlled Housing Rent Regulation (§ 825.1) is amended in the following respects:

1. Section 1, *Definitions and scope of this regulation*, paragraph (12), headed "Ho'el" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Accommodations in hotels, motor courts and tourist homes.* (i) Housing accommodations in a hotel (See definition of hotel in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy services; (ii) housing accommodations in motor courts; and (iii) housing accommodations in any tourist home serving transient guests, exclusively: *Provided, however,* That all such housing accommodations except housing accommodations in motor courts referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such accommodations on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after such date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (8) is amended to read as follows:

(8) *Accommodations first offered for rent.* (i) Housing accommodations, the construction of which was completed on or after February 1, 1947, or which are additional housing accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; (ii) Housing accommodations which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented (other than to members of the immediate family of the occupant) as housing accommodations: *Provided,* That all housing accommodations referred to in this paragraph (8) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: and *Provided further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (8) the time at which construction of housing accommodations shall be deemed to be "completed" shall be the date on which the dwelling is first suitable for occupancy and all utility and service connections have been made, except for the installation of such items and the completion of such decoration work as, in accordance with the custom of the community, are left for installation by, or to the choice of, the purchaser or the tenant.

For the purposes of this paragraph (8) the word "conversion" means (1) a change in a structure from a non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 2 (c) (8) is amended to read as follows:

(8) Notwithstanding the preceding provisions of this paragraph (c), any landlord may demand, receive and retain as a security deposit, the rent for the last rental period of the term, not exceeding one month, where a newly constructed housing accommodation is, or was, rented and occupied for the first time after March 25, 1947, fully furnished, under a written lease, or where such newly constructed housing accommodation was rented and occupied for the first time on or prior to March 25, 1947, fully furnished, under a written lease, and was constructed with a priority rating or under specific authorization by the United States or any agency thereof for which the rent was approved by the United States or any agency thereof and the entire project covered by the single priority application of which the housing accommodation was a part was not completed until after March 25, 1947.

5. The third unnumbered paragraph of section 5 is amended to read as follows:

In all other cases except those under paragraphs (a) (7), (a) (12), (a) (13), (a) (14), (a) (15), (c) (6), and (c) (8) of this section, the adjustment shall be on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided,* That in cases under paragraphs (a) (6) and (c) (5) of this section, the adjustment may be on the basis of the rental agreement in force on the date determining the maximum rent: *Provided, further,* That in cases under sections 5 (a) (3) and 5 (c) (3) involving an increase or decrease in living space, the adjustment shall be either the amount the Expediter finds would have been on the maximum rent date the difference in the rental value of the housing accommodations by reason of such change or on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date, whichever is higher: *And provided, further,* That in cases under section 5 (i) the adjustment shall be in the amount necessary to correct the error.

6. Section 5 is amended by adding the following subsection:

(i) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947, was established by an order issued under the rent regulations issued pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall become effective this 8th day of August 1947.

Issued this 8th day of August 1947.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED HOUSING FOR NEW YORK CITY DEFENSE-RENTAL AREA [1]

Amendment 1 to Controlled Housing Rent Regulation for New York City Defense-Rental Area. The Controlled Housing Rent Regulation for New York City Defense-Rental Area (§ 825.2) is amended in the following respects:

1. Section 1 *Definitions and scope of this regulation*, paragraph (12) headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Accommodations in hotels, motor courts and tourist homes.* (i) Housing accommodations in any establishment which is commonly known as a hotel (See definition of hotel in section 1) in the community in which it is located, which are occupied by persons who are provided hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service; (ii) housing accommodations in motor courts; and (iii) housing accommodations in any tourist home serving transient guests, exclusively: *Provided, however,* That all such housing accommodations, except housing accommodations in motor courts, referred to in this paragraph shall be subject to this regulation unless the landlord files in the area office an application for decontrol of such accommodations on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after such date of first renting, whichever is the later: and *Provided, further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (8) the time at which construction of housing accommodations shall be deemed to be "completed" shall be the date on which the dwelling is first suitable for occupancy and all utility and service connections have been made, except for the installation of such items and the completion of such decoration work as, in accordance with the custom of the community, are left for installation by, or to the choice of, the purchaser or the tenant.

For the purposes of this paragraph (8) the word "conversion" means (1) a change in a structure from a non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 2 (c) (8) is amended to read as follows:

(8) "Notwithstanding the preceding provisions of this paragraph (c), any landlord may demand, receive, and retain as a security deposit the rent for the last rental period of the term, not exceeding one month, where a newly constructed housing accommodation is, or was, rented and occupied for the first time after March 25, 1947, fully furnished, under a written lease, or where such newly constructed housing accommodation was rented and occupied for the first time on or prior to March 25, 1947, fully furnished, under a written lease, and was constructed with a priority rating or under specific authorization by the United States or any agency thereof and the entire project covered by the single priority application of which the housing accommodation was a part was not completed until after March 25, 1947."

5. The 3rd unnumbered paragraph of Section 5 is amended to read as follows:

"In all other cases except those under paragraphs (a) (7), (a) (12), (a) (13), (a) (14), (a) (15), (c) (6), (c) (8) and (c) (9) of this section, the adjustment shall be on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided,* That in cases under paragraphs (a) (6) and (c) (5) of this section, the adjustment may be on the basis of the rental agreement in force on the date determining the maximum rent: *Provided, further,* That in cases under sections 5 (a) (3) and 5 (c) (3) involving an increase or decrease in living space, the adjustment shall be either the amount the Expediter finds would have been on the maximum rent date the difference in the rental value of the housing accommodations by reason of such change or on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date, whichever is higher, and *Provided, further,* that in cases under Section 5 (i) the adjustment shall be in the amount necessary to correct the error."

6. Section 5 is amended by adding the following subsection:

(i) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947 was established by an order issued under the rent regulations issued pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall be effective August 8, 1947.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED HOUSING FOR THE MIAMI DEFENSE-RENTAL AREA [1]

Amendment 1 to the Controlled Housing Rent Regulation for the Miami Defense-Rental Area. The Controlled Housing Rent Regulation for the Miami Defense-Rental Area (§ 825.3) is amended in the following respects:

1. Section 1 *Definitions and scope of this regulation*, paragraph (12), headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

[1] 12 F. R. 4374.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Accommodations in hotels, motor courts and tourist homes.* (i) Housing accommodations in a hotel (See definition of hotel in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linens, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service; (ii) housing accommodations in motor courts; and (iii) housing accommodations in any tourist home serving transient guests, exclusively: *Provided, however,* That all such housing accommodations, except housing accommodations in motor courts, referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such accommodations on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after such date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (8) is amended to read as follows:

(8) *Accommodations first offered for rent.* (i) Housing accommodations, the construction of which was completed on or after February 1, 1947, or which are additional housing accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; (ii) housing accommodations which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented (other than to members of the immediate family of the occupant) as housing accommodations: *Provided, however,* That all housing accommodations referred to in this paragraph (8) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (8) the time at which construction of housing accommodations shall be deemed to be "completed" shall be the date on which the dwelling is first suitable for occupancy and all utility and service connections have been made, except for the installation of such items and the completion of such decoration work as, in accordance with the custom of the community, are left for installation by, or to the choice of, the purchaser or the tenant.

For the purposes of this paragraph (8) the word "conversion" means (1) a change in a structure from a non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 2 (c) (7) is amended to read as follows:

(7) Notwithstanding the preceding provisions of this paragraph (c), any landlord may demand, receive and retain as a security deposit, the rent for the last rental period of the term, not exceeding one month, where a newly constructed housing accommodation is, or was, rented and occupied for the first time after March 25, 1947, fully furnished, under a written lease, or where such newly constructed housing accommodation was rented and occupied for the first time on or prior to March 25, 1947, fully furnished, under a written lease, and was constructed with a priority rating or under specific authorization by the United States or any agency thereof for which the rent was approved by the United States or any agency thereof and the entire project covered by the single priority application of which the housing accommodation was a part was not completed until after March 25, 1947.

5. Section 5 is amended by adding the following paragraph to the unnumbered paragraphs:

In cases under paragraph (j) of this section the adjustment shall be in the amount necessary to correct the error.

6. Section 5 is amended by adding the following subsection:

(j) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947 was established by an order issued under the rent regulations issued pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED HOUSING FOR ATLANTIC COUNTY DEFENSE-RENTAL AREA [1]

Amendment 1 to the Controlled Housing Rent Regulation for Atlantic County Defense-Rental Area. The Controlled Housing Rent Regulation for Atlantic County Defense-Rental Area (§ 825.4) is amended in the following respects:

1. Section 1 *Definitions and scope of this regulation*, paragraph (12), headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Accommodations in hotels, motor courts, and tourist homes.* (i) Housing accommodations in a hotel (see definition of hotel in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service; (ii) housing accommodations in motor courts; and (iii) housing accommodations in any tourist home serving transient guests, exclusively: *Provided, however,* That all such housing accommodations, except housing accommodations in motor courts, referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such accommodations on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after such date of first renting, whichever is the later: *And provided further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (8) is amended to read as follows:

(8) *Accommodations first offered for rent.* (i) Housing accommodations, the construction of which was completed on or after February 1, 1947, or which are additional housing accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right

[1] 12 F. R. 4381.

to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; (ii) Housing accommodations which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented (other than to members of the immediate family of the occupant) as housing accommodations: *Provided, however,* That all housing accommodations referred to in this paragraph (8) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: and *Provided further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (8) the time at which construction of housing accommodations shall be deemed to be "completed" shall be the date on which the dwelling is first suitable for occupancy and all utility and service connections have been made, except for the installation of such items and the completion of such decoration work as, in accordance with the custom of the community, are left for installation by, or to the choice of, the purchaser or the tenant.

For the purposes of this paragraph (8) the word "conversion" means (1) a change in a structure from a non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 2 (c) (8) is amended to read as follows:

(8) Notwithstanding the preceding provisions of this paragraph (c), any landlord may demand, receive, and retain as a security deposit, the rent for the last rental period of the term, not exceeding one month, where a newly constructed housing accommodation is, or was, rented and occupied for the first time after March 25, 1947, fully furnished, under a written lease, or where such newly constructed housing accommodation was rented and occupied for the first time on or prior to March 25, 1947, fully furnished, under a written lease, and was constructed with a priority rating or under specific authorization by the United States or any agency thereof for which the rent was approved by the United States or any agency thereof and the entire project covered by the single priority application of which the housing accommodation was a part was not completed until after March 25, 1947.

5. The third unnumbered paragraph of section 5 is amended to read as follows:

In all other cases except those under paragraphs (a) (7), (a) (12), (a) (13), (a) (14), (a) (15), (c) (6) and (c) (8) of this section, the adjustment shall be on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided,* That in cases under paragraphs (a) (6) and (c) (5) of this section, the adjustment may be on the basis of the rental agreement in force on the date determining the maximum rent: *Provided further,* That in cases under section 5 (a) (3) and 5 (c) (3) involving an increase or decrease in living space the adjustment shall be either the amount the Expediter finds would have been on the maximum rent date the difference in the rental value of the housing accommodations by reason of such change or on the basis of the rent which the Expediter finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date, whichever is higher: *Provided further,* That in cases under section 5 (i) the adjustment shall be in the amount necessary to correct the error.

6. Section 5 is amended by adding the following subsection (i):

(i) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947, was established by an order issued under the rent regulations issued pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall be effective as of August 8, 1947.

Issued this 8th day of August 1947.

CONTROLLED ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS [1]

Amendment 1 to Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments. The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§ 825.5) is amended in the following respects:

1. In section 1 the fourteenth unnumbered paragraph, headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (8) is amended to read as follows:

(8) *Rooms in hotels, motor courts, tourist homes, and other establishments.* (i) Rooms in a "hotel" (See definition of "hotel" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures and bellboy service; (ii) rooms in any motor court; (iii) rooms in any tourist home serving transient guests, exclusively; (iv) rooms in other establishments (See definition of "other establishments" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy services: *Provided, however,* That all such rooms, except rooms in motor courts, referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such rooms on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such rooms shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (9) is amended to read as follows:

(9) *Newly constructed rooms or converted rooms.* (i) Rooms, the construction of which was completed on or after February 1, 1947, or which are additional accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; or (ii) rooms which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented either as individual rooms or as part of a larger housing accommodations (other than to members of the immediate family of the occupant): *Provided, however,* That all such rooms referred to in this paragraph (9) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the pro-

visions of this regulation until the date on which he files said report.

For the purposes of this paragraph (9) the time at which construction of a room shall be deemed to be "completed" shall be the date on which the room is first suitable for occupancy.

For the purposes of this paragraph (9), the word "conversion" means (1) a change from non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. The third unnumbered paragraph of section 5 is amended by changing the period to a colon at the end of the paragraph and then adding the following: "*Provided, further,* That in cases under section 5 (g) the adjustment shall be in the amount necessary to correct the error."

5. The first paragraph of section 5 (a) (9) is amended to read as follows:

(9) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a decrease in the net income (before interest) of the property for the current year as compared with a prior representative period, due to an unavoidable increase in property taxes or operating costs.

6. The third unnumbered paragraph of section 5 (a) (9) is amended by adding the following subparagraph (vi):

(vi) "Prior representative period" means any period of two consecutive years prior to the "current year" but not beginning before January 1, 1939, which the Expediter finds to be representative of the property's normal operation: *Provided, however,* That where a representative period of two consecutive years is not available the Expediter in his discretion may for the purposes of this section acccept a representative period of not less than one year.

7. Section 5 is amended by adding the following paragraph (g):

(g) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947, was established by an order issued under the rent regulations promulgated pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall be effective this 8th day of August 1947.

Issued this 8th day of August 1947.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS IN NEW YORK CITY DEFENSE-RENTAL AREA [1]

Amendment 1 to Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments in New York City Defense-Rental Area. The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments in New York City Defense-Rental Area (§ 825.6) is amended in the following respects:

1. In section 1 the fourteenth unnumbered paragraph, headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services, including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (8) is amended to read as follows:

(8) *Rooms in hotels, motor courts, tourist homes, and other establishments.* (i) Rooms in a "hotel" (See definition of "hotel" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures and bellboy service; (ii) Rooms in any motor court; (iii) Rooms in any tourist home serving transient guests, exclusively; (iv) Rooms in other establishments (See definition "other establishments" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy services: *Provided, however,* That all such rooms except rooms in motor courts referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such rooms on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such rooms shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (9) is amended to read as follows:

(9) *Newly Constructed rooms or converted rooms.* (i) Rooms, the construction of which was completed on or after February 1, 1947, or which are additional accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; or (ii) rooms which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented either as individual rooms or as part of a larger housing accommodation (other than to members of the immediate family of the occupant): *Provided, however,* That all such rooms referred to in this paragraph (9) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (9) the time at which construction of a room shall be deemed to be "completed" shall be the date on which the room is first suitable for occupancy.

For the purpose of this paragraph (9), the word "conversion" means (1) a change from non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 5, the third unnumbered paragraph, is amended by changing the period to a colon at the end of the paragraph and then adding the following: *Provided, further,* That in cases under section 5 (g) the adjustment shall be in the amount necessary to correct the error.

5. Section 5 (a) (9), first paragraph, is amended to read as follows:

(9) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a decrease in the net income (before interest) of the property for the current year as compared with a prior representative period, due to an unavoidable increase in property taxes or operating costs.

6. Section 5 (a) (9), the third unnumbered paragraph, is amended by adding the following subparagraph (vi):

(vi) "Prior representative period" means any period of two consecutive years prior to the "current year" but not beginning before January 1, 1939 which the Expediter finds to be representative of the property's normal operation: *Provided, however,* That where a representative period of two consecutive years is not available the Expediter in his discretion may for the purposes of this section accept a representative period of not less than one year.

7. Section 5 is amended by adding the following paragraph (g):

(g) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947 was established by an order issued under the rent regulations promulgated pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall be effective August 8, 1947.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

CONTROLLED ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS IN MIAMI DEFENSE-RENTAL AREA [1]

Amendment 1 to Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments in Miami Defense-Rental Area. The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments in Miami Defense-Rental Area (§ 825.7) is amended in the following respects:

1. In section 1, the 14th unnumbered paragraph, headed "Hotel" is amended to read as follows:

"Hotel" means any establishment which is commonly known as a hotel in the community in which it is located and which provides customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy service.

2. Section 1 (b) (8) is amended to read as follows:

(8) *Rooms in hotels, motor courts, tourist homes, and other establishments.* (i) Rooms in a "hotel" (See definition of "hotel" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures and bellboy service; (ii) Rooms in any motor court; (iii) Rooms in any tourist home serving transient guests, exclusively; (iv) Rooms in other establishments (See definition "other establishments" in section 1) which are occupied by persons who are provided customary hotel services including maid service, furnishing and laundering of linen, telephone and secretarial or desk service, use and upkeep of furniture and fixtures, and bellboy services; *Provided, however,* That all such rooms, except rooms in motor courts, referred to in this paragraph shall be subject to this regulation unless the landlord files in the area rent office an application for decontrol of such rooms on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later: *And provided, further,* That if a landlord fails to file said application for decontrol within the applicable specified period, such rooms shall be and remain subject to the provisions of this regulation until the date on which he files said application.

3. Section 1 (b) (9) is amended to read as follows:

(9) *Newly constructed rooms or converted rooms.* (i) Rooms, the construction of which was completed on or after February 1, 1947, or which are additional accommodations created by conversion on or after February 1, 1947, *Provided, however,* That maximum rents established under the Veterans' Emergency Housing Act for priority constructed housing accommodations completed on or after February 1, 1947, shall continue in full force and effect if such accommodations are being rented to veterans of World War II or their immediate families who, on June 30, 1947, either (a) occupied such housing accommodations, or (b) had a right to occupy such housing accommodations at any time on or after July 1, 1947, under any agreement whether written or oral; or (ii) rooms which at no time during the period February 1, 1945, to January 31, 1947, both dates inclusive, were rented either as individual rooms or as part of a larger housing accommodation (other than to members of the immediate family of the occupant): *Provided, however,* That all such rooms referred to in this paragraph (9) shall be subject to this regulation unless the landlord files in the area rent office a report of decontrol on a form provided by the Expediter within 60 days after July 1, 1947, or within 30 days after the date of first renting, whichever is the later; and *Provided further,* That if a landlord fails to file said report of decontrol within the applicable specified period, such housing accommodations shall be and remain subject to the provisions of this regulation until the date on which he files said report.

For the purposes of this paragraph (9) the time at which construction of a room shall be deemed to be "completed" shall be the date on which the room is first suitable for occupancy.

For the purposes of this paragraph (9), the word "conversion" means (1) a change from non-housing to a housing use or (2) a structural change in a residential unit or units involving substantial alterations or remodeling and resulting in the creation of additional housing accommodations.

4. Section 5, the third unnumbered paragraph, is amended by changing the period to a colon at the end of the paragraph and then adding the following: *"Provided, further,* That in cases under section 5 (g) the adjustment shall be in the amount necessary to correct the error."

5. Section 5 (a) (9), first paragraph, is amended to read as follows:

(9) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a decrease in the net income (before interest) of the property for the current year as compared with a prior representative period, due to an unavoidable increase in property taxes or operating costs.

6. Section 5 (a) (9), the third unnumbered paragraph, is amended by adding the following subparagraph (vi):

(vi) "Prior representative period" means any period of two consecutive years prior to the "current year" but not beginning before January 1, 1939 which the Expediter finds to be representative of the property's normal operation: *Provided, however,* That where a representative period of two consecutive years is not available the Expediter in his discretion may for the purposes of this section accept a representative period of not less than one year.

7. Section 5 is amended by adding the following paragraph (g):

(g) *Adjustment to correct determinations of maximum rent.* The Expediter at any time on petition of the landlord or on his own initiative may enter an order adjusting the maximum rent where the maximum rent in effect on June 30, 1947 was established by an order issued under the rent regulations promulgated pursuant to the Emergency Price Control Act of 1942, as amended, and such order was based upon an erroneous determination of fact or law.

This amendment shall be effective August 8, 1947.

Appendix—Public Land Orders

[Public Land Order 387]

NEW MEXICO

REVOKING PUBLIC LAND ORDER NO. 9 OF JULY 3, 1942, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT AS PRACTICE BOMBING RANGES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 9 of July 3, 1942, as amended by Executive Order No. 9526 of February 28, 1945, withdrawing the hereinafter-described public lands for the use of the War Department as practice bombing ranges is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 9 shall cease

upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on October 3, 1947.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 3, 1947, to January 2, 1948, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 13, 1947, to October 3, 1947, inclusive, such veterans and persons claiming preference right superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 3, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on January 3, 1948, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 15, 1947, to January 3, 1948, inclusive, and all such applications, together with those presented at 10:00 a. m. on January 3, 1948, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Las Cruces, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Las Cruces, New Mexico.

The lands affected by this order are described as follows:

CALIFORNIA

REVOKING EXECUTIVE ORDER NO. 8865 OF AUGUST 21, 1941, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT FOR COMBAT FIRING RANGES AND MANEUVER PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 8865 of August 21, 1941, as amended by Executive Order No. 9526 of February 28, 1945, withdrawing public lands for the use of the War Department for combat firing ranges and maneuver purposes, which was revoked in part by Public Land Order No. 287 of July 6, 1945, is hereby revoked as to the remaining lands.

The jurisdiction over and use of the lands granted to the War Department by Executive Order No. 8865 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on October 3, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 3, 1947, to January 2, 1948, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 13, 1947, to October 3, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 3, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on January 3, 1948, any of the lands remaining unappropriate shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 15, 1947, to January 3, 1948, inclusive, and all such applications, together with those presented at 10:00 a. m. on January 3, 1948, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Los Angeles, California.

The lands affected by this order are described as follows:

The public lands in the following-described areas:

NEW MEXICO

REVOKING PUBLIC LAND ORDER NO. 21 OF AUGUST 6, 1942, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT AS A PRACTICE BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 21 of August 6, 1942, as amended by Executive Order No. 9526 of February 28, 1945, withdrawing the hereinafter-described public lands for the use of the War Department as a practice bombing range is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 21 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on October 3, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 3, 1947, to January 2, 1948, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 13, 1947, to October 3, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 3, 1947, shall be treated as simultaneously filed.

(c) *Date for nonpreference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on January 3, 1948, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from December 15, 1947, to January 3, 1948, inclusive, and all such applications, together with those presented at 10:00 a. m. on January 3, 1948, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Las Cruces, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Las Cruces, New Mexico.

The lands affected by this order are described as follows:

REVOKING PUBLIC LAND ORDER NO. 266, OF MARCH 16, 1945, WITHDRAWING PUBLIC LANDS FOR USE OF THE NAVY DEPARTMENT AS TARGET RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 266 of March 16, 1945, withdrawing the hereinafter-described public lands for the use of the Navy Department as a target range, is hereby revoked.

The jurisdiction over and use of such lands granted to the Navy Department by Public Land Order No. 266 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on October 6, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from October 6, 1947, to January 5, 1948, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from September 17, 1947, to October 6, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on October 6, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on January 6, 1948, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from December 18, 1947, to January 6, 1948, inclusive, and all such applications, together with those presented at 10:00 a. m. on January 6, 1948, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Carson City, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulation are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Carson City, Nevada.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[No. 29670]

PART 95—CAR SERVICE

INCREASED PER DIEM CHARGE ON FREIGHT CARS

Upon investigation, found that effective October 1, 1947, and for a period of six months thereafter, a per diem charge of $2.00 to be paid to the owner for the use of each car (except tank and refrigerator cars), will promote greater efficiency in the use and increase the supply of cars, and that such increased charge will be reasonable.

Report of the Commission. This proceeding, instituted by an order dated December 18, 1946, is an investigation, upon our own motion, to determine whether the establishment of a rate of $2 per day, or other increased rate, to be paid to the owner for the use of each car, during periods of car shortages (except tank and refrigerator cars) by any common carrier would promote greater efficiency in the use and increase the supply of cars; with the view of making findings and the entry of an order or orders, under the authority of the Interstate Commerce Act, particularly paragraph (10), (11), (13), and (14) of section 1 thereof, requiring the establishment of an increased basis and rate of compensation for car-hire during periods of car shortages if it be found that it will promote greater efficiency in the use and increase the supply of cars. All common carriers by railroad subject to the act and all other persons owning or leasing freight cars (except tank and refrigerator cars) to any such carrier were made respondents, and a copy of the order of investigation was served upon the Association of American Railroads, Car Service Division, hereinafter referred to as the Association, as well as upon the carriers. A proposed report was issued and exceptions were orally argued. Our findings differ from those proposed by the examiner.

Evidence was presented by the Director of our Bureau of Service and six service agents; by the Deputy Director of the Office of Defense Transportation; by the Chairman and Vice Chairman of the Car Service Division, in behalf of the Association and rail carrier members of the Association, and by 4 employees of the Association; by the Vice Presidents in charge of Operation, The Pennsylvania Railroad Company, hereinafter called the Pennsylvania, and Union Pacific Railroad Company; by the General Merchandise Manager, The New York, New Haven and Hartford Railroad Company, hereinafter called the New Haven; by the General Superintendent of Transportation, Seaboard Air Line Railway Company; by the President of the American Short Line Railroad Association; and by the Chief of the Transportation Facilities Division, Marketing Facilities Branch, Production and Marketing Administration, United States Department of Agriculture.

Counsel for the Association moved to dismiss the proceeding for lack of jurisdiction upon the ground that the Interstate Commerce Act does not authorize the Commission to prescribe a per diem charge which contains any element of penalty. Section 1 (14) (a) of the Interstate Commerce Act reads as follows:

> The Commission may, after hearing, on a complaint or upon its own initiative without complaint, establish reasonable rules, regulations, and practices with respect to car service by common carriers by railroad subject to this part, including the compensation to be paid and other terms of any contract, agreement, or arrangement for the use of any locomotive, car, or other vehicle not owned by the carrier using it (and whether or not owned by another carrier), and the penalties or other sanctions for nonobservance of such rules, regulations, or practices.

The Association emphasizes the word "compensation" and argues that the Commission's authority is limited to the terms of compensation for the use of cars and does not embrace a per diem charge which has any element of penalty. The compensation to be paid is merely incidental to and a part of the reasonble

rules, regulations, and practices with respect to car service which the Commission is authorized to prescribe, and the statute expressly provides for penalties and sanctions for nonobservance of these rules. Furthermore in determing reasonable "compensation" we may consider loss of profits, as well as the cost of ownership.

In Chicago, R. I. & P. Ry. Co. v. United States, 284 U. S. 80, the Supreme Court sustained our order in rules for car-hire settlement, 160 I. C. C. 309, 165 I. C. C. 495, except as to paragraph 5 of the order. Justice Stone in a dissenting opinion (concurred in by Justices Holmes and Brandeis) made the following statement: (pages 108–9)

> The very language of the Esch Car Service Act, authorizing the Commission to establish "rules, regulations and practices with respect to car service * * * including the compensation to be paid," treats car-hire as one form of regulation of the service. It is but a recognition of the historic fact that the car-hire charge may serve to penalize the unnecessary detention of cars and thus to regulate car movement, one of the considerations which led to the substitution of the per diem charge for the mileage system of car-hire payments. In this respect it is analogous to demurrage, in which the penalty element of the money payment imposed is emphasized over the element of compensation. It is for this reason, among others, that the Commission has generally refused to consider car-hire costs in fixing divisions, and in this case the Commission found that divisions had not customarily been adjusted with relation to such costs.
>
> That the per diem charge in its aspect as a penalty was an important element in the determination of the Commission, appears from its opinion and order. As the two days' free time allowance applies only to those cars which the short line receives from and returned to the line carrier, it is in practical effect limited to those cars with respect to which the short line renders terminal and originating services. Under the national demurrage rules, the terminal lines are compelled to allow to shippers two days' free time for loading and unloading before demurrage attaches. There is nothing in the Fifth Amendment to preclude the Commission, in apportioning car-hire costs, from giving consideration to the operation of the per diem charge as a penalty for the detention of cars and from making some allowance for the fact that the terminal carrier is in turn required to allow to shippers time free of demurrage charges.

We believe the statute contemplates that a per diem charge for the use of freight cars may be used as an instrument of regulation to control the prompt movement and return of cars. Furthermore in times of car shortage reasonable compensation for the use of a car may be greater than in periods of car surplusage. The motion to dismiss is overruled.

Responsive to a circular issued by the Director of our Bureau of Service, dated April 14, 1947, investigations with respect to car delays were made by our service agents at numerous representative points throughout the country up to approximately May 12, 1947. As the result of those investigations, 259 reports were prepared and forwarded to the Bureau of Service. Data compiled from those reports were utilized in the preparation of an exhibit which was received in evidence. The exhibit indicates that cars have been delayed by the carriers for various reasons for periods ranging from 1 to 224 car-days. Representatives of the Association examined about 80 percent of the report and criticised 54 of those examined. Their testimony showed circumstances indicating that some of the delays reported were unavoidable. However, many of the delays reported could not be explained. The 54 reports criticised constitute only about 20.8 percent of the 259 reports comprising the exhibit. The exhibit does not purport to cover all the cars that were in terminals at the time checks were made. Our service agents investigate car delays in the ordinary course of their duties. The delays indicated in these special reports are similar in character to those found by our service agents to exist during 1946 and 1947.

Examples of delays shown by the exhibit are as follows: At Boston, Mass., 81 cars were delayed by the New Haven in placing, 14 awaiting movement, 35 in interchange, 30 held loaded with company material, and 35 held for light repairs, the delays ranging from 1 to 19 days. At Weehawken, N. J., 137 cars were delayed by The New York Central Railroad Company from 2 to 33 days awaiting movement. That carrier also held for placing at Buffalo, N. Y., 179 cars from 3 to 12 days. At Chicago, Ill., the Pennsylvania delayed 193 cars in placing, 22 cars in pulling, 32 other delays, and 2 cars for prospective loading. The delays ranged from 3 to 16 days. The Norfolk & Western Railway Company held 28 cars for prospective loading at Hopewell, Va., from 3 to 12 days. At Birmingham, Ala., the Atlantic Coast Line Railroad Company delayed 27 cars in placement, 23 cars in pulling, 70 cars in interchange, and 31 cars were held loaded with company material. These delays ranged from 1 to 9 days. At Orland Park, Ill., 9 cars loaded with company material were held by the Wabash Railway Company from 7 to 17 days. At Decatur, Ill., the Wabash delayed from 2 to 15 days 48 cars in placement, 6 cars in pulling, 7 cars awaiting weighing, and 27 cars loaded with company material. At Fort Worth, Tex., the Texas and New Orleans Railroad Company delayed the interchange of 22 cars from 1 to 9 days. At Spokane, Wash., the Northern Pacific Railway Company held 20 cars for prospective loading and 5 cars loaded with company material from 2 to 10 days. At St. Paul, Minn., The Minnesota Transfer Railway Company delayed from 3 to 7 days 22 cars in placement and 20 cars for prospective loading. At Reith, Oreg., the Union Pacific held 24 cars loaded with company material from 6 to 27 days. At Midland, Calif., The Atchison, Topeka and Santa Fe Railway Company, hereinafter called The Santa Fe, held 68 cars for prospective loading from 3 to 7 days. At Denver, Colo., that carrier held from 1 to 8 days 25 cars for placement, 28 cars for pulling, 22 cars awaiting movement 10 cars for interchange, and 3 cars for prospective loading. At Los Angeles, Calif., the Southern Pacific Company delayed from 2 to 12 days 282 cars for placement and 166 cars for pulling.

Investigation was made in the Detroit, Mich., area with respect to the waiving of per diem on cars used for the transportation of automobiles and automobile parts which disclosed that for the period from July 1 to December 31, 1946, the Pere Marquette Railway Company held per diem free, under the provisions of Car Service Division Circular 163–B, 2,807 cars for a total of 35,567 car-days. During January and February 1947, that carrier held for the same reason 3,626 cars for a total of 45,544 days.

In the Detroit area, representative loading of automobile cars and the number of cars on hand held per diem free during the first 15 days of April 1947 are as follows: April 1, 417 cars were loaded and 1,411 cars were on hand; April 2, 456 cars were loaded and 1,460 cars were on hand; and April 3, 359 cars were loaded and 1,537 were on hand. Automobile cars designated XAP are not suitable for other kinds of freight without dismantling certain interior facilities which are used in the loading of automobiles and parts. Automobile cars designated XAR may be used for the movement of other commodities, such as barrels, cotton, or merchandise, but the loading of grain is not recommended owing to damage to the car caused by nailing grain doors.

From January 30, 1942, to May 19, 1947, we issued 673 service orders of which 354 required the railroads to unload cars. Each order covered from 1 to 182 cars, some of which were requested by the carriers themselves, covering delays ranging from 20 days to 3 months. Under section 4 of the uniform bill of lading, carriers have the right to unload cars after the expiration of free time and the costs are chargeable to the owners of the shipments. If the carriers had exercised their right to unload these cars such cars would have been released sooner and would have been available for loading. Increased demurrage charges have reduced car detention by shippers, as indicated later.

The Association criticizes the showing made as to car delays. It points out that the service agents simply recorded the fact that a given car had remained stationary for a given period of time without undertaking to ascertain the cause of the delay, that is, whether avoidable or unavoidable. The Association further claims that the exhibit, above referred to, which purports to summarize the agents' underlying reports is unreliable in that it fails to disclose relevant facts shown in the reports which reports were not introduced in evidence. In support of this statement numerous examples are given which are the result of a review made by its representatives of about 80 percent of the underlying reports. The following examples of the several given will serve to illustrate the point: The exhibit shows 35 cars held for placement over 48 hours at Lawrence, Mass. The agent's report shows that 1,382 cars were checked in discovering the 35 delayed cars and that 17 of these were Saturday arrivals placed on the following Monday. The exhibit shows that the Missouri Pacific held 80 cars for interchange at Memphis from 1

to 9 days. The agent's report shows that 70 of the 80 cars were delivered in less than 24 hours. The exhibit shows that the Northern Pacific held for placement 29 cars at Fargo, N. Dak., from 2 to 7 days. The agent reported that these cars were held for an average of 2.8 days and explained that heavy snows contributed to the delay.

The Director of the Bureau of Service, the several service agents, and the Deputy Director of the Office of Defense Transportation all testified that in their opinion an increased per diem charge would furnish an incentive to move cars more promptly, increase efficiency in the use of, and increase the supply of cars. The Director of the Bureau of Service suggests the imposition of a charge of $5.50 per car per day, in lieu of the charge of $1.15 (increased to $1.25 effective June 1, 1947), applied in the same manner as the present charge. The service agents are agreed that the present charge is inadequate as an incentive to prompt movement of cars and that a substantial increase therein should be made. One agent suggests a charge of not less than $2, while another suggests the addition of from $1.50 to $2 to the present charge. The Deputy Director of the Office of Defense Transportation would be willing to try $2, but suggests the imposition of a charge sufficiently high to create an incentive to move the cars. The Department of Agriculture suggests a per diem charge of $2.

An agreement known as the "Car Service and Per Diem Agreement" provides car service rules, which are the subject of an investigation in Docket No. 29669, Car service—freight cars, and also provides a Code of Per Diem rules, which relates to the compensation to be paid for the use of cars not owned by the carrier using them. In rules for car-hire settlement, *supra*, we reviewed the history of car-hire agreements and per diem payments for the use of freight cars, and found, among other things, that the per diem charge of $1, which was in effect from November 1, 1920, to January 31, 1945, was just and reasonable. On February 1, 1945, the per diem charge was increased to $1.15 and on June 1, 1947, to $1.25.

There is pending a complaint, as amended, by certain short lines alleging that the per diem rates of $1.15 and $1.25 for the use of freight cars were and are unjust and unreasonable to the extent that they exceeded or exceed 95 cents per car per day, Docket No. 29587, Alabama, Tennessee & Northern Ry. Co., et al. v. Aberdeen & Rockfish R. Co. et al. There is also pending a complaint filed May 22, 1947, as amended, Docket No. 29751, The Atchison, Topeka and Santa Fe Ry. Co. et al. v. Aberdeen and Rockfish R. Co., et al., by The Denver and Rio Grande Western Railroad Company, Great Northern Railway Company, Northern Pacific, Chicago, Burlington & Quincy Railroad Company, hereinafter called the Burlington, Illinois Central Railroad Company, and the Santa Fe, alleging that:

> Defendants' failue to provide their respective railroads with the reasonably adequate supply of freight car facilities required by section 1 (4 and 10–12) of the Transportation Act necessarily has resulted and will continue to result in defendants' appropriation of an essential part of complainants' freight car supply. Such appropriation of complainants' freight cars not only results in shifting defendants' legal burden of car ownership costs to complainants, but it also results in the appropriation of freight cars which form an integral, necessary and essential part of complainants' respective railroad systems, whereby complainants sustain serious damage to the remainder of their respective railroads, during periods of car shortage, in an amount equal to the freight earnings that are lost to them as a direct and proximate result of the appropriation. By reason of these facts and of other facts directly affecting (a) the cost to complainants of ownership of rail plant and property and (b) the value of the use of railroad freight equipment, the present per diem rental of $1.15 is, and for many years prior to the filing of this complaint has been, unjust, unreasonable, inadequate and noncompensatory.
>
> A fully compensatory per diem charge giving proper weight to all of the costs and disabilities of freight car ownership would serve as an incentive to every railroad to provide itself with an ample supply of freight cars and thus tend to assure the provision and maintenance of a car supply fully adequate to national needs at all times and to the avoidance of national car shortages and their attendant evils.
>
> Complainants ask: "that the Commission, by order, prescribe the just, reasonable, and compensatory per diem rental necessary to make complainants and all other railroads owning freight cars in the United States, pecuniarily whole for the appropriation and use of their freight cars in periods of car shortage as well as in periods of car surplusage; and that such other orders be made as the Commission may consider proper in the premises."

The question at issue in the present investigation is whether the establishment of a rate of $2 per car per day, or other increased rate, to be paid to the owner for the use of each freight car, during periods of car shortage (except tank and refrigerator) by any common carrier would promote greater efficiency in the use and increase the supply of cars.

The Association and the individual railroads for which an appearance was made take the position that a sound basis for per diem charges for the use of freight cars should be the cost of ownership, including a return on investment, and that the use of per diem rules for the imposition of a penalty would be unlawful and would necessarily result in great inequity and injustice. Instead of promoting efficiency in the use and supply of cars, respondents contend that the imposition of a penalty per diem charge would actually result in inefficiency in the use of cars and decrease the supply of cars. However, the complaint of the 6 western railroads, Docket No. 29751, shows that these railroads regard the present charge as being less than reasonable.

The Chesapeake and Ohio Railway Company takes the position that the present charge is grossly inadequate, and that it should be increased to a figure that will cover the full cost of ownership and maintenance of freight cars, thereby speeding up their movement and create an incentive for the railroads to purchase more cars. However, it suggests no definite figure, but requests that no increased per diem charge be prescribed in this proceeding.

The present car shortage is the result of post-war demands upon an inadequate and war-depleted car supply. At the time of the hearing in this investigation, May 1947, the shortage, insofar as it applied to box cars, was somewhat less than it had been in the previous months of 1947, but this condition was recognized to be temporary and the shortage of box cars was expected to again become acute as soon as the 1947 grain crop began to move.
